

Capital Improvement Project

Clear Fork Force Main

Construction is coming...

The existing sanitary sewer and wastewater collection system in the Clear Fork corridor is undersized from the University Drive/Interstate 30 intersection to University at 7th Street.

The force main is part of the mechanism to eliminate repeated sanitary sewer overflows near the intersection of University Drive and Rosedale Street.

This force main connects to the Clear Fork lift station at the south end (Rogers Road) and extends northeast to 5th Street. This capital improvement project is in Council District 9. Construction will impact the Fort Worth Downtown Alliance.

Council District 9 , Project # 100996

Meeting Details **Thursday, November 3**
6 p.m.
Fort Worth Central Library
500 W. 3rd Street

Ask your neighbors to join too!
