

February 8, 2021

The Honorable Mayor,
City Council and City Manager
City of Fort Worth, Texas

Ladies and Gentleman,

The Public Funds Investment Act (Chapter 2256, Texas Government Code Sec. 2256.023) requires the entity's Investment Officers to prepare and submit to the governing body, a written report of investment transactions for all funds subject to the requirements of the Public Funds Investment Act (the City's General Investment Portfolio).

The attached Investment Report covers the quarter ending December 31, 2020 ("Period-to-Date or PTD"). The report describes the economic trends affecting the City's investments along with a summary of the City's investment performance during the reporting period.

Accompanying the General Investment portfolio report are the quarterly investment reports of the Fort Worth Permanent Fund Trust, the Other Post-Employment Benefits ("OPEB") Trust, and the Fort Worth Employees Retirement Fund. Each section has been bookmarked within the PDF for ease of reference.

Portfolio	PTD %	FYTD %	Prior FYTD %
General	0.240	0.240	1.671
Permanent Fund	8.190	8.190	3.990
OPEB	2.710	7.350	7.450
Retirement	2.850	2.850	4.310

FYTD = Fiscal Year to Date

Prior reports can be found on the City's website.

As always, we are happy to answer any questions.

Respectfully Submitted,

John Samford
Assistant Finance Director and City Treasurer

Public Trust Economic Update

Quarter 4 2020

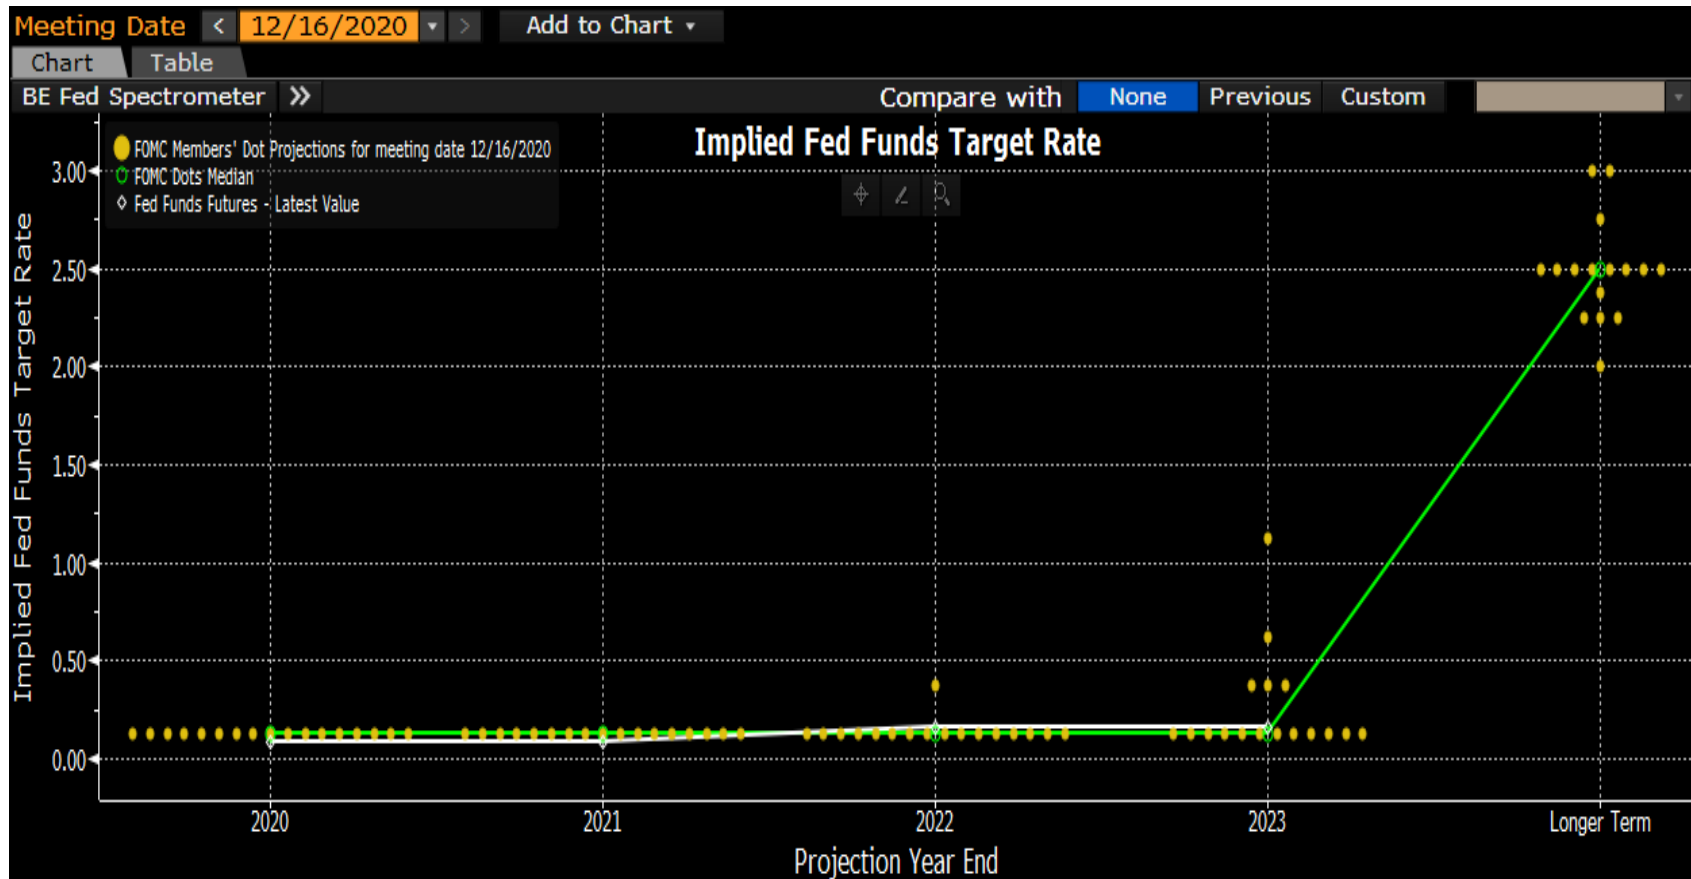

January 2021

Fed Funds Target Rate

- The Federal Reserve decreased the target rate to a range of 1.00% to 1.25% on March 3, 2020. They announced another 100-basis point cut down to 0.25% on Sunday, March 15, in response to the evolving risks presented by COVID-19 to the economy.
- Guidance from the FOMC at the December 6, 2020, meeting indicates they do not expect an increase in the target rate until 2023.

FOMC Dot Plot – December 16, 2020

- The dot plot released following the September 2020 FOMC meeting indicates that most committee members expect to keep the target rate at 0-25 basis points through 2023.
- Longer-term projections show the target level returning to 2.5%.

Comparative Historical Yield Curves

- The yield curve continues to flatten as investors move from riskier assets to the safety of U.S. Treasury securities.
- The 10-year U.S. Treasury Note reached a record low yield 0.543% on March 9, 2020.

Money Market Yield Curves

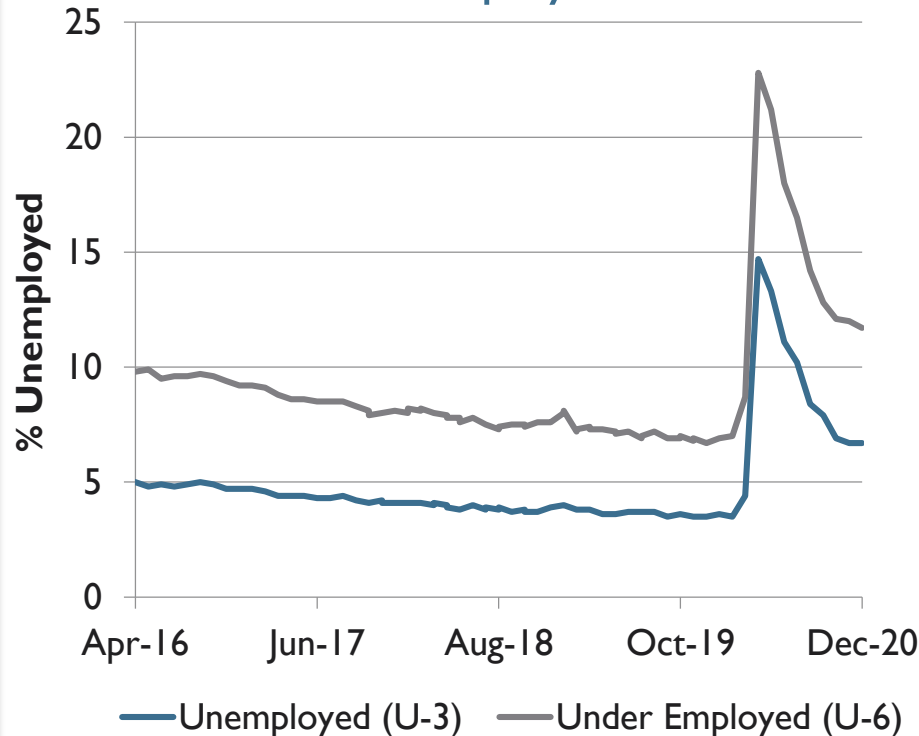

Security Pricing as of December 31, 2020

- The yield spread between short-term Treasuries and agency discount notes remains at very tight levels.
- Commercial paper yields have repriced lower as the FOMC continues to keep interest rates near zero.

Labor Market

U.S. Unemployment Rate

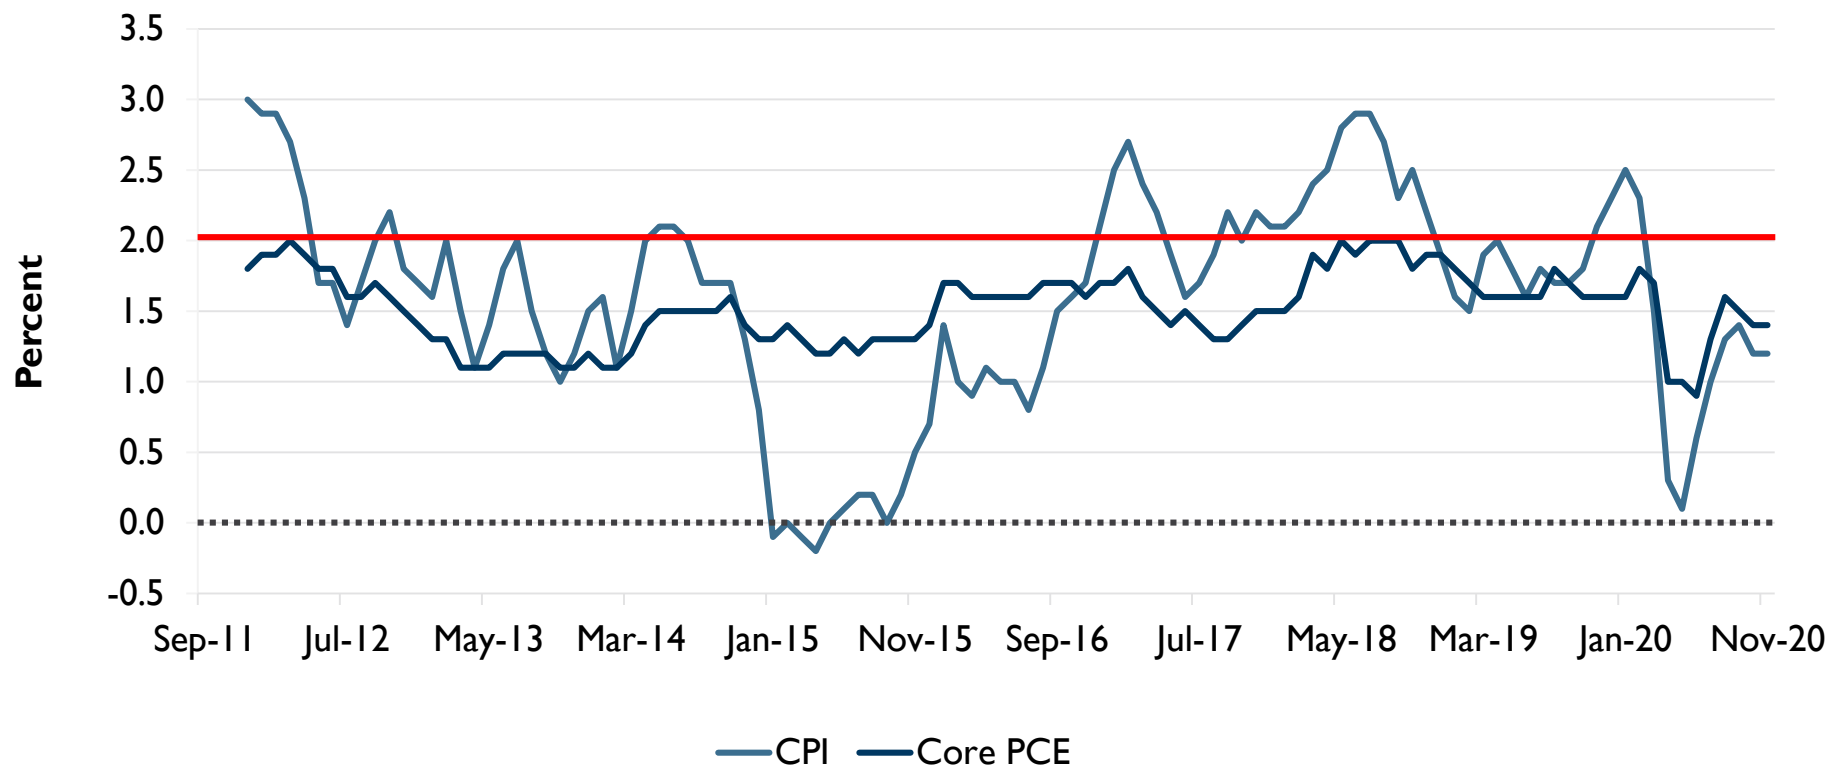

Nonfarm Payrolls

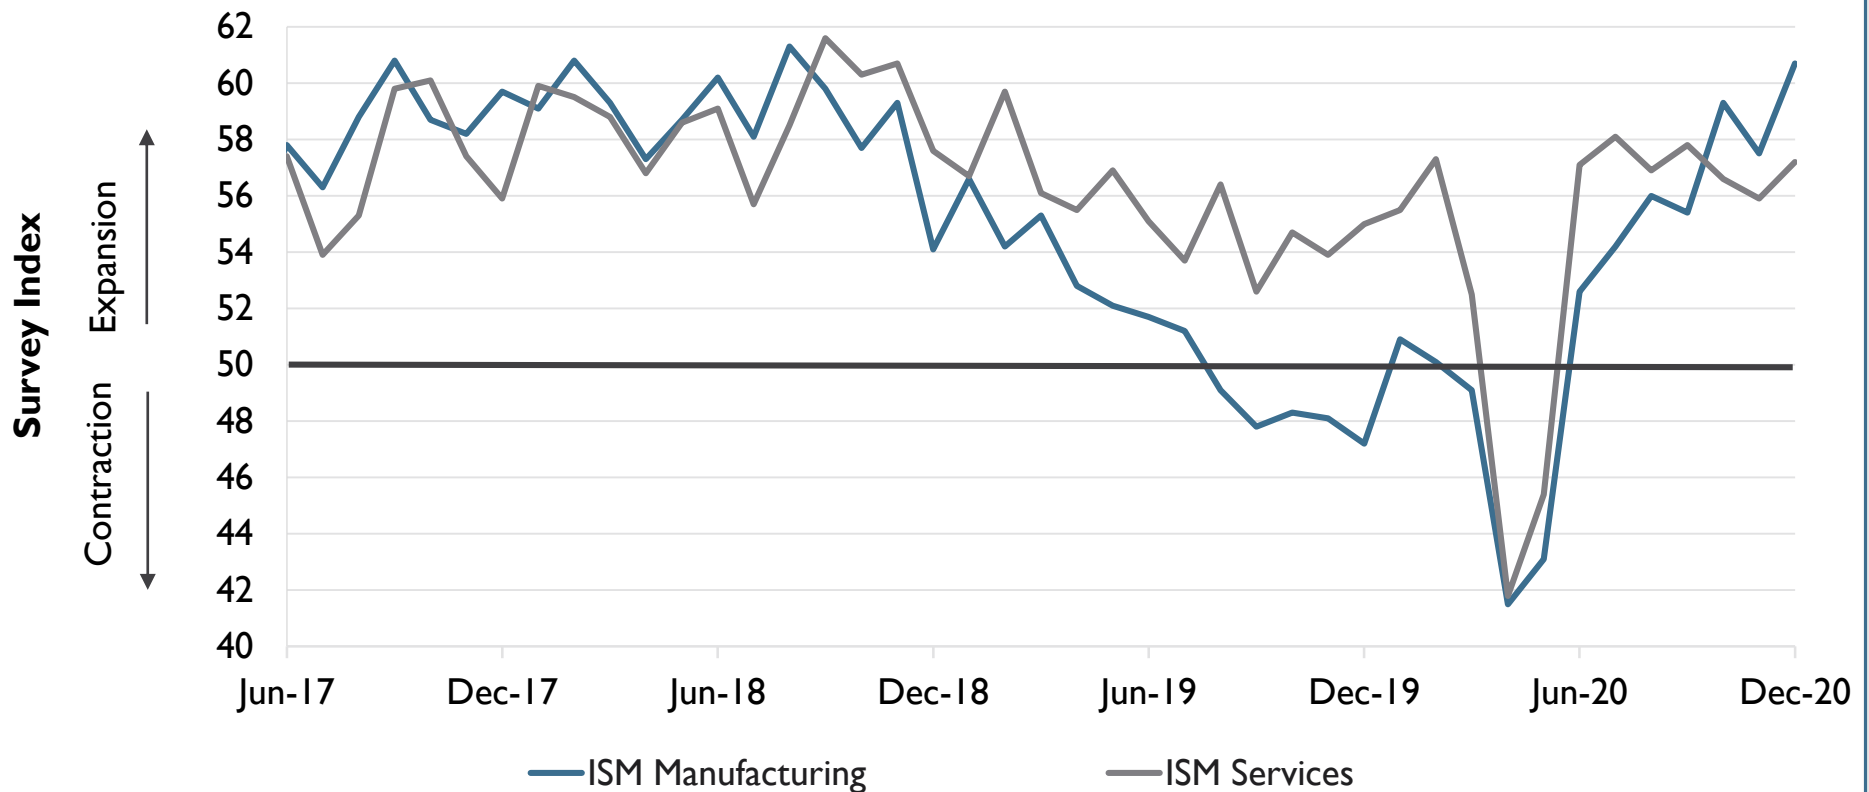

- The December unemployment rate remained at 6.7%, the same as in November; the underemployment rate decreased from 12.0% to 11.7%.
- December payrolls decreased by 140k, down from the 245k jobs added in November and below the expected December payrolls figure of 50k.
- Average hourly earnings increased at an annualized rate of 5.1% on a year-over-year basis in December.

Inflation

- Headline CPI for November rose 1.2% on a year-over-year basis. Core CPI (less food and energy) increased 1.6% from the prior year in October. The increase in consumer prices reflects the rebound in demand as the economy recovers from the pandemic-induced lockdowns earlier this year.
- The Fed's preferred measure of inflation, core PCE, increased 1.4% in November, remaining below the Fed's target of 2.0%. Policymakers view the PCE core index as a better indicator of underlying price trends.
- Inflation remains subdued amid mixed consumer demand as the pandemic continues.

Institute of Supply Management

- ISM Manufacturing for December increased from 57.5 in November to 60.7. U.S. manufacturing expanded in December at the fastest pace in more than two years. The employment component advanced to 51.5, marking only the second time since mid-2019 that the index has indicated expansion.
- ISM Services increased to 57.2 in December versus 54.5 expected and 55.9 in November. Respondents' comments were mixed, but most were cautiously optimistic about vaccine approval and distribution. ISM services employment index dipped back below 50 to 48.2 from 51.5 in the previous month.

Contributions to Percent Change in Real GDP

- The U.S. economy grew the most on record at a 33.4% annualized pace during the third quarter of 2020.
- GDP shrank the most on record at -31.4% in the prior quarter.
- Personal consumption, the biggest part of the economy, rose 41.0% in the third quarter after falling 33.2% in the second quarter

Disclosures

This presentation is for informational purposes only. The information contained herein has been obtained from sources that we believe to be reliable, but its accuracy and completeness are not guaranteed. The materials in the attached are opinions of Public Trust Advisors, LLC and should not be construed as investment advice. Many factors affect performance including changes in market conditions and interest rates and in response to other economic, political, or financial developments. Performance comparisons will be affected by changes in interest rates. Investing involves risk including the possible loss of principal. The presentation is not a recommendation to buy, sell, implement, or change any securities or investment strategy, function, or process. No Tax Adjustment.

Note that data will not exist prior to the performance inception date of: 12/10/2014.

Reported Index Return is always Total Return.

This information is for the sole purposes of the client and is not intended to provide specific advice or recommendations. Please review the contents of this information carefully. Should you have any questions regarding the information presented, calculation methodology, investment portfolio, security detail, or any other facet of this information, please feel free to contact us.

Public Trust Advisors, LLC (Public Trust) statements and reports are intended to detail our investment advisory activity as well as the activity of any client accounts managed by Public Trust. The custodian bank maintains the control of assets and executes and settles all investment transactions. The custodian statement is the official record of security and cash holdings transactions. Public Trust recognizes that clients may use these reports to facilitate record keeping; therefore, it is recommended that the client reconcile this information with their custodian bank statement. Many custodians use a settlement date basis that may result in the need to reconcile due to a timing difference. The underlying market value, amortized cost, and accrued interest may differ between the custodian and this statement or report. This can be attributable to differences in calculation methodologies and pricing sources used. Please contact your relationship manager or call us at (855) 395-3954 with questions regarding your account.

Public Trust does not have the authority to withdraw funds from or deposit funds to the custodian. Our clients retain responsibility for their internal accounting policies, implementing and enforcing internal controls, and generating ledger entries or otherwise recording transactions. The total market value represents prices obtained from various sources; it may be impacted by the frequency at which prices are reported, and such prices are not guaranteed. Prices received from pricing vendors are generally based on current market quotes but when such quotes are not available, the pricing vendors use a variety of techniques to estimate value. These estimates, particularly for fixed-income securities, may be based on certain minimum principal amounts (e.g. \$1 million) and may not reflect all the factors that affect the value of the security including liquidity risk. The prices provided are not firm bids or offers. Certain securities may reflect N/A or unavailable where the price for such security is generally not available from a pricing source. The market value of a security, including those priced at par value, may differ from its purchase price and may not closely reflect the value at which the security may be sold or purchased based on various market factors. The securities in this investment portfolio, including shares of mutual funds, are not guaranteed or otherwise protected by Public Trust, the FDIC (except for certain non-negotiable certificates of deposit), or any government agency unless specifically stated otherwise.

Clients may be permitted to establish one or more unmanaged accounts for the purposes of client reporting. Public Trust defines an unmanaged account as one where the investment direction remains the sole responsibility of the client rather than the Investment Manager. These accounts do not receive ongoing supervision and monitoring services. The Investment Manager does not make any investment recommendations and may not charge a fee for reporting on these accounts. The primary purpose for this service is to include unmanaged accounts owned by the client in the performance reports provided by the Investment Manager. The Investment Manager assumes no liability for the underlying performance of any unmanaged accounts or assets, and it is the client's sole responsibility for the accuracy or correctness of any such performance.

Beginning and ending balances are based on market value plus accrued interest on a trade date basis. Statements and reports made available to the end user either from Public Trust or through the online reporting platform may present information and portfolio analytics using various optional methods including, but not limited to, historical cost, amortized cost, and market value. All information is assumed to be correct, but the accuracy has not been confirmed and therefore is not guaranteed to be correct. Information is obtained from third party sources that may or may not be verified. The data in this report is unaudited and is only applicable for the date denoted on the report. Market values may change day-to-day based on numerous circumstances such as trading volume, news released about the underlying issuer, issuer performance, etc. Underlying market values may be priced via numerous aspects as certain securities are short term in nature and not readily traded. Performance results are shown net of all fees and expenses and reflect the reinvestment of dividends and other earnings.

Many factors affect performance including changes in market conditions and interest rates and in response to other economic, political, or financial developments. Investment involves risk including the possible loss of principal. No assurance can be given that the performance objectives of a given strategy will be achieved. Past performance is no guarantee of future results. Any financial and/or investment decision may incur losses.

The investment advisor providing these services is Public Trust Advisors, LLC, an investment adviser registered with the U.S. Securities and Exchange Commission (SEC) under the Investment Advisers Act of 1940, as amended. Registration with the SEC does not imply a certain level of skill or training. Public Trust is required to maintain a written disclosure brochure of our background and business experience. If you would like to receive a copy of our current disclosure brochure, Privacy Policy, or Code of Ethics, please contact us.

Blended benchmark returns for the portfolio noted above reflect changes to the strategic asset allocation made over time. Index benchmarks are provided for comparison purposes only and are based on the most recently published data available. Indexes are unmanaged and performance results do not reflect the deduction of any advisory fees or commissions. The inclusion of an index is intended to provide a uniform reference point for the performance of an asset class and does not imply that the index is necessarily an appropriate benchmark for, or comparable to, an investment style or strategy specified. The composition and performance of an index that is specified in this report may differ from the composition and performance of an investment style to which it is compared. Additional information on any index referenced in this report is available upon request. You cannot invest in an index.

Blended Benchmarks: (cont.)

CPI-Plus Benchmark:

Consumer Price Index (CPI): program produces monthly data on changes in the prices paid by urban consumers for a representative basket of goods and services.

Two Asset Static (Stock/Bond) Benchmark:

BBG BARC Multiverse Index: This provides a broad-based measure of the global fixed-income bond market. The index represents the union of the Global Aggregate Index and the Global High-Yield Index and captures investment grade and high yield securities in all eligible currencies.

MSCI All Country World Index: A free float-adjusted market capitalization weighted index that is designed to measure the equity market performance of developed and emerging markets. The Index consists of 46 country indices comprising 23 developed and 23 emerging market country indices.

Class Level Array Benchmarks:

Cash Equivalents: Lipper Money Market Funds Index is the average of the 30 largest funds in the Lipper Money Market Funds Category. These funds invest in high quality financial instruments rated in top two grades with dollar-weighted average maturities of less than 90 days. Money market funds intend to keep a constant net asset value. You cannot invest directly in a Lipper Average.

U.S. Investment Grade Bonds-Taxable: Bloomberg Barclays U.S. Aggregate Bond Index (BBG BARC US Aggregate) is unmanaged and is composed of the Barclays U.S. Government/Credit Index and the Barclays U.S. Mortgage-Backed Securities Index, and includes Treasury issues, agency issues, corporate bond issues, and mortgage-backed securities.

U.S. Investment Grade Bonds-Tax Advantaged: Bloomberg Barclays Municipal Bond 1-15 Year Blend Index (BBG BARC 1-15 Yr Muni) measures the performance of municipal bonds with maturities of between one and fifteen years.

High Yield Bonds-Taxable: Bloomberg Barclays U.S. Corporate High Yield Bond Index (BBG BARC US Corp HY) is a market value-weighted index which covers the U.S. non-investment grade fixed-rate debt market. The index is composed of U.S. dollar-denominated corporate debt in Industrial, Utility, and Finance sectors with a minimum \$150 million par amount outstanding and a maturity greater than 1 year. The index includes reinvestment of income.

High Yield Bonds-Tax Advantaged: Bloomberg Barclays Capital High Yield Municipal (BBG BARC HY Muni) is a market cap-weighted index that represents a broad universe of U.S. non-investment grade municipal debt. By using the same index provider as the U.S. Investment Grade Bonds - Tax Advantaged asset class, there is consistent categorization of corporate bonds among investment grade and non-investment grade municipals.

Developed Market Ex U.S. Bonds: JPMorgan GBI Global ex-US (Unhedged) (JPMorgan GBI Global Ex US) in USD is an unmanaged index market representative of the total return performance in U.S. dollars on an unhedged basis of major non-U.S. bond markets. The JPM GBI is broadly used by managers in the asset class given the predominance of sovereign debt within the developed (ex U.S.) world.

Emerging Market Bonds: JP Morgan Emerging Markets Bond Index (EMBI) (JPMorgan EMBI Global) measures the total return performance of international government bonds issued by emerging market countries that are considered sovereign (issued in something other than local currency) and that meet specific liquidity and structural requirements.

Blended Benchmarks: (cont.)

U.S. Large Cap: S&P 500 Index is a market capitalization-weighted index composed of 500 widely held common stocks that is generally considered representative of the US stock market. The Index is unmanaged and not available for direct investment.

U.S. Mid Cap: Russell Midcap Index measures the performance of the 800 smallest companies in the Russell 1000 Index, which represent approximately 25% of the total market capitalization of the Russell 1000® Index.

U.S. Small Cap: Russell 2000 Index measures the performance of the 2,000 smallest companies in the Russell 3000® Index, which represents approximately 8% of the total market capitalization of the Russell 3000 Index.

Developed Market Ex U.S. Equity: MSCI EAFE Index-NET (MSCI EAFE FNet) (Europe, Australasia, Far East) is a free float-adjusted market capitalization index that is designed to measure the equity market performance of developed markets, excluding the US & Canada. The Index consists of the following 21 developed market country indexes: Australia, Austria, Belgium, Denmark, Finland, France, Germany, Hong Kong, Ireland, Israel, Italy, Japan, the Netherlands, New Zealand, Norway, Portugal, Singapore, Spain, Sweden, Switzerland, and the United Kingdom. The net index adjusts for reinvested dividends and accounts for foreign withholding taxes paid by money managers, thereby offering a truer picture of realizable returns available to U.S. investors.

Emerging Market Equity: MSCI Emerging Markets Index-NET (MSCI EM Net) is a free float-adjusted market capitalization index that is designed to measure equity market performance of emerging markets. The Index consists of the following 21 emerging market country indices: Brazil, Chile, China, Colombia, Czech Republic, Egypt, Greece, Hungary, India, Indonesia, Korea, Malaysia, Mexico, Peru, Philippines, Poland, Russia, South Africa, Taiwan, Thailand, and Turkey as of November 2013. The net index adjusts for reinvested dividends and accounts for foreign withholding taxes paid by money managers, thereby offering a truer picture of realizable returns available to U.S. investors.

Public Real Estate: FTSE EPRA/NAREIT Developed (FTSE EPRA/NAREIT Dvlp TR USD) is a market cap-weighted index designed to track the performance of listed real-estate companies and REITs in developed countries worldwide.

Commodities: Bloomberg Commodity Total Return (Bloomberg Commodity Total Return Index) reflects the returns that are potentially available through an unleveraged investment in the futures contracts on 19 physical commodities comprising the Index plus the rate of interest that could be earned on cash collateral invested in specified Treasury Bills. The Index is a rolling index rebalancing annually.

Alternative Investments Asset Group: Due to the unique nature of this asset group, Alternative investments manager performance is benchmarked differently than from fixed income, equity, and real assets. Performance is compared to peer group returns rather than a universe of potential investable securities.

The HFRI monthly indices are a series of benchmarks designed to reflect hedge fund industry performance by constructing composites of constituent funds, as reported by the hedge fund managers listed within the Hedge Fund Research (HFR) database. HFRI indices are net of all fees, updated monthly, and are equal weighted, which presents a more general picture of hedge fund industry performance by not biasing toward larger funds. The HFRI index series is more diversified (i.e., contains more constituents) than HFR's HFRX index series.

HFRI Relative Value, HFRI Macro, HFRI Event Driven, and HFRI Equity Hedge Indexes are each broadly utilized measures for performance comparison within their respective asset classes.

Wells Fargo Wealth Management provides products and services through Wells Fargo Bank, N.A. ("WFB") and its various affiliates and subsidiaries.

WFB has retained a third party (Investment Scorecard, a division of Informa Investment Solutions) to provide performance information included in your performance reports. Investment Scorecard calculates monthly returns by the Modified Dietz (approximated time-weighted return) or Daily Valuation Method (time-weighted return). For all securities, Investment Scorecard calculates the total return. Total return includes market value appreciation or depreciation and any interest or dividends. Values reflected for publicly-traded assets are derived from unaffiliated financial industry sources believed to be reliable. Values for non-publicly traded assets are derived using external sources and may be based on estimates. Assets for which a current value is unavailable from an external source may be valued at the last reported price, at par, or may be shown as having nominal or no value. Reported values may not reflect the price at which an asset may be sold. Asset values are updated as they become available from external sources, and may be updated less frequently than statements are generated. Although asset values are obtained from sources deemed reliable, values should only be used for reference. Values indicated should not be used to calculate gain/loss ratios or for tax preparation purposes. Investment Scorecard displays returns for periods less than 12 months as cumulative and annualizes returns for periods greater than or equal to 12 months.

Due to the unique characteristics of private equity assets (PE), including irregular cash flows and lack of reinvestment options, performance measurement is better assessed through different methods than those typically used for more liquid asset classes (which use

time weighted metrics) as such methods may not provide representative PE performance. In practice, PE funds are typically long-lived and interim estimates of returns must be based on implicit assessments of expected future cash flows. In order to more effectively gauge performance, PE generally uses two principal cash flow based performance indicators where capital calls, capital reimbursement and profit distributions are the basis for calculation: the internal rate of return "IRR" and the presentation of investment "multiples". IRR is the estimated rate needed to convert (or discount or reduce) the sum of the future uneven cash flow to equal initial investment or down payment. Multiples are calculated as the ratio of cash paid out (distributions) to total funds supplied (drawdowns or capital calls), but do not take into account the timing of the cash flows.

This report is in addition to your account statement for assets custodied at WFB. This report may include assets not custodied at WFB and is in addition to and does not replace statements furnished to you by other service providers and custodians; WFB has not independently verified and is not responsible for the accuracy or completeness of this information. Pricing of assets not held at WFB is for informational purposes only.

Return figures shown may not reflect fees and expenses, which, if applied, would result in lower return figures than shown. Net of fees returns may be impacted based on fee payment election method. The performance of individual managers, indexes and markets for periods after any period shown may differ substantially from the period shown. Neither WFB nor Informa Investment Solutions undertake to make available updated information for any periods after those included in the report. Past performance is no guarantee and is not indicative of future results.

The value or income associated with a security may fluctuate. There is always the potential for loss as well as gain. Asset allocation does not assure or guarantee better performance and cannot eliminate the risk of investment losses. The asset allocation reflected in this report may fluctuate based on asset values, portfolio decisions, and account needs.

Market Commentary, if provided, in this report was prepared by the investment management arm within Wells Fargo Wealth Management, a part of Wells Fargo Bank, N.A. Information and opinions have been obtained or derived from information we consider reliable, but we cannot guarantee their accuracy or completeness. Opinions represent WFB's opinion as of the date of this report and are for general information purposes only. WFB does not undertake to advise you of any change in its opinions or the information contained in this report. Wells Fargo & Company affiliates may issue reports or have opinions that are inconsistent with, and reach different conclusions from, this report.

Report information is un-audited and for illustrative purposes only and should not be used for tax preparation, estate and or retirement planning purposes. Wells Fargo & Company and its affiliates do not provide tax advice. Please consult your tax advisor for advice and information concerning your particular situation.

Account Inception: 10/1/2010

The City of Fort Worth initially contributed \$5,000,000 to the Plan in November 2009. This contribution was invested in a money market fund through August 2010. Performance inception for the Plan is October 1, 2010. Returns are gross of account level investment advisory fees and net of any fees, including fees to manage mutual fund or exchange traded fund holdings. Returns for periods over one year are annualized. The information presented has been obtained from sources believed to be accurate and reliable. Past performance is not indicative of future returns. Securities are not FDIC insured, have no bank guarantee, and may lose value.

Monthly Investment Performance Analysis

Fort Worth Employees' Retirement Fund

Period Ended: December 31, 2020

General Market Commentary

- December was a strong month for global equity markets, with all major US and international market indices posting mid to high-single digit returns. Continuing the recent trend, small cap indices outperformed their larger cap counterparts during the month, though the S&P 500 ended the year at an all-time high.
- On December 27th, President Trump signed a \$900 billion pandemic relief bill into law. The coronavirus relief package is intended to bolster the economy and provide relief to many. The bill includes stimulus payments to individuals, enhanced unemployment benefits, relief to small businesses, and funding for COVID-19 testing and the administration of vaccines.
- A COVID-19 variant believed to be significantly more transmittable was detected in the United Kingdom, causing many urban areas to increase lockdown restrictions and leading dozens of countries to impose travel and freight bans on the UK.
- Equity markets posted positive returns in December as the S&P 500 (Cap Wtd) Index returned 3.84% and the MSCI EAFE (Net) Index returned 4.65%. Emerging markets returned 7.35% as measured by the MSCI EM (Net) Index.
- The Bloomberg US Aggregate Bond Index returned 0.14% in December, outperforming the 0.03% return by the Bloomberg US Treasury Intermediate Term Index. International fixed income markets returned 2.25%, as measured by the FTSE Non-US World Gov't Bond Index.
- Public real estate, as measured by the FTSE NAREIT Eq REITs Index (TR), returned 3.29% in December and 4.77% over the trailing five-year period.
- The Cambridge US Private Equity Index returned 3.35% for the trailing one-year period and 10.33% for the trailing five-year period ending June 2020.
- Absolute return strategies, as measured by the HFRI FOF Comp Index, returned 3.14% for the month and 10.34% over the trailing one-year period.
- Crude oil's price increased by 7.01% during the month, but has decreased by 20.54% YoY.

- The Target Allocation Index and Implementation Indexes are calculated monthly using the passive target weights applied to each corresponding primary benchmark return.
- The Other Growth Actual Allocation Index and Commodities and MLPs Actual Allocation Index are calculated monthly using beginning of month actual asset class weights applied to each corresponding primary benchmark return.
- The Growth Hedge Fund Custom Index consists of 50% HFRI Equity Hedge Index and 50% HFRI Event Driven Index.
- The Loomis Sayles Custom Index consists of 100% Bloomberg US Unv Bond Index through 03/31/2017, 100% Loomis Sayles manager performance during 04/2017, and 100% Bloomberg US Corp Hi Yld Index thereafter.
- The Diversification Hedge Fund Custom Index consists of 50% HFRI Relative Value Index and 50% HFRI Macro Index.
- The NCREIF ODCE Index (AWA) (Net) performance is reported quarterly; performance is assumed to be 0.00% in interim-quarter months.
- During 12/2020, Logistics Income Fund (CF) was funded. Assets for Logistics Income Fund (CF) are shown in the Core Real Estate Composite.

Performance shown is net of fees. Performance is annualized for periods greater than one year. RVK calculates performance for composites and investment managers using different methodologies. Market values and performance shown are preliminary and subject to change.
