

GATE CARDS

Gate cards are now required for access to Spinks Airport. Applications can be found on our website, or by clicking this link:

[Gate Card Application](#)

Cards must be picked up in person at 450 Alsbury Fort Worth, TX 76028

Office Hours:

8:00 AM and 4:00 PM
Monday-Friday.

Mind the Gates!

Please remember to stop after passing through a gate, remain physically present, and monitor until the gate fully closes.

The intent is to preclude unauthorized vehicles or pedestrians from gaining access to the movement area. The only time multiple vehicles should pass through a gate is if you are actively escorting someone on the airport.

We're here to help!

Airport users are encouraged to report concerns or ask questions regarding Spinks Airport. [Customer work orders](#) can be accomplished online, or by calling Operations at 817.392.5433

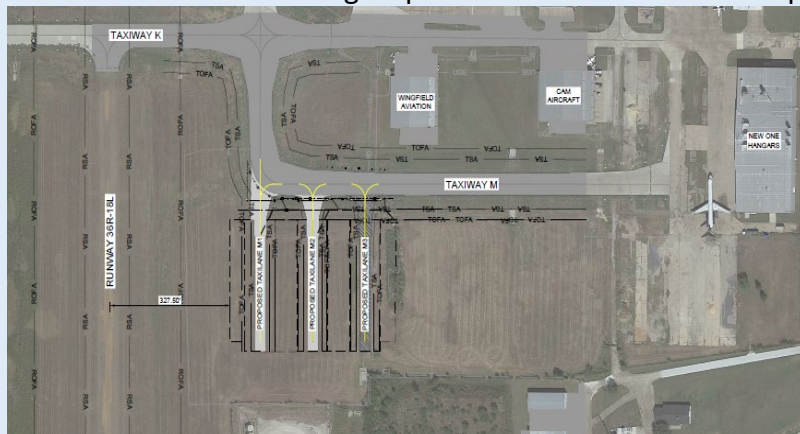

Announcements

Spinks Airport is happy to announce that we are in the beginning stages of updating our Airport Master Plan. The master plan is vital to providing a roadmap for efficiently meeting aviation demand through the foreseeable future while preserving the flexibility necessary to respond to changing industry conditions.

Information outlining this process can be found on the [Master Plan Website](#) including meeting minutes, surveys, and public outreach. Our next Public Information Meeting will be held **Thursday, May 25th at 6:00 PM** in the Spinks Airport conference room located at 450 Alsbury Ct.

COMING SOON!

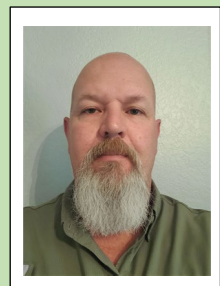

Spinks Airport will be working with our engineers and TxDOT for the implementation of additional taxilanes south of Taxiway M to accommodate additional hangar space on the NE side of the airport.

Meet the Crew

Brandon Renfro, Senior Maintenance Worker Spinks Airport

Brandon is a native Texan and a retired Army Veteran. Brandon joined the City of Fort Worth Aviation team in March of 2021, and has been a valuable asset to our team at Spinks Airport since the beginning. Prior to coming to Spinks, Brandon served in an operations/maintenance roll for Part 139 compliance at San Angelo Airport.

Hangar Usage & Storage

Hangars are to be used exclusively for the storage of an aircraft, tools, and other items needed to maintain the aircraft. However, certain actions are restricted or prohibited by City Code and NFPA Fire Code. The list below are items that are not authorized in hangars and the code that governs each:

- Storage of flammable materials outside of fire cabinets (NFPA 407)
- Painting of aircraft or aircraft parts (NFPA 409)
- Non-aeronautical/ personal storage (No more than 15% of hangar can be used for Non-aeronautical storage)
- Trailers, including watercraft, can be stored inside hangars; however, they cannot impede the ingress and egress of aircraft to that hangar. (City of Fort Worth Code)

If you have questions regarding hangar use, please contact Clinton Tuggle at Clinton.tuggle@fortworthtexas.gov
