Are Development Standards or Waivers being requested? Yes No If yes, please list below:

A site plan meeting requirements of the attached checklist is included with this application (required for all CUP requests)

DETAILED PROJECT DESCRIPTION

Please provide a detailed summary of your proposal below. This should include a detailed description of the proposed use and reason for rezoning, how this use is compatible with surrounding land uses and the City's Comprehensive Plan, and any other details relevant to your request. Feel free to attach additional pages, concept plans, etc. as needed.

For PD or CUP requests, please explain why your proposal cannot be accommodated by standard zoning districts, clarify if any waivers are being requested and why, and detail any changes from previously approved site plans or development standards.

We are respectfully requesting approval to add "Auto Repair" as an allowable use on the subject property which is currently zoned in the E district. Our proposal is to construct a Take 5 Oil Change on the subject property and while we do not perform any Auto Repair services on site due to the nature of our use it is classified within the Auto Repair category.

We believe this is a good fit in the E zoning category as there is no storage of automobiles on site and there is no auto maintenance or repair performed outside the building itself. The quick service oil change facility is low intensity user which does not generate a large amount of traffic volume and is a basic service to provide for the surrounding neighborhood.

It is our belief that approval of the conditional use as requested limits any higher intensity users which would be allowed if a straight zoning district change to the FR district was being requested. The proposed use also imposes no health or safety risk to the adjacent properties or surrounding area.
