DETAILED PROJECT DESCRIPTION

Please provide a detailed summary of your proposal below. This should include a detailed description of the proposed use and reason for rezoning, how this use is compatible with surrounding land uses and the City's Comprehensive Plan, and any other details relevant to your request. Feel free to attach additional pages, concept plans, etc. as needed.

For PD or CUP requests, please explain why your proposal cannot be accommodated by standard zoning districts, clarify if any waivers are being requested and why, and detail any changes from previously approved site plans or development standards.

The area of request for the zoning change is approximately 20.1 acres at the northwest corner of West Bonds Ranch Road and Blue Mound Road, proposed primarily as a multifamily development. The multifamily development is part of a larger proposed project on roughly 40 acres in total. The overall 40 acre proposed project consists of approximately 10 acres of retail and restaurant uses along West Bonds Ranch and Blue Mound, a 10-acre school site on the northeast corner of the property; and the remainder of property on the northwest corner subject to this zoning request is being proposed as Class A market rate multifamily. The property is currently zoned F, General Commercial. All the proposed uses are permitted under the current zoning, except the multifamily tract which is the subject of this application.

The zoning application for the multifamily tract is being submitted as a Planned Development (PD) district with a primary zoning classification High Density Multifamily ("D") district. A PD is needed to allow for incorporation of potential commercial uses within the multifamily tract along Shire Meadow Drive. The potential commercial uses being requested provide for retail, restaurant, office, and limited commercial uses. These uses may be placed in commercial ready ground floor units within a multifamily building or as standalone uses. Additionally, the commercial uses being requested allow for public memberships to be offered to health and recreation, business center or meeting space amenities constructed as part of the multifamily development. Twenty five percent (25%) of the building frontage that is along Shire Meadow Drive within the Planned Development District will be multifamily buildings with ground floor commercial ready dwelling units and/or buildings with commercial uses.

The overall proposed project's blend of retail, restaurant, commercial, school, and multifamily uses benefit the residents of the surrounding areas and Fort Worth in the following ways:

- Preserves commercial zoning along the portions of Blue Mound and West Bonds Ranch that are most attractive to retail and restaurant tenants.
- Allows for commercial uses along Shire Meadow Drive as the surrounding area continues to develop and grow.
- Addresses a key resident concern related to heavy traffic in the area. The proposed project reduces overall traffic on the overall 40 acre tract from an estimated 13,000 trips per day (if the multifamily and school tracts would be developed under the current General Commercial zoning as a retail shopping center) to an estimated 5,800 trips per day.
- Creates additional needed residential housing using multifamily that works with the current and future adjacent uses:
 - o The property is in close proximity to State Highway 287.
 - o The northern portion of the property being proposed for multifamily is adjacent to Hillshire Drive. Primary uses along Hillshire are a Fort Worth bulk trash collection facility and an animal shelter.
 - o No existing or planned single family homes are immediately adjacent to the proposed multifamily except for one 10-acre lot in Tarrant County. The portion of this property that is adjacent to the proposed multifamily contains a large building that appears from aerial photos to be used for storage of large vehicles.
 - o The multifamily tract has limited visibility to Bonds Ranch and Blue Mound roads.
 - o Open spaces within the multifamily tract will be provide additional public open space.
 - o Enhanced walkability to the proposed project's retail and restaurant uses as well as the retail that is planned immediately to the west and south of the property.

Four waivers to Fort Worth's zoning ordinances are required to provide the parking and visibility needed to make the commercial uses proposed within the multifamily portion of the project viable and enhance the walkability of the overall project. The waivers to Chapter 4 Article 7 Section 4.712 needed are:

- 1) (b) – to allow nonresidential uses
- 2) (d) (2) b. – Parking for non-residential uses
- 3) (d)(4) b. – Fences and gates
- 4) (d)(5)(a) – Building orientation

Specifically, the waiver to (d)(4) b. (fences and gates) is needed along the western boundary of the proposed multifamily (Shire Meadow Drive) to create parking and the visibility needed for the potential commercial uses. The waiver from building orientation is needed along the northern boundary (Hillshire Drive). This waiver also supports parking and visibility for the potential commercial as well as allows for enhanced walkability within the total 40-acre project. As noted above, adjacency along Hillshire Drive is primarily limited to municipal facilities and storage or non-residential uses.

Additionally, a waiver to the requirement for a site plan at the time of zoning approval is being requested. The civil engineering efforts needed to prepare an accurate site plan are in part dependent on determining the uses on the northern half of the property that are the subject of this zoning application. Per the proposed planned development regulations, a site plan will still be required to be approved by the Plan Commission at a later date.
