Propose changing the zoning of 2817 Braswell Drive from Zone J to Zone K. The property is already bordered to the East and South by Zone K properties. To the West, the property is bordered by Interstate 35, which already has several Zone K properties both to the North and South of Braswell Drive.

We are proposing the change in zone to allow for the use of the property for Metal Fabrication for our company American Infrastructure and Metal Works. We are currently located at 2563 Berner Street in Fort Worth and are a rapidly growing 2-1/2 year old company. We are looking to expand our business and have toured many locations all over the metroplex in the last eight months. Unfortunately, we've found it very difficult to identify suitable buildings that meet both our operational needs and zoning requirements without moving out of Fort Worth where most of our employees are located.

The property at 2817 Braswell Drive fits our company's expansion plans well for the next phase of our business as we grow and continue to provide critical infrastructure components to our customers locally and nationwide.
