

Tax Increment Financing District Annual Report

Fiscal Year 2021-2022

Executive Summary

- The annual growth of Fort Worth's TIF districts continues its upward trajectory from previous years, with taxable property values **increasing by 7.0% in FY 2022**, however this trailed the increase in taxable values for the city overall, which increased by 14%.
- **Nearly half** of all new private property value added within a Fort Worth TIF district can be directly tied back to support provided by the TIF fund in the form of public improvements.
 - Approximately **\$2.8 billion** of Fort Worth's current tax base has been created through strategic investments in TIFs.

How do TIF districts work?

When a TIF is established, the total value of existing real property in the district is identified as its base value.

As the district begins to see more investment and new development, the total taxable value of the area begins to rise. The tax increment – the funds that make up the difference between the new taxable value and the original base value – are then set aside to help finance public improvements within the district.

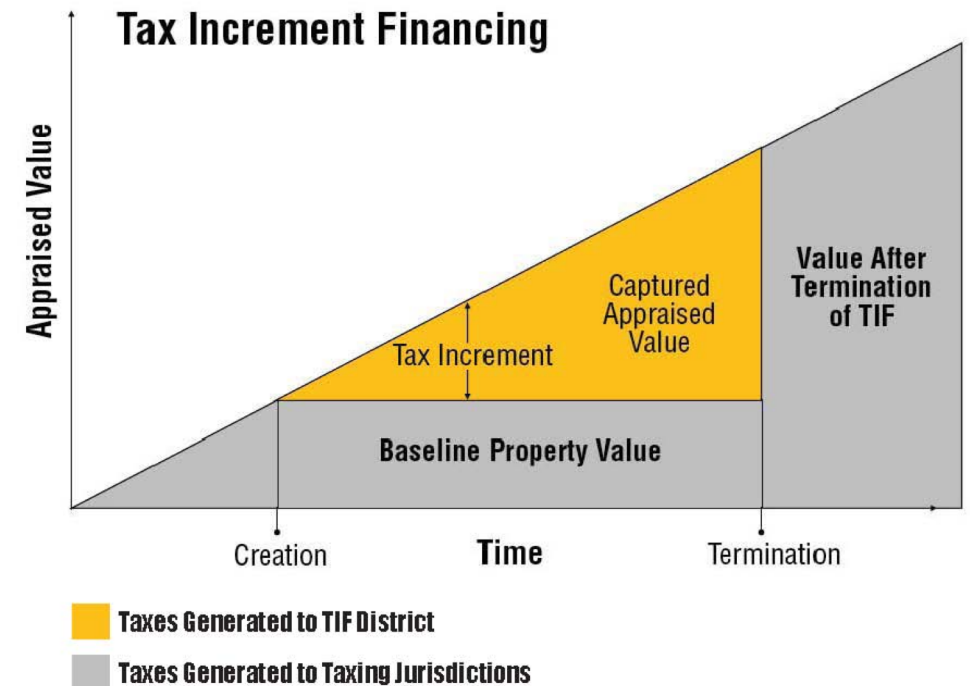

TIF funding supports larger infrastructure projects like the creation of roads or utilities, environmental remediation, destruction of existing structures, or historic preservation or rehabilitation.

How do TIF districts work?

TIFs play a crucial role in supporting taxable property values and encouraging new growth throughout Fort Worth, because they do not increase taxes on residents or businesses within their borders.

TIFs are a way for the City to finance larger infrastructure projects without having to dip into the city budget or spend tax dollars on them.

How are TIFs governed?

Each TIF district is governed by a TIF board, usually composed of 5-15 members that are appointed by participating taxing jurisdictions, including the city or county.

TIF boards review and approve all policies, projects and investments financed by the TIF fund for that particular district.

It also approves the TIF annual budget and provides direction to the TIF administrator, who is responsible for all day-to-day TIF-related activities – a position usually held by a member of the city's Economic Development Department, or a designated outside organization.

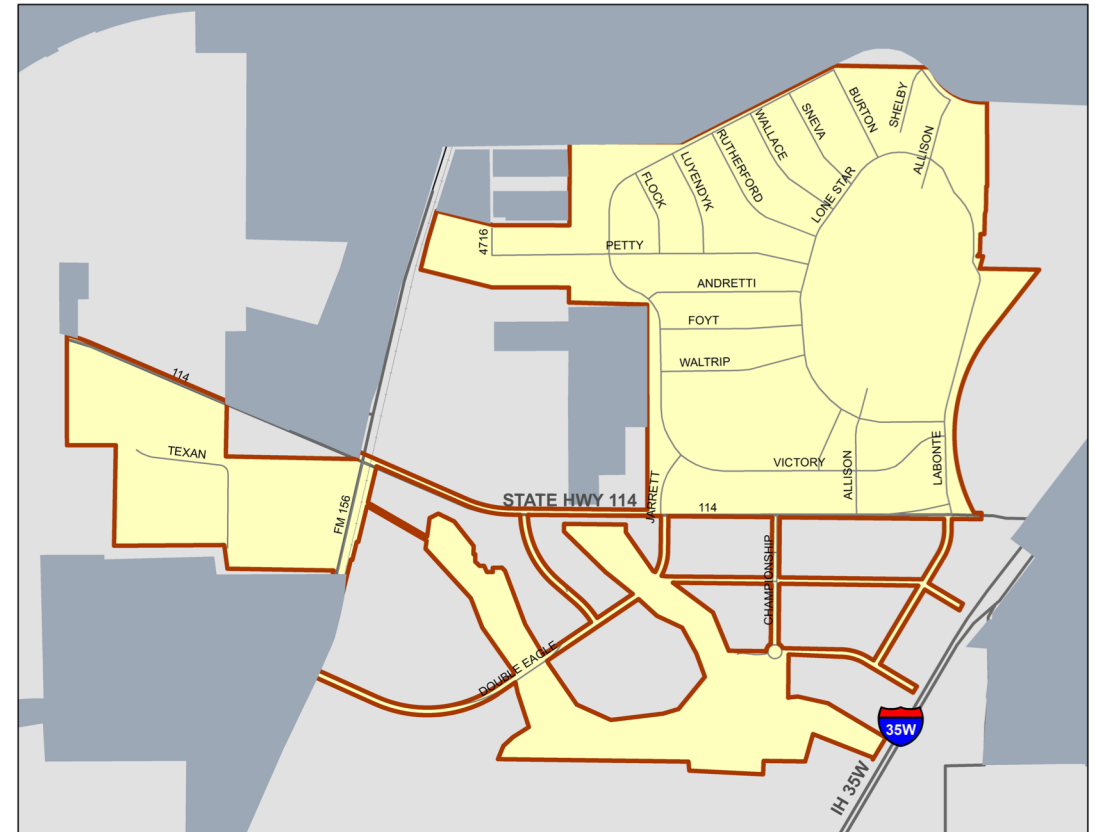

TIF 2: Texas Motor Speedway

January 1, 1996 – December 31, 2035 | 1,490 acres

TIF 2 was created as a means to purchase the Texas Motor Speedway and finance needed public improvements within the TIF boundary. It was expanded in 1999 to provide for construction, renovation, and operation of educational facilities located in the Northwest ISD tract, and to provide for additional infrastructure work such as street improvements, drainage and traffic signs.

Texas Motor Speedway (TMS) continues to serve as a major destination for tourism activity and an anchor to north Fort Worth.

After a drop in property appraisals in the preceding year, reflecting depressed sales activity at Champions Circle and Tanger Outlets due to the COVID-19 pandemic, property values rebounded during 2021 to mark 8% annual growth by end of year.

TIF 2: Texas Motor Speedway

January 1, 1996 – December 31, 2035 | 1,490 acres

FY22 TIF Balance: \$3,321,987.78

All projects supported by TIF 2 (Texas Motor Speedway) have been fully funded and all terms satisfied. There are no active projects or future commitments at this time.

TIF 3: Downtown

January 1, 1996 – December 31, 2025 | 407 acres

TIF 3 was created to promote the redevelopment of Downtown Fort Worth, and is administered in partnership with Downtown Fort Worth, Inc.

The effects of the COVID-19 pandemic continued to have a significant impact on activity in the Downtown TIF. Despite re-openings and stabilization in the broader economy, the return of office workers to downtown properties has been slow – an issue seen in major markets across the country. Appraisal values continued to slide for the district, with assessments falling by approximately -4.63% during 2021.

Major developments

- Supported by the Downtown TIF, the 220-room, \$56 million Harper Kimpton Hotel began operation in 2021.
- Continued design and financing progress have been made for planned improvements to Heritage Park.
- As the Downtown TIF approaches the end of its term in FY 2024, efforts have begun to manage the transition of funding and incentive support mechanisms for the Downtown area.

FY22 TIF Balance: \$14,423,853.65

A total of **\$2,971,553** of this balance has been committed to the following projects:

- \$204,825 for TIF Administration
- \$892,593 for 777 Main Garage Lease
- \$414,084 for City Center Garage Lease
- \$233,624 for Chase Bank Garage Lease
- \$140,472 for The Tower Garage Lease
- \$6,000 for TIF Planning
- \$15,000 for Free Parking Marketing
- \$64,955 for Parking Garage Insurance
- \$1,000,000 for Heritage Park

Current remaining funds: \$11,452,300.65

Note: Due to a \$100 million cap on lifetime TIF expenses, TIF 3 has a projected maximum of approximately \$3.5 million remaining for support of projects beyond those already listed.

TIF 4: Southside

January 1, 1996 – December 31, 2022 | 1,278 acres

Major developments

- In South Main Village and Vickery Village, TIF 4 continued to support strategic and transformative historic restoration projects. Just this year, the historic Katy Depot at Vickery and Jones was converted into a biotech hub and major milestone for the Near Southside's Medical Innovation District; the SoMa multi-building restoration along South Main at Daggett introduced a vibrant retail destination to South Main; the PROOF redevelopment at Vickery and College created an immediately popular destination, and notable tenants such as Bowlounge and a cluster of creative firms relocated to the Near Southside.
- Small-scale infill development remains a top goal for TIF 4, in support of the entrepreneurial efforts of local developers and small businesses that deliver new mixed-use buildings to challenging infill sites. Notable among TIF-supported projects completed in 2022 is the mixed-use building at Daggett and Galveston, home to neighborhood destinations The Holly and Kendall Davis Clay on the ground floor, and a residential unit above.
- The Near Southside's TIF-supported street repair program has finished its first four rounds in 2022, completing the reconstruction of dozens of street segments, as well as the replacement of old water and sewer lines underneath. The program is now entering its fifth round, and has become a critically important component in the district's revitalization. These new roadways will complement and facilitate hundreds of millions of dollars in new private investment along the improved streets.

TIF 6: Riverfront

November 12, 2002 – November 20, 2036 | 64 acres

TIF 6 was created to promote the development of north downtown, primarily near the former RadioShack campus / the new Fort Worth City Hall.

All property within the Riverfront TIF is currently occupied by Tarrant County College and other exempt uses. Despite the high level of activity that this brings to the district and to the northern portion of Downtown Fort Worth, the tax-exempt status of property has the effect of nullifying tax increment and any revenue that might otherwise go to the TIF.

All TIF supported projects have been fully funded and no projects are presently anticipated for the TIF district.

TIF 8: Lancaster Corridor

December 9, 2003 – December 31, 2024 | 220 acres

TIF 8 was created to promote development along the Lancaster corridor after an elevated portion of the I-30/I-35 interchange was realigned and demolished, re-establishing Lancaster Avenue as one of the primary gateways to Downtown Fort Worth and the Near Southside medical district.

TIF 8 continues to see the effects of the COVID-19 pandemic, particularly in hospitality and restaurant-related properties near the Fort Worth Convention Center. Property valuations declined during the 2021 tax year, sliding 5.81% year-over-year, but it was a less severe drop than experienced during the previous year.

Major developments

- The City of Fort Worth closed on the purchase of the former Pier 1 headquarters building in the northwestern portion of downtown which will serve as the new City Hall. The transition of City Hall and most City departments from the current campus will have various impacts on the Lancaster TIF district as certain City-owned properties are put on the market.
- Despite the pandemic, construction progress continued on several TIF-supported projects including Burnett Lofts and the Sandman Signature Hotel, while design and other pre-development work took place for Southern Land's Deco 969 and the TIF-funded T&P Passage project.

TIF 9: Trinity River Vision

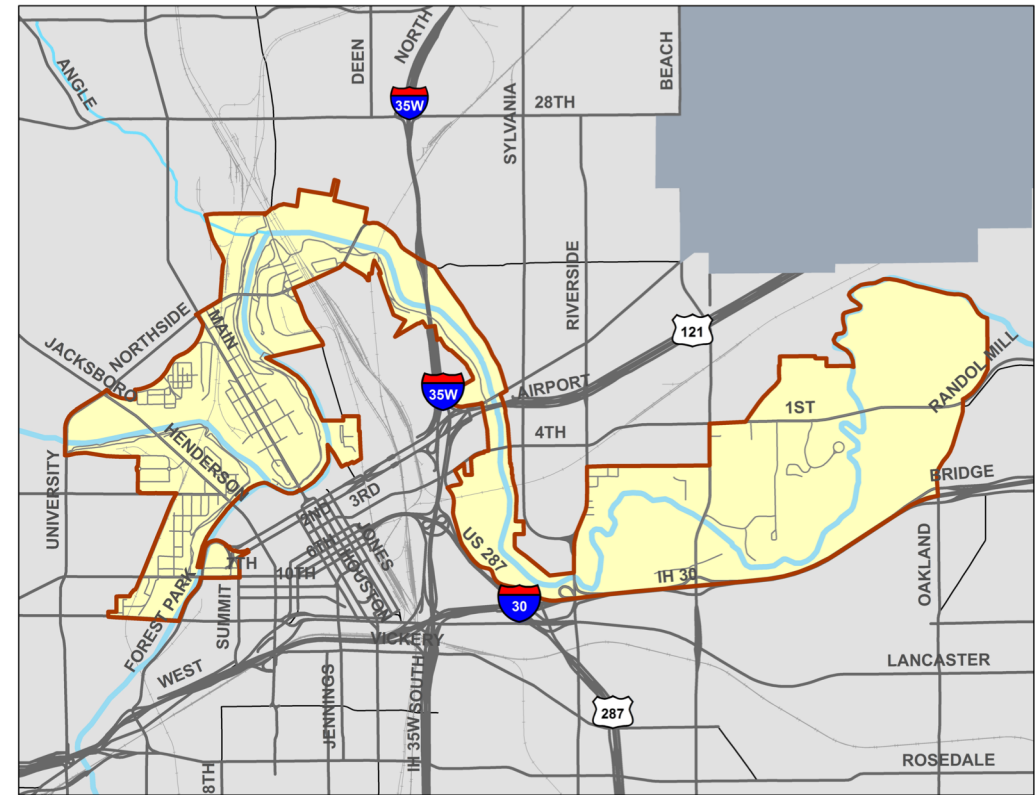

December 16, 2003 – December 31, 2054 | 3,980 acres

TIF 9 was created to promote redevelopment along the Trinity River while creating mixed-use development and utilizing Gateway Park as hydraulic valley storage to provide the necessary flood protection associated with the bypass flood control.

Three TIF-funded bridges were completed over what will become the Trinity River Vision-defining bypass channel. Completion of the bridges represents a major milestone for the district.

Major developments

- Encore completed development of a 300-unit multifamily apartment project near North Main Street and the Trinity River. The project represents the first major new development in what will become Panther Island, and is the first to feature an interior canal.
- 2021 saw the listing of several developable properties within the TIF district, most notably the approximately 26-acre site along North Main Street by Lancarte Commercial. The listing of these properties sets the stage for future development possibilities in the area.
- During 2022, the TIF partners voted to extend its lifespan from 2044 to 2054 to allow the TIF to support bonds issued by TRWD to cover costs associated with Trinity River Vision and Panther Island.

TIF 10: Lone Star

June 15, 2004 – December 31, 2025 | 981 acres

TIF 10 was created to finance the development of public space and infrastructure on and near the site of Cabela's, a 200,000 square foot hunting and outdoor retail facility in north Fort Worth.

TIF 10 demonstrated a drop in taxable value due to Cabela's continued decline in sales. Although the result was a lower assessment, nearby developments at Alliance Airport continue to draw in new businesses that add to Fort Worth's economy and position as an ideal location for aerospace, manufacturing, and transportation innovation.

Major developments

- TIF 10 revenues were dedicated to paying for the initial public improvements and exhibition space that supported the Cabela's development.
- Currently, no further development projects can be supported by TIF funds, as all amounts collected are needed to pay down the cost of the infrastructure in place.
- Cabela's purchased the bond that provided the up-front funding for the project. The TIF district pays the holder of that bond as tax increment is collected into the TIF. However, TIF 10 experienced a year-over-year revenue decrease of 4.77% in FY 2021 as a result of the local economy during the pandemic.

TIF 12: East Berry Renaissance

June 18, 2006 – December 31, 2027 | 604 acres

TIF 12 was created to help fund public infrastructure improvements along the East Berry Street corridor and promote redevelopment and growth throughout the area.

Major developments supported by TIF in FY2022

- The TIF is currently supporting the E. Berry master corridor transformation plan from I-35 to Lake Arlington. The plan will look at transportation, public infrastructure improvements, development opportunities, smart city infrastructure and more, and is supported by \$2.5 million in bond funds from the City's 2022 bond package.
- Mason Heights multi-use development is entering the final phase of its development, with plans to bring additional mixed income housing opportunities, enhancements to Happy Park, neighborhood commercial and office space, and Columbia Renaissance's final multi-family building.
- Center for Transforming Lives announced it will consolidate and build its new headquarters on the northeast corner of Berry & Riverside.

TIF 13: Woodhaven

November 27, 2007 – December 31, 2028 | 1,100 acres

TIF 13 was created to help fund public infrastructure improvements that will provide a “foundation for development” to encourage and support the long-term public needs of the neighborhood and secure mixed-use economic growth opportunities in the Woodhaven area.

Despite the effects of the COVID-19 pandemic, appraised values increased 3.71% year-over-year.

Major developments

- The City of Fort Worth completed sidewalk repairs at Woodhaven Boulevard and Bridge Street, as well as Bridge Street and Boca Baton Boulevard.
- Eastside Blossoms continued the second phase of planting trees throughout the district as part of the Texas Blossoms project.

TIF 14: Trinity Lakes

November 12, 2012 – December 31, 2032 | 1,800 acres

TIF 14 was created to help finance public infrastructure improvements in the area east of Loop 820 surrounding Trinity Boulevard, including improvements to arterials (Trinity Boulevard and Precinct Line Road), the Trinity Trails system, and other eligible projects that help encourage redevelopment in the Trinity Lakes area as a Transit-Oriented Development.

The Trinity Lakes TIF experienced its third consecutive year of double-digit growth in appraisals in 2021, posting a growth rate of 13.6% year-over-year. Growth in appraisals is being driven in the district by continued development and upward pricing in single-family homes in the area.

TIF 14: Trinity Lakes

November 12, 2012 – December 31, 2032 | 1,800 acres

Major developments

- The Board of TIF 14 authorized up to \$6.2 million in reimbursements for the construction of new roadway serving the planned Trinity Lakes TRE station and the extension of a major water line by the Newell Company.
- Up to \$18.5 million was authorized for reimbursement by the Board of TIF 14 relating to the construction of improvements to Trinity Boulevard. The project will be led by the City of Fort Worth and supported by bond financing, with annual debt service paid by the Trinity Lakes TIF district. The agreement represents a major step forward in the development of new commercial and mixed-use property planned for the area.

TIF 15: Stockyards / Northside

December 2, 2014 – December 31, 2034 | 925 acres

TIF 15 was created recognizing the historical and economic importance of the Fort Worth Stockyards and surrounding neighborhoods – the growth and vitality of which is impeded by inadequate infrastructure and pockets of persistent blight. The Stockyards / Northside TIF has been created to support the preservation and enhancement of the greater Stockyards area through strategic investment in public improvements.

Despite lingering impacts from the COVID-19 pandemic, the completion of TIF-supported development along Mule Alley spurred strong activity within the district, supporting district-wide growth in appraisals of 7.1% year-over-year during 2021.

TIF 15: Stockyards / Northside

December 2, 2014 – December 31, 2034 | 925 acres

Major developments

- 2021 saw the opening of the Hotel Drover, a 200-room Autograph Collection hotel anchoring the revitalized Mule Alley portion of the Stockyards.
- In 2021, after several years of planning and more than a year of construction, the redevelopment of the historic New Isis Theatre stalled due to pandemic-related construction cost increases and other factors threatened the possibility that completion of the project might not be possible without financial assistance. To support completion of the historic preservation project and enable opening of the theater, the Board of TIF 15 authorized a conditional loan of TIF funds to the project. With the support from the TIF, the project was completed, the theater opened, and its operation continues today.
- The Board of TIF 15 authorized a development agreement with Fort Worth Heritage Development for a \$52.5 million investment in the construction of three new western sports arenas and two parking garages featuring a combined 1,300 parking stalls. At completion, the garages and arenas will be owned by the City of Fort Worth, with the TIF district reimbursing up to \$25 million in eligible costs. Additionally, the agreement includes up to \$1 million for the rehabilitation of the historic Armour-Swift stairs and wall near the terminus of East Exchange Street.
