PROJECT NAME: Riverside Park
ACTION: Approve Preliminary Design by Ball-Nogues Design Studio for the Riverside Park Public Art Project, to be Located at 501 Oakhurst Scenic Drive, 76111 (Council District 9)

Riverside Park Public Art Project

- On Dec. 14, 2020, the FWAC approved the Project Outline for the Riverside Park public art project
- On May 16, 2022, the FWAC approved the Selection Panel’s recommendation of Ball-Nogues Design Studio
- On July 12, 2022, Ball-Nogues Design Studio was placed under a Preliminary and Final Design Agreement (City Secretary Contract No. 57857)

Preliminary Design

Riverside Park is a heritage site that honors the history of agriculture that once thrived in the Fort Worth region. The grove of pecan trees spread throughout the site is believed to be a remnant from an early farm dating to the time of the City’s founding. The trees now provide a restful, calming space along the Trinity River. This project honors this heritage with a grand-scaled artwork visible throughout the entire park and to drivers on Oakhurst Scenic Drive. The artwork acknowledges the trees by making an abstract representation of their root systems, buried within the soil, visible to park visitors. Depicted on the surface of the path that traverses the park, the artwork is a kind of imaginary x-ray through the ground, showing the intricate pattern of roots beneath it. The artists’ aim is to call upon the cultural and natural histories of the Trinity River site, however, the artwork will also delight the eyes with color and patterns that can be appreciated by all people regardless of their historical knowledge.

Next Steps:

Upon Art Commission approval of the Preliminary Design, the artist will proceed with Final Design per the current contract. Upon approval of Final Design, and authorization by City Council, the artist will be contracted to fabricate and install the artwork.
