

Classroom Newsletter

The Fort Worth Public Library supports all students in Texas by offering free library cards you can get online or in person. If you live within the Fort Worth city limits you can get a resident card. Students who live outside of Fort Worth may get a non-resident student card. Information is available here: fwpl.info/card.

For families and students, a Fort Worth Public Library card provides unlimited access to databases filled with [homework help](#) and research tools. The databases are divided by elementary, middle and high school sections with topics relevant to each grade level.
