Work Description:	We are removing the existing tub and sheetrock around the tub enclosure. We are removing the existing shower along with one shower wall including all sheetrock around that enclosure. Plumbing has already been completed under a Fort Worth City permit by a licensed plumber. In the current tub enclosure we are building a shower (42x60) with tile to the ceiling. In the area that used to house the shower enclosure we are installing a standalone tub and tub filler. Windows are all within 5 feet of the tub so we are replacing all glass with tempered glass per code. The floor will also be tiled at the same time the shower is being tiled. There will be no electrical changes at this time.					Issued : 02/16/2021
