

## Interfund Loans Policy

---

### **I. Authority**

The Fort Worth City Council is responsible for legislation, policy formulation, and overall direction setting of the government. This includes the approval of financial policies which establish and direct the operations of the City of Fort Worth (“City”). The City Manager is responsible for carrying out the policy directives of the City Council and managing the day-to-day operations of the executive departments, including the Financial Management Services Department (“FMS”). This policy shall be administered on behalf of the City Manager by the Chief Financial Officer / Director of FMS (“CFO”).

### **II. Purpose**

This policy is intended to establish guidelines for the management of interfund loans between City funds. Interfund loans are amounts provided between funds and component units of the City of Fort Worth with a requirement for repayment.

### **III. Applicability and Scope**

This policy shall apply to all funds under the budgetary and fiscal control of the City Manager and the Mayor and City Council.

### **IV. Glossary**

See definitions related to this policy provided in the Glossary for Financial Management Policy Statements.

### **V. Review and Approval**

In accordance with the City of Fort Worth Charter, any movement of funds from one fund to another requires the approval of City Council. Furthermore, the CFO and the City Manager, or a designated official other than the CFO, must review and authorize all interfund loan proposals.

### **VI. Funding Source for Loans**

The funding source of all interfund loans must be idle cash on deposit in a fund. During the term of the loan, the outstanding balance at any time must not be needed to finance normal operations. Adequate documentation, i.e. cash flow analysis, is required to support the requirement that loaned funds are idle.

### **VII. Use of Loan Proceeds**

Interfund loans must only be made to finance short-term capital needs of the borrowing fund. Short-term is defined as a period up to five (5) years. The exception to this policy is loans from the General Fund to other funds.

### **VIII. Repayment Source**

The borrowing fund must have an identified revenue stream for the repayment of all principal and interest incurred from the loan. Management must provide documentation of the ability to repay the obligation, and the department/fund incurring the loan must execute an agreement described in Section X below. Loans will not be approved if the obligor fund cannot substantiate the ability to finance current business and capital operations, make agreed upon loan repayments, and maintain sufficient cash to meet emergency cash needs.

### **IX. Repayment Term**

All interfund loans must be repaid in no more than five (5) years from the date loan documents are executed.

### **X. Legal Documentation**

All interfund loans shall be approved by the City Council by official action and are consummated by loan agreements. Those agreements will stipulate the loan purpose, the loan amount, the term, repayment source, interest rate, and other information as required to fully document the transaction.

### **XI. Repayment**

Interfund loans are interest-bearing except for advance funding for grants, reimbursement resolutions, or when senior management finds it appropriate to forego the payment of interest. The interest rate charged and paid must comply with all applicable laws and regulation. At a minimum the rate charged will equal the return earned on the City's short-term investment portfolio.

### **XII. Water and Sewer Fund Loans**

In accordance with the Water and Sewer System Master Ordinance, excess pledged revenues can be used to make loans to other City Departments/Funds. Before making that determination, the Water and Sewer fund must cover all obligations for Operation and Maintenance Expenses, Debt Service Expenses, Debt Service Coverage, Transfers to the General Fund, Transfers to the Debt Service Funds, and Operating Reserve Requirement (from Net Position).

### **XIII. Year-End**

Nothing contained within this policy is intended to require Mayor and Council approval, or City Manager approval, for booking interfund loans at the end of the year in order to prevent a fund or fund group from reporting a deficit cash position. Such entries shall be made under the guidance and approval of the CFO and shall be immediately reversed in the subsequent fiscal year. If a fund has a recurring deficit cash position, it shall be the responsibility of the FMS to coordinate discussion with the department responsible for the fiscal administration of the fund in order to develop a plan to mitigate this deficit cash position.

### **XIV. Revision History**

Standard Statement: Revisions are detailed in the table. The revision number reflects the sequential order of updates and is archived under the corresponding fiscal year. The “Revision Date” refers to the date the change was made, which may differ from the “Effective Date” which is the first day of the subsequent Fiscal Year, as formal enactment is determined by Mayor and Council (M&C) action. The “Revision Summary” field specifies the nature of the change and may include a rationale.
