We need *your voice* to help guide the master planning process for the combined garden and research institute campus.

Join us for a listening session and family friendly activities that will directly inform the future garden and create a destination for all of Fort Worth!

We will be observing COVID-19 protocols for your safety.

**All attendees to the
Engagement Events will
receive a free family pass to
the garden!**

For those who can not attend in person:

We invite you to engage online at www.brit.org/masterplan. Watch a short video about the process, learn more about some potential new garden destinations, and complete a survey to share your thoughts!
