Dear Debra Perry and Brandy O'Quinn:

On behalf of the City of Fort Worth, I am proud to announce our commitment to become a SolSmart-designated community. In partnership with the SolSmart team, our dedicated staff members will work to improve solar market conditions, making it faster, easier, and more affordable for our residents and businesses to install solar energy systems. These efforts will also increase the efficiency of local processes related to solar development, which may save our local government time and money.

We will leverage SolSmart to achieve the following solar goals:

- **Train staff on solar PV best practices in planning, zoning, permitting, and inspection.**
- **Expand and communicate solar finance options for residential or commercial properties.**
- **Develop a streamlined process for solar permitting or inspections.**

These goals demonstrate that our community is committed to continually improving our solar market. This includes ensuring solar development is inclusive and equitable. We're looking forward to learning more from the SolSmart program on how to expand access to solar for all our residents and support solar energy adoption for those that are under-resourced or underserved.

The SolSmart program will build on our solar efforts, such as providing for the use of solar in our community on an individual basis and providing basic background information that supports the increased use of this technology.

To measure progress along the way, we will track key metrics related to solar energy deployment, such as installed solar, permitting processing time, and growth in residential installations.

We understand that the SolSmart program has criteria and point requirements as outlined in the SolSmart Program Guide needed to achieve each tier of designation. We're excited to submit this solar statement to complete the first requirement of the program.

Inquiries related to our SolSmart participation can be directed to Wyndie Turpen at wyndie.turpen@fortworthtexas.gov.

Sincerely,

Valerie Washington (Jul 5, 2024 15:12 CDT)
