Maudie Hamilton

Cleveland Harris

4. Overview of GDRC Agenda was presented by Brendan Skaggs with the City of Fort Worth Gas Well Division. An overview obtained from notes taken by Mr. Skaggs for the conducted meeting are as follows;

June 20, 2019 Gas Drilling Review Committee Meeting Notes

BLUESTONE NATURAL RESOURCES – Exelon South

Ashley Shuford, with BlueStone Natural Resources, presented the transportation route to the Exelon South pad site. She identified that this route was proposed due to traffic restrictions on Quail road from vehicles periodically parked on both sides of Quail road and bridge that restricts access for tanker trucks to access the Exelon South pad site. Mrs. Shuford identified the existing transportation route to be altered to allow tanker truck access to the site utilizing Willard Road.

The citizens present were then given the opportunity to speak stating their comments and concerns. Mr and Mrs. Hamilton and Mr Cleveland all expressed opposition for the proposed transportation route and for further City involvement for traffic control and street upgrades to be performed on Quail Road. Committee members at this time acknowledged the citizens concerns in lieu of the proposed transportation route and determined further review will be necessary and that a continuance will be required.

The route was not recommended for approval at this time.

Meeting Adjourned.
