

Wat Buddharatanaram Water & Sewer Main Extensions

How can I pay the water and sewer tap fees?

- The plumber must first apply for a plumbing permit for each residential lot that has paid impact fees.
- Once the plumbing permit has been issued, provide the permit number to Water Applications so that fees can be invoiced.
- Water Applications will notify you that fees have been invoiced so that you can remit payment online or you may visit the office in person.

This is the web address to apply for permits as well as pay fees online
