

What to do with your bags

Your litter cleanup bags

Black or White - litter and garbage

Clear - clean recyclables

Don't leave bags behind

Do not abandon trash or recycling bags on any property or place them in a dumpster that does not belong to you without permission. This is considered illegal dumping.

Take bags to a Drop-Off Station

Please take bags to one of the four Drop-Off Station locations. Drop-Off Stations accept litter bags, clear recycling bags with clean recyclables, electronic waste, household hazardous waste, and tires (limit 4). They are open to residents of Fort Worth with a valid ID that has a Fort Worth address. If you are cleaning an area of Fort Worth, but do not have a Fort Worth address, you will need to take the voucher with you. Supplies and Drop-Off Stations are not available for cleanups that occur outside of Fort Worth.

Request a bag pick-up

After your cleanup, if you are unable to take your bags to a designated Drop-Off Station, please call the Customer Call Center at 817-392-1234 and ask for a **litter cleanup special collection**. Please do not call before your cleanup, as you will need to give them the exact location of the bags. They must be left in an area accessible to a garbage truck. Please note that recycling is not available when using this option. All bags will go to the landfill.

You may also submit a request from your phone using the MyFW App. Be sure to have the following information ready:

- Exact location of your bags (address or cross street, ex: "3600 Sansom Park Dr.", "Buck Sansom Park", "Corner of 35th and Macie")
- Description of the location (ex: "5 bags located between two trees on north side of the main parking lot")
- Photos are helpful when submitting through MyFW App.
