E. ADJOURNMENT:

ASSISTANCE AT THE PUBLIC MEETINGS:
This meeting site is wheelchair accessible. Persons with disabilities who plan to
attend this meeting and who may need accommodations, auxiliary aids, or services such as
interpreters, readers, or large print are requested to contact the City’s ADA
Coordinator at (817) 392-8552 or e-mail ADA@FortWorthTexas.gov at least 48 hours prior to the
meeting so that appropriate arrangements can be made. If the City does not receive notification
at least 48 hours prior to the meeting, the City will make a
reasonable attempt to provide the necessary accommodations.

ASSISTENCIA A REUNIONES PUBLICAS:
Este sitio de reunión es accesible con silla de ruedas. Se solicita a las personas con discapacidades que planean asistir a esta reunión
y que necesitan acomodaciones, ayuda auxiliar o servicios tales como intérpretes, lectores o impresiones con letra grande, que
se comuniquen con el Coordinador de la Asociación Americana de Discapacitados (ADA) de la Ciudad llamando al teléfono (817)
392-8552 o por correo electrónico a ADA@FortWorthTexas.gov por lo menos 48 horas antes de la reunión, de modo que puedan
hacerse los arreglos adecuados. Si la Municipalidad no recibe una notificación por lo menos 48 horas antes de la reunión, ésta hará
un intento razonable para proporcionar las acomodaciones necesarias.

Executive Session.
A closed executive session may be held with respect to any posted agenda item to enable the Commission to receive advice from
legal counsel, pursuant to Texas Government Code, Section 551.071.
Zoning Map Amendment

Case Manager: Sarah Bergman

Owner / Applicant: Fasih Haider / Kohinoor Rahman

Site Location: 1616 & 1620 East Rosedale Street  Acreage: 0.33 acres

Request

Proposed Use: Convenience Store

Request: From: “A-5” One-Family and “E” Neighborhood Commercial

To: “E” Neighborhood Commercial

Recommendation

Land Use Compatibility: Requested change is compatible.

Comprehensive Plan Consistency: Requested change is consistent.

Staff Recommendation: Approval

Table of Contents

   a. Land Use Compatibility
   b. Comprehensive Plan Consistency
6. Area Zoning Map with 300 ft. Notification Area
7. Area Map
8. Future Land Use Map
9. Aerial Photograph
The subject property is located at the southwest corner of East Rosedale Street and South Riverside Drive. The site is currently vacant and is zoned a combination of “A-5” One-Family and “E” Neighborhood Commercial. The applicant is proposing to rezone the entire site to “E” Neighborhood Commercial to allow for development of a new convenience store. There was previously a commercial building on this property, but the structure was removed around 2005 and the site has remained vacant since. This property is located within both the East Rosedale and South Riverside Drive Scenic Corridors and Neighborhood Empowerment Zone (NEZ) Area Six.

Surrounding land uses are primarily residential and therefore any new commercial development of this site will be subject to increased building setback requirements. A 20-foot supplemental building setback will be required along the western and southern property lines, adjacent to one-family zoning, as well as a screening fence and 5-foot landscaped bufferyard. In addition, a projected front yard setback will apply along the front property line adjacent to East Rosedale Street, meaning new buildings cannot be constructed forward of the front build wall of the adjacent homes. Parking areas cannot be located within the projected front yard setback.

This case was originally considered by the Zoning Commission on January 12, 2022. The applicant was not in attendance at this hearing, and the Zoning Commission voted unanimously to recommend denial with prejudice. During the City Council hearing on February 8, 2022, the case was remanded back to Zoning Commission for consideration so that the applicant would have an opportunity to present their request to the Commission. No changes to the proposed zoning or other details of the request have changed since the initial hearing.

Surrounding Zoning and Land Uses

- **North** (across Rosedale Street) “A-5” One-Family / single-family homes
- **East** (across Riverside Drive) “J” Medium Industrial / convenience store
- **South** “E” Neighborhood Commercial / vacant commercial building and “A-5” One-Family / single-family home
- **West** “A-5” One-Family / single-family home

Recent Zoning History

- ZC-08-151: Rezoned 1616 East Rosedale Street from “E” Neighborhood Commercial to “A-5” One-Family as part of a larger City-initiated rezoning
300-foot Legal Notifications were mailed on April 1, 2022.

* This Neighborhood Association is located closest to the subject property

**Development Impact Analysis**

**Land Use Compatibility**

The applicant is proposing to change the zoning of this property from a combination of “A-5” One-Family and “E” Neighborhood Commercial to “E” Neighborhood Commercial in order to allow for development of a new convenience store. Surrounding properties to the west and southwest are zoned “A-5” One-Family and are developed with single-family residences. Property immediately to the south is zoned “E” Neighborhood Commercial and is developed with a commercial structure that appears to be vacant. To the east, across South Riverside Drive, is an industrial-zoned property that is developed with a convenience store and additional vacant land zoned “E” Neighborhood Commercial.

The zoning ordinance includes specific protections for residential properties adjacent to commercial development, including increased setbacks, screening, and landscaping requirements. In addition, both East Rosedale Street and South Riverside Drive are designated as arterial roadways on the Master Thoroughfare Plan, and new single-family development is not encouraged fronting arterial roadways.

The proposed zoning is compatible with surrounding land uses.

**Comprehensive Plan Consistency – Southside**

The 2021 Comprehensive Plan currently designates the subject property as “Neighborhood Commercial” on the Future Land Use Map. The proposed zoning is consistent with the land use designations for this area, and aligns with the following policies of the Comprehensive Plan:

- Stimulate the redevelopment of the Hemphill Street, Berry Street, Evans Avenue, 8th Avenue/Cleburne Road/McCart Avenue, Pennsylvania Avenue, Magnolia Avenue, Rosedale Street, Seminary Drive, and South Riverside Drive commercial districts.
- Promote appropriate infill of old commercial centers (greyfields), and contaminated sites (brownfields) within developed areas, particularly in the central city.

Based on conformance with these policies, the proposed zoning is consistent with the Comprehensive Plan.
Area Zoning Map

Applicant: ANF Investments, LLC
Address: 1616 & 1620 E. Rosedale Street
Zoning From: A-5, E
Zoning To: E
Acres: 0.32773913

</tbody>
</table>

Tract 1 is located on the western edge of the site and contains the intersection of Bonds Ranch Rd and Morris Dido Newark Rd. This tract is currently unzoned and is proposing annexation with the City. The applicant is proposing “A-5” One-Family; “A-10” One-Family; “A-7.5” One-Family (231 acres); “E” Neighborhood Commercial (21 acres); and “PD/CR” for detached multifamily with development standards (28 acres). This form of development does not comply with any of the City’s standard zoning districts, and therefore Planned Development (PD) zoning with specific development regulations are utilized. The applicant for this project is proposing development standards for the following. A site plan will be required at a later date.

<table>

</table>
Building Orientation
The longest length of the building shall be placed parallel adjacent to the street.

Relief requested (Requires Development Regulation Standard)

Multifamily Design Standards
Submit MFD plan to meet standards.

MFD Submittal not required. (Requires Development Regulation Standard)

Setback Adjacent to “A” or “B” Zoning
Three feet for every one foot (3:1) as measured from slab to top of sill plate, or two feet for every one foot (2:1) in overall height when measured from lowest finished grade to the peak of the roof, whichever is greater; 30 feet minimum

Minimum 20’ adjacent to A-5 Zoning (Requires Development Regulation Standard)

Tract 2 is located toward east of the overall site and is currently zoned Agricultural and “A-10” One-Family (375 acres). The applicant intends to rezone this portion to “A-5” One-Family; “A-10” One-Family; “A-7.5” One-Family. There is an existing large lot single-family development that bisects the site.

Tract 3 is located on the southside of the overall site and is currently unzoned and this tract will also be annexed if zoning is approved. Directly north of this tract is a large electric easement that separates the other tracts to the north. The proposed zoning is “A-5” One-Family (47 acres).

Surrounding Zoning and Land Uses

North ETJ; “A-10” One-Family; “A-21” One-Family / single-family, undeveloped
East “A-10” One-Family; “A-21” One-Family; “CF” Community Facilities / single-family, undeveloped
South ETJ / undeveloped
West ETJ; “A-10” One-Family; “A-21” One-Family / single-family, undeveloped

Development Impact Analysis

Land Use Compatibility

The applicant is requesting to change the zoning of this property “A-5” One-Family; “A-10” One-Family; “A-7.5” One-Family, “E” Neighborhood Commercial, and “PD/CR” Planned Development for all uses in “CR” Low-Density Multifamily for detached multifamily with development standards for setbacks, building orientation, fencing, open space, landscaping and a waiver to the MFD submittal, site plan required.

Surrounding properties are primarily undeveloped and residential. The applicant intends to provide single-family, a commercial tract, and detached multifamily. The proposed commercial and detached multifamily would take advantage of the proximity to the intersection of Bonds Ranch Rd and Morris Dido Newark. The multifamily density for the project will occur along Morris Dido Newark Rd, which is a regional arterial. Regional arterials are appropriate locations for both commercial and multifamily. The proposed single-family is appropriate at this location.

The proposed zoning is **compatible** with surrounding land uses.

Comprehensive Plan Consistency – Far Northwest

The adopted Comprehensive Plan currently designates the subject property as “single-family” on the Future Land Use Map. The policies below apply to this development.

- Encourage new development adjacent and connected to previously developed or platted areas in order to utilize existing utility and road infrastructure and services, thereby optimizing public and private investments and discouraging sprawl development.
- Separate incompatible land uses with buffers or transitional uses. Some land uses have attributes such as height, proportion, scale, operational characteristics, traffic generated, or appearance that may not be compatible with the attributes of other uses.
- Encourage Urban Residential and Low Density Residential as transitional uses between Single-Family Residential and high density uses.
Since this is a large zoning case, the Comprehensive Plan Consistency has been divided into tracts. The table below describes the consistency with the Comprehensive Plan:

<table>
<thead>
<tr>
<th>Tract</th>
<th>Proposed Zoning</th>
<th>Future Land Use</th>
<th>Consistency</th>
</tr>
</thead>
<tbody>
<tr>
<td>1</td>
<td>“A-5” One-Family; “A-10” One-Family; “A-7.5” One-Family; “E” Neighborhood Commercial; “PD/CR” Planned Development for all uses in “CR” Low-Density Multifamily for detached single-family with development standards for setbacks, building orientation, fencing, open space, landscaping and a waiver to the MFD submittal, site plan required.</td>
<td>Single-family</td>
<td>Consistent (Technical Inconsistency)</td>

<td>“A-5” One-Family</td>
<td>Single-family</td>
<td>Consistent</td>
</tr>
</tbody>
</table>

**Economic Development Plan**

The adopted Economic Development Strategic Plan identified four different results to facilitate the success and growth of Fort Worth:

1. High-wage job growth.
2. A more sustainable tax base, driven less by residential property valuation and more by commercial and industrial investment.
3. An economy that capitalizes on high-growth businesses and the creative individuals who fuel them, targeting specific industry classifications.
4. A commitment to “quality of place” throughout the community, including rising home values, new business startups, reduction of blighted areas, and the emergence of walkable corridors with a mixture of residential and commercial developments and related amenities.

Although the proposed zoning request does not assist in high-wage job growth and is not a targeted high-growth industry, it will contribute to the quality of place for the neighborhood.

7. Site Plan
8. Area Map
9. Future Land Use Map
10. Aerial Photograph
The proposed site is on the west side of N. Beach Street, approximately ¼ mile south of Long Avenue, in a mid-block location. The applicant is requesting “PD” Planned Development for “E” Neighborhood Commercial uses plus mini-warehouses and outdoor RV storage on an approximately 3.74 acre lot, with 8 development waivers. The case was continued from the December 2021 and February 2022 Zoning Commission meetings to allow submittal of a revised zoning case for a Planned Development (PD) plus site plan. Mini-warehouses and outdoor RV storage are allowed by right in the medium and heavy industrial districts and only permitted within commercial zoning districts with a PD approval. The intent statement for “J” medium industrial notes that a range of moderate-intensity industrial uses provided they are not noxious or offensive due to odors, smoke, dust, noise, fumes or vibrations. This district is intended to serve the entire community.

The site currently contains two metal storage buildings and vacant land. A single-family neighborhood surrounds the site to the north, west, and south, and additional single-family houses in Haltom City lie across the street to the east. Limited commercial uses are found further south on Beach Street and are significantly less intensive non-residential uses than proposed for this site. The site is immediately adjacent to 10 single family lots, with all houses being approximately 70 feet or less to the common property line.

The site plan shows a two-story mini-warehouse building 10 feet from the southern property line and approximately 25 feet away from the existing residence to the south. The other nine existing single family houses back up to the proposed outdoor RV storage. An approximate 13,000 square foot, 2-story commercial building is shown on the northeastern portion of the lot, with the dumpster placed behind this building. Covered outdoor RV storage is the predominate land use, generally spanning 1.5 acres.

As the land uses proposed are medium industrial uses that share a property line with two family zoning, the site is subject to the residential projected front yard requirements and the additional standards in Sec. 6.300K. Below is a chart that illustrates the differences between the use in an industrial district and the proposed PD:

Development Impact Analysis

Land Use Compatibility

The applicant is proposing to change the zoning of this site from “B” Two-Family to “PD” Planned Development for “E” Neighborhood Commercial uses plus mini-warehouses and outdoor RV storage, site plan included with notable development waivers. The site is a mid-block location, instead of a major intersection designed for traffic from the larger community. All surrounding properties are zoned “B” Two-Family or “SF-2” Single Family in Haltom City and are used exclusively for single family houses. The proposed site plan is predominated by buildings and concrete, with minimal areas for buffering against the existing single family houses. The mini-warehouse use is shown to be over 400 feet long with more than 65,000 square feet in a two-story building.

The requirement for “PD” zoning does not allow an option for revocation for code violations, comparable to a Conditional Use Permit. The site plan included does not require development of mini-warehouses or outdoor RV storage, and could include other 24-hour “E” Neighborhood Commercial uses. The requested zoning would allow the following uses by right: drive-thru restaurants, convenience stores with fuel sales, and game rooms. A number of other non-residential uses would be allowed by right, as well.
The proposed zoning request is not compatible with surrounding land uses due to the intensive land uses shown in the Planned Development site plan, as well as allowing 24-hour commercial uses. These proposed and potential uses would create notable land use conflicts with the immediately adjacent single family houses.

**Comprehensive Plan Consistency—Northeast Sector**

The 2021 Comprehensive Plan currently designates the subject property as “Single Family” on the Future Land Use Map. The existing zoning of this site, “B” Two Family, is included on the list below. The proposed “PD” Planned Development requests uses that would be allowed in “J” Medium Industrial zoning. The requested land uses would be included in the list of zoning districts envisioned for the Heavy Industrial category, as detailed in the excerpt from the Comprehensive Plan below.

<table>
<thead>
<tr>
<th></th>
<th></th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>Low Density Residential</td>
<td>2,500+ sq. ft. lot single-family, two-family, patio homes, townhouses, cluster housing</td>
<td>B, R1, R2</td>
</tr>
</tbody>
</table>

**INDUSTRIAL**

| Heavy Industrial          | Heavy manufacturing, outside storage | All Commercial & Industrial |

The proposed zoning is not consistent with the land use designations for this area, nor with the following policies of the Comprehensive Plan:

- Encourage Urban Residential and Low Density Residential as transitional uses between Single-Family Residential and high density uses.
- Promote appropriate infill development of vacant lots, old commercial centers (greyfields), and contaminated sites (brownfields) within developed areas, particularly in the central city.
- Preserve the character of rural and suburban residential neighborhoods.
- Support diverse housing options, including duplexes, fourplexes, townhomes, and small courtyard apartments to promote walkable communities, access to neighborhood services, and multimodal transportation options, while ensuring compatibility with the form, sale, and design of existing neighborhoods.
- Separate incompatible land uses with buffers or transitional uses. Some land uses have attributes such as height, proportion, scale, operational characteristics, traffic generated, or appearance that may not be compatible with the attributes of other uses.
- Locate large industrial uses along freight rail lines, highways, or airports within industrial growth centers and other appropriate locations.
- Protect neighborhoods from commercial and industrial encroachment from Belknap Street, 28th Street, Sylvania Avenue and Riverside Drive.

Based on a lack of conformance with the future land use map and with the policies stated above, the proposed zoning is not consistent with the Comprehensive Plan. (Significant Deviation)
The 2021 Economic Development Strategic Plan identified four different results to facilitate the success and growth of Fort Worth:

1. High-wage job growth.
2. A more sustainable tax base, driven less by residential property valuation and more by commercial and industrial investment.
3. An economy that capitalizes on high-growth businesses and the creative individuals who fuel them, targeting specific industry classifications.
4. A commitment to “quality of place” throughout the community, including rising home values, new business startups, reduction of blighted areas, and the emergence of walkable corridors with a mixture of residential and commercial developments and related amenities.

This zoning request does not assist in high-wage job growth, is not a targeted high-growth industry, and does not contribute to the quality of place.

Site Plan Comments

Zoning and Land Use
The site plan as submitted is not in general compliance with the Zoning Ordinance regulations.

1. The industrial uses are subject to the 50-foot supplemental setback noted in Sec. 6.300K, and all buildings and the dumpster have a 10-foot side setback. Either revise the site plan or request this development waiver in bold.
2. Sec. 6.300K requires a 20-foot landscaping buffer on the sides and rear, and all buildings and the dumpster have a 10-foot side setback. Either revise the site plan or request this development waiver in bold.
3. The site is subject to the projected residential front yard standards, where the proposed monument sign is in the front yard and the fencing runs to the front property line. Either revise the site plan or request these development waivers in bold.
4. The arrow to the monument sign needs to be adjusted to the revised location.
5. Illuminated signs are required to face away from the residential uses, instead of facing the two adjacent single family uses on Beach Street. Either revise the site plan or request this development waiver in bold.
6. Sec. 6.300K requires an 8-foot masonry fence around the outdoor RV storage, instead of a 6-foot wood fence. Either revise the site plan or request these development waivers in bold.
7. Detail specifically either how many employees will be employed by the mini-warehouse use, so the correct number of spaces can be determined.
8. Bicycle parking is required. Either revise the site plan or request this development waiver in bold.
9. The access easement on the western side is landscaped and fenced, instead of paved and open, which does not allow vehicular access. Please either remove the access easement or show paving and adjust the fencing around it.
10. Show and label all other existing or proposed easements. How is Carolea Drive being handled?
11. Label the surfaces on both islands at the ends of the 18 covered RV spaces. Is this space open for landscaping or covered in a larger building?
12. Label the zoning and land use of the site to the south.
13. Add the zoning district of the residential uses to the east.
14. Add the building footprints of the covered RV structures.
15. Remove the “Curbed paving edge” and “Existing Pavement” labels and symbols from the Legend, as they are not used.
16. As mini-warehouses are only allowed in PDs instead of CUPs, please revise the requested zoning in both the Site Data Table and the document title on the right-hand corner.
17. Add the RV storage square footage to the Site Data Table.
18. Add the height of all proposed structures to the Site Data Table.
19. Add the note: “Exterior portions and/or facades of buildings must use colors consisting of neutral earth tone; trim and may be a different neutral earth tone color.”
20. Add the note: “Exterior entrances shall consist of storefront glass, canopies and masonry articulation or similar architectural features.”
21. Add the note: “Any outdoor lighting within 150 feet of a one- or two-family district shall not create any ambient light that trespasses onto adjacent residential uses and shall be zero foot candles on the side adjacent to a residential property with appropriate cutoffs installed. Lighting in this area shall not exceed 20 feet in height including attached wall fixtures.”
22. Remove the note on the right-hand side regarding being released for interim review only. The site plan is requesting approval from Council.
23. Move “The Space Station” title block to the right-hand corner and bold the wording.
24. Add the current metes and bounds legal description, even if that means a second sheet is added.
25. Please update the signature line to “Director of Development Services”.

**TPW Stormwater**
- FYI: an accepted drainage study is required prior to platting, infrastructure review, grading permit issuance, and building permit issuance.

**Development Services – Roadways**
- Carolea is an easement - not a right-of-way, so we will address abandoning it during platting.

*(Comments made by Platting (Subdivision Ordinance), Transportation/Public Works, Fire, Park & Recreation, and Water Department staff cannot be waived through the Zoning Commission and City Council. Approval of the zoning site plan does not constitute the acceptance of conditions.)*

5. Development Impact Analysis
   a. Site Plan Comments
6. Area Zoning Map with 300 ft. Notification Area
7. Area Map
8. Future Land Use Map
9. Aerial Photograph
The proposed site is located in-between IH-35 W and Oakhurst Scenic Drive north of Yucca Street. The applicant would like to amend their current PD 586 to add transitional housing. The proposed development will include two-story structure that is surrounded by a fence with guard shack.

According to the applicant, the proposed residences will house up to 100 women for 1 to 3 years, depending on their needs. The facility itself will be contained within a secure site for the safety of the residents. These residents will be staying on the property throughout the first portions of their recovery. The women living here will be healing, recovering, and learning or expanding life and job skills. The residents will not be leaving the facility until they are assimilated into the job market after 1 to 3 years depending on the situation.

The perimeter will be secured by an ornamental wrought iron type fence. This will be supplemented by security guards, cameras and internal alarms within the facility. Visitors will be limited to scheduled hours during the day and will have to be approved beforehand. Appointments are typically made for 1 – 2-hour visits during normal business hours. The only people allowed in to the facility (each having to be pre-approved / background checked) will be those associated with the residents such as family members or members of their recovery team (attorneys, case workers, etc.). All deliveries will also be strictly controlled for the safety of the women housed there.

Within the facility, the women will have several levels of support. There is 24-hour oversight and security at every level. There will be “floor parents” who will be living at the facility all week with others coming on the weekend to maintain a high level of care. They will have several programs to aid in their recovery and healing. Nutrition, arts, music, and life skills will also be part of their daily routine. The women will cook and eat together within the facility, and there will be a fitness room contained within The Justice Residences as well.

The case was continued from last month’s meeting in order for the applicant to meet with surrounding neighborhood organizations. The case originally came in as an SP, however, staff determined that the proposed use would require a zoning change. Staff has renoticed to reflect this change.

### Surrounding Zoning and Land Uses

**Development Impact Analysis**

**Land Use Compatibility**

The applicant is proposing a zoning change to amend their current PD 586 to add transitional housing. Surrounding land uses consist of single-family to the north and east, church and private school directly south and I-35W to the west. The current zoning is for church related uses. The proposed transitional home would be located on the site operated by the church, however, is not compatible with surrounding single-family and school related land uses. The proposed use would also eliminate much needed parking for the existing church, which would result in parking continuing to overflow into the neighborhood.

As a result, the proposed zoning request is **not compatible** at this location.

**Comprehensive Plan Consistency – Northeast**

The Comprehensive Plan designates the subject property as Community Facilities. The proposed zoning is **consistent** with the Comprehensive Plan.

However, the requested zoning change is not consistent with the following Comprehensive Plan policies:

- Promote measures to ensure that all types of residential developments are compatible in scale to abutting residential developments. A dramatic difference in lot size and units per acre should be discouraged for new development immediately adjacent to existing development or platted and zoned property, unless mitigation is provided to minimize the effects of the new use.
• Encourage infill development of compatible, single-family homes in existing neighborhoods to preserve and protect residential neighborhoods.

Site Plan Comments

**Zoning and Land Use**
- Fencing prohibited within easement. Encroachment Agreement required
- Provide Parking counts for center vs. church (i.e. parking required for church minus parking removed due to development)

**Transportation and Public Works**
- No comments received

**Fire, Park & Recreation, Water Departments:**
- No comments received

*(Comments made by Platting (Subdivision Ordinance), Transportation/Public Works, Fire, Park & Recreation, and Water Department staff cannot be waived through the Zoning Commission and City Council. Approval of the zoning site plan does not constitute the acceptance of conditions.)*

The subject property is located along the east side of Old Denton Road north of its intersection with Westport Parkway. This site is currently located in the City’s Extraterritorial Jurisdiction (ETJ) and zoning regulations do not apply. The applicant has submitted a related request for owner-initiated annexation of the property (case no. AX-21-016), and if approved, the zoning of the site will default to “AG” Agricultural District. Instead, the applicant is requesting that the property be zoned “I” Light Industrial upon annexation to allow for new industrial warehouse development.

The site is currently vacant and a large portion is encumbered by floodplain. Property to the north, west, and south is already zoned for industrial development, and there is a single-family subdivision located to the east. However, the floodplain area on the subject property separates the developable portion of this site from the single-family subdivision.

This case was originally considered by the Zoning Commission on February 9, 2022 and the applicant requested a 30-day continuance. A second 30-day continuance was approved at the March 9, 2022 Zoning Commission hearing to provide the applicant with additional time to finalize access agreements for Old Denton Road.

Land Use Compatibility

The applicant is proposing to annex the subject property into the Fort Worth City Limits and assign “I” Light Industrial zoning upon annexation. Property to the north is zoned “I” Light Industrial and all land between the subject property and North Freeway (I-35) to the west is zoned “K” Heavy Industrial. Property to the south is located outside of the City Limits, but there is additional industrial land along the Westport Parkway Frontage.

There is a single-family subdivision to the east, zoned “A-5” One-Family. However, a large area of FEMA 100-year floodplain (approximately 0.3 miles wide) on the subject property provides a buffer to the residential area.

The proposed zoning is compatible with surrounding land uses.

Comprehensive Plan Consistency – Far North

The 2021 Comprehensive Plan currently designates the subject property as “Light Industrial” on the Future Land Use Map. The proposed zoning is consistent with this designation, and also aligns with the following policies of the Comprehensive Plan:

- Locate large industrial uses along freight rail lines, highways, or airports within industrial growth centers and other appropriate locations.
- Protect industrial areas from encroachment. Through zoning, ensure that existing and planned major employment nodes and districts are protected from incompatible land uses and development.
- Promote commercial and industrial development near Alliance Airport, BNSF rail yards, and Texas Motor Speedway that would not be adversely affected by noise.

The proposed zoning is consistent with the Comprehensive Plan.

Economic Development Plan

The 2018 Economic Development Strategic Plan identified a vision, goals, and strategies to facilitate the success and growth of the City of Fort Worth. The below recommendations apply to this project:

INITIATIVE 1.3. BUSINESS RETENTION & EXPANSION (BRE)

- 1.3.3. Protect industrial areas from encroachment. Through zoning, work with CFW Planning Department to ensure major current and future employment nodes and districts are protected from incompatible development and land uses.
- 1.3.3.2. Ensure protection for other significant industrial districts with concentrations of manufacturing, transportation, and warehousing businesses that generate heavy truck traffic.

PERFORMANCE METRICS

2. A more sustainable tax base, driven less by residential property valuation and more by commercial and industrial investment.

8. Future Land Use Map
9. Aerial Photograph
The property is located along the western I-35W S Freeway frontage near the McPherson Rd exit. The applicant is requesting to add a Conditional Use Permit for truck and trailer parking in “I” Light Industrial with waiver for screening fence, site plan included. Conditional uses are those uses which are generally compatible with the permitted land uses in a given zoning district, but which require individual review of their proposed location, design and configuration, and the imposition of conditions in order to ensure the appropriateness of the use at a particular location.

There are similar uses located both north and south of the property with residential subdivision open space directly west. The subdivision is separated by a park and grove of trees. Industrial property adjacent One-Family uses required a 50 ft setback, bufferyard, screening fence, and point system. The will meet the 50 ft setback standard but does not intend to provide a fence and is seeking a waiver to this standard. Staff supports this waiver if existing trees are maintain on the west side of the site.

Staff also recommends adding a 3 year time limit on the proposed use to ensure that they continue to meet the CUP requirements. Below is a chart that illustrates the differences between the base E regulation and the proposed CUP:

<table>
<thead>
<tr>
<th>Requirement</th>
<th>I Standards</th>
<th>Proposed CUP</th>
</tr>
</thead>
<tbody>
<tr>
<td>Setback adjacent single-family district</td>
<td>50 ft</td>
<td>50 ft</td>
</tr>
<tr>
<td>Solid screening fence</td>
<td>6-ft minimum solid screening fence is required along the western property line, abutting a residential district</td>
<td>Cyclone Fence Provided (waiver Requested)</td>
</tr>
</tbody>
</table>

It is also important to note that a detailed flood study by a licensed PE will be required to analyze and/or mitigate the impacts of the development. Disturbance of at least an acre of land, even if it’s just paving, would trigger a grading permit and drainage study (separate from flood study) from our Stormwater Department. Any structure would require a finished floor elevation 2 feet above the floodplain based on their studies. Finally, our floodplain ordinance does not allow more than one foot of flooding in a parking or vehicle storage area unless provisions have been made to remove vehicles during flood events.

This case was continued from the March Zoning Commission meeting in order for the applicant to consider providing a fence adjacent to residential to the west.

Development Impact Analysis

Land Use Compatibility

The applicant is proposing a zoning change to Add Conditional Use Permit (CUP) for truck and trailer parking in “I” Light Industrial with development standard for screening fence, site plan included. Surrounding land uses include industrial to the north and south, single-family to the west, and I-35W to the east. Several industrial uses exist near this facility and along the I-35 corridor.

The proposed zoning request is compatible at this location.

Comprehensive Plan Consistency – Far South

The Comprehensive Plan designates the subject property as General Commercial. The proposed zoning is not consistent (Technical Inconsistency) with the Comprehensive Plan.

However, the requested zoning change is not consistent with the following Comprehensive Plan policies:

- Locate large industrial uses along freight rail lines, highways, or airports within industrial growth centers and other appropriate locations
• Separate incompatible land uses with buffers or transitional uses. Some land uses have attributes such as height, proportion, scale, operational characteristics, traffic generated, or appearance that may not be compatible with the attributes of other uses.

Economic Development Plan

The Economic Development Strategic Plan identified four different results to facilitate the success and growth of Fort Worth:

1. High-wage job growth.
2. A more sustainable tax base, driven less by residential property valuation and more by commercial and industrial investment.
3. An economy that capitalizes on high-growth businesses and the creative individuals who fuel them, targeting specific industry classifications.
4. A commitment to “quality of place” throughout the community, including rising home values, new business startups, reduction of blighted areas, and the emergence of walkable corridors with a mixture of residential and commercial developments and related amenities.

The proposed zoning will help achieve item #2 above.

Site Plan Comments

The site plan as submitted is not in general compliance with the Zoning Ordinance regulations.

1. Screening fence required adjacent one-family zoning district (Waiver Requested)

(Comments made by Platting (Subdivision Ordinance), Transportation/Public Works, Fire, Park & Recreation, and Water Department staff cannot be waived through the Zoning Commission and City Council. Approval of the zoning site plan does not constitute the acceptance of conditions.)

The subject site is located along the east side of Priddy Lane just north of its intersection with White Settlement Road. It is located in a rapidly redeveloping area called “The River District.” The residential structures on both lots have been demolished. The applicant is requesting to rezone to “UR” Urban Residential in order to build townhomes.

Surrounding land uses are all residential in nature with a single-family dwelling located immediately to the north and south and multifamily development to the east and west. The land on the east side of the lots is not within the City of Fort Worth. There is commercial development on nearby properties fronting White Settlement Road, including an office building and auto-repair facility.

This case was initially heard at the March 9 Zoning Commission hearing, but a thirty (30) day continuance was granted to allow the applicant time for discussions with the neighborhood.

Land Use Compatibility

The applicant is requesting to rezone two lots from “B” Two-Family to “UR” Urban Residential. Surrounding land uses are all residential in nature with a single-family dwelling located immediately to the north and south and multifamily development to the east and west. The land on the east side of the lots is not within the City of Fort Worth. Property fronting White Settlement Road has been developed commercially.

The proposed zoning is **compatible** with surrounding land uses.

Comprehensive Plan Consistency – Northside

The 2021 Comprehensive Plan currently designates the subject property as “Mixed Use” on the Future Land Use Map. As shown below, this designation is intended to include the “UR” Urban Residential zoning district.

<table>
<thead>
<tr>
<th>COMMERCIAL</th>
<th></th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>Neighborhood Commercial</td>
<td>Retail, services, offices and mixed uses serving daily needs for a local market area</td>
<td>Multifamily Residential, ER, E, MU-1</td>
</tr>
<tr>
<td>General Commercial</td>
<td>Retail, services, offices and mixed uses serving occasional needs for a larger market area</td>
<td>Multifamily Residential, ER, E, MU-1, MU-2</td>
</tr>
<tr>

</tr>
</tbody>
</table>

The proposed zoning is consistent with the land use designations for this area and aligns with the following policies of the Comprehensive Plan:

- Promote the rehabilitation of older housing stock to increase housing values within the central city and in neighborhoods that have experienced historical disinvestment.
- Encourage infill development of compatible, single-family homes in existing neighborhoods to preserve and protect residential neighborhoods.

Based on conformance with the policies stated above, the proposed zoning is **consistent** with the Comprehensive Plan.

Economic Development Plan

The 2018 Economic Development Strategic Plan identified a vision, goals, and strategies to facilitate the success and growth of the City of Fort Worth. The below recommendations apply to this project:

**INITIATIVE 3.2. NEIGHBORHOOD ALIGNMENT**

3.2.2. Encourage substantial new housing investment and development in the city’s under-served neighborhoods.

Project Description and Background

The subject site is located in the Ryan Place neighborhood at the southwest corner of Capps Street and Lipscomb Street; Hemphill Street is about 800 feet east of the site. The site is roughly a triangle shape, with the hypotenuse formed by a railroad track cutting along the southeast of the lots; light industrial buildings are on the other side of the railroad tracks. Residential one- and two-family homes are adjacent to the west of the site. The applicant is requesting to rezone the site from “I” Light Industrial to “UR” Urban Residential with the intention of developing townhomes.

This case was initially heard at the March 9 Zoning Commission hearing, but the applicant requested a thirty (30) day continuance to allow time for more discussions with the neighborhood.

* Located within this registered Neighborhood Association
Land Use Compatibility

The applicant is requesting to rezone from “I” Light Industrial to “UR” Urban Residential in order to build townhomes. To the north is residential and a few lots of commercial; one commercial lot is unoccupied, the other a window replacement company. A railroad track cuts along the southeast of the lots; on the other side of the railroad track are industrial uses such as mini-warehouses, car paint restoration, and a small used car sales lot. To the west of the site are one- and two-family homes.

While the existing industrial sites to the east and south of the subject site are not ideal neighbors for the proposed residential, the rezoning request would be downzoning the current site from unoccupied “I” light industrial to townhomes. The townhomes would serve as a buffer between the existing homes and the existing railroad track and light industrial uses. The proposed townhome use is compatible with the adjacent residential uses.

While “UR” Urban Residential zoning allows for a variety of housing types from a single-family detached product through an apartment/condominium, there are several sections of the ordinance to serve as protections for the existing structures, ensuring the scale of the “UR” Urban Residential development is better suited for the adjacent residential uses.

- Rear setbacks in “UR” Urban Residential are increased from five (5) feet to twenty (20) feet when adjacent to a one- or two-family structure.
- If the “UR” Urban Residential product is not a one- or two-family structure, then it must have a five (5) foot bufferyard with screening and plantings, where it is adjacent to the “B” Two-Family district.
- While the “UR” Urban Residential district allows a structure of three (3) stories by right, with the option to earn a fourth story with a height bonus for providing either structured parking or public open space, all uses adjacent to one- or two-family districts must apply a transitional height plane of 45 degrees to portions of the building about 3 stories or 38 feet, whichever is less, as measured from the property line of the one- or two-family district. The west-adjacent “B” Two-Family district has a maximum height of 35 feet, with some residences being one story and some two story.

“UR” Urban Residential is pedestrian-oriented development. The subject site is about 800 feet west of Hemphill Street, which has many commercial uses along the corridor. The residents of the townhomes at the subject site will have the option to walk to commercial entities on Hemphill Street. The lots on either side of Hemphill are zoned “MU-1” Low Intensity Mixed-Use, which pairs well with the proposed “UR” Urban Residential. There are also bus stops located along Hemphill at both West Capps Street and West Cantey Street that the townhome residents could utilize.

The proposed zoning is compatible with surrounding land uses.
The 2021 Comprehensive Plan currently designates the subject property as Light Industrial on the Future Land Use Map.

### LAND USE AND ZONING CLASSIFICATIONS

<table>
<thead>
<tr>
<th>LAND USE</th>
<th>DEFINITION</th>
<th>ZONING</th>
</tr>
</thead>
<tbody>
<tr>
<td>Industrial</td>
<td>Warehousing, transportation, light assembly, outside storage</td>
<td>MU-2, I, All Commercial</td>

<td>Heavy manufacturing, outside storage</td>
<td>All Commercial &amp; Industrial</td>
</tr>
<tr>
<td>Industrial Growth Center</td>
<td>Industrial and commercial uses serving a large region</td>
<td>All Commercial &amp; Industrial</td>
</tr>
</tbody>
</table>

The proposed zoning is not consistent with the land use map designation for this area.

However, the proposed rezoning does align with the following policies and strategies of the Comprehensive Plan:

- Locate multifamily units within walking distance of public transportation, employment, recreation, and/or shopping to increase accessibility and decrease vehicular traffic.
- Encourage Urban Residential and Low Density Residential as transitional uses between Single-Family Residential and high density uses.
- Promote appropriate infill development of vacant lots within developed areas, which will efficiently utilize existing infrastructure.
- Separate incompatible land uses with buffers or transitional uses. Some land uses have attributes such as height, proportion, scale, operational characteristics, traffic generated, or appearance that may not be compatible with the attributes of other uses.
- Promote traditional neighborhood and other pedestrian-oriented developments, which encourage human interaction, walking, bicycling, mixed uses, slower traffic, public places, and attractive streetscapes.
- Encourage urban residential development in appropriate locations to create more walkable, pedestrian-oriented neighborhoods.
- Encourage infill of compatible housing.

The proposed rezoning lacks conformance with the future land use map, but is in conformance with the Comprehensive Plan’s policies stated above; therefore the proposed zoning is **not consistent (technical inconsistency)** with the Comprehensive Plan.
The proposed rezoning supports the following initiatives and metrics of the 2018 Economic Development Strategic Plan:

Initiative 3.2.1.3. For areas of the city targeted for urban revitalization, prevent the growth of land uses and activities that would make the area a less desirable location for business investment and job growth. Examples of land uses and activities that might diminish the economic potential of a target area include:

- Large public sector or nonprofit developments (e.g., community centers, churches, homeless services centers).
- Land-intensive, auto-centric development (e.g., gas stations, automotive repair shops, car washes, storage unit complexes).

Metric 4. A commitment to “quality of place” throughout the community, including rising home values, new business startups, reduction of blighted areas, and the emergence of walkable corridors with a mixture of residential and commercial developments and related amenities.
Case Manager: Beth Knight

Owner / Applicant: 5 B Corporation / Kiew Kam

Site Location: 1025 W. Beach Street  Acreage: 2.03 acres

Proposed Use: Car Wash

Request:

To: Add Conditional Use Permit (CUP) to allow an automated carwash facility in “E” Neighborhood Commercial; site plan included with waivers for setbacks, fencing location, and landscaping buffer

Land Use Compatibility: Requested change is compatible.

Comprehensive Plan Consistency: Requested change is not consistent (Technical Inconsistency).

Staff Recommendation: Approval

9. Future Land Use Map
10. Aerial Photograph
The proposed site is located at the north end of the 2-block long West Beach Street, where the street joins N. Beach Street, approximately one block south of Belknap Street. The applicant is requesting to add a Conditional Use Permit to allow an automated carwash facility; site plan included.

Carwashes are only permitted within commercial zoning districts through the CUP process. The applicant has applied for the (CUP) Conditional Use Permit to allow this use within the “E” district for a drive-thru carwash facility in an approximately 3,600 sq. ft. building. Self-service vacuum spaces are shown in two rows south of the carwash building. Conditional uses are those uses which are generally compatible with the permitted land uses in a given zoning district, but which require individual review of their proposed location, design and configuration, and the imposition of conditions in order to ensure the appropriateness of the use at a particular location.

While a carwash is not permitted in the “E” zoning district by right, allowing one by CUP with a site plan may help mitigate any neighborhood concerns, as well as give options for the CUP to be revoked in the event of code violation convictions. The site is currently vacant land with a creek and its associated floodway dividing the property in two. The nearest residential “A-5” district lies along the western property line, with additional single family uses to the east. Although the site is directly adjacent to a residential district, the land is used for the Sylvania public park.

The lot’s floodway easement in the middle of the property does not leave enough space to orient the car wash tunnel and dryer in a north/south direction to face other commercial uses. The car wash dryer faces other commercial uses to the east. The closest residential building is more than 300 feet away in a residential neighborhood to the east, separated by the intervening commercial building. Because sound volume decreases noticeably after 300 feet to approximately 60 decibels, the location of the car wash equipment and 17 vacuums are unlikely to have a detrimental impact on the neighborhood.

The floodway constrains the larger buildable area on the south side of the lot. While the vacuums meet the 25-foot setback, the car wash building is approximately 35 feet inside the 100-foot setback required. The required solid screening fence along the same property line conflicts with the floodway, where stormwater should flow freely. However, the same floodway creates a naturally landscaped area that is approximately 50% of the site’s area.

Through Ordinance 23609 effective March 29, 2019, the Conditional Use Permit allows for an unlimited time period for the operation of a use unless otherwise approved by the City Council. If a time limit is established for a Conditional Use Permit, the renewal of the CUP shall be considered through the public hearing process and approved by the City Council. A CUP shall expire if no permitting action is taken within six months of approval or cease of the use for six months. A CUP may be revoked through the public hearing process if necessary after convictions of one or more code violations.

Per Section 4.407 (a), the following general rules apply to all conditional uses:
  a) Conditional use permits in residential districts shall be limited to those uses designated “CUP” in the Residential District Use Table in Chapter 4, Article 6, Section 4.603.
  b) Approval of a conditional use permit shall authorize only the particular use or category of related uses for which the conditional use permit is issued.
  c) A conditional use shall not be enlarged, extended or otherwise modified unless approved by the City Council or approved administratively as applicable.
d) The use of property for the purposes described in a conditional use permit shall not commence until a certificate of occupancy has been issued. A certificate of occupancy shall not be issued until all or approvals which may be required by the Codes and Ordinances of the City, including, but not limited to, a Building Permit, a Certificate Of Occupancy and subdivision approval have been satisfied.

Section (d) provides the following Conditional Use Permit factors in consideration of appropriateness of a request:

a) The proposed use is consistent with the Comprehensive Plan;

b) The proposed use is compatible with the existing and adjacent uses.

c) The proposed use meets all supplemental use standards specifically applicable to the use as set forth in Chapter 5;

d) The proposed use is compatible with and preserves the character and integrity of adjacent development and neighborhoods;

e) The proposed use is not materially detrimental to the public health, safety, and welfare, or results in material damage or prejudice to other property in the vicinity.

Below is a chart that illustrates the differences between the base E regulation and the proposed CUP:

Development Impact Analysis

Land Use Compatibility

The applicant is proposing a zoning change to add a CUP to allow a carwash facility in the “E” zoning district. Surrounding land uses consist of a public park in residential zoning to the west with other commercial uses in all other directions. The closest residential uses are more than 300 feet from the car wash dryer to the east. The significant floodplain running through the property creates a small buildable area on the north property line and a larger buildable area on the southern property line. The existing floodway easement both constrains development options and allows a notable portion of the property to remain in its undeveloped state.

Based on the surrounding non-residential uses and distance to the closest residential use, the proposed zoning (conditional use permit for automated car wash) is compatible with surrounding land uses.

Comprehensive Plan Consistency – Arlington Heights

The 2021 Comprehensive Plan currently designates the subject property as neighborhood commercial, where vehicular uses are generally not allowed. The proposed zoning is inconsistent with the land use designations for this area, but complies with the following policies of the Comprehensive Plan:

- Promote appropriate infill development of vacant lots, old commercial centers (greyfields), and contaminated sites (brownfields) within developed areas, particularly in the central city.
- Separate incompatible land uses with buffers or transitional uses. Some land uses have attributes such as height, proportion, scale, operational characteristics, traffic generated, or appearance that may not be compatible with the attributes of other uses.

Based on a lack of conformance with the future land use map but conformance with the policies stated above, the proposed zoning is not consistent with the Comprehensive Plan. (Technical Inconsistency)
The 2021 Economic Development Strategic Plan identified four different results to facilitate the success and growth of Fort Worth:

1. High-wage job growth.
2. A more sustainable tax base, driven less by residential property valuation and more by commercial and industrial investment.
3. An economy that capitalizes on high-growth businesses and the creative individuals who fuel them, targeting specific industry classifications.
4. A commitment to “quality of place” throughout the community, including rising home values, new business startups, reduction of blighted areas, and the emergence of walkable corridors with a mixture of residential and commercial developments and related amenities.

This zoning request does not assist in high-wage job growth and is not a targeted high-growth industry. While the auto-oriented use does not contribute to walkable corridors, the large amount of street frontage left undeveloped in the floodway easement does contribute to walkable corridors.

Site Plan Comments

Zoning and Land Use

The site plan as submitted is not in general compliance with the Zoning Ordinance regulations.

1. The car wash building setback is required to be 100 feet, as per Sec. 5.108, instead of the approximately 65 feet shown. **This item is requesting a development waiver.**
2. A 6-ft minimum solid screening fence is required along the western property line, which abuts a residential district, as required in Sec. 5.108. Since the western property also contains a floodway easement, the solid fence cannot be in this easement. **This item is requesting a development waiver.** The fence along the western property line will need a utility easement encroachment agreement.
3. The access easement and drainage easement overlap in the northeast corner. Generally, the surface material of these two easements is not the same.
4. Note the land use and zoning of the surrounding properties to the east.

TPW Stormwater

- FYI: an accepted drainage study is required prior to platting, infrastructure review, grading permit issuance, and building permit issuance.
- FSR Acceptance required and FDP issuance required prior to grading and building permit issuance.

*(Comments made by Platting (Subdivision Ordinance), Transportation/Public Works, Fire, Park & Recreation, and Water Department staff cannot be waived through the Zoning Commission and City Council. Approval of the zoning site plan does not constitute the acceptance of conditions.)*
Zoning Map Amendment

6. Zoning Map with 300 ft. Notification Area
7. Area Map
8. Future Land Use Map
9. Aerial Photograph
The applicant is purchasing the property from the current owners, Boral Roofing, who used the site for outside storage. The applicant is intending to operate a semi truck & trailer parking area on this site, which is just under 5 acres total. The applicant has stated their intent to construct a building on the site in conjunction with this request. A general layout was requested by City staff on February 28th, but was never provided. Please note that for industrial rezoning applications, a site plan or layout is not required, however if provided, this can give staff and elected & appointed officials insight into how the property is intended to be set up and operated.

The applicant has stated that in the future they may be interested in pursuing truck repair on the site. Staff has notified them that this is acceptable only if the rezoning request to “I” is approved, and even then, the truck repair component would need to be contained within a building rather than out in the open. However, for the immediate future they are simply intending to park semi trucks and trailers on the site.

### Surrounding Zoning and Land Uses

| North       | “I” Light Industrial / railroad & food bank |
| East        | “I” Light Industrial / vacant industrial & commercial |
| South       | “I” Light Industrial / manufacturing |
|             | “A-5” One Family / residential |
| West        | “A-5” One Family / undeveloped |

### Recent Zoning History

- ZC-19-057, City-initiated rezoning case protects much of the property zoned two-family but constructed as single family homes, addresses potential growth along the river, and reduces the intensity of the industrial zoning districts while retaining districts that allow and support the existing industrial uses.

### Public Notification

Land Use Compatibility

It is staff’s opinion that this rezoning request is sensible in light of the existing industrial developments on two sides of the subject property, as well as the proximity to the railroad line immediately to the north. Combined with the fact that this site has been zoned commercially, the outside storage which has occurred on the property since at least 2000 is of a quasi-industrial nature, meaning the new proposed use will not be dramatically out of character.

The applicant has been notified of the development standards in industrial zones, including but is not limited to:

- Parking requirements are 1 space per 500 square feet or 1 space per three employees, whichever is greater.
- Landscape requirements are generally 4% of the Site area or 30 feet depth along all public rights-of-way.
- Front setbacks are 20 feet off the front property line.
- No storage, parking, or buildings can be placed in the setbacks.

Considering the industrial nature of the surroundings at least two sides of the subject property, as well as the development standards for industrial properties, the proposed zoning is compatible with surrounding land uses.

Comprehensive Plan Consistency – Northeast

The 2022 Comprehensive Plan currently designates the subject property as future Light Industrial on the Future Land Use Map. This explicitly covers “transportation related uses” as one of the acceptable land use definitions. The proposed rezoning is consistent with the Comprehensive Plan.

Economic Development Plan

The 2018 Economic Development Strategic Plan identified a vision, goals, and strategies to facilitate the success and growth of the City of Fort Worth. The most recent update to this plan was approved by the City Council in January 2022. According to this document, Transportation & Logistics made up a larger share of local employment (6%) than the national average (1.4%). This sector is seen as a growth industry, and the truck parking as proposed helps contribute to the distribution and mobility networks in the North Texas region, strengthening the City’s position as a key hub for logistics.

   b. Comprehensive Plan Consistency
   c. Economic Development Plan
6. Area Zoning Map with 300 ft. Notification Area
7. Area Map
8. Future Land Use Map
9. Aerial Photograph
The project area is an approximately quarter-acre northern portion of a lot located in the southwest corner of Rosedale Street and Forest Park Boulevard. This corner is a prominent corner and gateway into the medical district; it is part of an official Scenic Corridor along Rosedale Street. The site is also adjacent to the Historical Mistletoe Heights neighborhood.

The site is currently zoned “E” Neighborhood Commercial, but the applicant seeks to rezone to a Planned Development “PD” with a base of “MU-1” Low Intensity Mixed-Use, removing the uses of ambulance dispatch station, mortuary, and golf course, with a development standard to not require street trees along Forest Park Boulevard, a development standard to allow 12 parking spaces, and site plan waiver requested.

The site has an existing building, which previously served as office use but is currently vacant. The applicant is proposing to add a residential use to the upper floors of the building, which is not allowed in “E” Neighborhood Commercial. Because the site is developed there are a few items the site does not comply with for the MU-1 Ordinance. The applicant is therefore requesting altered development standards for the items not in compliance.

Planned Developments based on “MU” must first have the development standards reviewed by the Urban Design Commission (UDC). This case went before the Urban Design Commission (UDC) on March 17 and received a recommendation of approval.

In application documents, the applicant wrote the following:

The project is an adaptive re-use of an existing 3-story building currently zoned E Commercial. A zoning amendment application ZC-22-013 was submitted on 1/24/22 requesting MU-1 zoning. This would be a mixed-use project with commercial/retail at the ground level and multifamily units on the two stories above. The existing site cannot accommodate sufficient parking for the permissible uses in the existing E zoning category for common uses such as restaurant and office given the square footage of the existing structure that was constructed in 1983. That is also true of the proposed MU-1 uses. At approximately 7'-0" wide, the existing streetside between Forest Park Blvd travel lanes and the eastern property line is insufficient to accommodate both street trees and the minimum sidewalk width of 5'-0". By the MU-1 ordinance, re-use of existing structures requires the planting of street trees. For these reasons, we are requesting waivers from the parking and street-tree requirements for MU-1.

**Requested Street Trees Development Standard**

The “MU-1” Ordinance requires street trees to be planted along all public right-of-way. This is a corner lot with Rosedale Street to the north and Forest Park Boulevard to the east. The applicant is requesting a development standard to not require street trees along the eastern property line along Forest Park Boulevard; Street trees will still be required along Rosedale Street.

Staff is supportive of this request as there is not room to plant street trees in the ROW along Forest Park Boulevard. The existing sidewalk abuts the existing pavement of the parking lot.

**Requested Parking Development Standard**

Residential parking is always required in “MU-1” zoning; commercial parking would be required at this site, as it is within 250 feet of one- or two-family zoning. Based on the proposed number of bedrooms and combination of commercial uses, as shown in the table, 23 parking spaces are required. The site does not provide the required parking. The applicant is requesting a development standard that only 12 spaces be required.
The site plan below, submitted for the UDC hearing as a conceptual parking plan by the applicant, shows 17 spaces provided. Only 12 of the parking spots can be counted towards the required parking. Five (5) parking spots along Forest Park Boulevard are not able to be counted since the drive aisle width is 20 feet, which is four (4) feet less than the required minimum width.

**Requested Site Plan Waiver**

Planned Developments typically require a site plan to be approved by the Zoning Commission and City Council; however, applicants forming a PD can request to waive the site plan. Staff is supportive of a waiver to the site plan submittal for this PD. The site is already developed and will not be changing the footprint of the building or paving, so a site plan would not be providing additional helpful information or tying the site to a specific pre-approved design, as it already exists as is. In requiring a site plan, a change to the site of greater than 5% would require the revision to go back through the entire public hearing process. In waiving the site plan, this allows any future development to redevelop the site by adhering to the current MU-1 code, with the exception of the development standards, without having to go back through the public hearing process.

**Surrounding Zoning and Land Uses**

Land Use Compatibility

The applicant wishes to renovate the existing commercial building to convert the second and third floors to apartments, while using the first floor for commercial use such as retail, office, and restaurant. The building previously was a commercial use, but is currently vacant. The southern half of the lot is a convenience store with gas pumps. The site is surrounded on three (3) sides by residential homes in the Historic Mistletoe Heights Neighborhood. Across Rosedale Street are commercial uses.

The proposed zoning is **compatible** with surrounding land uses.

Comprehensive Plan Consistency – TCU/Westcliff

The 2021 Comprehensive Plan currently designates the subject property as Neighborhood Commercial on the Future Land Use Map. Below is an excerpt of the table from Ch. 4 Land Use of the Comprehensive Plan, which shows “MU-1” zoning as an appropriate type in the Neighborhood Commercial designation of Future Land Use.
The proposed zoning is consistent with the land use designations for this area, and aligns with the following policies of the Comprehensive Plan:

- Locate multifamily units within walking distance of public transportation, employment, recreation, and/or shopping to increase accessibility and decrease vehicular traffic.

- Promote appropriate infill of old commercial centers (greyfields), and contaminated sites (brownfields) within developed areas, particularly in the central city.

Based on conformance with the policies stated above, the proposed zoning is consistent with the Comprehensive Plan.

Economic Development Plan

The 2018 Economic Development Strategic Plan identified four different results to facilitate the success and growth of Fort Worth:

1. High-wage job growth.
2. A more sustainable tax base, driven less by residential property valuation and more by commercial and industrial investment.
3. An economy that capitalizes on high-growth businesses and the creative individuals who fuel them, targeting specific industry classifications.
4. A commitment to “quality of place” throughout the community, including rising home values, new business startups, reduction of blighted areas, and the emergence of walkable corridors with a mixture of residential and commercial developments and related amenities.

7. Site Plan
8. Area Map
9. Future Land Use Map
10. Aerial Photograph
The subject property is located northeast of the intersection of Summer Creek Drive and Sycamore School Road. The current zoning of this site is Planned Development PD 246, which was approved in 2002 to allow all uses in “E” Neighborhood Commercial excluding tattoo parlor and massage parlor; site plan required. Although the zoning was approved in 2002, commercial development within the PD area has only begun in the last five years. The applicant is now submitting the required site plan for 5216 Sycamore School Road to allow development of a new drive-thru restaurant.

The site plan depicts a 3,600 square foot restaurant building with a drive-thru lane and two small patio areas. The site will take access from Canyon Park Drive, a named easement, and 42 off-street parking spaces are being provided to meet minimum ordinance requirements. The site plan complies with all requirements for “E” Neighborhood Commercial zoning and no waivers or specific development standards are being requested.

The majority of surrounding lots are also located within PD 246. There is an existing commercial development immediately west of this site that includes a drive-thru coffee shop, restaurant, nail salon, dentist office, and animal clinic. Property to the north is currently vacant but a site plan has been approved for a daycare. Two other site plan requests have been submitted and are currently under review – one for a drive-thru restaurant (SP-22-005) and another for general and medical offices (SP-22-006).

Property to the west is zoned “A-5” One-Family and is developed with single-family dwellings. A five-foot wide landscaped bufferyard and 20-foot supplemental building setback is required along the property line adjacent to the residential zoning. There is an existing stone retaining wall and landscaped area in place along this property line due to the difference in elevation between the subject property and the residential lots. A wood privacy fence is also in place along the rear of the residential lots, providing additional buffering from the proposed commercial development.

**Surrounding Zoning and Land Uses**

- North: PD 246 / vacant
- East: “A-5” One-Family / single-family dwellings
- South: PD 246 / vacant
- West: PD 246 / commercial building with office, retail, and restaurant uses

**Recent Zoning History**

Project Description and Background

The subject property is located northeast of the intersection of Summer Creek Drive and Sycamore School Road. The current zoning of this site is Planned Development PD 246, which was approved in 2002 to allow all uses in “E” Neighborhood Commercial excluding tattoo parlor and massage parlor; site plan required. Although the zoning was approved in 2002, commercial development within the PD area has only begun in the last five years. The applicant is now submitting the required site plan for 7601 Summer Creek Drive to allow development of a new drive-thru restaurant.

The site plan depicts a 3,400-square foot restaurant building with a drive-thru lane and a 700-square foot patio space. An existing easement connecting to Summer Creek Drive provides access to this site and surrounding development. 41 off-street parking spaces are being provided to meet minimum ordinance requirements. The site plan complies will all requirements for “E” Neighborhood Commercial zoning and no waivers or specific development standards are being requested.

All immediately surrounding properties are also located within PD 246. There is an existing commercial development to the south of this site that includes a drive-thru coffee shop, restaurant, nail salon, dentist office, and animal clinic. Two other site plan requests within this PD have been submitted and are currently under review – one for a drive-thru restaurant (SP-22-004) and another for general and medical offices (SP-22-006).

Development Impact Analysis

Site Plan Comments

**Zoning and Land Use**
- Please update the following items on the site plan:
  - Revise signature block to read “Director of Development Services” instead of “Director of Planning and Development.”
  - Add the zoning case number: SP-22-005.
  - Canyon Park Drive is a named easement. Please label this on the site plan.
  - Correct the zoning labels for surrounding properties to be “PD 246” Planned Development for “E” Neighborhood Commercial Uses.

**Transportation**
- Sidewalks and Street Lights: Sidewalks and street lights are required for all public and private streets as per City of Fort Worth Standards.

**Fire Department**

FYI COMMENTS:
- The 24’ fire lane is named as Canyon Park Drive.
- Access is provided from Canyon Park Drive and the 24’ Public Access Easement that parallels Summer Creek Drive. IFC 2021/Amendments Ordinance #25388-03-2022 Section 503
- An existing fire hydrant along Canyon Park Drive provided building hose lay. IFC 2021/Amendments Ordinance #25388-03-2022 Sections 507.5.1, 507.5.4, 5, and 6 Fire Hydrants
- IFC 2021/Amendments states hose lay must be no more than 150 from a hydrant to the FDC for sprinkler systems. IFC 2021/Amendments Ordinance #25388-03-2022 Sections 507.5.1
- Minimum fire lane width is 20' and is only required for building hose lay or access. IFC 2021/Amendments Ordinance #25388-03-2022 Sections 503.2.1

7. Site Plan
8. Area Map
9. Future Land Use Map
10. Aerial Photograph
The subject property is located northeast of the intersection of Summer Creek Drive and Sycamore School Road. The current zoning of this site is Planned Development PD 246, which was approved in 2002 to allow all uses in “E” Neighborhood Commercial excluding tattoo parlor and massage parlor; site plan required. Although the zoning was approved in 2002, commercial development within the PD area has only begun in the last five years. The applicant is now submitting the required site plan for 7309 Canyon Park Drive to allow development of new general and medical offices.

The site plan depicts two new medical office buildings (4,500 square feet and 4,000 square feet) and one new general office building (4,000 square feet). All three buildings will be single-story in height. The site will take access from Canyon Park Drive, a named easement, and 52 off-street parking spaces are being provided to meet minimum ordinance requirements. The site plan complies with all requirements for “E” Neighborhood Commercial zoning and no waivers or specific development standards are being requested.

The majority of surrounding lots are also located within PD 246 and are currently vacant. However, a site plan has been approved for daycare use on the property immediately to the west (case SP-20-008) and two other site plans are currently under review for new drive-thru restaurants to the south (cases SP-22-004 and SP-22-005). There is existing commercial development fronting Sycamore School Road that includes a drive-thru coffee shop, restaurant, nail salon, dentist office, and animal clinic.

Property to the north is zoned “A-5” One-Family and is developed with single-family dwellings. A five-foot wide landscaped bufferyard and 20-foot supplemental building setback is required along the property line adjacent to residential. The site plan indicates that the nearest building will be 30 feet from the residential property line.

### Surrounding Zoning and Land Uses

- **North**  “A-5” One-Family / single-family
- **East**  PD 246 / vacant
- **South**  PD 246 / vacant (site plan under review for drive-thru restaurant)
- **West**  PD 246 / vacant (site plan approved for daycare)

### Recent Zoning History

- **ZC-02-270**: Established PD 246 for all uses in “E” Neighborhood Commercial excluding tattoo and massage parlor; site plan required.

- **Site plan cases for properties within Planned Development PD 246:**
  - SP-17-017: retail center (5228 Sycamore School Road)
  - SP-18-012 / SP-20-008: daycare (7345 Canyon Park Drive)
  - SP-21-011: drive-thru restaurant (7621 Summer Creek Drive)
  - SP-22-004: proposed drive-thru restaurant (5216 Sycamore School Road)
  - SP-22-005: proposed drive-thru restaurant (7601 Summer Creek Drive)

   b. Comprehensive Plan Consistency
   c. Economic Development Plan
6. Zoning Map with 300 ft. Notification Area
7. Area Map
8. Future Land Use Map
9. Aerial Photograph
The property is located on the southwest corner of Miller Avenue and Baylor Street, in the Guy E Vance Subdivision, NEZ Area Six, and Council District 5. The subject site, which is just under 40,000 square feet, or approximately 0.916 acres, is currently zoned with the western half designated as “A-5” One Family Residential and the eastern half closer to Miller Avenue (arterial) designated as “E” Neighborhood Commercial. The applicant is seeking to rezone to “R2” Townhouse/Cluster to accommodate a row townhouse development.

No site plan was provided with this application. Please note that “R2” zoning does not require a Site Plan to accompany the application, however providing a site plan on the front end can give staff and officials a better understanding of the intended layout, scope, and function of the proposed development.

The proposed “R-2” Townhouse/Cluster zoning would accommodate townhouse or rowhouse development. “R-2” zoning allows up to 24 dwelling units per acre. Other “R2” development standards are shown below:

<table>
<thead>
<tr>
<th>Townhouse/Cluster (“R2”) District</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Open space</strong></td>
</tr>
<tr>
<td><strong>Units per acre</strong></td>

</tr>
<tr>
<td><strong>Interior lot</strong></td>
</tr>
<tr>
<td><strong>Corner lot</strong></td>
</tr>
<tr>
<td><strong>Height</strong></td>
</tr>
<tr>
<td><strong>Bldg. separation</strong></td>
</tr>
</tbody>
</table>

**Notes:**

* May be subject to projected front yard (see Chapter 6, Development Standards, § 6.101(f), Yards).
** May be subject to other front, side and rear yard setback requirements (see Chapter 6, Development Standards, § 6.101(d), Yards).

(2) **Parking.** Two spaces per dwelling unit, located behind the front building line, except for limited local streets or private access easements, where four spaces shall be required, located behind the front building line or may be provided within the development. For nonresidential uses, see Chapter 6 Development Standards, Article 2 Off Street Parking and Loading, § 6.200.

(3) **Residential design standards.** A site plan for residential development is required.

a. **General.** Under this provision, townhouses, rowhouses or the clustering of residential units may be permitted where such units cluster around a common access road or feed from a loop or cul-de-sac and provided that such development shall conform to the following regulations regarding buildings and structures.

b. **Plat required.** Such properties shall be platted showing the following, if applicable:

c. **Open space.**

d. **One building per lot.** Each residential building shall be located on a separately platted lot.

**Development Impact Analysis**

**Land Use Compatibility**

The applicant is proposing to change the zoning to “R2” Townhouse/Cluster. Surrounding uses are a mixture of single family residential, neighborhood serving retail, and undeveloped properties. The property proposed to be rezoned is situated along a commercial corridor which follows Miller Avenue. This corridor does provide transit services (Trinity Metro bus route #25) and is an ideal location for providing housing with an additional degree of density as proposed. While no site plan was provided or required at this point, it would be sensible for any townhouse units built to not face directly on to Miller but rather along Baylor Street, which is less congested with traffic and can better accommodate curb cuts for drive access.

The proposed zoning is **compatible** with surrounding land uses.
The 2022 Comprehensive Plan designates the eastern “E” zoned portion of the property as future Neighborhood Commercial. Compatible zoning would be: small scale retail/office, mixed use, or apartment home developments.

### FUTURE LAND USE AND ZONING CLASSIFICATIONS

</tr>
<tr>
<td></td>
<td>for a local market area</td>
<td></td>
</tr>
</tbody>
</table>

The western “A-5” zoned portion of the property is designated as future Single Family Residential. This would be analogous to, but not the same as “A-10”, “A-7.5”, “A-5”, and “AR” zoning. The “R2” zoning proposed would require Low Density Residential future designation in order to be in alignment with the Comprehensive Plan. However, the distinctions between Single Family Residential and Low Density Residential are minimal at best, and are both considered to be of similar nature, the latter is just slightly more dense than the former.

The proposed zoning is **not consistent** with the Comprehensive Plan. If the zoning designation is changed for this property, staff would recommend that the Comprehensive Plan be changed to “Low Density Residential” to reflect this change.

### Economic Development Plan

The 2017 Economic Development Strategic Plan identified a vision, goals, and strategies in order to facilitate the success and growth of the City of Fort Worth. The below strategies apply to this project:

**INITIATIVE 3.2. NEIGHBORHOOD ALIGNMENT**

Align neighborhood assets (people, businesses, and real estate) to benefit from and support citywide economic growth.

3.2.2.1. *Provide developer incentives for the creation of new high-quality housing stock on vacant properties. These should include a range of housing types and price points such as single-family homes, townhomes, high-quality multi-family properties, and mixed-use developments with residential units on upper floors and retail/office space on ground floors.*

</tbody>
</table>

* The subject property lies within this Neighborhood Association.
Land Use Compatibility

The applicant is proposing a zoning change to “A-5” One-Family for a single-family home. Surrounding land consist of residential uses to the north, west and south with vacant land to the east.

The proposed zoning request is **compatible** at this location.

Comprehensive Plan Consistency – Arlington Heights

The Comprehensive Plan designates the subject property as single-family residential. The requested zoning change is consistent with the following Comprehensive Plan policies:

- Promote appropriate infill of old commercial centers (greyfields), and contaminated sites (brownfields) within developed areas, particularly in the central city.
- Encourage infill development of compatible, single-family homes in existing neighborhoods to preserve and protect residential neighborhoods.

Based on the conformance with the future land use map and policies stated above the proposed zoning is **consistent** with the Comprehensive Plan.

Economic Development Plan

The 2018 Economic Development Strategic Plan identified a vision, goals, and strategies to facilitate the success and growth of the City of Fort Worth. The below recommendations apply to this project:

**INITIATIVE 3.2. NEIGHBORHOOD ALIGNMENT**

3.2.2. Encourage substantial new housing investment and development in the city’s under-served neighborhoods.
Zoning Map Amendment

Case Manager: Brett Mangum

Owner / Applicant: Ramon Jasso & Ana Gutierrez Jasso

Site Location: 903 E. Powell Avenue

Acreage: 0.138 acres

Request

Proposed Use: Duplex

Request: From: “CF” Community Facilities

To: “B” Two-Family

Recommendation

Land Use Compatibility: Requested change is compatible

Comprehensive Plan Consistency: Requested change is not consistent (technical inconsistency)

Staff Recommendation: Approval

6. Zoning Map with 300 ft. Notification Area
7. Area Map
8. Future Land Use Map
9. Aerial Photograph
The property is within the Southland Subdivision and NEZ Area Six. The proposal to rezone this lot would change the current “CF” Community Facilities zoning to “B” Two-Family zoning, allowing for one (1) duplex unit containing two (2) dwelling units. The lot is approximately 6,000 square feet, and meets the “B” zoning minimum requirements. The existing building on site is currently a duplex, and the rezoning would bring the land use and zoning into agreement.

### Development Impact Analysis

#### Land Use Compatibility

This site is surrounded by “A-5” One Family zoning on two sides, and “CF” Community Facilities on the other two side. The rezoning of this property to “B” would bring the zoning in line with the existing land use. No change in land use will be occurring, an occupied duplex is on site currently and will remain. There is also a bus route (#5) which runs on Evans Avenue, providing public transportation access.
The proposed zoning is compatible with surrounding land uses.

### Comprehensive Plan Consistency – Southside

The 2022 Comprehensive Plan currently designates the subject site as Institutional. This is analogous to but not the same as “CF” Community Facilities zoning. Duplex or “B” Two-Family zoning would be classified as Low Density Residential under the adopted Future Land Use Plan. The property was likely given the designation as future Institutional since it was previously owned by the church that is just to the north of the subject site.

**FUTURE LAND USE** | **DEFINITION** | **ZONING**
--- | --- | ---
SPECIAL | Vacant, Agricultural | AG
| Rivers, Lakes, Streams, 100-Year Flood Plain | Water features, 100-year flood plain | ALL
| Infrastructure | Railroads, airports, utilities | ALL
| Parks, Recreation, Open Space | Public or private recreation, or passive land | ALL
| Institutional | Schools, churches, government, human services, utilities, community centers, day cares | Schools and Churches: ALL Others: CF

**RESIDENTIAL**

<table>
<thead>
<tr>
<th>Type</th>
<th>Definition</th>
<th>Zoning</th>
</tr>
</thead>
<tbody>
<tr>
<td>Rural Residential</td>
<td>1+ acre single-family</td>
<td>A-2.5A, A-43</td>
</tr>
<tr>
<td>Suburban Residential</td>
<td>1/2+ acre single-family</td>
<td>A-21</td>
</tr>
<tr>
<td>Manufactured Housing</td>
<td>Manufactured home parks and subdivisions</td>
<td>MH</td>
</tr>
<tr>
<td><strong>Low Density Residential</strong></td>
<td>2,500+ sq. ft. lot single-family, two-family, patio homes, townhouses, cluster housing</td>
<td>B, R1, R2</td>
</tr>
</tbody>
</table>

While the proposed zoning of “B” is not consistent with the Comprehensive Plan Future Land Use designation, it is only a technical inconsistency since it was only classified in this way based on the previous ownership by the church. If this property had been privately owned at the time the initial Comprehensive Plan designations were assigned, the future land use designation would have likely been different and more in alignment with the existing land use (duplex). If this zoning change request is approved, staff recommends that the Future Land Use Map also be updated to reflect this change.

### Economic Development Plan

The 2017 Economic Development Strategic Plan identified a vision, goals, and strategies to facilitate the success and growth of the City of Fort Worth. Six different target areas in Fort Worth were identified and analyzed. The subject property is within one of the six target areas, with detailed strategies shown below:
TARGET AREA: EVANS & ROSEDALE

FIGURE 4. EVANS & ROSEDALE SNAPSHOT

OVERVIEW

Evans & Rosedale is one of the two smallest and least population-dense of the target areas. Its majority Black or African American residents have the lowest household income of all six areas. With large swaths of vacant land and proximity to the Near Southside medical district, Evans & Rosedale is a strong candidate for revitalization and new development. The City of Fort Worth has already made moves to improve this district. The City has included Evans and Rosedale as one of two areas covered by its Urban Village Development Program. This program is designed to revitalize older, once-vibrant districts and their surrounding neighborhoods by creating mixed-use nodes and walkable neighborhoods with distinct character that builds on their history and reflects what makes them unique. The target area also aligns with the Evans & Rosedale Neighborhood Empowerment Zone, which offers special incentives for rehabilitation projects within the area. The primary challenge in improving this target area will be balancing the needs of an underserved population with economic strategies that will benefit the city.

PRIMARY CONSIDERATIONS

- The City should continue its revitalization efforts supported by the Evans & Rosedale Neighborhood Empowerment Zone and the Urban Village Development program, with a special focus on existing businesses.
- As the primary landowner in the Evans and Rosedale area, the City should use the land to promote the kind of walkable, mixed-use, mixed-income urban development desired by the community and detailed in the 2005 Urban Village Master Plan.
- Close attention should be paid to improving housing availability and affordability, in addition to infrastructure to connect neighborhoods with major employment centers such as the Near Southside and downtown.
Zoning Map Amendment

9. Aerial Photograph
The subject site is located in the northwest corner of Merrimac Street and Foch Street, in the Linwood Neighborhood. It is the first lot that fronts off of Foch Street; its neighbor to the south faces Merrimac Street. The site is currently vacant; the single-family home that previously occupied the lot was demolished in 2018. The applicant is requesting to rezone from “B” Two-Family to “UR” Urban Residential to build townhomes.

The Linwood area has had a lot of redevelopment in recent years. It is a desirable neighborhood for creating the walkable, pedestrian friendly type of Urban Residential housing, as it is located adjacent to the West 7th Urban Village, which has a mix of residential, restaurant, entertainment, retail, office, and other uses.

The lot has a few trees on it; all development will be subject to the appropriate requirements of the Urban Forestry Ordinance.

### Surrounding Zoning and Land Uses

- North “B” Two-Family / Residential Duplex

Land Use Compatibility

The applicant is requesting to rezone from “B” Two-Family to “UR” Urban Residential with the intention to build townhomes. The surrounding land uses are apartment, townhome, duplex, and single family. The rear of the lot is adjacent to the neighborhood park. In multiple directions from the site are commercial uses within 500-1000 feet, as well.

The proposed zoning is **compatible** with surrounding land uses.

Comprehensive Plan Consistency – Arlington Heights

The 2021 Comprehensive Plan currently designates the subject property as Urban Residential on the Future Land Use Map. Below is an excerpt of the table from Ch. 4 Land Use of the Comprehensive Plan, which shows “UR” Urban Residential zoning as the only appropriate zoning type in the Urban Residential designation of Future Land Use.

### FUTURE LAND USE AND ZONING CLASSIFICATIONS

</table>

The proposed zoning is consistent with the land use designations for this area, and aligns with the following policies and strategies of the Comprehensive Plan:

- Locate multifamily units within walking distance of public transportation, employment, recreation, and/or shopping to increase accessibility and decrease vehicular traffic.

- Support diverse housing options, including duplexes, fourplexes, townhomes, and small courtyard apartments to promote walkable communities, access to neighborhood services, and multimodal transportation options, while ensuring compatibility with the form, sale, and design of existing neighborhoods.
• Encourage urban residential development in appropriate locations to create more walkable, pedestrian-oriented neighborhoods.

Based on conformance with the policies stated above, the proposed zoning is consistent with the Comprehensive Plan.

Economic Development Plan

The 2018 Economic Development Strategic Plan identified four different results to facilitate the success and growth of Fort Worth:

1. High-wage job growth.
2. A more sustainable tax base, driven less by residential property valuation and more by commercial and industrial investment.
3. An economy that capitalizes on high-growth businesses and the creative individuals who fuel them, targeting specific industry classifications.
4. A commitment to “quality of place” throughout the community, including rising home values, new business startups, reduction of blighted areas, and the emergence of walkable corridors with a mixture of residential and commercial developments and related amenities.

These properties are located within the Downtown Mixed-Use Growth Center. They are bounded to the South by W. Bluff Street, North by Parr Street, and to the East and the West by railroad tracks. This area is historically known as Rock Island.

The applicant is proposing to rezone from the properties from various zoning districts to “PD/H” plus brewery and distillery and the site plan waived. The site plan will be reviewed by the Downtown Design Review Board prior to building permit being issued because the properties will remain in the Downtown Urban Design District.

The properties are currently vacant land or dilapidated houses and the applicant would like to develop townhomes and various smaller mixed-use phase developments.

Land Use Compatibility

The site is located in what is historically known as Rock Island. The surrounding area is a combination of multifamily apartments, single family housing and, commercial and industrial uses. As development in the Central Business District intensifies, pressure to the adjacent parcels not eligible to be zoned to “H” Central Business District has increased. There currently is not a zoning district that is sustainable for these areas that are located within the Downtown Mixed -Use Growth but not the Central Business District. As a result, staff has recommended “PD/ H” with a 10 story height limit. This is similar to what occurs on the northside of the Central Business District along Samuels Avenue.

The proposed zoning is compatible with surrounding land uses.

Comprehensive Plan Consistency – Downtown

The 2021 Comprehensive Plan currently designates the subject property as Mixed Use.

The proposed zoning is consistent with the land use designations for this area, and aligns with the following policies of the Comprehensive Plan:

- Identify and designate on future land use maps regional and community mixed-use growth centers in rapidly developing areas, based on proximity to future rail transit and key transportation intersections.
- Accommodate higher density residential and mixed uses in transit-oriented developments, urban villages, and designated mixed-use growth centers.
- Link growth centers with major thoroughfares, public transportation, trails, and linear parks.
- Locate multifamily units within walking distance of public transportation, employment, recreation, and/or shopping to increase accessibility and decrease vehicular traffic.

Based on conformance with the policies stated above, the proposed zoning is consistent with the Comprehensive Plan.

Economic Development Plan

The 2018 Economic Development Strategic Plan identified a vision, goals, and strategies to facilitate the success and growth of the City of Fort Worth. Six different target areas in Fort Worth were identified and analyzed. The below recommendations apply to this project:

- Rapidly increased residential units in downtown and downtown adjacent neighborhoods.

The subject property is located at the southeast corner of South Hills Avenue and Stadium Drive, being the location of McLean 6th Grade School. Public schools are an allowed land use in all standard zoning districts, and the subject property is currently zoned “A-5” One-Family in the TCU Residential Overlay. However, the applicant is requesting a zoning change to “CF” Community Facilities in the TCU Residential Overlay in order to allow an electronic sign to be installed on the property.

Electronic changeable copy signs may be permitted by special exception in commercial, industrial, mixed-use, and community facility zoning districts (subject to the provisions of Section 6.411 of the Zoning Ordinance). Therefore, if this zoning change is approved, the applicant will also need to seek approval of a Special Exception from the Board of Adjustment.

Land Use Compatibility

The applicant is requesting to change the zoning of this property from “A-5” One-Family District in the TCU Residential Overlay to “CF” Community Facilities in the TCU Residential Overlay, which is an appropriate zoning designation for the current use of the site as a public school. The surrounding properties are developed for single-family, multifamily, or institutional uses. A private school located is on the same block as the subject property to the south, another public school is located across Stadium Drive to the southwest, and residential uses surround the site to the north, east, and west.

The proposed zoning is **compatible** with surrounding land uses.

Comprehensive Plan Consistency – TCU/Westcliff

The 2022 Comprehensive Plan currently designates the subject property as “Institutional” on the Future Land Use Map. This designation is intended to include “Schools, churches, government, human services, utilities, community centers, and day cares.” The Comprehensive Plan specifically labels “CF” Community Facilities as the appropriate zoning classification for properties designated for Institutional use. The current use of the site as a public school conforms to this designation.

Development Impact Analysis

Land Use Compatibility

The surrounding properties range from single family residences to multifamily. Historically the Fairmount neighborhood has been comprised of single-family residences that often have accessory dwelling units, duplex and apartment complexes.

The proposed zoning is **compatible** with surrounding land uses.

Comprehensive Plan Consistency – Southside

The 2021 Comprehensive Plan currently designates the subject property as Low Density Residential.

The proposed zoning is not consistent with the land use designations for this area, and aligns with the following policies of the Comprehensive Plan:

- Encourage urban residential development in appropriate locations to create more walkable, pedestrian-oriented neighborhoods.
- Promote adaptive re-use of older buildings and the renovation of existing multifamily units.
- Encourage office and high-density residential uses which will support area commercial uses.

Based on conformance with the policies stated above, the proposed zoning is **not consistent** with the Comprehensive Plan.

Economic Development Plan

The 2018 Economic Development Strategic Plan identified a vision, goals, and strategies to facilitate the success and growth of the City of Fort Worth. One goal is that residential density should be increase in downtown adjacent neighborhoods.
Case Manager: Brett Mangum

Owner / Applicant: R Zeligson & I. Frank Trusts / GCRE Investment Fund LLC, Jordan Snyder

The subject site is located near the intersection of South Hulen Street and Risinger Road, in Council District 6. The site has a limited amount of frontage on Risinger Road, however a majority of the site faces South Hulen Street, which would likely be the main ingress/egress point. The applicant is requesting to change to zoning of this property from “E” Neighborhood Commercial to “D” High Density Multifamily, to accommodate “a proposed affordable housing development targeted towards the elderly population (55+)” according to their rezoning application. If “D” zoning is approved, this would allow densities up to 32 dwelling units per acre, or up to 218 units on site.

In addition to density caps, any proposed development will need to meet all other “D” development standards, including minimum 35% Open Space, 20 foot street side setbacks, 5 foot side and rear setbacks, 48’ maximum height, one parking space per bedroom plus one space per 250 square foot of common area, and a minimum of 20 points from the enhanced landscape table. Buildings must be oriented with the long side facing the street, parking towards the interior of the site, and no driveways, fences, or parking between the building façade and any street frontage.

Surrounding Zoning and Land Uses

North  “E” Neighborhood Commercial / retail, fast food, bank
East  “E” Neighborhood Commercial / church
South  “E” Neighborhood Commercial / undeveloped
West  “E” Neighborhood Commercial / auto parts retail, oil change

Land Use Compatibility

Surrounding land uses consist of mostly retail establishments, a church to the east, and undeveloped land to the south. A majority of the site is covered by private deed restrictions put in place to limit competition from the established retail businesses at the intersection of Risinger & Hulen. The primary access for the site has not been determined yet, however based on current median cuts it is unlikely that a full ingress/egress point will be available on the Risinger Road side. This means the likely main access point for any multifamily development on this site would be off of the existing shared public access easement at S. Hulen Street. Access concerns mean that developing the site for retail as currently zoned would be difficult at best.

A new apartment community at this site would not be disruptive to existing uses in the vicinity. Proximity to thoroughfares (Risinger Road and South Hulen Street) is also favorable for multifamily projects. Overall, the proposed zoning is compatible with surrounding land uses.

Comprehensive Plan Consistency – Far South

The 2022 Comprehensive Plan currently designates the subject property as future Neighborhood Commercial. Multifamily Residential is explicitly stated as an acceptable zoning designation for Neighborhood Commercial designated areas on the Comprehensive Plan.

The proposed zoning is consistent with the future land use designation for this area.

Economic Development Plan

The 2017 Economic Development Strategic Plan calls for the City to allow development of a diverse range of high quality housing with a range of types and price points. The apartment community proposed would fit into this objective.

3.2.2. Encourage substantial new housing investment and development in the city’s under-served neighborhoods.

3.2.2.1. Provide developer incentives for the creation of new high-quality housing stock on vacant properties. These should include a range of housing types and price points such as single-family homes, townhomes, high-quality multi-family properties, and mixed-use developments with residential units on upper floors and retail/office space on ground floors.

7. Area Map  
8. Future Land Use Map  
9. Aerial Photograph
The subject site is located on the south side of West 5th Street, between Currie Street and Foch Street, in the Linwood Neighborhood.

The applicant is requesting to rezone lots 7 and 8 from “C” Medium Density Multifamily to “E” Neighborhood Commercial. Lot 7 is currently a parking lot and will remain as a parking lot; lot 8, which is currently undeveloped and has been undeveloped for at least the past 15 years, will be developed as an office. The office is for the same company, Village Homes, that already occupies an office building adjacent to the east of the site.

While the applicant is requesting “E” Neighborhood Commercial, staff recommends rezoning to “MU-1” Low Intensity Mixed-Use. Upon review of the rezoning application, staff asked if the applicant would be willing to revise the application to request “MU-1” Low Intensity Mixed-Use, but the applicant declined.

The site is just a block outside of the bounds of the West 7th Urban Village to the east and the south. The Urban Village was designated to encourage higher quality and higher density development. Properties near the site have been rezoned to MU-1, MU-2, and UR zoning as part of the implementation of the Urban Village plan. This site is also located within the Cultural District Mixed-Use Growth Center, which is a Regional Growth Center.

In recent years, this area of Linwood has been redeveloping to a more urban form; recent rezonings in the last five (5) years have been to Mixed-Use or Urban Residential. A large portion of this block face has been rezoned to Mixed-Use or Urban Residential zoning. There is an existing office building in the middle of the block zoned “I” Light Industrial, and two (2) residential homes that are in “CF” Community Facilities zoning. The existing parking lot at the corner of Currie Street and 5th Street, adjacent to the west of the subject site, was recently approved by City Council to rezone from “C” Medium Density Multifamily to “MU-1” Low Intensity Mixed-Use for townhomes. If the proposed site were rezoned to “MU-1”, it would continue the form along the block face. The other corner of the block face along Foch Street has rezoned to “UR” Urban Residential.

Rezoning this site to “MU-1” Low Intensity Mixed-Use is more appropriate than the proposed “E” Neighborhood Commercial, given the context of the site. It would provide the urban and pedestrian-oriented form that the area is moving towards. The uses allowed in the “MU-1” Low Intensity Mixed-Use district are based on the uses allowed in the requested “E” Neighborhood Commercial district, so the proposed use would still fit into the “MU-1” district, but with a better form and design that matches the redevelopment and vision for the area.

Development Impact Analysis

Land Use Compatibility

The applicant is requesting to rezone from “C” Medium Density Multifamily to “E” Neighborhood Commercial, to keep the existing parking lot and develop the vacant lot for an office building. The surrounding land uses are townhome, single family residential, a church, and commercial. The proposed zoning is compatible with surrounding land uses.

Comprehensive Plan Consistency – Arlington Heights

The 2021 Comprehensive Plan currently designates the subject property as Mixed-Use on the Future Land Use Map. The site is part of the Cultural District Mixed Use Growth Center, which is a Regional Growth Center. Regional Growth Centers are designated as more intensive development.
While technically the requested “E” Neighborhood Commercial is consistent with the Comprehensive Plan, staff believes rezoning to “MU-1” Low Intensity Mixed-Use more appropriately meets the intent of the Comprehensive Plan.

Below are policies and strategies of the Comprehensive Plan that are satisfied by both the applicant-proposed “E” Neighborhood Commercial and the staff-proposed “MU-1” Low-Intensity Mixed-Use zonings:

- Promote commercial and urban residential development within the Cultural District and Clear Fork Mixed-Use Growth Centers.
- Promote appropriate infill development of vacant lots within developed areas, which will efficiently utilize existing infrastructure.

However, the below points are all supportive of the “MU-1” Low Intensity Mixed-Use zoning as a more appropriate zoning category for the site, based on the more intense urban form of development.

- Accommodate higher density residential and mixed uses in transit-oriented developments, urban villages, and designated mixed-use growth centers.
- Promote traditional neighborhood and other pedestrian-oriented developments, which encourage human interaction, walking, bicycling, mixed uses, slower traffic, public places, and attractive streetscapes.
- Evaluate and revise zoning and land use regulations to allow and encourage dense mixed-use development (office, hotel, retail/restaurant, and residential) along key corridors radiating out from downtown Fort Worth.
- Promote a desirable combination of compatible residential, office, retail, commercial, and selected light industrial uses in the mixed-use and urban residential zoning districts of the West Seventh Urban Village.

In the “Vacant Land” section of Chapter 4 of the Comprehensive Plan, it states:

- Fort Worth has more vacant developable land (over 66,000 acres) than any other city in the Dallas-Fort Worth metro area. …Fort Worth’s vacant developable land provides a unique opportunity for the city to accommodate a significant amount of future growth. Innovative and sustainable strategies such as multiple growth centers, mixed-use and urban residential development, and transit-oriented development will help to ensure that future growth contributes to a strong, financially healthy, and highly livable community.

In the “Growth Centers” section of Chapter 4 of the Comprehensive Plan, it states:

- The multiple growth centers concept promotes compact urban land use within designated areas and lower intensities of land use elsewhere.”
- Mixed-use growth centers are highly urbanized places containing many characteristics of a downtown including a high concentration of jobs and housing, schools, parks, and other public facilities, public
transportation hubs, and pedestrian activity. Its predominant land uses are residential and commercial. Within a small geographic area, different land uses are found side by side or within the same building. These places tend to be bustling and diverse, with a sense of place.

Developing the site to a more intense urban form, such as “MU-1”, would provide the pedestrian-focused environment and a greater sense of place than developing the site as “E” Neighborhood Commercial.

While the proposed “E” Neighborhood Commercial zoning technically conforms with the future land use and the first two bullets above, a rezoning to “MU-1” Low Intensity Mixed-Use better conforms to the proposed vision for the redevelopment for the area by providing a pedestrian-friendly, intensive, urban form that creates a greater sense of place. Given the context of the site, staff recommends rezoning to “MU-1” Low Intensity Mixed-Use.

Economic Development Plan

The 2018 Economic Development Strategic Plan identified four different results to facilitate the success and growth of Fort Worth:

1. High-wage job growth.
2. A more sustainable tax base, driven less by residential property valuation and more by commercial and industrial investment.
3. An economy that capitalizes on high-growth businesses and the creative individuals who fuel them, targeting specific industry classifications.
4. A commitment to “quality of place” throughout the community, including rising home values, new business startups, reduction of blighted areas, and the emergence of walkable corridors with a mixture of residential and commercial developments and related amenities.

The proposed site is at the southeast corner of Crowley Road and California Parkway, also known as the service road for Southwest Loop 820. The site was developed in 1974 and has been used for auto sales since 2005. Commercial uses are found along the Loop 820 service road and on the east side of Crowley Road. A house of worship lies across Crowley Road to the west, with Loop 820 bordering the site to the north. Single-family and multifamily uses are found immediately beyond the commercial and institutional uses. The applicant is requesting “E” Neighborhood Commercial for a convenience store with gasoline and alcohol sales on an approximately 0.89 acre lot. The applicant intends to demolish the existing buildings and redevelop the site to the current development standards.

Development Impact Analysis

Land Use Compatibility

The applicant is proposing to change the zoning of this site from “FR” General Commercial Restricted and “PD 557” Planned Development for “FR” General Commercial Restricted uses to “E” Neighborhood Commercial. The site is a major intersection of an arterial roadway and freeway, designed for traffic from the larger community. Properties to the north, east, and south are zoned “E” or more intensively and are used for
multifamily or commercial uses. A single family neighborhood lies to the west, with an institutional use closest to the rezoning site. A new convenience store with gasoline and alcohol sales is anticipated, which will cause the site to be redeveloped under the current zoning standards.

The proposed zoning request is compatible with surrounding land uses due to the comparable zoning and land uses adjacent to the site, as well as the significant street intersection.

**Comprehensive Plan Consistency – Sycamore Sector**

The 2022 Comprehensive Plan currently designates the subject property as “General Commercial” on the Future Land Use Map. The requested land uses would be included in the list of zoning districts envisioned for the Neighborhood Commercial category, as detailed in the excerpt from the Comprehensive Plan below.

<table>
<thead>
<tr>
<th>COMMERICAL</th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>Neighborhood Commercial</td>
<td>Retail, services, offices and mixed uses serving daily needs</td>

</tr>
<tr>
<td>Multifamily Residential, ER,</td>
<td>E, MU-1</td>
</tr>
<tr>
<td>Multifamily Residential,</td>
<td>All Commercial, MU-1, MU-2</td>
</tr>
</tbody>
</table>

The proposed zoning is consistent with the land use designations for this area and with the following policies of the Comprehensive Plan:

- Promote appropriate infill development of vacant lots, old commercial centers (greyfields), and contaminated sites (brownfields) within developed areas, particularly in the central city.
- Encourage new development adjacent and connected to previously developed or platted areas in order to utilize existing utility and road infrastructure and services, thereby optimizing public and private investments and discouraging sprawl development.
- Attract freeway commercial uses that portray a positive image and lasting investment.

Based on conformance with the future land use map and with the policies stated above, the proposed zoning is consistent with the Comprehensive Plan.

**Economic Development Plan**

The 2021 Economic Development Strategic Plan identified four different results to facilitate the success and growth of Fort Worth:

1. High-wage job growth.
2. A more sustainable tax base, driven less by residential property valuation and more by commercial and industrial investment.
3. An economy that capitalizes on high-growth businesses and the creative individuals who fuel them, targeting specific industry classifications.
4. A commitment to “quality of place” throughout the community, including rising home values, new business startups, reduction of blighted areas, and the emergence of walkable corridors with a mixture of residential and commercial developments and related amenities.

This zoning request does not assist in high-wage job growth, is not a targeted high-growth industry, but the new development will contribute to the quality of place.
Zoning Map Amendment

Case Manager: Sarah Bergman

Owner / Applicant: Oncor Electric Delivery Co. LLC

Site Location: 2300 block E. Maddox Avenue  Acreage: 3.67 acres

Request

Proposed Use: Electrical Substation

Request: From: “B” Two-Family

To: “PD/I” Planned Development for all uses in “I” Light Industrial excluding outdoor sales and storage, towing yard, and automotive repair, plus electrical substation with a maximum building height of 65 feet; site plan included

Recommendation

Land Use Compatibility: Requested change is compatible.

Comprehensive Plan Consistency: Requested change is consistent.

Staff Recommendation: Approval

7. Site Plan
8. Area Map
9. Future Land Use Map
10. Aerial Photograph
The subject property is located at the southwest corner of Maddox Avenue and Duval Street, just east of Highway 287. The site is currently zoned “B” Two-Family and it is developed with an electrical substation. The applicant (Oncor Electric) is proposing to expand the existing substation, and therefore is requesting to rezone the property to “PD/I” Planned Development for all uses in “I” Light Industrial District excluding outdoor sales and storage, towing yard, and automotive repair, and adding electrical substation. The applicant originally requested “J” Medium Industrial as the base zoning district for this PD, but the request was revised to “I” Light Industrial after discussion with staff and concern regarding intensity of allowed land uses and maximum building height.

The site plan included with the PD request shows the addition of four new transformers and two control center buildings near the north end of the site. The control centers will be unmanned. The maximum structure height proposed for this project is 65 feet (static mast height). A portion of this site is located within the FEMA 100-year floodplain, and therefore several new retaining walls are proposed in addition to chain link perimeter fencing.

Surrounding property to the west and south is zoned and developed for industrial use. Property to the north and east is zoned “B” Two-Family and is located within the boundary of Cobb Park. There is significant floodplain area on these properties due to the location of Sycamore Creek. Therefore, future residential development in close proximity to the subject property is unlikely.

This project conforms to all development requirements for the “I” Light Industrial District, with the exception of maximum building height. The maximum height allowed in “I” District is three stories or 55 feet, and the maximum height proposed for this site is 65 feet. Therefore, the applicant is requesting a specific development standard as part of their PD request as described in the table below. Electrical substations are exempt from standard urban forestry and landscaping requirements. No other waivers or development standards are requested.

Development Impact Analysis

Land Use Compatibility

The applicant is proposing to change the zoning of this property from “B” Two-Family District to “PD/I” Planned Development for certain uses in “I” Light Industrial plus electrical substation. There is an existing electrical substation on this property that appears to have been in place since the 1950s. Surrounding property to the west and south is zoned for light industrial use. The site directly to the west is used for outdoor storage of building materials, and the site to the south is developed with a warehouse building.

Properties to the north and east are zoned “B” Two-Family, but they are part of Cobb Park and are entirely covered by floodplain area for Sycamore Creek. This floodplain boundary is nearly 1,000 feet in width and extends onto a portion of the subject property. Future residential development within the nearby “B” zoning is unlikely.

The proposed zoning is **compatible** with surrounding land uses.

Comprehensive Plan Consistency – Southside

The 2021 Comprehensive Plan currently designates the subject property as “Infrastructure” on the Future Land Use Map. The proposed use of the property as an electrical substation meets the intent of this designation.

<table>

The proposed zoning is **consistent** with the Comprehensive Plan.
Site Plan Comments

Zoning and Land Use
- All zoning comments have been addressed with the current site plan.

Fire Department
- Reference FS-21-215 and VA-20-023. No other comments.

General information:
- Failure to recognize violations of the fire code by the fire code official does not waive the requirement of meeting minimum requirements of the fire code in the future.
- It is the applicant's and the owner's responsibility to meet all minimum fire code requirements at all times.
- The City of Fort Worth has adopted the 2021 International Fire Code as its current fire code at the time of this review. The City of Fort Worth has also adopted Amendments that are available by searching the City Secretary's site for Ordinance #25388-03-2022.

(Comments made by Platting (Subdivision Ordinance), Transportation/Public Works, Fire, Park & Recreation, and Water Department staff cannot be waived through the Zoning Commission and City Council. Approval of the zoning site plan does not constitute the acceptance of conditions.)

Project Description and Background

The subject property is located along the west side of the West Loop 820 Freeway, south of Chapin Road. The 57-acre site is currently vacant except for a gas well and the applicant is requesting to rezone this property from “AG” Agricultural to “I” Light Industrial to allow for a new warehouse development in this location.

Surrounding properties on the south side of Chapin Road are also zoned “AG” Agricultural District, and property to the north is zoned “I” Light Industrial District and “G” Intensive Commercial. Similar rezoning cases have been approved for property north of this site in recent years, creating a large area of “I” Light Industrial zoning northwest of the Chapin Road and Alemeda Street intersection that is beginning to develop for warehouse and industrial use.

Marys Creek is located to the south of this site, including a large area of FEMA 100-year floodplain that extends onto the subject property. No new development is proposed within the floodplain area. The Montserrat Subdivision, zoned a combination of “A-21” and “A-43” One-Family, is located to the south of Marys Creek and is developed with single-family homes on large lots. The closest residence in this subdivision is located approximately 900-ft from the subject property.

Surrounding Zoning and Land Uses

North  “G” Intensive Commercial / vacant, vehicle sales dealerships located further north
East  West Loop 820 Freeway
South  “AG” Agricultural / vacant, floodplain; further south: “A-21” One-Family / single family dwellings
West  “AG” Agricultural / single-family home and landscape business

Recent Zoning History

- ZC-21-002: Rezoned 68.73 acres of land northwest of the subject property from “AG” Agricultural and Planned Development “PD 703” to “I” Light Industrial.

Public Notification

300-foot Legal Notifications were mailed on April 1, 2022.

</tr>
</tbody>
</table>

* This Neighborhood Association is located closest to the subject property
Land Use Compatibility

The applicant is requesting to rezone this property from “AG” Agricultural to “I” Light Industrial. All property immediately adjacent to this site is zoned “AG” Agricultural District. The site is bounded to the east by the West Loop 820 Freeway, and the parcel to the west appears to be developed with a single-family home and a commercial landscaping business. Property to the north is zoned “G” Intensive Commercial district and is developed with two car dealerships along the highway frontage. The majority of land on the west side of Alemada Street, northwest of the subject property, is zoned “I” Light Industrial including approximately 70 acres of land that were rezoned for industrial use in April 2021.

Marys Creek is located to the south of this site, including a large area of FEMA 100-year floodplain that extends onto the subject property. The Montserrat Subdivision, zoned a combination of “A-21” and “A-43” One-Family, is located to the south of Marys Creek and is developed with single-family homes on large lots. However, the floodplain area that separates this neighborhood and the subject property measures approximately 1,200 feet wide and is heavily wooded, providing a buffer between the two uses. In addition, no direct connection between the residential area and subject property is proposed.

The proposed zoning is **compatible** with surrounding land uses.

Comprehensive Plan Consistency – Far West

The 2021 Comprehensive Plan currently designates the northern portion of the subject property, closest to Chapin Road, as “General Commercial” on the Future Land Use Map. The remainder of the property is designated as “Rural Residential.” The proposed “I” Light Industrial zoning is not designated as an appropriate zoning district within either of these categories, as shown below.

![Table of Land Use Categories and Designations](chart.png)
Although this site does have direct access to the Loop 820 Freeway and Chapin Road (an arterial roadway), Chapin currently serves as a dividing line between industrial uses to the north and agricultural and residential uses to the south. The Future Land Use does anticipate lower-intensity commercial development at the north end of the subject property, which would provide a transition from the industrial uses to the north of Chapin Road and residential uses to the south.

The proposed zoning is **not consistent (significant deviation)** with the Comprehensive Plan.

**Economic Development Plan**

The 2018 Economic Development Strategic Plan identified four different a vision, goals, and strategies to facilitate the success and growth of the City of Fort Worth. The below recommendations apply to this project:

**PERFORMANCE METRICS**

2. A more sustainable tax base, driven less by residential property valuation and more by commercial and industrial investment.
Zoning Staff Report

9. Aerial Photograph
Project Description and Background

The property is within the Hyde Park Addition and NEZ Area Six. The present owner is listed as the intended developer of the property on the application. The proposal to rezone this lot would change the current “A-5” zoning to “B” zoning, going from an allowance for one (1) single family dwelling unit to an allowance for one (1) duplex unit containing two (2) dwelling units. The lot is approximately 5,800 square feet, and can be developed with two (2) attached units, but does not have enough room to build two (2) detached units. Other “B” standards are 50% maximum building coverage on the lot, 20-foot front yard setback (along E. Allen Avenue), 5-foot side and rear yard setbacks, 35-foot maximum height, and 2 parking stalls per dwelling unit, situated behind the front building line.

Neighborhood Empowerment Zones (NEZ's) promote housing and economic development in central city neighborhoods of Fort Worth. Municipal property tax abatements, fee waivers, and release of city liens are available to property owners who build or rehabilitate property within NEZ's. These incentives are designed to promote affordable housing, economic development and expanded services.

Surrounding Zoning and Land Uses

*Located within this registered Neighborhood Association
Land Use Compatibility

The current zoning of “A-5” would allow construction of one (1) single family dwelling unit. The proposed zoning of “B” Two-Family would allow construction of two (2) dwelling units, which would likely be an attached duplex based on the dimensions of the lot.

While the majority of homes in this vicinity are single family residential, the property is directly adjacent to an approved quadplex to the west. To the east and north are dedicated but unbuilt public alleys that separate the subject site from the neighboring single family properties. E. Allen Avenue is identified on the City’s Master Thoroughfare Plan as a neighborhood connector arterial, and provides a buffer between single family properties to the south. Additionally, there are two (2) transit lines within a block’s walk of this site (Trinity Metro bus routes 4 & 5) which help to make the case for slightly more intensive development than the current A-5 zoning.

Based on proximity to transit, the fact that the site does not directly abut any single family uses, and the ability of the duplex to transition between the existing quadplex, the proposed zoning is compatible with surroundings.

Comprehensive Plan Consistency – Southside

The 2022 Comprehensive Plan currently designates the subject property as future Single-Family Residential. This is analogous to but not the same as “A-5”, “A-7.5”, “A-10”, and “AR” zones. Duplex or “B” Two-Family zoning would be classified as Low Density Residential under the adopted Future Land Use Plan. The difference between Single Family Residential and Low Density Residential is negligible as both have a residential character. A duplex would be slightly more intense than a single family residence, but both would be less intensive uses than commercial or industrial zoning.

The proposed zoning is not strictly consistent with the land use designation for this area, however the proposed zoning would be in alignment with the following policies of the Comprehensive Plan:

- Promote a variety of housing choices
- Encourage infill of compatible housing

While the proposed use is in conformance with the policies stated above, the proposed zoning is not consistent with the Comprehensive Plan Future Land Use designation. If this zoning change request is approved, staff recommends that the Future Land Use Map also be updated to reflect this change.

Economic Development Plan

The 2017 Economic Development Strategic Plan identified a vision, goals, and strategies to facilitate the success and growth of the City of Fort Worth. Six different target areas in Fort Worth were identified and analyzed. The subject property is within one of the six target areas, with detailed strategies shown below:
TARGET AREA: EVANS & ROSEDALE

OVERVIEW

Evans & Rosedale is one of the two smallest and least population-dense of the target areas. Its majority Black or African American residents have the lowest household income of all six areas. With large swaths of vacant land and proximity to the Near Southside medical district, Evans & Rosedale is a strong candidate for revitalization and new development. The City of Fort Worth has already made moves to improve this district. The City has included Evans and Rosedale as one of two areas covered by its Urban Village Development Program. This program is designed to revitalize older, once-vibrant districts and their surrounding neighborhoods by creating mixed-use nodes and walkable neighborhoods with distinct character that builds on their history and reflects what makes them unique. The target area also aligns with the Evans & Rosedale Neighborhood Empowerment Zone, which offers special incentives for rehabilitation projects within the area. The primary challenge in improving this target area will be balancing the needs of an underserved population with economic strategies that will benefit the city.

PRIMARY CONSIDERATIONS

- The City should continue its revitalization efforts supported by the Evans & Rosedale Neighborhood Empowerment Zone and the Urban Village Development program, with a special focus on existing businesses.

- As the primary landowner in the Evans and Rosedale area, the City should use the land to promote the kind of walkable, mixed-use, mixed-income urban development desired by the community and detailed in the 2005 Urban Village Master Plan.

- Close attention should be paid to improving housing availability and affordability, in addition to infrastructure to connect neighborhoods with major employment centers such as the Near Southside and downtown.

9. Aerial Photograph  
10. Site Plan
The applicant is requesting a zoning change from “PD/SU” Planned Development/Specific Use, for all uses in “E” Neighborhood Commercial; excluding the following: Massage Parlor or tattoo parlor. Site plan waived to “PD/F” Planned Development for all uses in “F” General Commercial plus hotel, site plan included. A PD is required because the property is within 1,000 feet of a residential district and the hotels are first allowed by right within “FR” General Commercial.

The applicant intends to construct a three story, 88 guest room StayApt Suites brand hotel. The site is located within close proximity to a Walmart, restaurants, and retail. However, the bulk of commercial development is centered towards White Settlement Rd. The proposed hotel would be located across the street from the entrance to an existing single-family development. The site that was purposely zoned to PD/E from “C”, in 2005, despite “G” Intensive Commercial zoning adjacent the site. Staff is concerned that the proposed use may be too intense at this location.

Surrounding Zoning and Land Uses

North  “G” Intensive Commercial / Walmart, school
East  “G” Intensive Commercial / grocery store, retail
South  “G” Intensive Commercial; “A-5” One-Family/ vacant, commercial, single-family
West  “CF” Community Facilities; “A-5” One-Family/ single-family

Recent Zoning History

- ZC-05-131 from “C” Medium Density Multifamily to “PD/SU” Planned Development/Specific Use, for all uses in “E” Neighborhood Commercial; excluding the following: Massage Parlor or tattoo parlor. Site plan waived (Subject Site)

Land Use Compatibility

The applicant is proposing a zoning change to “PD/F” Planned Development for all uses in “F” General Commercial plus hotel. Surrounding land uses vary with a Walmart to the north, grocery store and retail to the east, single-family and commercial south, and single-family to the west. The majority of current commercial land uses face Clifford Street/White Settlement Rd. The proposed hotel would be located directly across the street from single-family uses. In addition, the subject property was rezoned in 2005 to reflect more neighborhood commercial friendly uses. Despite the heavier commercial within the vicinity, a proposed hotel could be problematic at this location.

The proposed zoning is **not compatible** with surrounding land uses.

Comprehensive Plan Consistency – Far West

The 2022 Comprehensive Plan designates the subject property as General Commercial. The policy below applies to this development.

- Promote appropriate infill development of vacant lots within developed areas, which will efficiently utilize existing infrastructure
- Encourage new development adjacent and connected to previously developed or platted areas in order to utilize existing utility and road infrastructure and services, thereby optimizing public and private investments and discouraging sprawl development.

The proposed zoning change request is **consistent** with the Comprehensive Plan and the policy stated above. However, a review of the Comprehensive Plan may be needed in this area to reflect a less intense future land use due to the proximity to residential and school adjacent the site. Neighborhood commercial would be a more appropriate designation. This property faces Legacy Drive not White Settlement Rd as most of the heavier commercial in the area. Neighborhood commercial uses would also provide a better transition for students walking from nearby neighborhoods to the school.

Economic Development Plan

The City of Fort Worth published an Economic Development Strategic Plan (2018) which stated four specific outcomes, one of which is “A more sustainable tax base, driven less by residential property valuation and more by commercial and industrial investment”. The conversion of this property to a hotel allows for the continued diversification of the tax base.
Zoning and Land Use

The site plan is in general compliance with the Zoning Ordinance regulations. The applicant should add the following note to the site plan.

- Project will comply with landscaping, urban forestry, and signage

(Comments made by Platting (Subdivision Ordinance), Transportation/Public Works, Fire, Park & Recreation, and Water Department staff cannot be waived through the Zoning Commission and City Council. Approval of the zoning site plan does not constitute the acceptance of conditions.)
Zoning Map Amendment

7. Area Map
8. Future Land Use Map
9. Aerial Photograph
The subject property is located at the southern terminus of Jimisons Lane, generally south of Trinity Boulevard. The property also has frontage on Vine Street to the east, although this section of the roadway is currently undeveloped. The applicant is requesting to rezone the property from “AG” Agricultural to “I” Light Industrial District to allow for development of a new office building and bus parking area.

Surrounding properties are primarily developed for residential use, with a large manufactured home park located on the west side of Jimisons Lane and several single-family homes to the east along Vine Street. Property to the north is developed with a manufactured home. There are several lots zoned for industrial use further to the north, along Mosier Valley Road and Trinity Boulevard.

The subject property is heavily encumbered by setback requirements from an existing gas well and line compressor station located directly south of this site. Industrial zoning would provide increased flexibility for development, as setbacks for industrial uses are measured differently than for residential uses. Specifically, any protected uses, such as residential, would need to be located at least 600 feet away from the line compressor station. Public buildings and habitable structures must be located at least 300 feet away.

Below is an excerpt from a concept plan that was submitted with this zoning change application. This site plan is included for reference only, and it has not been evaluated for conformance with zoning ordinance requirements. If the proposed zoning change to “I” Light Industrial district were approved, the applicant would not be required to develop the site in the configuration shown below – the development would just need to meet minimum ordinance requirements for “I” District. This site plan shows a single office building at the north end of the site, outside of the 600-foot gas well setback for protected uses.

![Project Description and Background](image)
Surrounding Zoning and Land Uses

North “MH” Manufactured Housing, “AG” Agricultural, and “A-5” One-Family / single-family homes
East “AG” Agricultural and “A-5” One-Family / single-family homes
South “AG” Agricultural / gas well site
West “MH” Manufactured Housing / manufactured home park

Development Impact Analysis

Land Use Compatibility

The applicant is proposing to change the zoning of this property from “AG” Agricultural District to “I” Light Industrial District. Surrounding properties along both Jimisons Lane and Vine Street are primarily developed for residential use. On the east side of Jimisons Lane, there is a mix of “MH” Manufactured Housing, “AG” Agricultural, and “A-5” One-Family zoning. Property on the west side of Jimisons Lane is developed with a manufactured housing park.

While development opportunities on this site are severely limited due to the location of the line compressor station to the south and associated setback requirements, industrial zoning is significantly more intense than any of the surrounding land uses or zoning districts in this area. It appears that a single-family home could reasonably be constructed in the same location as the office building shown on the submitted concept plan, and staff contends that this would be a more appropriate land use for this site. However, residential zoning would not permit the 40 parking spaces shown on the concept plan for bus parking.

The proposed zoning is not compatible with surrounding land uses.
The 2021 Comprehensive Plan currently designates the subject property as “Rural Residential” on the Future Land Use Map. This designation is intended to include single-family development on large lots. The “I” Light Industrial zoning district is not listed as appropriate within this designation:

In addition, this site does not have direct access to a major arterial roadway, railroad, or freeway that would help support industrial development in this location.

Therefore, the proposed zoning is **not consistent** with the Comprehensive Plan (**significant deviation**).

**Economic Development Plan**

The 2018 Economic Development Strategic Plan identified four different a vision, goals, and strategies to facilitate the success and growth of the City of Fort Worth. The below recommendations apply to this project:

**PERFORMANCE METRICS**

1. A more sustainable tax base, driven less by residential property valuation and more by commercial and industrial investment.

   2. A more sustainable tax base, driven less by residential property valuation and more by commercial and industrial investment.

7. Area Map
8. Future Land Use Map
9. Aerial Photograph
10. Site Plan
This is a proposed multifamily development along Westpoint Boulevard in the Far West sector of Fort Worth, in Council District 3. The site is proposed to be rezoned as a “PD” Planned Development with a base zoning district of “C” Medium Density Multifamily. A total of 240 units are included in the development, which spans just over 10 acres. This results in a density of 23.39 dwelling units per acre, slightly below the “C” maximum of 24 dwelling units per acre. There unit mix will be 40% one bedroom units, 50% two bedroom units, and 10% three bedroom units, along with a Leasing Office & Amenity Center. The development would be gated and fenced based on the Site Plan submitted by the applicant.

Since the subject site is within 250 feet of existing “A-5” One Family Residential zoning, the minimum parking amount required for this development is 440 spaces minimum, based Section 6.201.b.1 of the City of Fort Worth Zoning Ordinance. The developer can provide up to 25% over the minimum amount, or up to 550 on-site spaces maximum. A mixture of head-in parking spaces and parallel parking spaces are shown on the Site Plan. No carports or garages are intended to be constructed. Within the fenced perimeter of the development, there are a total of 339 surface spaces, or 77% of the minimum required amount (440 spaces). An additional 101 parking spaces are shown off of Club Ridge Drive, which brings the total amount of parking provided to 440, equal to the minimum amount required. These 101 spaces are technically on-site and help meet the minimum required amount, however from a realistic perspective they are not very practical or useful since they are separated by a perimeter fence which would require walking from the western public access drive down a major thoroughfare (Westpoint Boulevard) all the way to the main gate on the eastern public access drive. No sidewalks are shown on the Site Plan that accompanied the submittal.

Zoning staff is not supportive of this rezoning request from “C” to “PD-C”. The site is currently zoned “C” Medium Density and is able to be developed as an apartment community following the development standards codified in the Zoning Ordinance. There is no compelling reason for staff to support any deviation from the development standards that the City Council has adopted for multifamily projects city-wide.

The applicant has indicated they intend to request a continuance on this case at the April 13th Zoning Commission hearing. They are actively working with staff to pursue a revised Site Plan and zoning application that better addresses the City’s concerns. We anticipate this being brought back to Zoning Commission in May or June.

Development Impact Analysis

Land Use Compatibility

The areas directly adjacent to the subject property are generally undeveloped. To the north and west are areas zoned “C” Medium Density Multifamily, with two apartment communities constructed to the north and undeveloped land to the west. To the east and south is more undeveloped land, zoned “F” General Commercial. The subject property has primary frontage along Westpoint Boulevard, which is an arterial (Neighborhood Collector) per the adopted Master Thoroughfare Plan and provides access to Loop 820.

The proposed PD development waivers are listed below, including variances to open space, building orientation, fencing placement, and parking placement.

**Request #1:** Tracts 1 - Rezone request from C-Medium Density Multifamily to PD-C for all uses in C excluding schools, golf course, and government operated or controlled fine arts center.

**Request #2:** Tract 1 Rezone request from C-Medium Density Multifamily to PD-C with the following development standards:

- 39% minimum open space required;
- Longest building length does not need to face a public right of way;
- Fencing allowed to be placed between building façade and property line;
- Parking spaces allowed between buildings and a public or private road.

Staff would be supportive only of the waiver to reorient the buildings with the short end facing Westpoint Blvd., based on the topography of the site, and potentially to the fencing waiver based on the modified building orientation. To position the buildings in the way suggested by the Zoning Ordinance would require significant grading and engineering. Staff is not supportive of the other two waivers listed (parking location & open space). Open Space needs to meet or exceed the minimum of 45% for “C” zones, and the fencing and parking need to be recessed to the interior of the site to align with the style of building that is shown below:
Based on staff not being comfortable supporting all four waivers as requested, we are not able to support the Site Plan as presented. Therefore, our analysis is that the proposed zoning and Site Plan is not compatible with surrounding land uses.

Comprehensive Plan Consistency – Far West

The adopted 2022 Comprehensive Plan designates the subject property as future Medium Density Residential. Zoning classifications of “C”, “CR”, or “D” are acceptable within Medium Density Residential areas, or Planned Developments based on “C”, “CR”, or “D” with density of up to 36 dwelling units per acre.
The proposed zoning is consistent with the Comprehensive Plan. However, the development proposal as presented does not promote any of the specific Sector Land Use policies intended to guide growth and development within the Far West sector of the City.

Economic Development Plan

The 2018 Economic Development Strategic Plan identified a vision, goals, and strategies to facilitate the success and growth of the City of Fort Worth. The site is not within any of the six target areas that were studied in depth for their redevelopment potential. The Economic Development Plan does not address housing specifically, and is tailored towards addressing the growth strategies for commercial and industrial properties.

Site Plan Comments

**Zoning and Land Use** (comments sent on 3/28/2022)

- Vicinity Map not legible (remove background aerial images, zoom out further and clearly show major roads)
- Add case reference # ZC-22-054
- Modify signature line to "Director of Development Services"
- Revise Parking Summary calculations: Strike Surface Parking line; Total spaces line "Required" should be 440 not 460; 440 required and 440 provided on plan, not sure where 460 and 472 are coming from.
- Add note that parking spaces will meet the minimum dimensions in Section 6.202, Zoning Ordinance
- No Accessible parking spaces depicted on plan?
- Clarify height in Site Data Table as "height from slab to top plate"
- Provide additional detail regarding fencing including height and material
- Provide Open Space Diagram on separate exhibit graphically depicting or color shading the open space as defined in Zoning Ordinance, Chapter 9, Definitions
- Open space is the ratio of open space to net land area. Areas less than 25’x 25’ dimensions do not count as open space, nor do areas outside of fenced perimeter.
- Revise open space calculations accordingly and update on Open Space Diagram & Site Plan
- Provide separate Sidewalk Plan exhibit or depict sidewalks on Site Plan
- For each grouping of parking, notate parking counts on Site Plan
- Is the City’s TPW Department supportive of 4 gated entrances on north side without any stacking provided? Contact Armond Bryant, Sr. Planner
- Is the City’s SDS Department supportive of fencing over drainage easement on west side? Contact SDS email cc’d.
- What is the intended lot configuration? Is Lot 3 with access drives & proposed parking intended to be a separate lot of record from the apartment community? Plating staff is cc’d on this email (Lynn Jordan) if you have not already started discussions with them then please reach out.
- Initiate discussion with Bryan Lyness, Sr. Planner, Urban Forestry if you have not already done so.
- Staff recommends meeting with Willow Wood HOA & Office of Councilmember Michael Crain, please reach out to those entities if you have not already done so.

The subject property is located along the south side of Chapin Road, just west of its intersection with Alemeda Street. The site is currently vacant and it is zoned “AG” Agricultural District. A larger 68-acre tract of land to the north of this site was rezoned to “I” Light Industrial District in April 2021 (case ZC-21-002) for a new warehouse development. The roadway improvements required for this development include realignment of Chapin Road to match the configuration shown on the Master Thoroughfare Plan:

The 2.94-acre tract that is the subject of this rezoning request was purchased to accommodate this roadway improvement. Any remaining land will be incorporated into the larger industrial development to the north. The applicant has indicated that this portion of the site will be used for detention only, and no warehouse buildings or other structures are planned for this corner of the site. Once the roadway improvements are complete, the entire property will be located on the north side of Chapin Road, rather than on both sides of the roadway as shown with the existing configuration.

**Surrounding Zoning and Land Uses**

* This Neighborhood Association is located closest to the subject property

Development Impact Analysis

Land Use Compatibility

The applicant is proposing to rezone this property from “AG” Agricultural to “I” Light Industrial. The subject property will be developed in conjunction with a larger industrial site immediately to the north. Specifically, this site will be used for the realignment and improvement of Chapin Road to serve the proposed development.

Surrounding properties are primarily vacant, with all surrounding land on the south side of Chapin Road zoned “AG” Agricultural and land on the north side of Chapin Road zoned “I” Light Industrial. There is an existing church northeast of the subject property and a single-family home and landscaping business located to the south.

The proposed zoning is **compatible** with surrounding land uses.

Comprehensive Plan Consistency – Far West

The 2021 Comprehensive Plan currently designates the subject property as “Rural Residential” on the Future Land Use Map. However, a large area of surrounding property to the north and west of this site is designated as “Light Industrial” on the Future Land Use Map. This site is intended to be developed with the area that is designated as “Light Industrial” and will be located directly adjacent to this site once the planned improvements to Chapin Road are complete.

In addition, the proposed zoning aligns with the following policies of the Comprehensive Plan:

- Locate large commercial and institutional uses adjacent to arterial streets, preferably at the intersections of other arterials and highways.
- Locate large industrial uses along freight rail lines, highways, or airports within industrial growth centers and other appropriate locations

Chapin Road is designated as an arterial roadway on the City’s Master Thoroughfare Plan and this site has direct access to the West Loop 820 Freeway. Based on conformance with the policies stated above, the proposed zoning is **consistent** with the Comprehensive Plan (minor boundary adjustment). If this zoning change request is approved, staff recommends that the Future Land Use Map also be updated to reflect industrial development in this location.
The 2018 Economic Development Strategic Plan identified four different a vision, goals, and strategies to facilitate the success and growth of the City of Fort Worth. The below recommendations apply to this project:

**PERFORMANCE METRICS**

2. A more sustainable tax base, driven less by residential property valuation and more by commercial and industrial investment.

### Development Impact Analysis

#### Land Use Compatibility

Surrounding properties are primarily developed for commercial purposes with a church directly north of the site. City staff is comfortable with the overall compatibility of this proposed rezoning, in conjunction with the screening measures mandated by the Zoning Ordinance for any new commercial construction on the subject property. A combination of fencing and landscaping must equal 25 points from the enhanced landscape table found in Section 6.300.c.3.g of the City of Fort Worth Zoning Ordinance. Applicants are encouraged to exceed the minimum 25 point requirement when possible. In addition, there is a required minimum 5’ buffer yard composed of landscaped area off of the northern and eastern property lines. A supplemental building setback of 20’ prohibits any buildings and structures within 20’ of the northern and eastern property lines. Parking can be in this area, exclusive of the 5’ landscaped buffer yard.
Because any new commercial construction would be subject to the current supplemental buffer yards and setbacks, and because the site adjoins commercial uses to the west, the proposed zoning is compatible with surrounding land uses.

Comprehensive Plan Consistency – Southeast

The Comprehensive Plan designates the subject property as Neighborhood Commercial. The requested zoning change is consistent with the following Comprehensive Plan policies:

- Promote appropriate infill of old commercial centers (greyfields), and contaminated sites (brownfields) within developed areas, particularly in the central city.
- Promote appropriate infill development of vacant lots within developed areas, which will efficiently utilize existing infrastructure

Based on the conformance with the future land use map and policies stated above the proposed zoning is consistent with the Comprehensive Plan.

Economic Development Plan

The site is not directly addressed in the 2018 Economic Development Strategic Plan, however one of the desired outcomes of the plan is a more sustainable tax base, driven less by residential property valuation and more by commercial and industrial investment. Additionally, the City has adopted the goal of supporting the growth of independent, locally-owned small businesses, including minority-owned firms. Rezoning to allow commercial development of this property could provide a site for exactly this type of desired business endeavor.

The property is located on Brentwood Stair Rd near Holt Street. The applicant is proposing to bisect an existing tract with the following zoning:

<table>
<thead>
<tr>
<th>Tract</th>
<th>Current Zoning</th>
<th>Proposed Zoning</th>
</tr>
</thead>
<tbody>
<tr>
<td>1</td>
<td>“A-21” One-Family</td>
<td>“PD/E” Planned Development for all uses in “E” Neighborhood Commercial plus mini-warehouses, site plan included</td>
</tr>
<tr>
<td>2</td>
<td>“A-21” One-Family</td>
<td>“A-7.5” One-Family</td>
</tr>
</tbody>
</table>

Tract 1 is located on the western edge of the site near an existing single-family neighborhood. The applicant is proposing “PD/E” Planned Development for all uses in “E” Neighborhood Commercial plus mini-warehouses, site plan included. The applicant would like to construct two (2) 84,000 sf (both buildings) mini-warehouses and two (2) office retail structures totaling 17,500 sf. The office/retail component will be located along Brentwood Stair Rd, while the mini-warehouses will be located south. The applicant intends to meet all requirements related to commercial development. A residential neighborhood is located directly west of the site and the nature of the overall area is residential. Commercial uses are located closer to I-30 and north of Brentwood Stair Road.

Tract 2 is located on the east of the overall site. The applicant intends to rezone this portion to “A-7.5” One-Family. A large floodplain bisects this tract impeding the number of allowed lots. Zoning to A-7.5 would allow them to maximize their land constricted by the floodplain. Staff supports the rezoning for this tract.
Surrounding Zoning and Land Uses

North  “E” Neighborhood Commercial / commercial, storage  
East  “A-21” One-Family / vacant  
South  “A-5” One-Family; “A-10” One-Family / residential  
West  “A-5” One-Family / single-family

Development Impact Analysis

Land Use Compatibility

The applicant is proposing a zoning change to “A-7.5” One-Family and “PD/E” Planned Development for all uses in “E” Neighborhood Commercial plus mini-warehouses, site plan included. Surrounding land uses consist of commercial and storage to the north, residential to the south and west, with vacant land to the east. The table below describes the compatibility for each tract of the zoning change.
<table>
<thead>
<tr>
<th>Tract</th>
<th>Proposed Zoning</th>
<th>Future Land Use</th>
<th>Compatibility</th>
</tr>
</thead>
<tbody>
<tr>
<td>1</td>
<td>“PD/E” Planned Development for all uses in “E” Neighborhood Commercial plus mini-warehouses, site plan included</td>
<td>Single-family</td>
<td>Not Compatible</td>
</tr>
<tr>
<td>2</td>
<td>“A-7.5” One-Family</td>
<td>Single-family</td>
<td>Consistent</td>
</tr>
</tbody>
</table>

**Comprehensive Plan Consistency – Eastside**

The 2022 Comprehensive Plan currently designates the subject property as “single-family” on the Future Land Use Map. For the purposes of this report, the Comprehensive Plan Consistency has been divided into tracts.

<table>
<thead>
<tr>
<th>Tract</th>
<th>Proposed Zoning</th>
<th>Future Land Use</th>
<th>Consistency</th>
</tr>
</thead>
<tbody>
<tr>
<td>1</td>
<td>“PD/E” Planned Development for all uses in “E” Neighborhood Commercial plus mini-warehouses, site plan included</td>
<td>Single-family</td>
<td>Not Consistent (Significant Deviation)</td>
</tr>
<tr>
<td>2</td>
<td>“A-7.55” One-Family</td>
<td>Single-family</td>
<td>Consistent</td>
</tr>
</tbody>
</table>

The Comprehensive plan was changed from Low Density Residential to Single-family in 2007. Miniwarehouse and commercial uses are not consistent with this change.

Rezoning tract 2 is consistent with the Comprehensive Plan and the policies below.

- Encourage new development adjacent and connected to previously developed or platted areas in order to utilize existing utility and road infrastructure and services, thereby optimizing public and private investments and discouraging sprawl development.
- Separate incompatible land uses with buffers or transitional uses. Some land uses have attributes such as height, proportion, scale, operational characteristics, traffic generated, or appearance that may not be compatible with the attributes of other uses.

**Economic Development Plan**

The adopted Economic Development Strategic Plan identified four different results to facilitate the success and growth of Fort Worth:

1. High-wage job growth.
2. A more sustainable tax base, driven less by residential property valuation and more by commercial and industrial investment.
3. An economy that capitalizes on high-growth businesses and the creative individuals who fuel them, targeting specific industry classifications.
4. A commitment to “quality of place” throughout the community, including rising home values, new business startups, reduction of blighted areas, and the emergence of walkable corridors with a mixture of residential and commercial developments and related amenities.

Although the proposed zoning request does not assist in high-wage job growth and is not a targeted high-growth industry, single-family will contribute to the quality of place for the neighborhood.
LOT 1 NOTES

1. CURRENT ZONING OF THIS PROPERTY INCLUDES A-21 (ONE-FAMILY DETACHED DWELLINGS, MIN. 0.5 ACRE IN SIZE). THE ANTICIPATED/PROPOSED REZONING IS PD (PLANNED DEVELOPMENT) WITH BASE ZONING OF E (NEIGHBORHOOD COMMERCIAL).

2. THIS PROJECT TO COMPLY WITH THE FOLLOWING SECTIONS OF THE CITY OF FORT WORTH ZONING ORDINANCES:

   2.1. SECTION 4.901 NEIGHBORHOOD COMMERCIAL "E" DISTRICT
   2.2. SECTION 6.201 OFF-STREET PARKING REQUIREMENTS
   2.3. SECTION 6.202 PARKING LOT DESIGN STANDARDS
   2.4. SECTION 6.204 BICYCLE PARKING
   2.5. SECTION 6.300 BUFFERYARD & SUPPLEMENTAL BUILDING SETBACK
   2.6. SECTION 6.301 LANDSCAPING
   2.7. SECTION 6.302 URBAN FORESTRY
   2.8. SECTION 6.400 SIGNS

3. WATER SUPPLY SOURCE: CITY OF FORT WORTH

4. SEWAGE DISPOSAL: CITY OF FORT WORTH

5. BUILDING MATERIAL OF WAREHOUSE IS METAL FOLLOWING SECTION 4.901, #5. THE EXTERIOR METAL WALLS OF THE FRONT AND ANY SIDES OF A BUILDING FACING A PUBLIC STREET THAT WILL BE CONSTRUCTED WITH METAL CLADDING AS THE PRIMARY SIDING MATERIAL SHALL NOT BE CONSTRUCTED WITH EXPOSED FASTENERS ON MORE THAN 50% OF THE BUILDING. RETAIL STORES MUST NOT EXCEED 60,000 SF IN BUILDING FOOTPRINT.

6. ANY OUTDOOR LIGHTING WILL CONFORM TO FORT WORTH LIGHTING CODE. WITHIN 150 FEET OF A ONE- OR TWO-FAMILY DISTRICT SHALL NOT CREATE ANY AMBIENT LIGHT THAT TRESPASSES ONTO ADJACENT RESIDENTIAL USES AND SHALL BE ZERO FOOT CANDLES ON THE SIDE ADJACENT TO A RESIDENTIAL PROPERTY WITH APPROPRIATE CUTOFFS INSTALLED. LIGHTING IN THIS AREA SHALL NOT EXCEED 20 FEET IN HEIGHT INCLUDING ATTACHED WALL FIXTURES.
Zoning Map Amendment

The proposed site on the eastern side of the Woodhaven neighborhood, generally along Boca Raton Road, and in the southwest quadrant of Bridgewood and Randol Mill Roads. The area started being developed in the 1980s and still contains some vacant lots. Vacant land with significant topography surrounds the area to the north, east, and south, with limited adjacent residential development. An Ocor electrical transmission line forms the western boundary of the site. The rezoning case addresses the significantly larger lot sizes of the existing neighborhood. A meeting was held at the request of Council Member Cary Moon on January 12, 2022 regarding the proposed zoning change. Those present at the meeting voted unanimously to proceed with the rezoning case.

Surrounding Zoning and Land Uses

North “E” Neighborhood Commercial and “FR” General Commercial Restricted / Vacant land  
East “A-5” One-Family / Single family uses and vacant land  
South “G” Intensive Commercial / Vacant land

Development Impact Analysis

Land Use Compatibility

Council Member Moon is requesting to change the zoning of this area from “A-5” One Family with a 5,000 square foot lot minimum to “A-21” and “A-10” One Family with 21,780 and 10,000 square foot lot minimums,
respectively. This portion of the neighborhood is generally developed three cul-de-sacs, receiving limited traffic. The majority of the lots are significantly larger than surrounding subdivisions. The proposed zoning request is compatible with surrounding land uses, based on creating more compatible zoning districts for an established large-lot neighborhood.

**Comprehensive Plan Consistency– Eastside Sector**

The 2022 Comprehensive Plan currently designates the subject property as “Single Family” on the Future Land Use Map. The requested land uses would be included in the list of zoning districts envisioned for this land use category, as detailed in the excerpt from the Comprehensive Plan below. Areas with less intensive suburban residential land uses are allowed in the more intensive single family category.

The proposed zoning is consistent with the land use designations for this area and with the following policies of the Comprehensive Plan:

- Promote appropriate infill development of vacant lots, old commercial centers (greyfields), and contaminated sites (brownfields) within developed areas, particularly in the central city.
- Encourage new development adjacent and connected to previously developed or platted areas in order to utilize existing utility and road infrastructure and services, thereby optimizing public and private investments and discouraging sprawl development.
- Preserve the character of rural and suburban residential neighborhoods.
- Encourage new development in character with the existing neighborhood scale, architecture, and platting pattern, while working to improve pedestrian, bicycle, and transit access between adjacent neighborhoods and nearby destinations.

Based on conformance with the future land use map and with the policies stated above, the proposed zoning is consistent with the Comprehensive Plan.

**Economic Development Plan**

The 2021 Economic Development Strategic Plan identified four different results to facilitate the success and growth of Fort Worth:

1. High-wage job growth.
2. A more sustainable tax base, driven less by residential property valuation and more by commercial and industrial investment.
3. An economy that capitalizes on high-growth businesses and the creative individuals who fuel them, targeting specific industry classifications.
4. A commitment to “quality of place” throughout the community, including rising home values, new business startups, reduction of blighted areas, and the emergence of walkable corridors with a mixture of residential and commercial developments and related amenities.

This zoning request does not assist in high-wage job growth, is not a targeted high-growth industry, but the new development will contribute to the quality of place.

Table of Contents

1. Project Description and Background
2. Text Amendments (Tracked Changes)
3. Use Table
Staff is proposing Zoning Ordinance text amendments for the Car Washes. The text and use table amendments are as follows:

**Sec. 5.108 CAR WASH.**

Self-service and full-service Car wash facilities shall be limited to the districts designated “CUP” or “P” permitted in accordance in the use tables in Chapter 4, Articles 8 and 12, subject to the following conditions:

(a) All washing facilities shall occur under a roofed area with at least two walls.

(b) All drying and vacuuming facilities may be outside the building but shall not be in the front yard and shall not be closer than 25 feet from any residential district. No car wash dryer shall face a residential district or use.

(c) The building surfaces shall be faced with masonry, porcelainized steel, baked enamel steel or other material equal in durability and appearance.

(d) Setback requirements for full-service and automated-service car washes:

1) Full-service car washes are allowed by right in “F” and “G” when the distance from a residential district or use is greater than 200 feet. A conditional use permit is required if the distance from a residential district or use is 200 feet or less.

2) Automated-service car washes in “G” are allowed by right when the distance from a residential district or use is greater than 200 feet. A conditional use permit is required when the distance from a residential district or use is 200 feet or less.

3) The measurement of the distance between the car wash and the residential use shall be along the nearest property line of the residential use to the nearest property line of the car wash, along street lines and a direct line across intersections. The building shall not be less than 100 feet from any residential district.

(e) The building shall set back not less than 25 feet from the front property line.

(f) Off-street parking shall be provided on the property in the ratio of not less than three parking spaces for each washing stall, or five parking spaces for each automobile that may be accommodated on the washing line within a facility full-service building.

(g) All off-street parking areas shall be hard-surfaced and dust-free.

(h) Any lights used to illuminate the area shall be directed downward and away from adjacent residential properties.

(i) A permanent screening fence or wall not less than six feet in height shall be constructed along any site property line which abuts a residential district or use.

ORDINANCE NO. __________

AN ORDINANCE AMENDING THE ZONING ORDINANCE OF THE CITY OF FORT WORTH, BEING ORDINANCE NO. 21653, AS AMENDED, CODIFIED AS APPENDIX "A" OF THE CODE OF THE CITY OF FORT WORTH, BY AMENDING CHAPTER 5, SUPPLEMENTAL USE STANDARDS,” ARTICLE I, “STANDARDS FOR SELECTED USES,” SECTION 5.108 “CAR WASH” TO CLARIFY DEVELOPMENT STANDARDS FOR CERTAIN TYPES OF CAR WASHES; AMEND SECTION 4.803 “NONRESIDENTIAL DISTRICT USE TABLE” TO CLARIFY WHERE CERTAIN TYPES OF CAR WASHES ARE ALLOWED AND AMEND CHAPTER 9, “DEFINITIONS” TO ADD DEFINITIONS RELATED TO CAR WASHES; PROVIDING THAT THIS ORDINANCE SHALL BE CUMULATIVE; PROVIDING A SEVERABILITY CLAUSE; PROVIDING A PENALTY CLAUSE; PROVIDING FOR PUBLICATION IN THE OFFICIAL NEWSPAPER; AND PROVIDING AN EFFECTIVE DATE

WHEREAS, on January 18, 2022 the City Council was presented Informal Report (IR) No. 22-010, providing information on the current regulations in the Zoning Ordinance related to self-service and full-service car washes and in which zoning districts the use is allowed, and

WHEREAS, the informal report proposed amendments to add automated-service car washes to the types of car washes to be regulated; and

WHEREAS, the proposed amendments will also provide definitions for the three types of car wash facilities, provide in which districts each type of car wash is allowed by right or by conditional use permit; and provide clarification to supplemental development standards for all car wash types;

NOW, THEREFORE, BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF FORT WORTH, TEXAS

SECTION 1.

Chapter 5 “Supplemental Use Standards” of Ordinance No. 21653, the Zoning Ordinance of the City of Fort Worth, is hereby amended to revise Article 1, “Standards for Selected Uses”, Section 5.108 “Car Washes” to read as follows:

Sec. 5.108 CAR WASH.

Self-service and full-service Car wash facilities shall be limited to the districts designated “CUP” or “P” permitted in accordance in the use tables in Chapter 4, Articles 8 and 12, subject to the following conditions:

(a) All washing facilities shall occur under a roofed area with at least two walls.
(b) All drying and vacuuming facilities may be outside the building but shall not be in the front yard and shall not be closer than 25 feet from any residential district. No car wash dryer shall face a residential district or use.

(c) The building surfaces shall be faced with masonry, porcelainized steel, baked enamel steel or other material equal in durability and appearance.

(d) Setback requirements for full-service and automated-service car washes:

1) Full-service car washes are allowed by right in “F” and “G” when the distance from a residential district or use is greater than 200 feet. A conditional use permit is required if the distance from a residential district or use is 200 feet or less.

2) Automated-service car washes in “G” are allowed by right when the distance from a residential district or use is greater than 200 feet. A conditional use permit is required when the distance from a residential district or use is 200 feet or less.

3) The measurement of the distance between the car wash and the residential use shall be along the nearest property line of the residential use to the nearest property line of the car wash, along street lines and a direct line across intersections. The building shall not be less than 100 feet from any residential district.

(e) The building shall set back not less than 25 feet from the front property line.

(f) Off-street parking shall be provided on the property in the ratio of not less than three parking spaces for each washing stall, or five parking spaces for each automobile that may be accommodated on the washing line within a facility full-service building.

(g) All off-street parking areas shall be hard-surfaced and dust-free.

(h) Any lights used to illuminate the area shall be directed downward and away from adjacent residential properties.

(i) A permanent screening fence or wall not less than six feet in height shall be constructed along any site property line which abuts a residential district or use.

SECTION 3.

Article 8, “Non-Residential Use Table,” Section 4.803, “Non-Residential District Use Table” of Ordinance No. 21653, the Zoning Ordinance of the City of Fort Worth, is hereby amended to revise “Vehicle Sales and Service” “Car Wash, full or self-service” to add automated-service and clarify where each type of car washes, self-service, automated-service and full-service
SECTION 4.

Chapter 9 “Definitions”, Section 9.101 “Defined Terms” of Ordinance No. 21653, the Zoning Ordinance of the City of Fort Worth, is hereby amended to add definitions for “Car Wash” types to read as follows:

**CAR WASH.** A facility for the washing or steam cleaning of vehicles as follows:

a) **Self-service.** Facilities where a vehicle may be manually washed, sprayed, dried or vacuumed by its owner or operator with equipment provided by the facility. Typically, no employees will be on-site at the facility.

b) **Automated-service.** Facilities where a vehicle is driven by the owner or operator through an automated tunnel for washing and drying but the owner or operator vacuums the vehicle with equipment provided by the facility. Minimal staff will be on-site at the facility.

c) **Full-service.** Facilities where operating functions are performed entirely by the facility with the use of washing, waxing, drying, and vacuuming equipment supplemented with manual detailing. Employees will be on site at the facility.

SECTION 5.

This ordinance shall be cumulative of all provisions of ordinances and of the Code of the City of Fort Worth, Texas (2015), as amended, except where the provisions of this ordinance are in direct conflict with the provisions of such ordinances and such Code, in which event conflicting provisions of such ordinances and such Code are hereby repealed.

SECTION 6.

It is hereby declared to be the intention of the City Council that the sections, paragraphs, sentences, clauses and phrases of this ordinance are severable, and, if any phrase, clause, sentence, paragraph or section of this ordinance shall be declared unconstitutional by the valid judgment or
decree of any court of competent jurisdiction, such unconstitutionality shall not affect any of the remaining phrases, clauses, sentences, paragraphs and sections of this ordinance, since the same would have been enacted by the City Council without the incorporation in this ordinance of any such unconstitutional phrase, clause, sentence, paragraph or section.

SECTION 7.

Any person, firm, or corporation, who violates, disobeys, omits, neglects or refuses to comply with or who resists the enforcement of any of the provisions of this ordinance shall be fined not more than Two Thousand Dollars ($2,000.00) for each offense. Each day that a violation exists shall constitute a separate offense.

SECTION 8.

All rights and remedies of the City of Fort Worth, Texas, are expressly saved as to any and all violations of the provisions of Ordinances No. 3011, 13896, 21653 and any other ordinances affecting zoning which have accrued at the time of the effective date of this ordinance, and, as to such accrued violations and all pending litigation, both civil and criminal, whether pending in court or not, under such ordinances, same shall not be affected by this ordinance but may be prosecuted until final disposition by the courts.

SECTION 9.

The City Secretary of the City of Fort Worth, Texas, is hereby directed to publish the caption, penalty clause and effective date of this ordinance for two (2) days in the official newspaper of the City of Fort Worth, Texas, as authorized by Section 52.013, Texas Local Government Code.
SECTION 10.

All other provisions of the Zoning Ordinance of the City of Fort Worth not herein amended shall remain in full force and effect.

SECTION 11.

This ordinance shall take effect upon adoption and publication as required by law.

APPROVED AS TO FORM AND LEGALITY:
