

Curious about 3rd dose (booster) shots?

Moderna

Anyone 18+

Pfizer

Anyone 12+

Johnson & Johnson

Anyone 18+

Moderna

28 days after 1st dose

Pfizer

21 days after 1st dose

Johnson & Johnson

No second shot/booster

Moderna

Immunocompromised*
28 days after 2nd dose

Pfizer

Immunocompromised*
28 days after 2nd dose
or
High-Risk*
6 months after 2nd dose
18+

What does it mean to be Immunocompromised or High Risk?

*Immunocompromised (Moderna and Pfizer)

- Been receiving active cancer treatment for tumors or cancers of the blood
- Received an organ transplant and are taking medicine to suppress the immune system
- Received a stem cell transplant within the last 2 years
- Moderate or severe primary immunodeficiency
- Advanced or untreated HIV infection
- Active treatment with high-dose corticosteroids or other drugs that may suppress your immune response

*High-Risk (Pfizer only)

- Any person, ages 65 and older (regardless of health condition)
- Any person, ages 18-64, who is high-risk for severe COVID-19
- Any person, ages 18-64, whose frequent institutional or occupation exposure puts them at high risk of serious complications of COVID-19. This may include nurses and health care workers, teachers, day-care workers, and first-responders.
