General Information

Zoning regulations are established to promote and protect the public health, safety, morals and general welfare of all citizens. The Zoning Commission is not a court of law and only makes recommendations of zoning to the City Council. The City Council must take final action to approve or deny a request for zoning.

The purpose of the hearing is to give the applicant of a zoning request, and any others who may be affected, an opportunity to say how the public would benefit or not benefit from the proposal. Written comments will be included into the record file of the case.

Anyone who disagrees with a recommendation to the City Council will have to opportunity to address the Council at the second public hearing for the case. All recommendations made by the Zoning Commission are automatically set for public hearing by the City Council.
