

Transportation & Public Works Projects by Council District 2018 – present

This document provides information related to Transportation & Public Works (TPW) capital and maintenance projects completed within each Council District from January 1, 2018 to March 31, 2021 and communicates the level of needs that exist throughout the City of Fort Worth from a TPW perspective. TPW projects include improvements to arterial roadways, neighborhood streets, intersections, traffic and street operations, stormwater, bike lanes and various mobility improvements. Transportation and Public Works is responsible for the maintenance and operation of over 7,500 lane miles of pavement, 2,500 miles of sidewalk, 300 miles of engineered drainage channels, 1,000 miles of drainage pipes, 914 traffic signals (788 City-owned; 126 TxDOT-owned but City maintained), 69,000 street lights, 206 rail crossings, and 30,000 storm drain inlets city wide.

The Transportation & Public Works Department develops its data driven project prioritization using the following criteria as applicable within each program: congestion, capital replacement needs, crash data, equity, public health and safety, economic development opportunities, project collaboration opportunities with stakeholders, conformance with the Master Thoroughfare Plan and Active Transportation Plan. TPW Projects are funded through a variety of sources including Federal, State, County, and City Pay-Go and Capital.

This document provides lists of projects and program summaries sorted by project type and Council District, for projects delivered from approximately January 1, 2018 March 31, 2021 along with information related to the existing infrastructure needs throughout the City. These results show that TPW completed the following improvements in that timeframe:

- 18 arterial projects
- 3 bridge rehabilitation projects with 1 bridge rebuild project
- 47 mobility improvement projects which included the repair/replacement of over 24,353 street lights, 10,282 street signs and 1,537 square yards of sidewalk
- 12,125 pothole repairs
- 32 Stormwater Management Projects
- Responded to 372 customer calls of various types during the month of February 2021, which includes calls related to the recent cold weather event.
- 143 neighborhood street projects

COMPLETED PROJECTS

Arterial Projects

Project Name	Council District	Bond Program	Project Type	Year	Completion Date
C02014 - Old Decatur Road Reconstruction	2	2014 BP	Arterials	2018	8/8/2018
C02261 - Mark IV Pkwy from Cantrell Samson Rd. to IH820 and Roundabout	2	2014 BP	Arterials	2018	4/4/2018
C02319 - Park Vista Blvd	2	2014 BP	Arterials	2018	7/9/2018
