OPEB Trust

I. Authority

The Fort Worth City Council is responsible for legislation, policy formulation, and overall direction setting of the government. This includes the approval of financial policies which establish and direct the operations of the City of Fort Worth (“City”). The City Manager is responsible for carrying out the policy directives of the City Council and managing the day-to-day operations of the executive departments, including the Financial Management Services Department (“FMS”). This policy shall be administered on behalf of the City Manager by the Chief Financial Officer / Director of FMS (“CFO”).

II. Purpose

The purpose of this document is to provide the Trustee and its Sub Advisors with a set of objectives, parameters and guidelines to assist in the administration of the Trust; to guide investment managers in structuring portfolios consistent with desired performance result and acceptable risk levels; to assure the assets are managed in a prudent fashion and to serve as the framework for all investment activities related to the Trust.

III. Applicability & Scope

This investment policy and strategy applies to all accumulated assets for the City of Fort Worth Other Post-Employment Benefits Trust (“Trust”) created by the Fort Worth City Council by Resolution No. 3779-08-2009, and its consultants, agents, investment managers, advisory boards, Trustees, Trust Administrator and assigned staff.

All investment activities shall be conducted in full compliance with applicable City ordinances as well as state and federal rules and regulations.

IV. Glossary

See definitions related to this policy provided in the Glossary for Financial Management Policy Statements.

V. Investment Policy and Objectives

The primary obligations of the City’s governing body in investing assets are to do so for the exclusive benefit of the beneficiaries. Emphasis must be placed upon the consistent protection of the Trust’s assets and growth performance, i.e., the achievement of adequate investment growth must not be at the expense of the protection of the assets over the investment horizon. Specific objectives of investment activities carried out by the Trustee and its Sub Advisors include the following:

Investment Policy and Strategy

OPEB Trust

The expected annual rate of return for the portfolio will be equal to the actuarial assumption, until amended by the City Council (“Council”).

Individual investment managers will not be measured against the aggregate fund objective stated in section II. A., but will be compared to appropriate market indices and a blended Plan Target Benchmark outlined in Section III, subsection 7 of the Policy.

A. Authority and Oversight Procedures

By law, the City Council retains ultimate fiduciary responsibility for the OPEB Trust Fund regardless of management assignment. The Council shall receive quarterly reports and annually review and adopt this Policy. The Investment Committee designated by the City Council is responsible for reviewing and authorizing all broker/dealers. The City Council has delegated the responsibility for conducting investment transactions with the Trustee and its Sub Advisors. The Trustee and its Sub Advisors will provide investment information to the Council concerning investment decisions, including rebalancing asset allocation, and portfolio performance on a quarterly basis.

The Chief Financial Officer/Director of Financial Management Services is responsible for monitoring the portfolio and reports submitted by the Trustee and its Sub Advisor.

The Trustee and its Sub Advisor shall maintain responsibility for investing the assets in the Trust. All assets will be held by the Trustee. The advisor will provide performance analysis that will include, but not be limited to, a strategic analysis including a report on asset allocation, risk analysis, and appropriate, if any, changes to the percentages therein. This study will be used to assist the Chief Financial Officer/Director of Financial Management Services and Investment Committee in the determination of the appropriate investment Policy.

Any business organization offering to engage in an investment transaction with the Trust must be provided with a copy of this Investment Policy and Strategy, with “business organization” defined as “an investment pool or investment management firm under contract with an investing entity to invest or manage the entity’s investment portfolio that has accepted authority granted by the entity under the contract to exercise investment discretion in regard to the investing entity’s funds.” The business organization must provide the City with a written instrument (in a form acceptable to both parties) executed by a representative of the business organization that substantially acknowledges that the business organization has: (a) received and reviewed this Investment Policy and Strategy; and (b) implemented reasonable procedures and controls in an effort to preclude investment transactions with the Trust that are not authorized by this Investment Policy and Strategy. Any material changes to this Investment Policy and Strategy will require recertification by each business organization.

Investment Policy and Strategy

OPEB Trust

The City's Investment Committee will perform a strategy and performance review at least semi-annually. The Committee will review and act on any potential need for refinement or revision of the OPEB Trust's policies or strategies.

B. Standards of Care

The standard of care to be used shall be the "prudent person" standard as established by the Act and shall be applied in the context of managing the overall OPEB Trust Fund. The "prudent person" standard states that, "Investments shall be made with judgment and care, under prevailing circumstances, that a person of prudence, discretion and intelligence would exercise in the management of the person's own affairs, not for speculation, but for investment, considering the probable safety of capital and the probable income to be derived."

In determining whether a Trustee has exercised prudence with respect to an investment decision, the determination shall be made taking into consideration: the investment of all funds, or funds under the Trustee's control, over which the Trustee had responsibility rather than a consideration as to the prudence of a single investment; and (2) whether the investment decision was consistent with this written investment Policy.

C. Ethics and Conflicts of Interest

Employees of the City of Fort Worth, the Trustee or its Sub Advisors involved in the investment process shall refrain for personal business activity that could conflict with proper execution of the investment program, or which could impair their ability to make impartial investment decisions. Also, employees of the City of Fort Worth involved in the investment process shall disclose any material financial interests in financial institutions that conduct business with the City, and they shall further disclose any material personal financial/investment positions that could be related to the performance of the City's investment program.
