INTRODUCTORY SECTION

March 3, 2023

To the Honorable Mayor, Members of the City Council, Residents and Stakeholders of the City of Fort Worth, Texas:

We are pleased to submit the Annual Comprehensive Financial Report (ACFR) of the City of Fort Worth, Texas (the “City” or “Fort Worth”), for the fiscal year ended September 30, 2022. The Department of Financial Management Services prepared this report to present the financial position of the City. The ACFR describes the financial results of our operations and the cash flow of our proprietary fund types. Additionally, it conveys changes in plan net positions of our pension and other postemployment benefit trusts. The financial statements and supporting schedules have been prepared in accordance with generally accepted accounting principles and meet the requirements of the State of Texas and the City Charter.

The City Charter Chapter X, Section 11 requires that an annual audit of all accounts of the City be made by an independent certified public accountant and an annual financial report be published by the City. The annual financial report must be furnished to the Mayor and each member of the City Council, the City Manager and to each resident who requests a copy. This report is published to fulfill the aforementioned requirements for the most recent fiscal year. In addition, this report is used to communicate background information on the City and the environment which it operates, schedules that demonstrate compliance with finance-related legal and contractual provisions and statistical information that offers multi-year trend information. The report also contains relevant economic and demographic information.

Management assumes full responsibility for the completeness, fairness and reliability of the information contained in this report, based upon a comprehensive framework of internal controls established for this purpose. Because the cost of internal control should not exceed anticipated benefits, the objective is to provide reasonable, rather than absolute, assurance that the financial statements are free of any material misstatements.

FORVIS, LLP issued an unmodified opinion on the City’s financial statements for the year ended September 30, 2022. The Independent Auditor’s Report is located on page 1 of this report.

Management’s Discussion and Analysis (MD&A) immediately follows the Independent Auditor’s Report and provides a narrative introduction, overview, and analysis of the basic financial statements and should be read in conjunction with the basic financial statements.

City of Fort Worth Profile

Fort Worth, incorporated in 1873, is a political subdivision and municipal corporation of the State of Texas, located in Tarrant, Denton, Parker, Wise, and Johnson Counties. The City covers approximately 359 square miles and serves a population of nearly 940,000 according to the 2022 Census estimate.

Fort Worth operates under a Council/Manager form of government with a City Council comprised of the Mayor and eight Council members. The Mayor is elected at large and the eight Council members are elected from single-member districts. Both the Mayor and Council members serve two-year terms. The Mayor and City Council appoint the City Manager, City Attorney, City Secretary, City Auditor, and municipal judges. On May 7, 2016, a special election was held to vote on amendments to the City's Charter. Proposition 2 was approved by voters, which increases the number of council members from nine to eleven, one of which is the mayor, beginning with the first election following the 2020 census. This is planned to be held in May of 2023.

Services provided by the City under general governmental functions include public safety (municipal courts, and police/fire protection), streets and highways, culture and recreation, urban redevelopment and housing, health and welfare, and general government services.

Water and sewer services, stormwater utility services, airports, city owned parking garages and lots, and solid waste collection are provided under an enterprise fund concept, with user charges set by the City Council to ensure adequate coverage of operating expenses and payments of outstanding debt. In addition, the City provides water and wastewater treatment for several neighboring jurisdictions. Fleet services, capital project services, group health and life insurance, and risk financing are provided through internal service funds.

As required by generally accepted accounting principles in the United States of America (GAAP), the financial reporting entity includes all funds of the primary government (the City), as well as the City's component units. Component units are legally separate entities for which the primary government is financially accountable. Organizations that do not meet the financial accountability criteria for inclusion as a component unit could be included based upon management's determination that it would be misleading to exclude them. During Fiscal Year 2022, there was one discretely presented component unit and seven blended component units. One of the blended component units (Fort Worth Housing Finance Corporation) also has nine Limited Liability Corporations (LLCs), which are reported as blended component units, and one Limited Liability Partnership that is discretely presented. Additionally, the City's defined benefit pension plan and two other postemployment benefit plans are reported as fiduciary component units.

The fiscal year of the City begins on the first day of October and ends on the last day of September. On or before the fifteenth day of August of each year, the City Manager submits to the City Council a recommended budget for the ensuing fiscal year. The City Manager's recommended budget provides a complete financial plan of all City funds and activities for the upcoming fiscal year. The budget is prepared by fund, organization unit or department, program, purpose or activity, and object. As required by the City Charter, the auditors completed a separate review of the City's budget adoption process. The City Manager may transfer resources within a department. Transfers between departments, however, require approval from the City Council.

Local Economy

Despite impacts of COVID-19, Fort Worth has fared well and continues to sustain a multi-year trend of broad-based growth across sectors. Much of this business growth has been fueled by Fort Worth's reputation of being one of the fastest growing cities in the U.S. and one of the top places in the nation to live, work, and play. With a growing workforce, the expansion of top educational facilities, low cost of doing business, high quality of life, and prime location and climate, the City is an attractive choice for companies looking to expand in or move their operations.

Major employers in Fort Worth include AMR/American Airlines, Lockheed Martin (photo below), Fort Worth Independent School District, JPS Health Network/John Peter Smith Hospital, City of Fort Worth, NAS Fort Worth Joint Reserve Base, Alcon Laboratories, Tarrant County College, Bell Helicopter-Textron, Inc., and Burlington Northern Santa Fe LLC.

Manufacturing and distribution remain an important part of the Fort Worth economy. The list of companies in distribution and manufacturing operations include Acme Brick, Alcon Labs, Allied Electronics, ATC Logistics & Electronics, Haggard Clothing, Federal Express, J.C. Penney's, Mother Parker's Tea and Coffee, Coca-Cola Enterprises, Ben E. Keith Co., Miller Coors LLC, Williamson-Dickie, Pratt Industries USA, Inc., NGC Renewables, LLC, Carolina Beverage Group, LLC, GE Manufacturing Solutions, and Danone North America.

The City's industry clusters remain diverse with trade, transportation, and utilities making up the largest percentage of the Fort Worth-Arlington Metropolitan Division (MD) industry composition at 38%. Since 2016, trade, transportation, and utilities companies have grown considerably adding over 25,800 jobs to the area. Healthcare, Manufacturing, Hospitality and Tourism, Transportation and Warehousing, and Oil and Gas make up the five established sectors that play a key role in the Fort Worth economy. As a group, these five established sectors account for more than a third of employment in Tarrant County with over 387,000 people employed.

Local Economy (Continued)

The City's Economic Development Department recently updated their strategic plan. The 2022 updated plan identified key emerging economic sectors including aerospace manufacturing and design, life sciences delivery and innovation, geotechnical engineering, international business, corporate and regional headquarters, professional services, financial services, and transportation innovation.

There are over 31,488 registered business firms in the City of Fort Worth. About 99.5% of these businesses are small to mid-size firms that employ anywhere from one to 249 individuals. The remaining 0.5% of businesses are firms that employ greater than 250 employees (Database USA, via EMSI).

The Fort Worth-Arlington MD boasts a strong labor force of 1.35 million that continues to grow. The Fort Worth-Arlington MD has experienced positive annual employment growth since summer 2010, up until the Covid-19 pandemic in early 2020. In the wake of the crisis, the city's unemployment rate of 7.9% was slightly higher than the 6.8% state unemployment rate, but below the 8.4% national unemployment rate through August 2020. In 2022, the City's unemployment rate decreased dramatically to 3.4%, which is lower than the state unemployment rate of 3.6%, but slightly higher than the national employment rate of 3.3% (not-adjusted).

After reaching a total value of deals in Fort Worth of \$569 million in 2021, Fort Worth continues to grow in all aspects of development, spurred by population and employment growth as part of the Dallas-Fort Worth Metropolitan Area. Notably, large clusters of commercial development focused on manufacturing, distribution, and warehousing are being developed near state and interstate highways. In 2022, the corporate offices of RSI North America and manufacturing operations of MP Materials were announced in the first quarter. RSI North America is a company that manufactures modular truck bed canopies. In addition to advanced manufacturing, functions within the proposed City of Fort Worth facility will include housing the North American headquarters operations, as well as product design and prototyping. Following a multi-state site selection process, an existing facility located at 1501 Joel East Road was identified for the 391,000 square foot manufacturing location. The company will be required to expend a minimum of \$2.5 million in total construction costs and will locate taxable business personal property having a minimum taxable appraised value of \$52.5 million. RSI North America will provide a minimum of 250 full-time jobs with an average annual salary of \$65,800.

MP Materials (photo above) is a Las Vegas based company that manufactures rare earth materials. Founded in 2017, MP Materials will develop a greenfield metal, alloy and neodymium-iron-boron (NdFeB) magnet manufacturing facility, which will also serve as the business and engineering headquarters for its growing magnetics division, MP Magnetics. Following a multi-state site selection process, an existing facility located at 13840 Independence Parkway was identified for the 200,000 square foot manufacturing location. The company will be required to expend a minimum of \$40 million in total construction

Local Economy (Continued)

costs and will locate taxable business personal property, having a minimum taxable appraised value of \$60 million. MP Materials will provide up to 90 jobs over the first three years, with an average annual salary of \$80,390.

Medical innovation is also on the rise as the Medical Innovation District, south of Downtown, grows with the expansion of Cook Children’s Medical Center. Further growth in this district is anticipated with the announcement of the TEX Rail expansion to the proposed Medical District station, which will spur further investment. Plans are currently underway and expect to be completed by 2026.

Downtown Fort Worth continues to see its share of development, including the approved expansion of the Omni Hotel. The newly expanded Omni Hotel (photo below), located in south Downtown, will add at least 400 rooms (creating a strategically important 1,000 rooms under one property), and will engage Lancaster Avenue by incorporating an active restaurant use. The project adds to the building momentum along the southern portion of downtown along Lancaster Avenue and near the Fort Worth Convention Center. Construction is expected to be completed by fall 2026.

The Central City Flood Control Project and Panther Island continue to develop. Three bridges under construction were completed in 2021 to greatly increase connectivity between Panther Island and the rest of the city. Most recently, an extension of TIF 9 (Trinity River Vision) was approved to facilitate long-term financing for the Central City Flood Control project.

South of downtown, the Near Southside continues to attract a wide variety of development projects and new businesses of all types and sizes. Among the district’s recent multifamily developments, Broadway Chapter on Hemphill stands out as the first to locate along the Hemphill corridor, benefitting from the new Hemphill connector to Downtown and other public and private investments nearby. Broadway Chapter also features the Near Southside’s largest public art mural, painted on the parking garage façade and representative of the district’s recent recognition by Texas Commission on the Arts as a state-designated cultural district. The Near Southside’s other major identity, as home to the city’s world class Medical Innovation District, continues to attract major investments. Calendar year 2022, saw the completion of the Justin Tower at THR Harris Methodist, major expansions at Cook Children’s Medical Center, and the commencement of construction of TCU’s Burnett School of Medicine, centrally located at Rosedale and Henderson in close proximity to the med school’s educational partners.

Additionally, the Economic Development Department has been focused on community revitalization this past year. Projects like the Berry/Stalcup redevelopment and Evans and Rosedale have been shaping up. For Berry/Stalcup, the City continues to work with Legacy Construction Solutions and Innovan Neighborhoods on a revised site plan for the property. Staff anticipates bringing an updated site plan and financials for consideration to the Local Development Corporation in Q1 of 2023. In October of 2021, the City Council approved an allocation of up to \$4.2 million from the American Rescue Plan Act (ARPA) funds, a 15-year Chapter 380 Economic Development Program Agreement for up to \$9 million, and an additional \$7 million

Local Economy (Continued)

committed by TIF 4 (Near Southside) for the Evans and Rosedale Redevelopment and Affordable Housing Project. Hoque Global Properties is proposing a two-phased redevelopment (photo below) that will result in a total of at least \$70 million worth of investment: approximately 292 multifamily units, 20 townhomes, and 28 live-work units, with at least 20% of the total number of units being affordable, a cultural square, parks, and other public spaces. In April 2022, the City entered into multiple definitive agreements with Hoque Global Development for the project. Currently, the developers are in the pre-development stage with Development Services and closed on the properties by December 14, 2022. The developer expects to break ground on Phase I by April of 2023.

The City’s Fort Worth Local Development Corporation (FWLDC) launched the Fort Worth Main Street Pilot Program to build the capacity for place-based community organizations to revitalize historic, commercial corridors as economic and community vitality hubs. The program is targeted at historic business corridors in the City’s Neighborhood Empowerment Zones, Urban Villages, and Revitalization Target Areas. In August 2022, the City announced the two awardees of the pilot program (photo below): Fort Worth Hispanic Chamber of Commerce for a Northside District and the Southeast Fort Worth, Inc. for a Polytechnic District. Each entity and associated community will receive \$50,000 worth of revitalization training and develop a transformation strategy and work plan with Main Street America’s UrbanMain and receive \$270,000 worth of grants for both operational support and new program and project implementation. With success, the City hopes to roll out this framework across the City to other historic commercial districts and potentially become the first city in Texas and only one in five in the nation with a Main Street City-Coordinating Program.

Local Economy (Continued)

In October 2021, the City Council approved an allocation of up to \$3 million from the American Rescue Plan Act (ARPA) funds to enter into a contract with CDFI Friendly America, LLC to bring financing from one or more community development financial institutions (“CDFIs”) to the City. The contract includes engaging the consultant to provide consulting services in assessing the potential roles of CDFI financing in the community, organizing potential CDFI Friendly strategies, developing an actionable CDFI Friendly business plan, and providing the City with consultative capacity-building support for the implementation of that business plan in collaboration with the Economic Development Department and the Department of Diversity and Inclusion. Since its kickoff on January 26, 2022, CDFI Friendly Fort Worth has closed on 149 loans for \$10.32 million.

In addition to the growth in development and revitalization projects, the City launched a messaging campaign and economic development framework to prioritize equity, vitality, and quality of place along Fort Worth’s neighborhood business corridors, as many of them serve as the heart of the community. This framework and messaging campaign continue to be built out to provide a website and materials to inform the community, businesses, developers, and partners of the City’s investment priorities—to grow and attract more investment and opportunity to reach the full potential of each area. As a part of this effort, the City’s Revitalization Target Areas were adopted to portray its priority areas for investment, partnership, and staff focus.

Entrepreneurship and innovation have become focal points for the department in recent years as well. On September 15, 2022, TechStars (photo below) officially launched the first cohort of the Accelerator. The program’s partners chose ten high-growth, early-stage startups to support and fund over the next three years. The companies were chosen from a pool of hundreds of applicants worldwide. For the next several months, owners, innovators, and representatives of these startups will call Fort Worth home, as team members from HSC, TechStars, and Goff Capital shepherd their ideas from concept to game-changing tech. The accelerator is focused on supporting companies building new technologies, treatments, and therapies in the physical health space in areas such as rehabilitation, physical therapy, performance, and exercise. The selected startups will participate in an intensive, 13-week program, and receive hands-on mentorship, curated entrepreneurial content and programming, up to \$120,000 in funding, and access to a vast network of mentors, investors, alumni, and influential corporate executives. These efforts culminated on December 8, 2022 during Demo Day, where leaders of the startups presented their work.

Local Economy (Continued)

A commitment to improvement continues in education projects to serve the City's growing population. Just recently, a \$1.2 billion school bond package was approved to help fund several updates to area schools in the Fort Worth Independent School District (FWISD). Additionally, in late September 2022, the FWISD School Board finalized a contract for the district's new superintendent, Angelica Ramsey, emphasizing its commitment for visionary change and improvements.

In addition to public schools, two new charter schools recently opened in Fort Worth. IDEA Southeast opened on Seminary Drive and IDEA Rise opened on Cherry Lane. These charter schools will focus on college preparation, while giving Fort Worth families alternative school options for educating their children.

Area institutions of higher education have likewise shown their commitment to growth by recently announcing plans for expansion, including TCU's expansion of its medical school and A&M's expansion of its nationally-ranked law school (photo below). These two historical expansions will help propel the quality of life and higher education in Fort Worth, and will likewise become attractive to outside companies and corporations looking for a highly educated workforce.

Please visit the City's website at <https://www.fortworthtexas.gov/departments/ecodev/edplan> for a copy of the 2022 Updated Economic Development Strategic Plan.

While all eligible applications will be considered for the programs, the City is especially interested in supporting projects that produce a meaningful impact on the City and its economy and result in one of more of the following:

- Growth of business activity, employment, or investment in one of Fort Worth's target industries. These target industries include:
 - Established target industries, like transportation and warehousing, manufacturing, healthcare, oil and gas, or tourism
 - Emerging sectors, such as transportation innovation, life sciences, geotechnical engineering, or aerospace manufacturing and design
 - International businesses, corporate and regional headquarters, and other professional and financial services
- Significant investment, including the creation of high-wage jobs and a willingness to be part of strategic revitalization efforts in key areas of Fort Worth
- Retaining/expanding one of Fort Worth's existing major employers, or anchoring a business expansion project in a way that provides potential for more supply chain activity and additional growth

Local Economy (Continued)

The City's Economic Development Department completes 5-year financial projections to determine the potential impact of the program and an annual review of all awards. In 2022, nine (9) tax abatement and thirty-four (34) economic development program (Chapter 380 Grant) agreements were reviewed for performance. These include five newly completed projects or project phases.

After payment of the grants and abatements, projects with active economic development agreements in 2021 provided \$22.3 million in new net tax revenue to the City in Tax Year 2021. This represents approximately 2.97% of the City's total property, sales, and hotel occupancy tax revenues. The private investment leveraged by the economic development program totaled \$5.5 billion, making the City's total incentive participation 0.67%, resulting in a private to public investment ratio of 148:1. The net new tax revenues to the City generated by these projects represented a 59.56% return on the annual cost of incentives used to secure them.

See Note A.15 Tax Abatements for additional information.

Moody's Investors Services (Moody's), S&P Global Rating Services (S&P), Fitch Rating Services (Fitch), and Kroll Bond Rating Agency (Kroll) have all assigned ratings to the City of Fort Worth's outstanding debt. The city's general obligation debt is rated 'Aa3' by Moody's, 'AA' by both S&P and Fitch, and 'AA+' by Kroll. The city's water and sewer system revenue bonds are rated 'Aa1' by Moody's, 'AA+' by S&P, and 'AA' by Fitch. The city's drainage utility system revenue bonds are rated 'AA+' by both S&P and Fitch. The city's special tax revenue bonds are rated 'A1' by Moody's and 'AA' by Fitch. The city's credit ratings are complimentary of strong financial performance, maintaining reserves and strong financial governance. The city's credit strengths are somewhat offset by the city's unfunded pension liability and fixed cost burden.

COVID-19 and Future Challenges

In December 2019, the coronavirus now designated as COVID-19 was detected in China and by March 2020 was declared a worldwide pandemic by the World Health Organization (WHO).

On January 21, 2021, the City received approximately \$27.5 million under the Consolidated Appropriations Act, 2021 for the provision of financial assistance and housing stability services to eligible households. This program provides relief for rent, utility, and other housing expenses related to housing and negatively affected by COVID-19. In April 2022, \$10 million in additional funding was reallocated from Tarrant County to the City, resulting in a total of approximately \$37.5 million available for community assistance. As of September 30, 2022, approximately \$32.5 million has been expended through several social service Non-Governmental Organizations in the community.

On May 19, 2021, the City received approximately \$86.8 million under the American Rescue Plan Act of 2021 (ARPA), representing one half of the total amount of \$173.7 million in State and Local Fiscal Recovery Funds (SLFRF) allocated to the City of Fort Worth. On June 22, 2021, City Council approved an initial framework of priority needs identified within the City and community including continued pandemic response, tourism industry recovery, affordable and permanent supportive housing initiatives, cybersecurity and broadband projects, majority minority area infrastructure projects, minority business enterprise capacity building, City projects delayed because of the pandemic, and matching funds for use in joint projects with other entities. The remaining half of the ARPA SLFRF funding, in the approximate amount of \$86.9 million, was received from the US Treasury on June 6, 2022. A variety of individual projects have been approved by the City Manager's Office and City Council to address both community and City needs within the approved framework and ARPA guidelines. As of September 30, 2022, \$14 million in ARPA SLSRF funding has been expended.

Additionally, on May 24, 2021 the City received approximately \$11.6 million under ARPA, representing an advance equaling 40% of the total amount of \$29.1 million allocated for the provision of financial assistance and housing stability services to

COVID-19 and Future Challenges (Continued)

eligible households in the same manner as the funding under the Consolidate Appropriations Act of 2021. As of September 30, 2022, \$17.2 million has been expended, and an additional \$11.9 million has been reimbursed for expenditures under the program. More information on the City's use of ARPA funding can be found at <https://www.fortworthtexas.gov/arpa>.

Finally, approximately \$10.4 million in additional funds related to COVID-19 pandemic relief were expended during fiscal year 2022, including Emergency Solution and Justice Assistance Grants, Airport Assistance Grants, Community Development and Community Services Block Grants, Comprehensive Energy Assistance Grants, Home Partnership and Housing Opportunities for Persons with AIDS Grants, and Library Grants.

The City maintains a positive outlook on long-range financial planning. Strong economic growth is expected to continue long term, but we recognize the pandemic rebound may result in fluctuating revenue streams in the near-term. Financial planning will focus on existing land use, capital infrastructure development and maintenance, and operating within the bounds of anticipated revenues.

Long-term Financial Planning and Major Initiatives

The City's strategic goals enable the City Council to:

- Better understand Fort Worth's cultural heritage
- Have a consensus on what to accomplish over the next five years
- Translate the vision into an action plan
- Prioritize the use of limited city resources
- Support staff and community groups in focusing efforts on the vision and priorities

City Council will refine and adjust the strategic goals, as circumstances change. Overall, the City of Fort Worth concentrated on seven top-priority strategic challenges and opportunities for Fiscal Year 2022. These areas were identified to provide a clear and concise statement about where the Mayor and City Council want Fort Worth to focus over the next five years and to stimulate broader discussion of the important issues facing Fort Worth now and in the future. A number of ongoing administrative and community processes will make the goals reality.

The City Council's strategic challenges and opportunities:

- Maintain or lower the property tax rate in the General Fund
- Increase funding for capital investment and maintenance
- Meet infrastructure and service growth needs as related in the 2018 & 2022 Bond Programs
- No use of fund balance/reserves for operations
- Improve equity of city services
- Enhance public safety
- Prepare for slower growth of resources, both near-term and into the future

These strategic challenges and opportunities enable the City Council to have a consensus on mission, vision, and values for the future as follows:

Mission: Working together to build a strong community.

Building a strong community means building strong neighborhoods, developing a sound economy, providing a safe community, and fostering a healthy environment.

Vision: Fort Worth will be the most livable and best managed city in the country.

Long-term Financial Planning and Major Initiatives (Continued)

The City's vision statement sets forth our aspiration to become even better than we are today as a community and as an organization.

Values: There are six values that guide our employees as they go about this work:

- Exceptional Customer Experience
- Accountability
- Ethical Behavior
- Diversity
- Mutual Respect
- Continuous Improvement

The City continues to focus major efforts on these strategic challenges and opportunities which drive decision-making and help the City Council further the City's mission and vision by translating that vision into an action plan. The City's limited resources are then prioritized to achieve that plan. The City's actions to implement the established strategic challenges and address community issues are numerous and varied.

Awards

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the City for its ACFR for the fiscal year ended September 30, 2021. This was the 12th consecutive year that the City has achieved this prestigious award. In order to be awarded a Certificate of Achievement, the City must publish an easily readable and efficiently organized ACFR. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current ACFR continues to meet the Certificate of Achievement Program's requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

The City also received the GFOA's Distinguished Budget Presentation Award for its annual budget document for the fiscal year beginning October 1, 2021. To qualify for the Distinguished Budget Presentation Award, the City's budget document had to be judged proficient as a policy document, a financial plan, an operations guide, and a communications device.

The City's General Portfolio Investment Policy received the Investment Policy Certification Award issued by the Government Treasurers' Organization of Texas (GTOT). This certification is awarded to governmental entities that develop a comprehensive investment policy that meets the requirements of the Public Funds Investment Act and the standards for prudent public investing established by the GTOT. The certification is good for two years and expires on March 31, 2023.

Acknowledgements

The preparation of this report could not have been accomplished without the full support and involvement of the City Manager's Office and all City departments who provided information and analyses contained within this document. A very special thanks is due to the Financial Management Services Department staff for their dedicated service to the City and to the residents of Fort Worth. In addition, we acknowledge the thorough, professional, and timely manner in which our independent auditors, FORVIS, LLP, conducted the audit. Finally, we express great appreciation to the Mayor and City Council for their unfailing support for maintaining the highest standards and professionalism in the management of the City's finances.

Sincerely,

David Cooke
City Manager

Independent Auditor's Report

Honorable Mayor and Members of the City Council
City of Fort Worth, Texas
Fort Worth, Texas

Opinions

We have audited the financial statements of the governmental activities, the business-type activities, the discretely presented component unit, each major fund and the aggregate remaining fund information of the City of Fort Worth, Texas (City), as of and for the year ended September 30, 2022, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

In our opinion, based on our audit and the reports of other auditors, the accompanying financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the discretely presented component unit, each major fund and the aggregate remaining fund information of the City as of September 30, 2022, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

We did not audit the financial statements of the Employees' Retirement Fund of the City of Fort Worth, Texas, a fiduciary component unit of the City and the Fort Worth Housing Finance Corporation, a blended component unit of the City, which represent approximately 76 percent of the total assets, 76 percent of fund balance/net position and -11 percent of the total revenues/additions of the aggregate remaining fund information of the City. We also did not audit the financial statements of Terrell Homes, Ltd., the discretely presented component unit of the City, which represent 100 percent of the total assets, 100 percent of net position and 100 percent of the total revenues of the discretely presented component unit of the City. Those statements were audited by other auditors whose reports have been furnished to us, and our opinions on the discretely presented component unit and the aggregate remaining fund information, insofar as they relate to the amounts included for Terrell Homes, Ltd., the Fort Worth Housing Finance Corporation and the Employees' Retirement Fund of the City of Fort Worth, Texas are based solely on the reports of the other auditors.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the "Auditor's Responsibilities for the Audit of the Financial Statements" section of our report. We are required to be independent of the City, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Emphasis of Matter

Change in Accounting Principle

As discussed in *Note A.16* to the financial statements, in fiscal year 2022 the City adopted Governmental Accounting Standards Board (GASB) Statement No. 87, *Leases*. Our opinions are not modified with respect to this matter.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the City's ability to continue as a going concern for 12 months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the City's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison schedule-general fund and pension and other postemployment benefit information as listed on the table of contents be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic or historical context. We and other auditors have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City's basic financial statements. The supplementary information including the combining and individual fund financial statements and schedules is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual fund financial statements and schedules are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Information

Management is responsible for the other information included in the annual comprehensive financial report. The other information comprises the introductory section and the statistical section but does not include the financial statements and our auditor's report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

**CITY OF FORT WORTH, TEXAS
MANAGEMENT'S DISCUSSION AND ANALYSIS
SEPTEMBER 30, 2022
(000's omitted in tables)
(Unaudited)**

Management's discussion and analysis (MD&A) provides a narrative overview of the financial activities and changes in the financial position of the City of Fort Worth, Texas (City), for the fiscal year ended September 30, 2022 (FY2022). The MD&A is offered here by the management of the City to the readers of its financial statements. Readers should use the information presented here in conjunction with additional information furnished in our letter of transmittal, which can be found in the Introductory Section of this Annual Comprehensive Financial Report (ACFR) on pages v-xvi of this report.

Financial Highlights

- The assets and deferred outflows of the City exceeded its liabilities and deferred inflows as of September 30, 2022, by \$4,160,314,000 (net position). For FY2022, the City reported an unrestricted net deficit of \$1,487,001,000 which was an increase in unrestricted net deficit of \$73,745,000 compared to the previous fiscal year. This increase was primarily driven by a \$75,579,000 increase in unrealized loss on investments whereas the previous year experienced a net gain on investments.
- The City's total net position increased by \$273,160,000 from FY2021. This increase can be attributed to a good year where Program and General revenues exceeded expenses. This can be seen in the change in Charges for Services, Property Tax, Sales Tax, Other local Taxes, Gas Lease Royalties, and Other Revenues. These increases were offset by a decrease in Operating Grants.
- As of September 30, 2022, the City's governmental funds reported combined ending fund balances of \$1,300,608,000, an increase of \$142,732,000 compared to the FY2021 ending balance. Approximately 58.2 percent of the fund balance of \$756,671,000 is available for spending at the government's discretion, as follows: \$394,815,000 of committed fund balance; \$202,548,000 of assigned fund balance; and \$159,308,000 of unassigned fund balance.
- The City's total long-term liabilities decreased by \$222,605,000 in comparison with FY2021. A key factor in this decrease was the decrease in Net Pension Liability of \$297,430,000 and a decrease in OPEB Liability in the amount of \$39,887,000. During the year, long-term liabilities were reduced by principal payments of \$189,251,000 in governmental activities and \$83,275,000 in business-type activities. This decrease was offset by the debt issuance of \$235,808,000 for governmental activity and \$145,740,000 for business-type activity.

Overview of the Financial Statements

This discussion and analysis are intended to serve as an introduction to the City's basic financial statements. The reporting focus of this document is on the City as a whole and on individual major funds. It is intended to present a more comprehensive view of the City's financial activities.

The basic financial statements are comprised of three components: 1) government-wide financial statements; 2) fund financial statements; and 3) notes to the financial statements. This report also contains required supplementary information, and combining and individual fund financial statements and schedules.

**CITY OF FORT WORTH, TEXAS
MANAGEMENT'S DISCUSSION AND ANALYSIS
SEPTEMBER 30, 2022
(000's omitted in tables)
(continued)**

Government-wide Financial Statements

The government-wide financial statements include the Statement of Net Position and the Statement of Activities. These statements are designed to provide readers with a broad overview of the City's finances in a manner similar to a private-sector business. Both are prepared using the economic resources focus and the accrual basis of accounting; meaning that all the current year's revenues and expenses are included regardless of when cash is received or paid.

The Statement of Net Position presents information on all of the City's assets and deferred outflows of resources and liabilities and deferred inflows of resources, including capital and lease assets and long-term obligations. The difference between the two is reported as net position. Over time, the increases or decreases in net position may serve as a useful indicator of whether the financial position of the City is improving or deteriorating. Other indicators of the City's financial position should be taken into consideration, such as the change in the City's property tax base and condition of the City's infrastructure (i.e., roads, drainage systems, water and sewer lines, etc.), in order to more accurately assess the overall financial condition of the City.

The Statement of Activities presents information showing how the City's net position changed during the most recent fiscal year. It focuses on both the gross and net costs of the government's various activities and thus summarizes the cost of providing specific governmental services. This statement includes all current year revenues and expenses.

The Statement of Net Position and the Statement of Activities divide the primary government's (the City) activities into two types:

Governmental activities – Most of the City's basic services are reported here, including general government, public safety, highways and streets, culture and recreation, health and welfare, and urban development and housing. General property taxes, sales taxes, and franchise fees provide the majority of the financing for these activities.

Business-Type activities – Activities for which the City charges a fee to customers to pay most or all of the costs of a service it provides are reported here. The City's business-type activities include water distribution and wastewater collection, stormwater utility, municipal airports, municipal parking, and solid waste collection and disposal.

Discretely Presented Component Unit – These statements also report information on the activities of a discretely presented component unit. This entity is not considered a part of the primary government.

The government-wide financial statements can be found on page 19-21 of this report.

Fund Financial Statements

The City of Fort Worth, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. These statements focus on the most significant funds and are used to report more detailed information about the City's most significant activities. All of the funds of the City can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

Governmental Funds – These funds are used to account for the majority of the City's activities, which are essentially the same functions reported as governmental activities in the government-wide statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as spendable resources available at the end of the fiscal year for future spending. Such information may be useful in evaluating a government's near-term financing requirements.

**CITY OF FORT WORTH, TEXAS
MANAGEMENT'S DISCUSSION AND ANALYSIS
SEPTEMBER 30, 2022
(000's omitted in tables)
(continued)**

Fund Financial Statements (continued)

The focus of the governmental fund financial statements is narrower than that of the government-wide financial statements. Therefore, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the Governmental Fund Balance Sheet and the Governmental Fund Statement of Revenues, Expenditures, and Changes in Fund Balances provide a reconciliation to facilitate this comparison. The reconciliation explains the differences between the government's activities as reported in the government-wide statements and the information presented in the governmental funds' financial statements.

The City maintains eighteen individual governmental funds. Information is presented separately in the Governmental Funds Balance Sheet and in the Governmental Funds Statement of Revenues, Expenditures, and Changes in Fund Balances for the General Fund, Debt Service Fund, Capital Projects Fund, and Grants Fund which are considered to be major funds. Data for the other fourteen governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these nonmajor governmental funds is provided in the form of combining statements in the combining and individual fund statements and schedules section of this report.

The basic governmental fund financial statements can be found on pages 22-26 of this report.

Proprietary Funds – When the City charges customers for services it provides, the activities are generally reported in proprietary funds. The City of Fort Worth maintains two different types of proprietary funds: enterprise funds and internal service funds.

Enterprise funds are used to report the same functions presented as business-type activities in the government-wide financial statements. The City uses enterprise funds to account for its water and sewer operations, stormwater utility, municipal airports, municipal parking, and solid waste. These services are primarily provided to outside or non-governmental customers.

Internal service funds are an accounting device used to accumulate and allocate costs internally among the City's various functions. The City uses internal service funds to account for its equipment services, capital project services, group health and life insurance, and risk financing. Because these services predominantly benefit governmental rather than business-type functions, they have been included within governmental activities in the government-wide financial statements.

Proprietary funds financial statements provide the same type of information as the government-wide financial statements, only in more detail. The proprietary fund financial statements provide separate information for the Water and Sewer and the Stormwater Utility Funds, which are considered to be the major proprietary funds of the City. The three nonmajor enterprise funds are combined into a single, aggregated presentation in the proprietary fund financial statements. Conversely, the four internal service funds are combined into a single, aggregated presentation in the proprietary fund financial statements. Individual fund data for the nonmajor enterprise funds and internal service funds are provided in the form of combining statements in the combining and individual fund statements and schedules section of this report.

The basic proprietary fund financial statements can be found on pages 28-33 of this report.

**CITY OF FORT WORTH, TEXAS
MANAGEMENT'S DISCUSSION AND ANALYSIS
SEPTEMBER 30, 2022
(000's omitted in tables)
(continued)**

Fund Financial Statements (continued)

Fiduciary Funds – Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the City's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds. The City reports three Trust Funds which account for the assets of the City's pension plan and postemployment healthcare plan and firefighters' employment and postemployment healthcare benefit plan. In addition, there is one custodial fund for Rock Creek PID fiduciary activities. Separate audited financial statements are available for the City's pension plan and firefighters healthcare trust. The pension plan and firefighters healthcare trust's statements can be obtained by contacting the Plan at 3801 Hulen Street, Suite 101, Fort Worth, Texas 76107 and Fort Worth Firefighters Healthcare Trust at 3855 Tulsa Way, Fort Worth, TX 76107.

The fiduciary fund financial statements can be found on pages 34-35 of this report.

Notes to the Financial Statements

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found directly following the fund financial statements and prior to the Required Supplementary Information in this report. The notes to the basic financial statements can be found on pages 36-125 of this report.

Other Information

In addition to the basic financial statements and accompanying notes, this report also presents required supplementary information for the City's General Fund budgetary comparison schedule along with notes to the required supplementary information to demonstrate compliance with its budget as the City adopts an annual appropriated budget for most governmental funds. Also included is the required supplementary information concerning the City's progress in funding its obligations to provide pension and OPEB benefits to its employees. Required supplementary information can be found immediately after the notes to the financial statements on pages 127-137.

The combining statements referred to earlier in connection with nonmajor governmental funds, nonmajor enterprise funds, internal service funds and pension (and other employee benefit) trust funds are presented immediately following the required supplementary information on pensions and OPEB. Individual budgetary comparison schedules for other governmental funds with annual appropriated budget are included as supplementary information in the combining and individual fund statements and schedules which can be found on pages 141-171 of this report.

MANAGEMENT'S DISCUSSION AND ANALYSIS
SEPTEMBER 30, 2022
(000's omitted in tables)
(continued)**

Government-Wide Financial Analysis

As of September 30, 2022, total assets of the City were \$10,340,868,000 and deferred outflows were \$526,886,000 while total liabilities were \$6,295,537,000 and deferred inflows were \$411,903,000, resulting in a net position of \$4,160,314,000.

The City's net investment in capital assets was \$5,362,363,000. The City uses these assets to provide services to its citizens; consequently, these assets are not available for future spending. Although the City reports net investment in capital assets, the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

An additional portion of the City's net position, \$284,952,000 represents resources that are subject to external restrictions on how they may be used. The City has an unrestricted net deficit of \$1,487,001,000.

Condensed Schedule of Net Position (Deficit)

	Governmental Activities		Business-Type Activities		Total

Total Net Position	\$ 625,886	\$ 658,738	\$ 3,261,268	\$ 3,501,576	\$ 3,887,154	\$ 4,160,314

*Includes restatement of FY2021 amounts for Lease Assets per GASB Statement No 87. Refer to note A.16. for further information.

As of September 30, 2022, the City of Fort Worth has a positive net position balance for the government as a whole. The governmental activities' increase in net investment in capital assets was mostly due to contributed assets received during the year as reported in the reconciliation of the statement of revenues, expenditures, and change in fund balances of governmental funds to the statement of activities. The governmental activities' unrestricted deficit balance increased by \$94,616,000, due to the increase in capital assets and the net change in deferred inflows and deferred outflows.

MANAGEMENT'S DISCUSSION AND ANALYSIS
SEPTEMBER 30, 2022
(000's omitted in tables)
(continued)**

Government-Wide Financial Analysis (continued)

Overall, the governmental activities increase in net position was \$32,852,000 as a result of current fiscal year activity. This was primarily the result of strong sales tax revenue performance and a decrease in Net Pension Liability and Net Other Post Employment Liability.

Governmental activities expenses increased by \$1,018,000 when compared to FY2021. This increase factors in slightly deflated expenses in FY22 due to an adjustment for the decrease in Net Pension Liability which offsets rising costs of goods and services.

Business-type activities net position increased \$240,308,000 during the current fiscal year which is \$38,478,000 more than the previous year's increase. Key factors that contributed to the business-type activities net position increase were due to the decrease in Net Pension Liability and Net Other Post Employment Liability.

Financial Analysis of the Governmental Funds

Governmental Funds – The focus of the City's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the City's financing requirements. In particular, unassigned fund balance may serve as a useful measure of a government's net resources available for discretionary use as they represent the portion of fund balance which has not yet been limited to use for a particular purpose by either an external party, the City itself, or City Manager that has been delegated authority to assign resources for use for particular purposes by the City's Council.

As of the end of the current fiscal year, the City's governmental funds reported total fund balances of \$1,300,608,000. This was an increase of \$142,732,000 compared to the prior year. This increase in fund balance is primarily due to an increase in property tax assessed values, increases in sales tax, other local taxes, intergovernmental and other revenue sources offset by decreases in investment income (unrealized loss) as well as an increase in expenditures in General Government and Urban Redevelopment and Housing.

Approximately 18.7 percent or \$243,130,000 constitutes the General Fund's fund balance which is an increase from FY2021 by \$2,757,000 primarily due to an increase in the collection of sales tax. As of September 30, 2022, the General Fund's nonspendable fund balance includes \$3,059,000 for inventories and \$2,565,000 for prepaids, deposits, and other. The General Fund's restricted fund balance includes \$9,898,000 for park improvements. The committed fund balance includes amounts of \$15,916,000 for repayment of State loans, \$3,788,000 for park improvements, \$1,668,000 in contractual commitments carried over from FY2021, and \$15,345,000 for general needs such as public art or facilities. The assigned fund balance includes \$20,000,000 for the support of local museum's and \$11,583,000 for general government purposes. As of September 30, 2022, the General Fund had an unassigned fund balance of \$159,308,000.

As a measure of the General Fund's liquidity, it may be useful to compare the unassigned fund balance and total fund balance to total fund expenditures. Unassigned fund balance of \$159,308,000, represents 21.2 percent of total General Fund expenditures. The total fund balance of \$243,130,000 represents 32.4 percent of total General Fund expenditures. Fund balance in the General Fund increased by \$2,757,000, over the previous fiscal year.

The Debt Service Fund has a fund balance of \$49,117,000 or 3.8 percent of total governmental fund balance of which all is committed fund balance. Debt Service Fund's fund balance increased by \$2,404,000 when compared to FY2021. This increase in fund balance was due to the issuance of debt as planned.

MANAGEMENT'S DISCUSSION AND ANALYSIS
SEPTEMBER 30, 2022
(000's omitted in tables)
(continued)**

Financial Analysis of the Governmental Funds (continued)

The Capital Projects Fund has a fund balance of \$763,515,000 or 58.7 percent of total governmental fund balance of which \$472,000 is nonspendable fund balance, \$371,361,000 is restricted fund balance, \$295,249,000 is committed fund balance, and \$96,433,000 is assigned fund balance. The Capital Projects Fund's fund balance increased by \$109,044,000 when compared to FY2021. This increase in fund balance was due to new bond proceeds offset by additional capital outlay.

The Grants Fund has a fund balance of \$6,095,000 or 0.47 percent of total governmental fund balance of which \$32,000 is nonspendable fund balance, \$3,765,000 is restricted fund balance and \$2,298,000 is committed fund balance. The Grants Fund's fund balance increased by \$4,504,000 when compared to FY2021. This increase in fund balance was primarily due to intergovernmental revenues.

The Nonmajor Governmental Funds' fund balance of \$238,751,000 is 18.4 percent of total governmental fund balance and includes nonspendable fund balance of \$2,366,000, restricted fund balance of \$150,419,000, committed fund balance of \$11,434,000, and assigned fund balance of \$74,532,000. Nonmajor Governmental Fund's fund balance increased by \$24,023,000 when compared to FY2021. This increase is primarily due to overall increases in total revenues offset by decreases in expenditures.

As shown in the following charts (on the next page) for governmental funds for FY2021 and FY2022, general property taxes and sales taxes were the primary sources of revenue for both years, while public safety and capital outlay were the largest expenditures by function. The General Fund is the primary operating fund of the City.

Financial Analysis of the Proprietary Funds

The City's Proprietary Funds provide the same type of information found in the government-wide financial statements but in more detail.

Total net position in the Water and Sewer Fund increased by \$222,271,000, when compared to FY2021, Stormwater Utility Fund increased by \$4,650,000, and Nonmajor business-type activities increased by \$13,387,000 when compared to FY2021. This increase in net position in Proprietary Funds is primarily due to operating and nonoperating revenues offset by nonoperating expenses which returned to normal activity levels as well as seasonal impacts to water usage.

General Fund Budgetary Highlights

Differences between the original expenditure budget and the final amended budget resulted in a \$38,027,000 increase in appropriations and is briefly summarized as follows:

Significant activities which necessitated these increases included:

- \$1,366,427 to reflect a roll over and reappropriation of previously unspent authorized amount into FY2022
 - \$797,547 to support Public Safety needs related to supply chain delays for ammunition and safety equipment and towing services as a result of winter storm related calls
 - \$391,000 for continued contractual commitments for the police expert panel review which did not reach completion in FY2021
 - \$73,480 for two generators delayed due to supply chain and delivery issues
 - \$54,400 for the installation of a chlorine generator at the Water Gardens which experienced a delay in the bid and contract execution
 - \$20,000 for software to capture financial reporting requirements for leases which was not completed by the previous year end
- \$13,250,000 to fund Fire overtime expense, recognizing additional sales tax revenue
- \$2,000,000 to fund operating costs associated with the purchase, construction, and renovation of the future City Hall
- \$1,346,189 for the procurement and implementation of Budget Software
- \$11,000,000 for arterial needs to improve mobility within the City which will include capacity and geometric improvements as well as new traffic signals
- \$5,000,000 to fund land acquisition at the Nature Center to improve land use
- \$1,200,000 as a grant match for local funding of a Defense Economic Assistance Grant in support the Naval Air Station Joint Reserve Base Fort Worth to consolidate its Fleet and Family Support Center and Navy College Program Offices
- \$2,000,000 for land acquisition in support of the new library in far northwest Fort Worth
- \$220,452 and \$673,374 to reflect the acceptance and allocation of funds from the Tarrant County 9-1-1 District associated with the Public Safety Answering Points Assistance Program and Radio Assistance Program, respectively

Capital and Lease Assets and Debt Administration

Capital and Lease Assets – The City’s investment in capital and lease assets for its governmental and business-type activities as of September 30, 2022, amounted to \$7,243,454,000 (net of accumulated depreciation/amortization). This investment in capital assets includes land/right of way, construction in progress, intangibles, buildings, vehicles, machinery and equipment, infrastructure, intangibles, and right-to-use lease assets. The total increase in the City’s capital and lease assets for the current fiscal year was \$327,392,000 (4.7 percent). Major capital assets events during the current fiscal year included the following:

- The acquisition of assets and development of governmental projects throughout the City added \$175,446,000 to capital assets, while governmental capital contributions were \$149,012,000.
- The acquisition of assets and development of water and sewer projects throughout the City added \$177,600,000 to capital assets, while water and sewer capital contributions were \$85,318,000.
- The acquisition of assets and development of drainage projects throughout the City added \$10,939,000 to capital assets.
- These additions were offset by depreciation/amortization of \$277,955,000 and retirements during the year.

*FY2021 balances have been restated for GASB87 Lease implementation. Refer to Note A.16. for additional information.

The City's total long-term liabilities decreased by \$222,605,000 when compared to FY2021, mainly due to a decrease in Net Pension Liability. Key changes for the year include: the City's Net OPEB Liability decreased, Net Pension Liability decreased, and new issues of Tax Notes and General Obligations. Also, the Water and Sewer Fund issued Revenue Bonds and Stormwater Utility Fund issued Revenue Bonds to current refund existing stormwater revenue debt. For governmental activities, the City made principal payments for bonded debt on its General Obligation Bonds and Certificates of Obligation. For business-type activities, the City made principal payments for revenue bond debt for Water and Sewer Revenue Bonds and Stormwater Revenue Bonds.

MANAGEMENT'S DISCUSSION AND ANALYSIS
SEPTEMBER 30, 2022
(000's omitted in tables)
(continued)**

Long-term Liabilities (continued)

In FY2022, Moody's Investors Services (Moody's), S&P Global Rating Services (S&P), Fitch Rating Services (Fitch), and Kroll Bond Rating Agency (Kroll) have all assigned ratings to the City of Fort Worth's outstanding debt. The City's general obligation bonds are rated "Aa3" by Moody's, "AA+" by Kroll, and "AA" by both S&P and Fitch. The City's water and sewer system revenue bonds are rated "Aa1" by Moody's, "AA+" by S&P, and "AA" by Fitch. The City's drainage utility system revenue bonds are rated "AA+" by both S&P and Fitch. The City's special tax revenue bonds are rated "A1" by Moody's, and "AA" by Fitch.

The City is permitted by Article XI, Section 5, of the State of Texas Constitution to levy taxes up to 1.90 per \$100 of assessed valuation for general governmental services including the payment of principal and interest on the general obligation long-term debt. The current ratio of tax-supported debt to the assessed value of all taxable property is 0.89 percent (Statistical Section on Table 14).

Additional information on the City's long-term liabilities can be found in Note G.

Economic Factors and Next Year's Budgets and Rates

The overall economic outlook for the City remains positive. Sales taxes have climbed steadily since the recession ended in late 2010. Declining unemployment rates and continued population growth suggest these trends should continue well into 2023. Existing households are likely to continue spending at current rates, while new residents will add to the City's sales tax base. Population growth and steady strides in the residential real estate market support improved property tax revenues in the future, while the increasing volume of building permits continues to increase the overall tax base. Demand for existing homes supports the rising growth in values, which has allowed the City to reduce the property tax rate. Property tax revenues are characteristically slower to materialize than sales taxes, as homes built in 2022 are added to the tax roll in 2023 and do not begin paying taxes until fiscal year 2024. However, this revenue growth is more certain than other sources, as the lagging nature of the revenue buffers property tax revenue from short-term economic trends.

The FY2023 adopted budget lowered the City's property tax rate by \$0.0200 to \$0.7125 per \$100 net taxable valuation. The total appraised value of the City's property tax roll increased \$16 billion or 14.0 percent from the July 2022 certified roll to the July 2021 certified roll. Adjusted Net Taxable Value (which is the Net Taxable Value plus the value of incomplete properties and properties under protest), increased \$7.5 billion or 9.4 percent in the same period across all properties within the City. Adjusted Net Taxable Value is the basis for the City's property tax revenue calculation.

City staff analyzed many of the factors affecting property tax revenue, including anticipated population growth, historical change in values for residential and commercial properties, current and projected permitting data, the impact of foreclosures, as well as exemptions and protests. Staff also evaluated the allocation of the levy amount, and resulting availability of revenue for maintenance and operations (M&O), as compared to the amount available to repay the City's debt. In previous years, the City Council abided by its commitment to building capacity for capital projects by increasing the portion of the City's property tax levy to capital projects. The City's ability to continue to fund our pay-as-you-go capital program over the next five years is supported by the City's commitment to invest additional dollars in infrastructure maintenance.

**CITY OF FORT WORTH, TEXAS
MANAGEMENT'S DISCUSSION AND ANALYSIS
SEPTEMBER 30, 2022
(000's omitted in tables)
(continued)**

Economic Factors and Next Year's Budgets and Rates (continued)

For FY2023, the City estimated a 98.50% collection rate of its property tax levy based on the certified rolls provided by the central appraisal districts of Tarrant, Denton, Wise and Parker Counties in July 2022. Based on the M&O levy rate of \$0.5650 per \$100 of assessed valuation, the General Fund portion of the property tax rate was expected to yield approximately \$526 million in revenue for FY2023. The debt service levy rate of \$0.1475 per \$100 of assessed valuation was expected to yield approximately \$137 million, which will allow the repayment of current and proposed general obligation debt for FY2023.

Revenue from the City's one percent of the sales tax, excluding the one-half percent special use tax for the Crime Control and Prevention District Fund, is projected to equal \$212 million, an increase of \$29 million or 16.0 percent from the FY2022 budget. This revenue is dependent on the level of wholesale and retail sales as well as the economic strength of the local economy. Over the past ten years, the City's sales tax collection grew from \$126 million in 2014 to the anticipated amount of \$212 million in 2023. This represents a 68.25% growth over the last ten years.

Requests for Information

This financial report is designed to provide a general overview of the City's finances for all those with interest in the government's finances. Questions concerning any of the information provided in this report or request for additional financial information should be addressed to the Chief Financial Officer, 200 Texas Street, 3rd Floor, Department of Financial Management Services, Fort Worth, Texas 76102.

CITY OF FORT WORTH, TEXAS
RECONCILIATION OF THE BALANCE SHEET OF GOVERNMENTAL
FUNDS TO THE STATEMENT OF NET POSITION
SEPTEMBER 30, 2022
(in 000's)

Total fund balances--governmental funds \$ 1,300,608

Amounts reported for governmental activities in the Statement of Net Position are different because:

Capital and Lease assets used in governmental activities are not financial resources and therefore are not reported in the funds. These assets (including internal service fund assets of \$2,361) consist of:

Land/right of way	\$	329,133	
Construction in progress		176,423	
Intangibles		28,139	
Buildings		1,140,090	
Vehicles, machinery and equipment		283,094	
Infrastructure		4,288,615	
Amortizable intangibles		57,913	
Lease Assets		5,152	
Accumulated depreciation/amortization		<u>(2,958,436)</u>	
Total capital and lease assets		<u>3,350,123</u>	3,350,123

Some revenues in the governmental funds are not recognized because they are not collected within the prescribed period after year-end and are deferred in the funds statements. On the accrual basis, however, those revenues would be recognized, regardless of when they are collected. 15,989

Internal service funds are used by management to charge the costs of certain activities, such as; equipment services, capital project services, group health and life insurance, and risk financing to individual funds. A portion of the net position of the internal service funds is included in governmental activities in the Statement of Net Position (amount is net of capital assets of \$2,361 and compensated absences of \$(2,793)). 29,536

Deferred outflows of resources are not reported in the governmental funds related to:

Pension (See Note I for detailed breakdown)		401,136	
Other postemployment benefits (See Note J for detailed breakdown)		52,058	
Deferred charges on debt refundings		<u>2,024</u>	
Total deferred outflows of resources		<u>455,218</u>	455,218

Some long-term assets and liabilities are either not available for current period expenditures or not due and payable in the current period and therefore are not reported in the funds. Those assets and liabilities (including allocated internal service fund compensated absences of \$(2,793)) consist of:

Prepaid bond insurance		246	
Long-term compensated absences		(153,472)	
Pollution remediation liability		(2,331)	
Lease liability		(5,087)	
Other postemployment benefits obligation		(750,044)	
Net pension liability		(1,789,257)	
Accrued interest payable		(29,613)	
Long-term debt, including premium/discount		<u>(1,407,554)</u>	
Total long-term assets and liabilities		<u>(4,137,112)</u>	(4,137,112)

Unearned revenues are resources received in advance and should be reported as liabilities until the period of the exchange. This liability consists of a long-term land lease entered into by a blended component unit of the City. (22,479)

Deferred inflows of resources are not reported in the governmental funds related to:

Pension (See Note I for detailed breakdown)		(290,676)	
Other postemployment benefits (See Note J for detailed breakdown)		<u>(42,469)</u>	
Total deferred inflows of resources		<u>(333,145)</u>	(333,145)

Net position of governmental activities \$ 658,738

See accompanying notes to the basic financial statements.

**CITY OF FORT WORTH, TEXAS
RECONCILIATION OF THE STATEMENT OF REVENUES,
EXPENDITURES, AND CHANGES IN FUND BALANCES OF
GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES
FOR THE YEAR ENDED SEPTEMBER 30, 2022
(in 000's)**

Net change in fund balances--total governmental funds \$ 142,732

Amounts reported for governmental activities in the Statement of Activities are different because:

Governmental funds report capital outlays as expenditures. However, in the Statement of Activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which capital outlays and contributed assets exceeded depreciation in the current period.

Contributed assets	\$ 149,012	
Capital outlay expenditures	175,446	
Depreciation and amortization expense (excluding internal service fund depreciation of \$253)	<u>(166,021)</u>	
Net adjustment	<u>158,437</u>	158,437

In the Statement of Activities, the gain on sale of capital assets is reported. In the governmental funds, the proceeds from the disposal of assets were reported as another financing source. Thus, the change in net position differs from the change in fund balance by the net book value of the capital assets. (8,302)

Revenues in the Statement of Activities that do not provide current financial resources are not reported as revenues in the funds. This adjustment is to recognize the net change in "unavailable" revenues. Under the modified accrual basis of accounting, revenues are not recognized unless they are deemed "available" to finance the expenditures of the current period; accrual-basis recognition is not limited by availability, so certain revenues need to be reduced by the amounts that were unavailable at the beginning of the year and increased by the amounts that were unavailable at the end of the year. (3,445)

The issuance of long-term debt (e.g., bonds, certificates of obligation) provides current financial resources to governmental funds, but issuing debt increases long-term liabilities in the Statement of Net Position. Repayment of long-term debt principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the Statement of Net Position. Also, governmental funds report the effect of issuance costs, premiums, discounts, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the Statement of Activities. This amount is the net effect of these differences in the treatment of long-term debt and related items:

Debt issued:		
General Obligation bonds	(152,110)	
Tax notes	(72,185)	
Other obligations	<u>(11,512)</u>	
Total proceeds	(235,807)	
Premium on debt issued	(5,951)	
Repayments:		
To bondholders	113,023	
To escrow for refunding	<u>73,595</u>	
Total repayments	186,618	
Amortization of premiums and discounts	18,628	
Amortization of prepaid bond insurance	<u>(11)</u>	
Net adjustment	<u>(36,523)</u>	(36,523)

Some expenses reported in the Statement of Activities do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds.

Increase in accrued interest on long-term liabilities	(1,646)	
Decrease in net pension liability	257,360	
Decrease in other postemployment benefits obligation	37,779	
Increase in compensated absences liability (excluding internal service fund increase of \$19)	(10,344)	
Decrease in pollution remediation liability	<u>682</u>	
Net adjustment	<u>283,831</u>	283,831

(continued)

**CITY OF FORT WORTH, TEXAS
RECONCILIATION OF THE STATEMENT OF REVENUES,
EXPENDITURES, AND CHANGES IN FUND BALANCES OF
GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES
FOR THE YEAR ENDED SEPTEMBER 30, 2022
(in 000's)**

Governmental funds report pension and OPEB contributions as expenditures when made. However, in the Statement of Activities, pension and OPEB expense is the cost of benefits earned adjusted for member contributions, the recognition of changes in deferred outflows and inflows of resources related to pensions and OPEB, the investment experience, and changes in actuarial assumptions.

Deferred outflows of resources	\$ (302,801)	
Deferred inflows of resources	<u>(171,637)</u>	
Net adjustment	<u>(474,438)</u>	\$ (474,438)

Internal service funds are used by management to charge the costs of certain activities, such as: equipment services, capital project services, group health and life insurance, and risk financing to individual funds. The net revenue (expense) of the internal service funds is reported with governmental activities. (30,523)

Revenue on the Statement of Activities includes current recognition of unearned revenues related to a long-term land lease entered into by a component unit of the City. This amount is combined with an adjustment to increase sales tax revenue on the Statement of Activities for a liability on the Statement of Net Position for the State Tax Agreement. 4,638

Governmental funds report the amount of refinance debt as a current resource and do not calculate a gain or loss on the defeasance of the extinguished debt. This adjustment represents the amount of amortization for the current year of the deferred outflow of refunding loss. (3,555)

Change in net position of governmental activities \$ 32,852

CITY OF FORT WORTH, TEXAS
NOTES TO THE BASIC FINANCIAL STATEMENTS
SEPTEMBER 30, 2022
(000's omitted in tables)

NOTE A: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accounting policies of the City of Fort Worth, Texas (the City) as reflected in the accompanying financial statements for the year ended September 30, 2022, conform to accounting principles generally accepted in the United States of America (GAAP) for local governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard setting body for establishing governmental accounting and financial reporting principles. A summary of the City's significant accounting policies applied in the preparation of the accompanying financial statements follows.

A.1 FINANCIAL REPORTING ENTITY

In evaluating the City's financial reporting entity, management has considered all potential component units as required by GAAP. Organizations are included if the City is financially accountable for them, or the nature and significance of their relationship with the City are such that exclusion would cause the financial statements to be misleading or incomplete. Inclusion is determined based on the City's ability to exercise significant influence. Significant influence or accountability is based primarily on its operational or financial relationship with the City (as distinct from a legal relationship).

The City is financially accountable if it appoints a voting majority of an organization's governing body and is able to impose its will on that organization, or there is a potential for the organization to provide specific financial benefits to, or impose specific financial burdens on the City. The City also is financially accountable if an organization is fiscally dependent on the City and potentially provides specific financial benefits to, or imposes specific financial burdens on the City.

Blended Component Units

Blended component units, although legally separate entities, are reported as part of the primary government because they meet the criteria above and are so intertwined with the City that they are, in substance, the same as the City. In Fiscal Year 2021 the Fort Worth Housing and Finance Corporation prepared and published separate financial statements. The seven blended component units below are reported as part of the primary government:

Crime Control and Prevention District - The Crime Control and Prevention District (CCPD) was created in March 1995 by a vote of local residents, and renewed most recently in 2020 for a ten-year period. The CCPD is supported by a ½ cent sales tax which serves a role in providing the necessary resources to effectively implement crime control strategies. Although it is legally separate from the City, the members of the Board of the CCPD and members of the City Council are substantially the same. The City has financial accountability, and a financial benefit/burden relationship exists which allows the City to impose its will. Therefore, the CCPD has been blended in the City's basic financial statements as a Nonmajor Special Revenue Fund. No separate financial statements are available.

CITY OF FORT WORTH, TEXAS
NOTES TO THE BASIC FINANCIAL STATEMENTS
SEPTEMBER 30, 2022
(000's omitted in tables)

NOTE A: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A.1 FINANCIAL REPORTING ENTITY

Fort Worth Housing Finance Corporation - The Fort Worth Housing Finance Corporation (FWHFC) was created by the City in 1979 pursuant to the Texas Housing Finance Corporations Act. The FWHFC was formed for the purpose of financing the cost of residential development for persons of low and moderate income, including multifamily and single-family housing. Although it is legally separate from the City, the members of the Board of the FWHFC and members of the City Council are substantively the same. The City has financial accountability, and a financial benefit/burden relationship exists, which allows the City to impose its will. Therefore, the FWHFC has been blended in the City's basic financial statements as a Nonmajor Special Revenue Fund. FWHFC is the sole member of the following Texas Limited Liability Corporations ("LLCs"): Decatur Angle GP, LLC; Enclave Westport GP, LLC; Race Streets Lofts GP, LLC; Reserve at Quebec GP, LLC; Mercantile Apartments GP, LLC; The Broadmoor at Western Hills GP, LLC; Enclave Park GP, LLC; Riverside Senior Development GP, LLC; and Terrell Homes GP, LLC. These LLCs are limited partners with 0.005% to 0.01% respective interest of the following Texas limited partnerships and one limited liability company: Decatur Angle Ltd; Enclave Westport, LP; Race Streets Lofts, Ltd; Reserve at Quebec, LLC; Mercantile Apartments Ltd; The Broadmoor at Western Hills, Ltd; Enclave Park, LP; Riverside Senior Investments, LP and Terrell Homes, Ltd.

Terrell Homes, Ltd. is included in the FWHFC financial statements as a discretely presented component unit, which is discussed under the discretely presented component unit section. Separate FWHFC financial statements can be obtained by contacting the Fort Worth Housing Finance Corporation at 200 Texas Street, Fort Worth, Texas 76102.

Fort Worth Local Development Corporation - The Fort Worth Local Development Corporation (FWLDC) is a 501(c)(3) organization and a Texas nonprofit corporation formed in 1987 by the City Council. The original purpose of the FWLDC was to administer a low-interest rate program for business development in and around the Stockyards area in accordance with the Economic Development Administration Block Grant Program. However, the articles of incorporation are broad enough to allow involvement in almost any kind of city-wide economic development activities. Although it is legally separate entity from the City, the members of the Board of the FWLDC and members of the City Council are substantively the same. The City has financial accountability, and a financial benefit/burden relationship exists which allows the City to impose its will. Therefore, the FWLDC has been blended in the City's basic financial statements as a Nonmajor Special Revenue Fund. Reported in FWLDC is its component unit: Lancaster Corridor Redevelopment, LLC as noted in the following paragraph below. No separate financial statements are available.

Lancaster Corridor Redevelopment, LLC - Lancaster Corridor Redevelopment, LLC (the Company), a Texas limited liability company, was created as a subsidiary of FWLDC pursuant to the Texas Limited Liability Company Act for the purpose of aiding, assisting, and acting on behalf of the City in the construction of the mixed-use redevelopment along the Lancaster Corridor. The financial information of the Company is blended into that of the FWLDC in the separate financial statements noted above; however, the Company has been blended into the City's basic financial statements as a Nonmajor Capital Project Fund (reported with the Other Blended Component Units). No separate financial statements are available.

(000's omitted in tables)

NOTE A: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A.1 FINANCIAL REPORTING ENTITY

Fort Worth Sports Authority, Inc. - The Fort Worth Sports Authority, Inc. (Sports Authority) was created pursuant to the provisions of Section 4B, Article 5190.6, Vernon's Texas Civil Statutes, which authorizes the Sports Authority to jointly assist and act on behalf of the City and to engage in activities in furtherance of the purposes for its creation. The Sports Authority is organized for the purpose of aiding, assisting, and acting on behalf of the City in the performance of its governmental functions to promote the common good and general welfare of the City and in the construction of projects on behalf of the City. The Sports Authority financed the purchase of the Texas Motor Speedway (Speedway) and the infrastructure in and around that property; however, it does not operate the Speedway. Although it is legally separate from the City, the members of the Board of the Sports Authority and members of the City Council are substantively the same. The City has financial accountability, and a financial benefit/burden relationship exists, which allows the City to impose its will. Due to the Sports Authority benefiting and providing services almost exclusively to the City, the Sports Authority has been blended in the City's basic financial statements as a Nonmajor Special Revenue Fund (reported with the Other Blended Component Units). No separate financial statements are available.

Lone Star Local Government Corporation - The Lone Star Local Government Corporation (LSLGC) was created pursuant to the provisions of Subchapter D, Chapter 431 of the Texas Transportation Code, and Chapter 394 of the Texas Local Government Code. The LSLGC is organized for the purpose of aiding, assisting, and acting on behalf of the City in the performance of its governmental functions to promote the common good and general welfare of the City and in undertaking and completing of projects on behalf of the City. Although it is legally separate from the City, the members of the Board of the LSLGC and members of the City Council are substantively the same. The City has financial accountability and a financial benefit/burden relationship exists, which allows the City to impose its will. Therefore, the LSLGC has been blended in the City's basic financial statements as a Nonmajor Special Revenue Fund (reported with the Other Blended Component Units). No separate financial statements are available.

Fort Worth Central City Local Government Corporation - The Fort Worth Central City Local Government Corporation (FWCCLGC) was created pursuant to the provisions of Subchapter D, Chapter 431 of the Texas Transportation Code. The FWCCLGC is organized for the purpose of aiding, assisting and acting on behalf of the City in the exercise of its powers to accomplish any government purpose of the City and in promotion of the common good and general welfare of the City and is used to construct parking garages. Although it is legally separate from the City, the members of the Board of the FWCCLGC and members of the City Council are substantively the same. The City has financial accountability, and a financial benefit/burden relationship exists, which allows the City to impose its will. The FWCCLGC has been blended in the City's basic financial statements as a Nonmajor Capital Project Fund (reported with the Other Blended Component Units). No separate financial statements are available.

NOTES TO THE BASIC FINANCIAL STATEMENTS
SEPTEMBER 30, 2022
(000's omitted in tables)

NOTE A: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A.1 FINANCIAL REPORTING ENTITY

Discretely Presented Component Unit

The following legally separate entity is reported as a discretely presented component unit of the City in a separate column in the government-wide financial statements. Terrell Homes Ltd., has been reported as a discretely presented component unit because of the degree of control its general partner has over the LP as set out in its Amended and Restated Limited Partnership Agreement. Terrell Homes GP, LLC, of which FWHFC is the sole member, is the General Partner of Terrell Homes, Ltd. noted below:

Terrell Homes, Ltd. - Terrell Homes, Ltd. ("Partnership") is a Texas limited partnership formed on December 9, 2011, to construct, develop and operate 54 single-family houses, known as the Terrell Homes I Apartments located on scattered sites. The houses are rented to low-income tenants and operated in a manner necessary to qualify for federal low-income housing tax credits as provided in Internal Revenue Code Section 42. For the calendar year ended December 31, 2021, the Partnership's financial information is presented in a separate column in the government-wide financial statements.

The Fort Worth Housing Finance Corporation (blended component unit of the City) considered the organizations and activities of each of the LPs to determine if any of them meet the condition for inclusion as component units. The decision to include a potential component unit was made by applying the criteria set forth in GASB Statement No. 14, *The Financial Reporting Entity* which was amended by GAAP.

Terrell Homes Ltd. has been reported as a discretely presented component unit because of the degree of control its general partner has over the LP as set out in its Amended and Restated Limited Partnership Agreement ("LPA"). Separate audited financial statements can be obtained by contacting the Fort Worth Housing Finance Corporation at 200 Texas Street, Fort Worth, Texas 76102.

Pension and Retiree Healthcare Trust Funds

Retirement Pension Trust Fund of the City of Fort Worth - The Employees' Retirement Fund of the City of Fort Worth, Texas (the Retirement Fund") is comprised of two separate defined benefit pension plans: the City of Fort Worth employees benefit plan (the "City Plan" or the "Plan") and the Retirement Fund employees plan (the "Staff Plan"). The Retirement Fund and City Plan were established by City Ordinance on September 12, 1945. The Retirement Fund is reported as a fiduciary component unit. The Staff Plan was established through Administrative Rules in 2007, and both single employer plans are governed by State statute (Vernon's Civil Statutes, Title 109, Article 6243i) effective June 15, 2007. The assets of the City Plan are commingled for investment purposes with the assets of the Staff Plan of the Employees' Retirement Fund, and both plans are administered by the thirteen-member Retirement Fund Board of Trustees (Board). The Retirement Fund Board is solely responsible for managing the assets for the City of Fort Worth employees plan and defining benefits, setting contribution rates, funding contributions, and all other financial components of the Staff Plan. Defining benefits, setting contribution rates, funding contributions, and all other financial components of the City Plan are administered by the Mayor and City Council. Each plan has a separate actuarial valuation completed annually to determine the respective funded status based on current and projected assets and liabilities. Therefore, assets of each plan are legally separate and cannot pay benefits of the other. Due to the insignificant nature of the Staff Plan's assets compared to the Retirement Fund's assets, all further references to the Plan and information provided in the Notes and Required Supplementary Information about the City Plan are strictly limited to information about the City employees (comprised of General Employees, Police Officers, and Firefighters). As discussed in Note I, this fiduciary fund of the City issues separate audited financial statements which are publicly available and can be obtained by contacting the Employees' Retirement Fund at 3801 Hulen Street, Suite 101, Fort Worth, Texas 76107.

CITY OF FORT WORTH, TEXAS
NOTES TO THE BASIC FINANCIAL STATEMENTS
SEPTEMBER 30, 2022
(000's omitted in tables)

NOTE A: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A.1 FINANCIAL REPORTING ENTITY

For purposes of measuring the net pension liability, deferred outflow of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Retirement Fund and additions to/deductions from the Retirement Fund's fiduciary net position have been determined on the same basis as they are reported by the Retirement Fund. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Retiree Healthcare Trust Fund of the City of Fort Worth - The single-employer defined benefit retiree health care trust, an other postemployment benefit (OPEB) plan reported as a fiduciary component unit was established under the legal authority of the City Charter and is administered by the City. Retiree Healthcare Trust Fund of the City of Fort Worth is reported in the City's basic financial statements as a Fiduciary fund. For the purpose of measuring the total other OPEB liability, OPEB-related deferred outflows and inflows of resources, and OPEB expense in the City's defined benefit health plan (Plan) have been determined on the same basis as they are reported by the plan. For this purpose, plan benefits are recognized when due and payable in accordance with the benefit terms. No separate financial statements are available.

Fort Worth Firefighters Healthcare Trust - The Fort Worth Firefighters Healthcare Trust (the "Trust"), an OPEB was established effective January 01, 2019 by the International Association of Firefighters Local No. 440 to provide health benefits for its eligible members and their dependents. The Trust provides health and welfare benefits to qualified participants. Qualified participants include active and retired firefighters of the City of Fort Worth (the Employer) and their dependents. Although it is legally separate from the City, the City has financial accountability, and a financial benefit/burden relationship exists, which allows the City to impose its will. The Trust is not subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended. The Trust is a fiduciary component unit of the City and reported in the City's basic financial statements as a Fiduciary fund. Separate audited financial statements can be obtained by contacting Fort Worth Firefighters Healthcare Trust at 3855 Tulsa Way, Fort Worth, TX 76107.

Rock Creek Custodial Fund - Rock Creek Ranch Public Improvement District (PID) No. 17 issued special assessment revenue bonds for major capital improvements. These bonds will be paid from the special assessments levied by the PID on property owners within the PID's geographical boundaries. The City collects the special assessment payments and makes the debt service payments for the PID. The debt service transactions of a special assessment for which the government is not obligated in any manner are reported in a custodial fund rather than a debt service fund, to reflect the fact that the government's duties are limited to acting as a custodian of funds for the assessed property owners and the bondholders. No separate financial statements are available.

Related Organizations

The following related organizations are the more significant of those that do not meet the criteria for component units and are not included in the City's financial statements: Area Metropolitan Ambulance Authority, Fort Worth Zoological Association, Fort Worth Botanical Society, Inc., Friends of the Fort Worth Public Library, certain Fort Worth library trusts, the Business Assistance Center Foundation, Inc., Fort Worth South, Inc., and the Trinity River Vision Project.

City officials are also responsible for appointing members to the boards of the following organizations, but the City's accountability for these organizations does not extend beyond making appointments.

CITY OF FORT WORTH, TEXAS
NOTES TO THE BASIC FINANCIAL STATEMENTS
SEPTEMBER 30, 2022
(000's omitted in tables)

NOTE A: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A.1 FINANCIAL REPORTING ENTITY

Event Facilities Fort Worth - Events Facilities Fort Worth (EFFW) is an independent organization, which has a scope of public service to hold agricultural fairs and encourage agricultural pursuits within the geographic boundaries of the City.

Dallas/Fort Worth International Airport - Dallas/Fort Worth International Airport (D/FW Airport) was created by contract and agreement between the City of Fort Worth and the City of Dallas for the purpose of developing and operating an airport as a jointly governed organization between the two Cities. The D/FW Airport is governed by a 12-member board comprised of seven members representing the City of Dallas, four members representing the City of Fort Worth, and on an annual basis, one non-voting member chosen from the neighboring cities of Irving, Grapevine, Euless, and Coppell. The Board must submit an expenditure budget for each fiscal year to the City Manager of each city by July 15. The governing body of each city must approve the budget by September 1. The City is a member of the Revenue Sharing Agreement, as originally adopted on May 1, 2001. Total revenue for the year ended September 30, 2022, was \$6,787,041 from this agreement. Financial statements of the Airport are not included in the City's financial statements because the Airport is not under the sole control of the Fort Worth City Council and the City has no ongoing financial interest or responsibility for the airport. Separate audited financial statements, which are publicly available, can be obtained by contacting the Airport at 2400 Aviation Drive, P.O. Box 619428, DFW Airport, Texas 75261-9428.

Fort Worth Housing Solutions - Fort Worth Housing Solutions ("Housing Solutions"), the assumed name of the Housing Authority of the City of Fort Worth is an independent agency organized by the City in 1938 pursuant to the Texas Housing Authorities Act. It is a public body, corporate and political, which has a scope of public service within the City's geographic boundaries. By Texas State Law, the responsibility for the administration and operations of Housing Solutions is vested solely with its Board of Commissioners, who have representatives appointed by the City. Housing Solutions is dependent on Federal funds from the U.S. Department of Housing and Urban Development ("HUD") and, as a result, is not financially dependent on the City. In addition, the City is not responsible for any deficits it incurs and has no fiscal management control. Separate financial statements for the Housing Solutions can be obtained by contacting the Department of Administrative Services, Housing Solutions, 1407 Texas St, Fort Worth, Texas 76102.

Trinity Metro (formerly Fort Worth Transportation Authority) - Trinity Metro is an independent organization that provides public transportation services for Tarrant County and the North Central Texas region. Under Texas State Statutes, the responsibility for the administration and operations of the Trinity Metro is vested solely with the Trinity Metro's Board of Directors, which is comprised of eleven members appointed by the Fort Worth City Council and Tarrant County Commissioners Court. Trinity Metro is dependent on State and Federal funds and user fees. As a result, the City is not responsible for any deficits incurred and has no fiscal management control. The audited financial statements for Trinity Metro can be obtained by contacting: The Chief Financial Officer, 801 Grove Street, Fort Worth, Texas 76102.

A.2 BASIS OF PRESENTATION

Government-Wide Statements

The two government-wide financial statements, the Statement of Net Position and the Statement of Activities, report information on all of the nonfiduciary activities of the City. Governmental activities, which include those activities primarily supported by taxes or intergovernmental revenue, are reported separately from business-type activities, which generally rely on fees and charges for support. As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are payments-in-lieu of taxes and other charges between the government's water and sewer and solid waste functions and various other functions of the government. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

CITY OF FORT WORTH, TEXAS
NOTES TO THE BASIC FINANCIAL STATEMENTS
SEPTEMBER 30, 2022
(000's omitted in tables)

NOTE A: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A.2 BASIS OF PRESENTATION

The Statement of Activities demonstrates the extent to which the direct expenses of a functional category are offset by program revenues. Direct expenses are those that are identifiable with a specific program. Program revenues include charges to customers or applicants who purchase, use or directly benefit from goods, services or privileges provided by a given function. They also include operating and capital grants and contributions that are restricted to meeting the operational or capital requirements of a particular function. Taxes and other items are excluded from program revenues and reported as general revenues.

The government-wide financial statements also present the calendar year (December 31, 2021) financial information of the City's Discretely Presented Component Unit: Terrell Homes, Ltd.

Fund Financial Statements

The City segregates transactions related to certain functions or activities in separate funds to aid financial management activities and to demonstrate legal compliance. Separate statements are presented for governmental funds, proprietary funds, and fiduciary funds. Governmental funds and proprietary fund financial statements present each major fund as a separate column on the fund financial statements, while all nonmajor funds are aggregated and presented in a single column.

Internal service funds of the City (which provide services primarily to other funds of the government) are presented in summary form as part of the proprietary fund financial statements. Financial statements of internal service funds are allocated between the governmental and business-type activities columns when presented at the government-wide level. The costs of these services are reflected in the appropriate functional activity (General Government, Public Safety, Highways and Streets, etc.).

The City's fiduciary funds are presented in the fund financial statements. Since, by definition, these assets are being held for the benefit of a third party (pension, retiree healthcare plan and firefighters healthcare plan participants, and debt holders) and cannot be used to address activities or obligations of the government, these funds are not incorporated into the government-wide statements.

The following is a brief description of the major funds used by the City:

- (1) Main operating fund (General Fund)
- (2) Any fund that comprises at least 10% of assets and deferred outflows, liabilities and deferred inflows, revenues or expenses/expenditures of the total governmental or enterprise funds type and at least 5% of that same corresponding item meeting the 10% requirement for all governmental and enterprise funds are considered major funds.
- (3) Additional funds considered important by the City but not meeting the criteria of a major fund (i.e., Stormwater Utility Fund).

Governmental Funds

Governmental funds are those through which most governmental functions typically are financed. The measurement focus of governmental funds is on the sources, uses, and balance of current financial resources while modified accrual is used for the basis of accounting. The City reports the following major governmental funds:

CITY OF FORT WORTH, TEXAS
NOTES TO THE BASIC FINANCIAL STATEMENTS
SEPTEMBER 30, 2022
(000's omitted in tables)

NOTE A: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A.2 BASIS OF PRESENTATION

General Fund is the main operating fund of the City. The fund is used to account for all the financial resources that are not accounted for in other funds. All general tax revenues and other receipts that are not restricted by law or contractual agreement to some other fund are accounted for in this fund. General operating expenditures, fixed charges and capital improvement costs that are not paid through other funds are paid from the General Fund.

The General Fund also includes the Park and Recreation Department (PAR) Endowment Gas Lease Fund and the General Endowment Gas Lease Fund, as both funds have no assigned or specific expenditures for the majority of their revenues. These funds were established in FY2008 for the purpose of aggregating specific gas well revenues that belong to the General Fund (PAR land and any other City of Fort Worth owned land) so that gas well-related revenue would remain intact and only investment generated revenue would be spent for specific purposes.

Debt Service Fund accounts for and reports financial resources that are restricted, committed, or assigned to expenditure for principal and interest. The City accounts for the accumulation of these expenditures from taxes levied by the City. The fund balance of the Debt Service Fund is restricted or committed exclusively for debt service operations.

Capital Projects Fund accounts for and reports financial resources that are restricted, committed, or assigned to expenditures for capital outlays. This fund accounts for the City's purchase or construction of major capital facilities and equipment using various types of financing resources.

Grants Fund is used to account for grant resources received from various local, state and federal agencies and organizations. The use of these resources is restricted to a particular function of the City by each grantor.

In addition to the major funds mentioned above, the City reports nonmajor capital projects and special revenue governmental funds.

Special Revenue Funds account for and report the proceeds of specific revenue sources that are restricted or committed to expenditure for specified purposes other than debt service or capital projects. These funds require separate accounting because of legal or regulatory provisions or administrative action.

Proprietary Funds

Proprietary funds, which include enterprise and internal service funds, are accounted for using the economic resources measurement focus and the accrual basis of accounting. The accounting objectives are determinations of net income, financial position, and cash flows. All assets, deferred outflows of resources, liabilities, and deferred inflows of resources are included in the Statement of Net Position.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the City's enterprise funds and internal service funds are charges to customers for sales and services. The Water and Sewer Fund also recognizes as operating revenue the portion of tap fees intended to recover the cost of connecting new customers to the system. Operating expenses for enterprise funds and internal service funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

CITY OF FORT WORTH, TEXAS
NOTES TO THE BASIC FINANCIAL STATEMENTS
SEPTEMBER 30, 2022
(000's omitted in tables)

NOTE A: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A.2 BASIS OF PRESENTATION

Enterprise Funds

The City reports the following major enterprise funds:

Water and Sewer Fund accounts for the provision of regional water, wastewater and reclaimed water services to residential, commercial, industrial, irrigation, and wholesale customers. Activities of the fund include administration, engineering, water and wastewater treatment, billing and collection services, operations and maintenance of the system, and funding for capital improvements to ensure system reliability, comply with regulatory requirements, meet corporate priorities, and serve anticipated growth. Debt is issued for large capital projects. All costs are financed through charges and rates based on the amount of service used, which is billed to customers and collected on a monthly basis. Rates are reviewed regularly and adjusted as necessary to ensure the integrity of the system.

Stormwater Utility Fund accounts for the operation of the stormwater utility and provides funding for storm drainage capital improvements and enhanced maintenance of the storm drainage system to protect people and property from harmful stormwater runoffs. The fund also accounts for the accumulation of resources for and the payment of long-term principal and interest for the stormwater debt.

In addition to the enterprise funds mentioned above, the City reports the following nonmajor enterprise funds.

Other Enterprise Funds is a summary of all the nonmajor enterprise, proprietary funds. These funds include Municipal Airports Fund, Municipal Parking Fund, and the Solid Waste Fund.

Internal Service Funds

Internal service funds are used to account for the financing of goods or services provided by one department to other departments within the City, on a cost-reimbursement basis. The City has four internal service funds, which include: Equipment Services, Capital Project Services, Group Health and Life Insurance, and Risk Financing.

Fiduciary Funds

Included in this fund type are trust funds which account for assets held by the City in a trustee capacity or custodian for individuals, private organizations, other governments, and/or other funds. The City reports the following fiduciary funds:

Retirement Pension Trust Fund for accounting measurement purposes, the Retirement Pension Trust Fund is accounted for essentially in the same manner as proprietary funds. The Retirement Pension Trust Fund accounts for the assets of the City's retirement plan.

The Rock Creek Custodial Fund accounts for the assets held by the City for repayment of special assessment debt that the City is not obligated to pay from its own assets.

Retiree Healthcare Trust Fund for accounting measurement purposes, the Retiree Healthcare Trust Fund is accounted for in essentially the same manner as proprietary funds. The Retiree Healthcare Trust Fund accounts for the assets of the City's postemployment healthcare benefit.

CITY OF FORT WORTH, TEXAS
NOTES TO THE BASIC FINANCIAL STATEMENTS
SEPTEMBER 30, 2022
(000's omitted in tables)

NOTE A: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A.2 BASIS OF PRESENTATION

Fort Worth Firefighters Healthcare Trust for accounting measurement purposes, the Fort Worth Firefighters Healthcare Trust Fund is accounted for in essentially the same manner as proprietary funds. The Fort Worth Firefighters Healthcare Trust Fund accounts for the assets of the City's firefighters' employment and postemployment healthcare benefit.

The fiduciary funds are not included in the government-wide financial statements.

Reconciliation of Government-Wide and Fund Financial Statements

A summary reconciliation of the difference between total fund balances as reflected on the governmental funds Balance Sheet and total net position for governmental activities as shown on the government-wide Statement of Net Position is presented in an accompanying schedule to the governmental funds Balance Sheet. The assets, deferred outflows of resources, liabilities and deferred inflows of resources, and elements which comprise the reconciliation difference stem from governmental funds using the current financial resources measurement focus and the modified accrual basis of accounting while the government-wide financial statements use the economic resources measurement focus and the accrual basis of accounting. A summary reconciliation of the difference between net changes in fund balances as reflected on the governmental funds Statement of Revenues, Expenditures, and Changes in Fund Balances and change in net position for governmental activities as shown on the government-wide Statement of Activities is presented in an accompanying schedule to the governmental funds Statement of Revenues, Expenditures, and Changes in Fund Balances. The revenue and expenditure/expense elements which comprise the reconciliation difference stem from governmental funds using the current financial resources measurement focus and the modified accrual basis of accounting while the government-wide financial statements use the economic resources measurement focus and the accrual basis of accounting.

A.3 MEASUREMENT FOCUS/BASIS OF ACCOUNTING

The government-wide Statement of Net Position and Statement of Activities, all proprietary funds, and the fiduciary funds are reported and accounted for on the economic resources measurement focus and the accrual basis of accounting. With this measurement focus, all assets, deferred outflows of resources, liabilities, and deferred inflows of resources associated with the operation of these activities are included in the Statement of Net Position. Revenues are recorded when earned, and expenses are recorded when liabilities are incurred, regardless of the timing of the related cash flows. Nonexchange transactions, in which the City either gives or receives value without directly receiving or giving equal value in exchange include sales taxes, property taxes, grants, entitlements, and donations. On an accrual basis, revenue from sales taxes is recognized when the underlying exchange transaction takes place. Revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from grants, entitlements, and donations is recognized in the fiscal year in which all eligibility requirements have been met. Contributions from members are recorded when the employer makes payroll deductions from Plan members. Employer contributions are recognized when due. Benefits and refunds are recognized when due and payable by the terms of the Plan.

CITY OF FORT WORTH, TEXAS
NOTES TO THE BASIC FINANCIAL STATEMENTS
SEPTEMBER 30, 2022
(000's omitted in tables)

NOTE A: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A.3 MEASUREMENT FOCUS/BASIS OF ACCOUNTING

The governmental fund financial statements are reported using the flow of current financial resources measurement focus and the modified accrual basis of accounting. This focus is on the determination of and changes in financial position. Revenues are recognized in the accounting period in which they become both measurable and available to finance expenditures of the current fiscal period. Revenues from taxes are considered available if received within 60 days after the fiscal year-end. Revenue from categorical and other grants are recognized when applicable eligibility requirements, including time requirements, are met and are considered available if received within 60 days after the fiscal year-end. Program revenues such as fines, licenses and permits, gas leases and royalties and other charges for services are considered to be measurable and available when the cash is received. Expenditures are recorded when the related liability is incurred and payment is due, except for principal and interest on long-term debt and certain estimated liabilities which are recorded only when the obligation has matured and is due and payable shortly after year-end as required by GAAP.

A.4 PROPERTY TAXES

The City's property taxes are levied each October 1 on the assessed the value as of the previous January 1 for all real and personal property. Property taxes attach as an enforceable lien on property as of January 1. Taxes are due October 1, and full payment can be made prior to the following February to avoid penalty and interest charges. Taxpayers also have the option of paying one-half of their taxes by November 30 and the second-half by June 30 to avoid penalty and interest charges.

Property taxes levied for 2021 have been recorded as receivables, net of allowance for refunds, and uncollectible amount. The net receivables collected during 2021 and those considered "available" at FY2021 (i.e., property taxes collected within 60 days of year-end) have been recognized as revenues in 2021. The remaining receivables have been reflected as deferred inflows of resources. In the government-wide financial statements, tax revenue is recognized in the year in which the taxes are levied.

The State Constitution limits the tax rate to \$2.50 per \$100 of assessed valuation, including debt service. However, the City Charter further limits the tax rate to \$1.90 per \$100 or \$19.00 per \$1,000 of assessed valuation including debt service. The property tax rate levied in fiscal year 2022 was \$0.7325 per \$100 of valuation.

CITY OF FORT WORTH, TEXAS
NOTES TO THE BASIC FINANCIAL STATEMENTS
SEPTEMBER 30, 2022
(000's omitted in tables)

NOTE A: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A.5 CASH, CASH EQUIVALENTS, & INVESTMENTS

A.5.A CASH, CASH EQUIVALENTS, & INVESTMENTS

The City pools cash from all funds (excluding the Pension and Other Employee Benefits Trust Funds) to increase income through investment activities. Investments are carried at fair value. Interest earnings are allocated based on cash and investment amounts in individual funds in a manner consistent with budgetary and legal requirements.

Unrestricted investments purchased with pooled cash are classified as cash, cash equivalents, & investments in the accompanying Balance Sheet and Statement of Net Position. The relationship of an individual fund to the pooled cash and investment account is essentially that of a demand deposit account. Individual funds can withdraw cash from the account as needed, and therefore, all equity that the fund has in the pooled cash and investment account is highly liquid. For the purposes of the accompanying Statement of Cash Flows, the City has chosen to reconcile “cash, cash equivalents, & investments with maturities of three months or less at the time of purchase.”

When both restricted and unrestricted resources are available for use for the same purpose, it is the City’s policy to use restricted resources first, then unrestricted resources when they are needed.

Fair Value - GAAP establishes a hierarchy of Levels 1, 2, and 3, which are based on valuation techniques. All three levels are designed for the development of a more consistent and measurable valuation. These levels are defined as:

- Level 1: Quoted prices from an active market for identical assets or liabilities;
- Level 2: Quoted prices from an inactive market for similar or identical assets or liabilities; and
- Level 3: Unobservable in the market and are the least reliable.

Equity and mutual fund investments that are classified as Level 1 are valued using prices quoted in active markets for those securities. Level 1 debt securities are U.S. Treasuries with more than 750 transactions over the previous 30 days.

Debt and derivative securities, and commercial paper classified as Level 2 are valued using either a bid evaluation or a matrix pricing technique. Bid evaluations may include market quotations, yields, maturities, call features, and ratings. Matrix pricing is used to value securities based on the securities relationship to benchmark quoted prices. These debt and derivative securities have non-proprietary information that was readily available to market participants, from independent sources, which are known to be actively involved in the market. Cash and cash equivalents are short-term investments valued based on cost and accrued interest which approximates fair value. Equity securities classified as Level 2 are derived from associated traded security values, or convertible securities valued similarly to debt securities through a bid evaluation process.

Debt and derivative securities, and commercial paper classified in Level 3 are valued similar to Level 2 securities but have limited bids, limited trade information, limited trade activity, pricing from multiple sources but differences in prices above an acceptable level or pricing provided by a single source. Equity securities classified as Level 3 have limited trade information. These securities are priced off last trade price or estimated off recent trades and corporate actions.

CITY OF FORT WORTH, TEXAS
NOTES TO THE BASIC FINANCIAL STATEMENTS
SEPTEMBER 30, 2022
(000's omitted in tables)

NOTE A: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A.5 CASH, CASH EQUIVALENTS, & INVESTMENTS

A.5.B INVESTMENTS OF THE EMPLOYEES' RETIREMENT FUND (THE CITY PLAN)

Valuation of Investments - Investments are stated at fair value. Investments that do not have quoted market prices are priced from information received from the external manager. This information includes audited financial statements, quarterly valuation statements, adjustments for cash receipts, cash disbursements and securities distributions through September 30, 2022. Purchases and sales of investments are recorded on a trade-date basis. Interest income is recorded on an accrual basis. Dividends are recorded on the ex-dividend date (date usually two days prior to the record date).

The City Plan invests in limited partnerships which are valued at estimated fair value based on the City Plan's proportionate share of the partnerships' fair value as recorded by the partnerships. The limited partnerships allocate gains, losses, and expenses to the partners based on the ownership percentage as described in the partnership agreements.

There are certain market risks, credit risks, foreign exchange currency risks, or events that may subject the City Plan's investment portfolio to economic changes occurring in certain industries, sectors, or geographies. Net investment income includes net appreciation (depreciation) in the fair value of investments, interest income, dividend income, and investment expense. Investment expense includes custodian and management fees, securities lending expense and all other significant investment-related costs.

Due to/from Broker - The balance due to broker securities purchased and due from broker securities sold in FY2022 represents trades pending settlement and amounts due on foreign currency contracts.

Foreign Currency Transactions - The City Plan is a party to financial instruments with off-balance-sheet risk, primarily forward contracts. Forward transactions are contracts or agreements for delayed delivery of commodities, securities, or money market instruments in which the seller agrees to make a delivery at a specified future date of a specified commodity or instrument, at a specified price or yield. Entering into these investments involves not only the risk of dealing with counterparties and their ability to meet the terms of the contracts but also the risk associated with market fluctuations.

Gains and losses resulting from foreign exchange contracts (transactions denominated in a currency other than the City Plan's functional currency - U.S. dollars) are recorded by the Plan based on changes in market values and are combined with similar transactions in the accompanying Statement of Changes in Plan Fiduciary Net Position and are included in interest and dividend income. The City Plan structures its foreign exchange contracts and enters into certain transactions to substantially mitigate the Plan's exposure to fluctuations in foreign exchange rates.

Investments and broker accounts denominated in foreign currencies outstanding at September 30, 2022, were converted to the City Plan's functional currency at the foreign exchange rates quoted at September 30, 2022. These foreign exchange gains and losses are included in a change to net gain (loss) in fair value of investments in the accompanying Statement of Changes in Fiduciary Net Position.

CITY OF FORT WORTH, TEXAS
NOTES TO THE BASIC FINANCIAL STATEMENTS
SEPTEMBER 30, 2022
(000's omitted in tables)

NOTE A: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A.5 CASH, CASH EQUIVALENTS, & INVESTMENTS
A.5.C INVESTMENTS OF THE RETIREE HEALTHCARE TRUST FUND

Valuation of Investments - Investments are stated at fair value as of September 30, 2022, for both reporting and actuarial purposes. The Retiree Healthcare Trust Fund is charged with receiving employee and employer contributions, paying medical and dental claims, and prudently investing money in the fund not immediately needed to pay claims.

A.6 INVENTORIES

In governmental funds, inventories are valued at cost using the weighted average consumption method of valuation; however, land held-for-sale is valued at cost using specific identification consumption method. Additionally, expendable supplies are accounted for using the purchase method. Inventories in the proprietary funds are stated at the lower of cost (determined by using weighted average cost or first-in, first-out consumption methods) or fair value. In the Equipment Services Fund (an internal service fund), inventories consist of expendable supplies and automotive fuel held for consumption and are accounted for by the first-in, first-out consumption method.

A.7 CAPITAL AND LEASE ASSETS

Capital and lease assets, which include land, buildings, infrastructure, vehicles, machinery and equipment, intangibles, lease assets and construction in progress, are reported in the applicable governmental or business-type activities columns in the government-wide financial statements and in the fund financial statements for proprietary funds. Capital assets are recorded at original cost. Lease assets are recorded at the amount of the initial measurement of the lease liability, plus any payments made to the lessor at or before the commencement of the lease term and certain direct costs. Donated capital assets, and donated works of art and similar items are recorded at fair value at date of donation. Capital assets received in a service concession arrangement, if any, are reported at fair value. Repairs and maintenance are recorded as expenses. Under GASB Statement No. 89, *Accounting for Interest Cost Incurred before the End of a Construction Period*, interest cost is recognized as an expense in the period incurred. Therefore, interest cost is no longer capitalized as part of the historical cost for proprietary capital assets.

The capitalization threshold below is determined by the asset class (except for water and sewer capital assets which are considered to be one system and will be capitalized at their cost):

- a) Land must be capitalized regardless of the value or cost;
- b) Buildings must be capitalized regardless of the cost;
- c) Infrastructure and intangible assets must be capitalized when the useful life is at least three years and the cost is \$100,000 or more;
- d) Betterments and Improvements must be capitalized when useful life is at least two years, and the cost of building and infrastructure improvements is \$100,000 or more;
- e) Betterments, improvements, machinery and equipment must be capitalized when the useful life is at least two years, and the cost is \$25,000 or more; and
- f) Vehicles must be capitalized when the useful life is 4 years or greater, the cost is \$5,000 or greater, and it meets both criteria:
 - Self-propelled
 - Primary use is on public streets and the unit is street legal

CITY OF FORT WORTH, TEXAS
NOTES TO THE BASIC FINANCIAL STATEMENTS
SEPTEMBER 30, 2022
(000's omitted in tables)

NOTE A: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A.7 CAPITAL AND LEASE ASSETS

Depreciation and amortization for capital and lease assets are recorded on each class of depreciable property and intangibles using the straight-line method over the estimated useful lives of the assets. A leased asset will be amortized in a systematic and rational manner over the shorter of the lease term or the useful life of the underlying asset. The amortization of a leased asset will be reported as an inflow or outflow of resources which may be combined with depreciation expense related to other capital assets for financial reporting purposes. Estimated useful lives are as follows:

Water and Sewer Meters and Equipment	5-30 years
Water and Sewer Infrastructure	25-60 years
Buildings (Includes Portable Structures)	20-50 years
Machinery and Equipment	2-20 years
Runways and Taxiways	20-30 years
Infrastructure	20-60 years
Vehicles	4-15 years

The City capitalizes customized computer software, works of art, and avigation easements as intangible assets. In accordance with the City's capitalization policy, other intangible assets are amortized over the useful life of the related assets. Also, works of art do not have a useful life in accordance with GAAP. The City's capitalized works of art are reported in the government-wide financial statements under governmental activities. These assets are recorded at their acquisition value at the date of donation or purchase.

A.8 INTERFUND TRANSACTIONS

Transactions between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either “due to/from other funds” (the current portion) or “advances to/from other funds” (the long-term portion). Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as “internal balances.”

A.9 COMPENSATED ABSENCES

City employees earn personal leave, which may either be taken or accumulated until paid upon termination or retirement. Unused sick leave, accrued holidays, and compensated time may be accumulated to a specific maximum amount and is paid upon termination, retirement or death for Civil Service employees. All other employees are paid up to an established limit for personal leave upon retirement or death. Accumulated vacation and sick leave are accrued when incurred in the government-wide Statement of Net Position, proprietary, and fiduciary fund financial statements. A liability for these amounts is reported in governmental fund statements, only if they have matured as a result of employee resignation or retirements in accordance with GAAP. For accrued amounts that are paid through proprietary funds, an expense and liability for the total future liability are recorded.

The amount of current year compensated absences related to both governmental and proprietary funds is budgeted annually as an expenditure or expense, as appropriate. Compensated absences related to the governmental funds are liquidated in the respective funds of the employees.

CITY OF FORT WORTH, TEXAS
NOTES TO THE BASIC FINANCIAL STATEMENTS
SEPTEMBER 30, 2022
(000's omitted in tables)

NOTE A: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A.10 RISK FINANCING

A.10.A RISK FINANCING

The Risk Financing internal service fund accounts for the administration of risk management activities and programs in accordance with GAAP. These activities and programs are as follows: third-party liability claims and coordination with the Department of Law on litigation, property and casualty insurance, workers' compensation, group health and life insurance plan, unemployment compensation insurance, and retired employees' group death benefits for certain retirees.

All funds of the City participate in the program and make payments to the Risk Financing internal service fund based on estimates of the amounts needed to pay prior and current-year claims and to establish a reserve for catastrophic losses. Since the City is primarily self-insured, settlement amounts have not exceeded coverage in any of the prior three fiscal years. An accrual for unpaid claims and claims incurred but not reported is reflected in the internal service funds and government-wide financial statements as estimated claims payable. Claims expenses and liabilities are reported when it is probable that a loss has occurred and the amount of that loss can be reasonably estimated. The provision for claims incurred but not reported which are probable and reasonably estimable is based on City experience since the inception of the insurance programs. In accordance with GAAP, the estimated claims payables are based on the estimated ultimate cost of settling the claims. The total estimated claims payable includes estimates of allocated loss adjustment expenses. A discount rate of 3% has been applied to some estimated claims payable, such as automobile, general, employment practices and law enforcement liabilities. The undiscounted total estimated claims payable is \$53,160,000.

The total discounted estimated claims payable for the Group Health and Life Insurance Fund and the Risk Financing Fund at September 30, 2022, is \$48,862,000, of which \$26,606,000 represents workers' compensation case reserve losses, and is reported as long-term liabilities in the Internal Service Funds statements.

The changes in the City's total estimated claims and judgments liability are as follows (in thousands):

	<u>FY 2021</u>	<u>FY 2022</u>
Unpaid Claims, October 1st	\$ 32,438	\$ 34,681
Provisions for current year's events and changes		
in provision for prior years' events	78,545	117,845
Claims payments	<u>(76,302)</u>	<u>(103,664)</u>
Unpaid Claims, September 30th	<u>\$ 34,681</u>	<u>\$ 48,862</u>

A.10.B LIABILITY INSURANCE

The City largely self-funds the risk for most liability claims, lawsuits, and related expenses. However, there are separate commercial liability insurance policies for each of the following: contract instructors liability; aircraft and airport liability; liquor liability; pollution legal liability; animal herd; international center; and crime insurance. There were no significant changes in coverage limits for liability insurance.

CITY OF FORT WORTH, TEXAS
NOTES TO THE BASIC FINANCIAL STATEMENTS
SEPTEMBER 30, 2022
(000's omitted in tables)

NOTE A: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A.10 RISK FINANCING

A.10.C PROPERTY AND CASUALTY INSURANCE

An “all risk” property policy is provided by multiple commercial insurance companies for losses in excess of \$250,000 per occurrence for all covered perils. The City self-insures most property losses less than \$250,000. Boiler and machinery insurance, and crime insurance are also maintained on a commercial insurance basis. The City also has a \$10,000,000 aggregate deductible for wind and hail.

A.10.D WORKERS' COMPENSATION

The City largely self-funds the risk for workers' compensation claims. Catastrophic loss protection for workers' compensation is provided by a commercial insurer on a policy with a self-insured retention limit of \$3,000,000 per occurrence for Police Officers and Firefighters and \$2,000,000 for any single occurrence for all other employees. Coverage limits for workers' compensation are the statutory limits required by the Texas Workers' Compensation Act.

A.10.E GROUP HEALTH AND LIFE INSURANCE

The City maintains a group health insurance plan for active, retired employees, and their eligible dependents. The City's self-insured Preferred Provider Organization plan is offered to the active employees and the non-Medicare retirees. There are two plan options: (1) a high deductible health plan (the Consumer Choice Plan) with Health Savings Account contributions to the fund provided by both the City and participating employees and retirees; and (2) the Health Center Plan with deductibles and copays. The health centers provide free primary care services for those on the Health Center Plan and reduced cost for those on the Consumer Choice Plan. There are three (3) main Health Centers and five (5) Satellite Offices through our partnership with Southwest Health Resources.

There is a fully insured plan offered to the Medicare eligible retirees, a Medicare Advantage Preferred Provider Organization which includes a Prescription Drug Plan.

The specific stop-loss insurance is \$1,000,000 which assumes the risk for claims on any individual in excess of \$1,000,000 paid during a calendar year.

The City provides employee basic group life insurance and accidental death and dismemberment insurance of one-time base annual salary.

A.10.F UNEMPLOYMENT COMPENSATION

The City is a reimbursing agency for Unemployment Compensation. The Texas Workforce Commission (TWC) sends quarterly reports to a third party administrator who then forwards to the City concerning claims paid on behalf of the City to eligible former employees. A third party administrator reviews the claims but responds to TWC based on information the City provides.

CITY OF FORT WORTH, TEXAS
NOTES TO THE BASIC FINANCIAL STATEMENTS
SEPTEMBER 30, 2022
(000's omitted in tables)

NOTE A: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A.11 DEFERRED OUTFLOWS/INFLOWS OF RESOURCES

In addition to assets, the Statement of Net Position presents a separate section for deferred outflows of resources. Deferred outflows of resources represent a consumption of net assets that applies to future periods and so will not be recognized as an outflow of resources (expense/expenditure) until then. Deferred outflows of resources reported in the government-wide and proprietary fund's Statement of Net Position relate to debt refunding, pension, and OPEB items.

The City reports \$2,024,000 as a deferred outflow of resources for unamortized loss on debt refunding in the governmental activities and \$4,061,000 in the business-type activities in the Statement of Net Position. The unamortized loss on debt refunding results from the difference in the carrying value of the refunded debt and its reacquisition price. The amount is deferred and amortized over the shorter of the life of the refunded or refunding debt.

The City recorded deferred outflows of resources of \$462,597,000 for pension-related items which consists of \$401,136,000 of governmental activities and \$61,461,000 of business-type activities. The City also recorded \$58,204,000 of other postemployment benefit-related items which consists of \$52,058,000 of governmental activities and \$6,146,000 in the business-type activities as of September 30, 2022, in accordance with GAAP.

In addition to liabilities, the Statement of Net Position presents a separate section for deferred inflows of resources. Deferred inflows of resources represent an acquisition of net assets that applies to future periods, and so will not be recognized as an inflow of resources (revenue) until that time. The deferred inflows of resources in the governmental funds result from the City's unavailable revenue which are receivables for revenue that are not considered available to liquidate liabilities in the current period. Deferred inflows of resources reported in the government-wide and proprietary fund's Statement of Net Position relate to a service concession arrangement (SCA), pension, and other postemployment benefits.

In 2003, the City entered into an agreement with Allied Waste Systems (D/B/A Trinity Waste Services) to operate the City's Southeast Landfill. As part of this agreement, Allied Waste Systems is compensated by third party users of the landfill. The City owns the land for the landfill and retains ownership (residual interest) in the land at the end of the 20-year agreement. In 2003, Allied Waste Systems made an initial payment of \$9,600,000 to the City. This upfront payment is being amortized over the 20-year contract term. As of September 30, 2022, the City recognized deferred inflows of resources in the amount of \$534,000 in the Solid Waste Fund; \$240,000 of the deferred inflows in the Solid Waste Fund is due to the amortization of the landfill payment, and \$294,000 is related to prepaid landfill lease revenue for FY2023.

CITY OF FORT WORTH, TEXAS
NOTES TO THE BASIC FINANCIAL STATEMENTS
SEPTEMBER 30, 2022
(000's omitted in tables)

NOTE A: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A.12 FUND BALANCE/NET POSITION

Net position represents the difference between (a) assets and deferred outflows of resources and (b) liabilities and deferred inflows of resources. Net position is presented in the Statement of Net Position. Net investment in capital assets consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any debt related to the acquisition, construction, or improvements of those assets. Deferred outflows of resources and deferred inflows of resources that are attributable to the acquisition, construction, or improvement of those assets or related debt are also included in this component of net position. Net position is reported as restricted when there are limitations imposed on its use either through enabling legislation adopted by the City or through external restrictions imposed by creditors, grantors, laws, or regulations of other governments.

Fund balance is presented on the Balance Sheet for Governmental Funds. The components of fund balance include the following line items: a) nonspendable fund balance; b) restricted fund balance; c) committed fund balance; d) assigned fund balance; and e) unassigned fund balance. For further explanation of each fund balance component, please see the following:

- a) **Nonspendable fund balance** (inherently nonspendable) include the:
- Portion of net resources that cannot be spent because of their form.
 - Portion of net resources that cannot be spent because they must be maintained intact.
- b) **Restricted fund balance** (externally enforceable limitations on use) include amounts subject to:
- Limitations imposed by creditors, grantors, contributors, or laws and regulations of other governments.
 - Limitations imposed by law through constitutional provision or enabling legislation.
- c) **Committed fund balance** (self-imposed limitations set in place prior to the end of the period) include amounts subject to:
- Limitations imposed at the highest level of decision making that requires formal action (passage of City Ordinance) at the same level to remove. For the City, the City Council is the highest level of decision making.
- d) **Assigned fund balance** (limitation resulting from intended use) consists of amounts where the:
- Intended use is established by the body designated for that purpose (City Council).
 - Through Mayor and City Council ordinance, the City Manager has been delegated the authority to assign fund balances that are constrained by specific purposes that are neither restricted nor committed.
- e) **Unassigned fund balance** (residual net resources) is the:
- Total fund balance in the General Fund in excess of nonspendable, restricted, committed, and assigned fund balance.
 - Negative unassigned fund balance is the excess of nonspendable, restricted, and committed fund balance over total fund balance.

If there is an expenditure incurred for purposes for which both restricted and unrestricted fund balance is available, the City will consider restricted fund balance to have been spent before unrestricted fund balance. Further, if there is an expenditure incurred for purposes for which committed, assigned, or unassigned fund balance classifications could be used, the City will consider committed fund balance to be spent before assigned fund balance, and consider assigned fund balance to be spent before unassigned fund balance.

CITY OF FORT WORTH, TEXAS
NOTES TO THE BASIC FINANCIAL STATEMENTS
SEPTEMBER 30, 2022
(000's omitted in tables)

NOTE A: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A.12 FUND BALANCE/NET POSITION

The City's Financial Management Policy Statements establish and document the City's policies concerning maintaining the fund balance and net position of the various operating funds at levels sufficient to protect the City's creditworthiness as well as its financial position. The policy provides for the following:

General Fund, General Debt Service and Special Revenue Funds

General Fund

The City will maintain an unassigned fund balance in the General Fund equivalent to two months (16.67%) of the next fiscal year budgeted operating expenditures.

Debt Service Fund

The City will maintain a level of restricted, committed, and assigned fund balance in each governmental Debt Service Fund equivalent to three months (25%) of the highest projected debt service (principal and interest) over the succeeding debt service schedule due within one year. Amounts used in this calculation shall not include any amounts allocated for other purposes by the City Council.

Special Revenue Funds

The City will maintain a combined restricted and assigned fund balance in the Special Revenue Funds equivalent to two months (16.67%) of the next fiscal year's budgeted operating expenditures.

Enterprise Funds

The City will maintain the following goal reserve levels in each Enterprise Fund, consistent with State law and the terms of ordinances pursuant to which obligations have been issued or incurred that are secured in whole or in part by revenues held in or credited to an Enterprise Fund:

- A goal of Working Capital in Enterprise Funds equivalent to three months (25%) of the next fiscal year budgeted operating expenses, excluding intrafund transfers out to funds within the same reporting group (e.g. transfer out from Water and Sewer Operating Fund to its Capital Projects Fund or Debt Service Fund). This calculation shall be performed against the operating fund only.
- A reserve of 100 days Cash on Hand with a goal of 150 days Cash on Hand. This calculation shall be performed against the operating fund only on an accrual basis.
- In addition, no Enterprise Fund shall have a negative unrestricted net position. This calculation shall be performed by using all of the funds for the respective reporting group.

Internal Service Funds Insurance Funds (Risk Financing)

The City will maintain the following minimum reserve levels in all Insurance Funds:

- A goal of Working Capital in Risk Financing between three months (25%) of the next fiscal year budgeted operating expenses, excluding intrafund transfers out to funds within the same reporting group. This calculation shall be performed against the operating fund only on an accrual basis.

CITY OF FORT WORTH, TEXAS
NOTES TO THE BASIC FINANCIAL STATEMENTS
SEPTEMBER 30, 2022
(000's omitted in tables)

NOTE A: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A.12 FUND BALANCE/NET POSITION

- In addition, no Insurance Fund shall have a negative unrestricted net position. This calculation shall be performed by using all of the funds for the respective reporting group of the specific insurance related internal service fund.

Internal Service Funds Non-Insurance Funds (Non-Risk Financing)

The City will maintain the following minimum reserve levels in all Non-Insurance Funds:

- A goal Working Capital in Non-Risk Financing equivalent to ten percent (10%) of the next fiscal year budgeted operating expenses, excluding intrafund transfers out to funds within the same reporting group. This calculation shall be performed against the operating fund only on an accrual basis.
- In addition, no Non-Insurance Fund shall have a negative unrestricted net position. This calculation shall be performed by using all of the funds for the respective reporting group of the specific non-insurance related internal service fund.

When Reserves are not met:

If, based on analysis and forecasting, the target level of reserves is not met at fiscal year-end or is not likely to be met at any point within a five-year time horizon, then during the annual budget process a plan to replenish the reserve levels will be developed by collaboration among affected departments and the Department of Financial Management Services and Planning & Data Analytics based on the requirements outlined in this policy.

Excess of Reserves:

In the event reserves exceed the minimum balance requirements, at the end of each fiscal year, any excess reserves may be used in the following ways:

General Fund, Special Revenue Funds, and Enterprise Funds, Internal Service Funds - Insurance and Non-Insurance Funds

- Fund accrued liabilities, including but not limited to debt service, pension, and other post-employment benefits as directed and approved within the long-term financial plan and the annual budget ordinance. Priority will be given to those items that relieve budget or financial operating pressure in future periods;
- Appropriated to lower the amounts of bonds or increase the pay-as-you-go contributions needed to fund capital projects in the City's Capital Improvement Plan;
- One-time expenditures/expenses that do not increase recurring operating costs that cannot be funded through current revenues. Emphasis will be placed on one-time uses that reduce future operating costs; or
- Start-up expenditures/expenses for new programs provided that such action be approved by the City Council and is considered in the context of multi-year projections of revenue and expenditures/expenses as prepared by the Department of Financial Management Services.

(concluded)

*The Other category and classification for the Capital Projects Fund for restricted, committed, and assigned fund balance consists of various smaller construction projects at the end of the fiscal year.

**The Other category and classification for the Nonmajor Governmental Funds for restricted, committed, and assigned fund balance consists of smaller projects and activities at the end of the fiscal year.

As of September 30, 2022, the City committed \$1,668,000 for budget rollovers to Financial Management Services, Diversity and Inclusion, Police, and Economic Development departments. In addition, the City has assigned approximately \$31,600,000, of which \$15,000,000 will go towards the development of the National Juneteenth Museum, \$9,500,000 will go towards capital project shortfalls, \$5,000,000 will go towards the Omni Theater digital dome at The Fort Worth Museum of Science and History, \$1,200,000 will go towards the Public Safety Payroll System Project and \$859,000 will go towards the Information Technology Public Safety Radio Replacement Project.

CITY OF FORT WORTH, TEXAS
NOTES TO THE BASIC FINANCIAL STATEMENTS
SEPTEMBER 30, 2022
(000's omitted in tables)

NOTE A: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A.13 LONG-TERM OBLIGATIONS

Long-term debt and other obligations for general government purposes are recorded in the government-wide Statement of Net Position. Long-term debt and other obligations financed by proprietary funds are reported as liabilities in the appropriate funds and the business-type activities on the government-wide Statement of Net Position.

For the government-wide financial statements and proprietary fund statements, bond premiums and discounts are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount. Issuance costs are expensed as incurred apart from prepaid bond insurance, which is classified as an asset and amortized on a straight-line basis over the term of the related debt. In addition, gains and losses on bond refunding's are reported as deferred outflows/inflows of resources and are amortized over the term of the lesser of the life of the new bonds or the life of the refunded bonds using the straight-line method. In governmental funds, all bond-related items are recognized in the current period.

A.14 USE OF ESTIMATES

The preparation of the basic financial statements in conformity with GAAP requires the City's management to make estimates and assumptions that affect the reported amounts of deferred outflows of resources and deferred inflows of resources and disclosures of contingent assets and liabilities at the date of the basic financial statements and/or the reported amounts of revenues and expenditures/expenses during the reporting period. Actual results could differ from those estimates, but the City believes that the differences will be insignificant.

A.15 TAX ABATEMENTS

As of September 30, 2022, the City provides tax abatements through three programs: Tax Abatement Agreements (Texas Tax Code 312), Economic Development Program Grant Agreements (Texas Local Government Code Chapter 380), and Neighborhood Empowerment Zones (Texas Tax Local Government Code Chapter 378). The table below and on the following pages explain each program:

	Tax Abatement Agreements	Economic Development Program Grant Agreements	Neighborhood Empowerment Zones (NEZ)
1) Purpose of Program:	<i>Chapter 312 of the Texas Tax Code allows, but does not obligate or require, the City to grant a Tax Abatement on the value added to a particular property on account of a specific development project that meets the eligibility requirements set forth in this Policy. In order for the City to participate in Tax Abatement, the City is required to establish guidelines and criteria governing Tax Abatement agreements.</i>	<i>This program is grant based and the purpose of these City grants is to reimburse private developers for the range of expenses that may otherwise contribute to a financing gap, yielding projects financially infeasible. A city may provide a Chapter 380 grant in the form of a municipal sales or property tax rebate. In addition, various amendments to state law have permitted temporary hotel/motel tax rebates to help finance convention center-related hotel facilities.</i>	<i>This program allows for owners of residential, multi-family, commercial, industrial, mixed-use, and community facilities development projects located in a NEZ area to apply for a tax abatement.</i>
2) Tax being abated:	<i>Real Property, & Business Personal Property</i>	<i>Real Property, Business Personal Property, Sales Tax, & Hotel Occupancy Tax</i>	<i>Property Tax</i>

(000's omitted in tables)

NOTE A: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

TAX ABATEMENTS

	Tax Abatement Agreements	Economic Development Program Grant Agreements	Neighborhood Empowerment Zones (NEZ)
3) Authority under which abatement agreements are entered into:	<i>Tax abatements are authorized under Chapter 312 of the Texas Tax Code.</i>	<i>Grants are authorized under Texas Local Government Code Chapter 380.</i>	<i>Tax abatements are authorized under Chapter 378 of the Texas Local Government Code.</i>
4) Criteria to be eligible to receive abatement:	<i>A Tax Abatement can only be granted to persons or entities eligible for Tax Abatement pursuant to Section 312.204(a) of the Texas Tax Code, which persons or entities as of the effective date of this policy are the owner of taxable real property located in a Tax Abatement reinvestment zone; or the owner of a leasehold interest in real property located in a Tax Abatement reinvestment zone.</i>	<i>A business or entity shall be eligible to participate in the Chapter 380 Economic Development Program on terms and conditions established by the City Council on a case-by-case basis if: (a) the business or entity enters into a binding contract with the City under which (i) the business or entity is required to make specific and verifiable employment and other commitments that serve the public purposes overseen by the City's Economic Development Department and that the City Council deems appropriate under the circumstances and (ii) the City is able to cease and/or recapture payment of Chapter 380 incentives or to terminate the contract in the event that the public purposes specified in the contract are not met; or (b) the business or entity enters into a binding contract with the City under which (i) the business or entity commits to conduct or sponsor, in whole or in part, an event to which the general public has access, including, but not limited to, sporting events; events that focus on the history of the City and the region; and events that promote instrumental and vocal music, dance, drama, folk art, creative writing, architecture, design and allied fields, painting, sculpture, photography, and graphic and craft arts, and (ii) as part of such event and as specified in the contract, the business or entity is required to promote and publicize the City and attractions within the City in a manner that is likely to attract visitors from locations outside the City.</i>	<i>Municipal property tax abatements, fee waivers and release of city liens are available to property owners who build or rehabilitate property within a NEZ.</i>

(000's omitted in tables)

NOTE A: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

TAX ABATEMENTS

	Tax Abatement Agreements	Economic Development Program Grant Agreements	Neighborhood Empowerment Zones (NEZ)																		
5) How recipients' taxes are reduced:	1. The property tax abatement is refunded after the taxpayer pays the property tax. 2. The business personal tax abatement is refunded after the taxpayer pay the business personal tax.	1. The property tax due is net of the abated amount, or the property tax may be paid by the taxpayer and subsequently refunded by the city. 2. All other taxes to be abated are refunded after the taxpayer pays the associated tax.	The property tax due is net of the abated amount.																		
6) How the amount of abatement is determined:	The taxes may be abated up to 100 percent of the property tax paid depending on the type of agreements.	The taxes may be abated up to 100 percent of the property, sale, and hotel occupancy tax paid depending on the type of agreements.	The taxes may be abated up to 100 percent of the property tax paid depending on the type of agreements.																		
7) Provisions for recapturing abated taxes:	If the recipient of a Chapter 312 Tax Abatement breaches any of the terms or conditions of the Tax Abatement Agreement and fails to cure such breach in accordance with the Tax Abatement Agreement, the City shall have the right to terminate the Tax Abatement Agreement.	If the recipient of a Chapter 380 award breaches any of the terms or conditions of the Economic Development Program Agreement and fails to cure such breach in accordance with the Economic Development Program Grant Agreement, the City shall have the right to terminate the Agreement.	If the recipient of a Chapter 378 Tax Abatement breaches any of the terms or conditions of the Tax Abatement Agreement and fails to cure such breach in accordance with the Tax Abatement Agreement, the City shall have the right to terminate the Tax Abatement Agreement.																		
8) Types of commitments made by the City other than to reduce taxes:	No additional commitments were made by the City as part of these agreements.	No additional commitments were made by the City as part of these agreements.	No additional commitments were made by the City as part of these agreements.																		
9) Gross dollar amount, on accrual basis, by which the City's tax revenues were reduced as a result of abatement agreement:	<table style="width: 100%; border-collapse: collapse;"> <tr> <td style="width: 50%;">Real Property</td> <td style="width: 50%; text-align: right;">\$2,780</td> </tr> <tr> <td>B/P* Property</td> <td style="text-align: right;"><u>1,452</u></td> </tr> <tr> <td>Total</td> <td style="text-align: right;"><u>\$4,232</u></td> </tr> </table> <p>*B/P = Business Personal</p>	Real Property	\$2,780	B/P* Property	<u>1,452</u>	Total	<u>\$4,232</u>	<table style="width: 100%; border-collapse: collapse;"> <tr> <td style="width: 50%;">Real Property</td> <td style="width: 50%; text-align: right;">\$ 11,273</td> </tr> <tr> <td>B/P* Property</td> <td style="text-align: right;">12,106</td> </tr> <tr> <td>Sales</td> <td style="text-align: right;">5,989</td> </tr> <tr> <td>Hotel Occupancy</td> <td style="text-align: right;"><u>2,753</u></td> </tr> <tr> <td>Total</td> <td style="text-align: right;"><u>\$ 32,121</u></td> </tr> </table>	Real Property	\$ 11,273	B/P* Property	12,106	Sales	5,989	Hotel Occupancy	<u>2,753</u>	Total	<u>\$ 32,121</u>	<table style="width: 100%; border-collapse: collapse;"> <tr> <td style="width: 50%;">Real Property</td> <td style="width: 50%; text-align: right;"><u>\$ 1,141</u></td> </tr> </table> <p style="text-align: right;">(concluded)</p>	Real Property	<u>\$ 1,141</u>

A.16 IMPLEMENTATION OF NEW GASB STANDARD

During the year, the City implemented GASB Statement No. 87, *Leases*. Additional information on the implementation of this statement is noted below.

GASB Statement No. 87, *Leases*. The objective of this statement is to better meet the information needs of financial statement users by improving accounting and financial reporting for leases by governments. This Statement increases the usefulness of governments' financial statements by requiring recognition of certain lease assets and liabilities for leases that previously were classified as operating leases and recognized as inflows of resources or outflows of resources based on the payment provisions of the contract. It establishes a single model for lease accounting based on the foundational principle that leases are financings of the right to use an underlying asset. Under this statement, a lessee is required to recognize a lease liability and an intangible right-to-use lease asset, and a lessor is required to recognize a lease receivable and a deferred inflow of resources, thereby enhancing the relevance and consistency of information about governments' leasing activities. Information about lease receivables can be found within the tables in Note C and information about lease liabilities can be found within the tables in Note G. Information about depreciation and amortization of right-to-use lease assets can be found in Note F. Adoption of GASB 87 had no effect on beginning net position/fund balance at October 1, 2021, the date of implementation.

CITY OF FORT WORTH, TEXAS
NOTES TO THE BASIC FINANCIAL STATEMENTS
SEPTEMBER 30, 2022
(000's omitted in tables)

NOTE B: CASH, CASH EQUIVALENTS, & INVESTMENTS

B.1 POOLED CASH AND INVESTMENTS

The City maintains a cash and investment pool that is available for use by all operating, capital project, and special revenue funds. Each fund's portion of this pool is displayed separately on the Statement of Net Position as "Cash, Cash Equivalents, & Investments." The cash and investments of the Employees' Retirement Fund, investments of the Retiree Healthcare Trust Fund (OPEB Trust), and cash of the Fort Worth Firefighters Healthcare Trust are managed and accounted for separately from those of the City. The City categorizes its fair value measurements within the fair value hierarchy established by GAAP, see Note A.5.A.

Pooled Portfolio

The investment policies of the City are governed by State statutes and the City Council's adopted Investment Policy and Strategy (Policy). Major controls stipulated in the Policy include: depository limitations; Federal Deposit Insurance Corporation (FDIC) insurance or collateralization; repurchase agreements restrictions regarding primary dealers; independent third party custody for all collateral; settlement by delivery versus payment; defined authorized investments; and diversification guidelines. Maximum maturity and maximum weighted average maturity (WAM) limits are also set by the Policy.

State statutes and the Policy authorize investment in obligations of the U.S. Government, its agencies and instrumentalities, municipal obligations rated AA or better, repurchase agreements, A1/P1 commercial paper, AAA-rated constant dollar public funds investment pools, Letters of Credit (LOC) issued by the Federal Home Loan Bank, and Security and Exchange Commission (SEC) registered money market mutual funds. The City's Policy requires that collateral is limited to federal government securities with a market value equal to 102 percent of deposits.

The City, as authorized by the City Council, engages in securities lending through a contract with Citibank whereby all of the U.S. Treasury securities and agency securities are available to be lent to an authorized dealer. All loans can be terminated on demand by either party. The State law indirectly addresses reinvestment of collateral through the reverse repurchase agreement requirements. The law requires that reinvestment of the funds received "must mature not later than the expiration date" of the loan (Section 2256.011d of the Public Funds Investment Act). The City receives defined collateral of at least 102 percent of fair value. At no time is ownership of the underlying securities transferred to the primary dealer. The City does not have the ability to pledge or sell collateral securities outside of borrower default. Therefore, in accordance with GAAP, collateral securities are not presented on the City financial statements. As of September 30, 2022, the carrying and fair value of securities on loan were \$391,930,957 and the fair value of collateral held against the loaned securities was \$399,734,344.

The Public Funds Investment Act, Chapter 2256, Texas Government Code (the PFIA) directs authorized investments of the City. State statutes and the Policy require all time and demand deposits to be fully FDIC insured or collateralized. As of September 30, 2022, the City's demand and time deposits totaled \$468,790,091. Of the \$468,790,091 bank balance, \$250,000 in each bank account was insured by FDIC deposit insurance with the remainder collateralized with pledged securities held by an independent custodian. As of September 30, 2022, all funds were insured or collateralized as required under state law.

CITY OF FORT WORTH, TEXAS
NOTES TO THE BASIC FINANCIAL STATEMENTS
SEPTEMBER 30, 2022
(000's omitted in tables)

NOTE B: CASH, CASH EQUIVALENTS, & INVESTMENTS

B.1 POOLED CASH AND INVESTMENTS

As of September 30, 2022, the City’s investment portfolios (Portfolio) (excluding bank deposits, local government investment pools, money market mutual funds, and amounts held by Trustees) were held by the City’s custodians in the City’s name under written agreements. The City’s custodians are Citibank (securities lending) and JP Morgan Chase.

The City generally holds all pooled investments to maturity for investment and income, not speculation. For the year ended September 30, 2022, interest earned of \$1,762,275 on investments in the Capital Projects Fund was assigned to and reported as investment income in the Debt Service Fund for future debt service payments.

Interest Rate Risk — In order to limit interest and market rate risk, the Policy sets specific maximum maturity dates and WAM for each of the City’s investment portfolios. The City’s liquid investment portfolio has investments held for one year or less. For the City’s short-term portfolio, the WAM is two and one half (2½) years with a maximum stated maturity of five (5) years. The City’s long-term portfolio has a WAM of seven and one half (7½) years, and a maximum stated maturity of (10) years.

The Policy sets guidelines for maturity ranges which are dependent on interest rate conditions.

Maturity	Cash to 1 year	1 - 2 years	2 - 3 years	3 - 4 years	4+ years
Targeted Portfolio %	40.00%	15.00%	15.00%	15.00%	15.00%
Actual %	70.13%	11.57%	7.87%	6.48%	3.95%

As of September 30, 2022, the Portfolio included:

- no holdings with a stated maturity date beyond March 31, 2028;
- holdings maturing beyond one year represented 29.87%; and
- the WAM was 286 days or 0.79 years.

The Portfolio invests in agency debentures which are based on the credit of the agency. The Portfolio does not invest in any agency mortgage-backed securities. Certain debentures have embedded call options which are exercised dependent upon the type of call creating a unique “structure” for that security. Calls are normally scheduled on a one-time, quarterly, or continuous call basis. As of September 30, 2022, the Portfolio contained no callable debentures.

Credit Risk — The primary stated objective of the Policy is the safety of principal and avoidance of principal loss. State statutes and the Policy restrict time and demand deposits to banks doing business in Texas and require FDIC insurance or collateralization. A 102 percent margin on collateral is required, and collateral is limited to obligations of the U.S. Government, its agencies or instrumentalities. Securities are priced at fair value on a daily basis as a contractual responsibility of the bank.

State statutes and the Policy limit repurchase agreements to those with defined termination dates executed with a Texas bank or a primary dealer. The Policy requires an industry standard, written master repurchase agreement, and a 102 percent margin on collateral, as well as, delivery versus payment settlement and independent safekeeping.

The Policy restricts investments in commercial paper to dual rated, A1/P1 commercial paper. The Policy also states maximum maturity for commercial paper is 365 days.

CITY OF FORT WORTH, TEXAS
NOTES TO THE BASIC FINANCIAL STATEMENTS
SEPTEMBER 30, 2022
(000's omitted in tables)

NOTE B: CASH, CASH EQUIVALENTS, & INVESTMENTS

B.1 POOLED CASH AND INVESTMENTS

The Policy restricts investment in pools to AAA-rated local government investment pools.

As of September 30, 2022, the Portfolio consisted of:

- U.S. Treasury Notes and Bills represented 64.87%;
- U.S. Obligations represented 30.47%; and
- Municipal Obligations represented 4.66%

See Note B.3. for a detailed listing of investments as of September 30, 2022.

Credit risk in the securities lending program is mitigated by diversification of the borrowers through Citibank's automated process and the 102 percent margin required for every transaction. As a muni-swap contract, Citibank uses only A or better state and local governmental collateral for securities lending. There has not been any default by a borrower or lending agent under the City's securities lending program since its inception. Collateral provided under the securities lending program is not reported as an asset of the City.

Concentration of Credit Risk — The City recognizes over-concentration of assets by market sector or maturity as market risk. The Policy establishes diversification as a major objective and sets diversification limits and strategy percentage directives which are monitored on at least a monthly basis. The City's balances and investment horizon are managed in accordance with cash flow needs, prevailing market conditions, and general economic factors.

Custodial Credit Risk — To control custody and safekeeping risk, State statutes and the Policy require FDIC insurance or collateral for all time and demand deposits, as well as collateral for repurchase agreements and security lending positions. All collateral is held by an independent party approved by the City. The custodian provides original safekeeping receipts and full monthly reporting. Depository agreements are executed under the terms of the Financial Institutions Resource and Recovery Enforcement Act.

As of September 30, 2022, the Portfolio contained no certificates of deposit and no repurchase agreements.

Custody of collateral under the securities lending program utilizes an independent third party custodian in a segregated account for all collateral. All collateral is held in the name of the City and marked-to-market daily. If the value falls below 102 percent, additional collateral is provided. The lender does not act as a borrower.

CITY OF FORT WORTH, TEXAS
NOTES TO THE BASIC FINANCIAL STATEMENTS
SEPTEMBER 30, 2022
(000's omitted in tables)

NOTE B: CASH, CASH EQUIVALENTS, & INVESTMENTS

B.1 POOLED CASH AND INVESTMENTS

Gas Lease Portfolio

Section 2256.0202 of the PFIA authorizes municipal funds from the management and development of mineral rights to be invested in accordance with Texas Trust Code (Subtitle B, Title 9, Property Code). Texas Trust Code allows any security that a “Prudent Investor” would be willing to utilize. City Council has adopted a separate Gas Lease Investment Policy (GLI Policy) statement for these funds. The GLI Policy defines authorized investments and sets the objectives of security, liquidity, and diversification. In addition to the authorized investments allowed under the Investment Policy and Strategy, the GLI Policy authorizes: investments in municipal obligations rated A or better; prime banker’s acceptances; domestic and international bond mutual funds with a Morningstar rating of at least two stars; domestic and international equity, and preferred stock mutual funds; domestic and international stocks; real assets; real estate; complementary strategies (currently hedge funds); and corporate and asset-backed securities rated A or better. The fair value and cost basis of this Gas Lease Portfolio were \$61,584,000 and \$69,849,000, respectively.

The GLI Policy sets maximum maturity limits for each authorized investment type. The maximum stated maturity for fixed income securities is 20 years. As of September 30, 2022, no holdings have a stated maturity date beyond March 1, 2027. The following schedule details fair values and maturities for fixed income securities and mutual funds:

Fixed Income Securities	Less Than 1 Year	1 - 5 Years	6 - 10 Years	Total
Government Obligations	\$ -	\$ 3,030	\$ -	\$ 3,030
Mortgage Backed Securities	-	955	-	955

B.4 INVESTMENTS OF THE RETIREE HEALTHCARE TRUST FUND (THE OPEB TRUST)

All OPEB Trust investments are held in the Public Agencies Retirement Services (PARS) Post-Retirement Health Care Plan Trust by its trustee, US Bank. The Trustee is contracted to manage the portfolio in accordance with the Trust documents as approved by the City Council. The Trust Investment Guideline mandates a diversified portfolio in real estate, fixed income securities, and equity securities.

Custodial Credit Risk — As of September 30, 2022, all investments are registered in the name of the City of Fort Worth PARS Post-Retirement Health Care Plan Trust in a master trust custodial agreement.

Credit Risk of Debt Securities — The OPEB Trust investments as of September 30, 2022, are shown below:

Investment Type	Rating	Fair Value*
Issues:		
US Government Issues	N/A	\$ 23,796

(000's omitted in tables)

NOTE B: CASH, CASH EQUIVALENTS, & INVESTMENTS

B.5 INVESTMENTS OF THE EMPLOYEES' RETIREMENT FUND

The Employees' Retirement Fund of the City of Fort Worth, Texas (the "Retirement Fund") is comprised of two separate defined benefit plans: the City of Fort Worth employees benefit plan (the "City Plan" or the "Plan") and the Retirement Fund employees plan (the "Staff Plan"). The Retirement Fund and City Plan were established by City Ordinance on September 12, 1945. The Staff Plan was established through Administrative Rules in 2007, and both plans are governed by State statute (Vernon's Civil Statutes, Title 109, Article 6243i) effective June 15, 2007. The assets of the City Plan are commingled for investment purposes with the assets of the Staff Plan of the Employees' Retirement Fund, and both plans are administered by the thirteen-member Retirement Fund Board of Trustees (Board). The Retirement Fund Board is solely responsible for managing the assets for the City of Fort Worth employees plan, and defining benefits, setting contribution rates, funding contributions, and all other financial components of the Staff Plan. Defining benefits, setting contribution rates, funding contributions, and all other financial components of the City Plan are administered by the Mayor and City Council. Each plan has a separate actuarial valuation completed annually to determine the respective funded status based on current and projected assets and liabilities. Therefore, assets of each plan are legally separate and cannot pay benefits of the other. Due to the insignificant nature of the Staff Plan's assets compared to the Retirement Fund's assets, all further references to the Plan and information provided in the Notes and Required Supplementary Information about the City Plan are strictly limited to information about the City employees (comprised of General Employees, Police Officers, and Firefighters). As discussed in Note I, this fiduciary fund of the City issues separate audited financial statements which are publicly available and can be obtained by contacting the Employees' Retirement Fund at 3801 Hulen Street, Suite 101, Fort Worth, Texas 76107.

Fair Value — The Plan categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles as described in Note A.5.A.

Investments that are measured at fair value using the net asset value (NAV) per share (or its equivalent) as a practical expedient are not classified in the fair value hierarchy. Investments that use inputs that are of different levels are categorized based on the lowest level of input used to determine the fair value of the investment.

The Plan's assets listed in the Investments Measured at Net Asset Value table in Note B.5. are invested with managers in structures that the Plan receives values for shares held in the investment structure with the manager. The liquidity of these structures is listed below on the following pages:

Equity Investments — This consists of two Commingled Global Equity Funds that are passive institutional investment funds that invest in global equities diversified across all sectors focused on large to mid-cap equities. One of the global equity funds is based on a cap-weighted MSCI ACWI index and the second fund is based on an MSCI ACWI weighted toward fundamental aspects of companies within the index. There is also one active Commingled Emerging Market Equity Fund that is an institutional investment fund that invests in emerging market equities diversified across all sectors focused on large to mid-cap equities.

NOTES TO THE BASIC FINANCIAL STATEMENTS
SEPTEMBER 30, 2022
(000's omitted in tables)

NOTE B: CASH, CASH EQUIVALENTS, & INVESTMENTS

B.5 INVESTMENTS OF THE EMPLOYEES' RETIREMENT FUND

Absolute Return Funds — This category consists of several different styles of funds as well as different liquidity structures. When redeeming from these funds, there is typically a notice period ranging from one to three months' notice and funds can hold back a small portion of the assets until an annual audit is conducted. In some cases managers designate particular investments as longer hold periods than the funds liquidity schedule, in these cases they side pocket the investment, and these assets are not available immediately upon redemption. Directional funds include investments in one fund that invests in a directional nature based on their views of markets, at times this fund may invest without a directional bias. The directional fund is able to be redeemed on a quarterly basis. Equity Long/Short funds include investments in four funds with two of these funds currently in redemption consisting of less than 1% of assets in this category. Equity Long/Short funds maintain some level of market exposure by investing in US or global equities both long and short with the level of exposure varying over time. One fund of this type, consisting of 47% of assets in this category allows a full redemption on a quarterly basis. The other significant fund of this type, consisting of 53% of assets in this category, allows quarterly liquidity receiving 1/4 of assets each subsequent quarter. Event driven funds include investments in seven funds with two of those funds currently in redemption consisting of less than 1% of assets in this category. These funds seek to gain an advantage from pricing inefficiencies that may arise based on corporate actions or events which may change the nature of the underlying investment. The nature of event driven investments often restricts the liquidity of those investments. In this category 16% of the assets may only be redeemed in three-year intervals, while 14% may only be redeemed on an annual basis. The remaining 70% of assets may be redeemed quarterly receiving 1/4 of assets each subsequent quarter. Multi-Strategy funds invest in multiple strategies in order to diversify risks and reduce volatility. The five funds in this category have been redeemed with the remaining assets either audit holdback or side pocketed assets waiting for liquidation. Relative Value funds include investments in two funds in this category. Relative Value funds seek returns by identifying mispricing of related securities or financial instruments. Both of the Relative Value funds allow quarterly liquidity receiving 1/4 of assets each subsequent quarter.

Alternative Assets — This category consists of limited partnership structures that invest in companies or real estate which allow for limited or no liquidity for the investor. Private Equity partnerships consist of funds that invest in buyouts, growth equity, venture capital, special situations, mezzanine and distressed debt. There are 85 partnerships in this category and these partnerships are typically structured with life from 7-12 years and are considered illiquid. As investments are sold out of the partnerships, assets are returned to the investors. These funds' fair value is determined using net asset values one quarter in arrears and adjusted for cash flows of the most recent quarter. There are three investments in Real Estate - Core partnerships which invest in highly leased lower leverage properties that provide consistent income to the investors. These funds allow quarterly liquidity to the investors. A redemption has been submitted from one of these managers, however a gate has been implemented by the manager restricting the flow of redemption proceeds as the manager pursues liquidation of some of the fund assets to meet the investors that have requested redemptions. Real Estate – Non-Core partnerships invest in properties that require some kind of development or improvements to improve the position of the property. There are 23 partnerships in this category and these partnerships are typically structured with a life from 7-12 years and are considered illiquid. As properties are sold out of the partnership, assets are returned to the investors. These funds fair value are determined using net asset values one quarter in arrears and adjusted for cash flows of the most recent quarter.

NOTES TO THE BASIC FINANCIAL STATEMENTS
SEPTEMBER 30, 2022
(000's omitted in tables)

NOTE B: CASH, CASH EQUIVALENTS, & INVESTMENTS

B.5 INVESTMENTS OF THE EMPLOYEES' RETIREMENT FUND

Substantially all of the Plan's investments are held by its custodian. The Retirement Fund Board of Trustees (Board) authorizes various external managers to manage investments within certain policies as set forth by the Board. These policies mandate a diversified portfolio, which includes investments, either directly or in commingled accounts, in real estate, fixed income securities, and equity securities.

GAAP addresses common deposit and investment risks including custodial credit risk, credit risk of debt securities, concentration of credit risk, interest rate risk, and foreign currency risk. Required disclosures related to these risks are presented below and on the following pages:

Custodial Credit Risk — Custodial credit risk is the risk that in the event of failure of the counterparty, the Plan would not be able to recover the value of its investments. The Plan does not have a formal policy for custodial credit risk. As of September 30, 2022, all investments are registered in the name of the Employees' Retirement Fund of the City of Fort Worth or in the name of the Plan's custodian, established through a master trust custodial agreement, with the exception of investments in alternative investments and commingled funds.

Credit Risk of Debt Securities — Credit risk of debt securities is the risk that an issuer or another counterparty to an investment will not fulfill its obligations. The Plan's investment policy (the policy) requires that fixed income securities have a weighted average of no less than investment grade, as rated by Moody's or Standard & Poor's (S&P). However, the policy does provide for high yield fixed income managers to invest in securities with S&P ratings between BB+ and CCC. The policy limits 25% of a manager's portfolio to be rated CCC or lower. Unrated securities should be limited to no more than 20% of a manager's portfolio. GASB 40 does not require disclosure of U.S. government obligations explicitly guaranteed.

(000's omitted in tables)

NOTE B: CASH, CASH EQUIVALENTS, & INVESTMENTS

B.5 INVESTMENTS OF THE EMPLOYEES' RETIREMENT FUND

Concentration of Credit Risk — Concentration of credit risk is the risk of loss attributed to the magnitude of the Plan's investment in a single issuer. The Plan's investment policy addresses concentration limits on a manager basis. As of September 30, 2022, the Plan did not have any investments, where the underlying assets were registered in the Plan's name that totaled more than 5% of assets of the Plan.

Interest Rate Risk — Interest rate risk is the risk that changes in interest rates of debt investments will adversely affect the fair value of an investment. The Plan does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from changing interest rates.

The maturities of investments subject to interest rate risk are as follows:

Investment Type	Less Than 1 Year	1 - 5 Years	6 - 10 Years	More Than 10 Years	Total Fair Value
Asset & Mortgage Backed Obligations	\$ -	\$ 5,158	\$ 6,271	\$ 47,413	\$ 58,842

U.S. Treasuries	991	12,487	41,232	39,304	94,014
Short-term Marketable Securities	83,134	-	-	-	83,134
Total Interest Rate Risk Debt Securities	\$ 391,748	\$ 86,784	\$ 95,618	\$ 187,241	\$ 761,391

Foreign Currency Risk — Foreign currency risk is the risk that changes in exchange rates will adversely affect the fair value of an investment or deposit. The Plan has no formal investment policy with regard to foreign currency risk as it is considered an intrinsic risk associated with the investment strategy. The Plan's exposure to foreign currency risk at September 30, 2022, is presented below:

Currency	Debt	Equity	Alternatives	Total
Argentine Peso	\$ 4	\$ -	\$ -	\$ 4
Australian Dollar	(1,551)	2,534	-	983

CITY OF FORT WORTH, TEXAS
NOTES TO THE BASIC FINANCIAL STATEMENTS
SEPTEMBER 30, 2022
(000's omitted in tables)

NOTE B: CASH, CASH EQUIVALENTS, & INVESTMENTS

B.5 INVESTMENTS OF THE EMPLOYEES' RETIREMENT FUND
FOREIGN CURRENCY EXCHANGE TRANSACTIONS

To manage the foreign currency exchange risks associated with foreign investments, the Plan enters into forward currency contracts. The Plan had net foreign currency contracts with a fair value of approximately \$877,775 as of September 30, 2022, which contractually obligates the Plan to deliver currencies at a specified date. The Plan could be exposed to the risk of loss if the counterparty is unable to meet the terms of a contract or if the value of currency changes unfavorably. As of September 30, 2022, the fair value of these contracts is included in due to/from broker.

DERIVATIVE FINANCIAL INSTRUMENTS

The Plan's investment managers are permitted to invest in derivatives subject to guidelines established by the Board. Derivatives are financial instruments that derive their value, usefulness, and marketability from an underlying instrument which represents direct ownership of an asset or an obligation of an issuer. The Plan's derivative positions are marked to market daily, and managers may only trade with counterparties with a credit rating of A-/A3 as defined by S&P and Moody's, respectively. Substitution and risk control are the only strategies permitted; speculation is strictly prohibited. Derivatives are carried as a receivable when the fair value is positive and as payable when the fair value is negative. Fair value is determined based on quoted market prices, if available, or based on differences in cash flows between the fixed and variable rates in each contract as of the measurement date. Gains and losses from derivatives are included in net investment income.

The Plan was in possession of the following types of derivatives as of September 30, 2022:

Futures Contracts — A futures contract is a standardized contract between two parties to buy or sell a specified asset of standardized quantity and quality for a price agreed upon today with delivery and payment occurring at a specified future date, the delivery date. The contracts are negotiated at a futures exchange, which acts as an intermediary between the two parties to minimize the risk of default by either party.

Forward Contracts — A forward contract represents an agreement to buy or sell an underlying asset at a specified date in the future at a specified price. Payment for the transaction is delayed until the settlement or expiration date. A forward contract is a non-standardized contract that is tailored to each specific transaction. Forward contracts are privately negotiated and are intended to be held until the settlement date. Currency forward contracts are used to control currency exposure and facilitate the settlement of international security purchase and sale transactions

Swap Agreements — A swap is an agreement between two or more parties to exchange a sequence of cash flows over a period of time in the future based on an underlying asset. No principal is exchanged at the beginning of the swap. The cash flows the counterparties exchange are tied to a "notional" amount. A swap agreement specifies the time period over which the periodic payments will be exchanged. The fair value represents the gains or losses as of the prior marking-to-market.

Options — Options represent or give buyers the right, but not the obligation, to buy (call) or sell (put) an asset at a present price over a specified period. The option's price is usually a small percentage of the underlying asset's value. As a buyer of financial options, the Plan receives a premium at the outset of the agreement and bears the risk of an unfavorable change in the price of the financial instrument underlying the option. As a purchaser of financial options, the Plan pays a premium at the outset of the agreement and the counter-party bears the risk of an unfavorable change in the price of the financial instrument underlying the option.

CITY OF FORT WORTH, TEXAS
NOTES TO THE BASIC FINANCIAL STATEMENTS
SEPTEMBER 30, 2022
(000's omitted in tables)

NOTE B: CASH, CASH EQUIVALENTS, & INVESTMENTS

B.5 INVESTMENTS OF THE EMPLOYEES' RETIREMENT FUND

Rights and Warrants — A right is a special type of option that has a short market life, usually existing for no more than a few weeks. Essentially, rights originate when corporations raise money by issuing new shares of common stock. From an investor's perspective, a right enables a stockholder to buy shares of the new issue at a specified price, over a specified, fairly short time period. Rights not executed by their expiration date cease to exist and become worthless. A warrant is a long-term option that gives the holder the right to buy a certain number of shares of stock in a certain company for a certain period of time. Like most options, warrants are found in the corporate sector of the market. Occasionally, warrants can be used to purchase preferred stock or even bonds, but the common stock is the leading redemption vehicle. Warrants, like rights, cease to exist and become worthless if they are not executed by their expiration date.

The Investment Derivatives schedule listed below reports the fair value and changes in fair value and notional amounts of derivatives outstanding as of September 30, 2022, classified by type:

Derivative Type	Changes in Fair Value		Fair Value	
	Classification	Amount	Amount	Notional
Fiduciary Funds				
Investment Derivatives				
Futures Contracts	<i>Investment Income</i>	\$ (134)	\$ (134)	\$ 41,112
Forward Contracts	<i>Investment Income</i>	921	878	93,165
Swap Agreements	<i>Investment Income</i>	(1,104)	(183)	58,236
Options	<i>Investment Income</i>	1	-	-
Rights and Warrants	<i>Investment Income</i>	(36)	19	18
	Total	<u>\$ (352)</u>	<u>\$ 580</u>	<u>\$ 192,531</u>

Credit Risk — The Plan is exposed to credit risk on investment derivatives that are traded over the counter and reported in asset positions. Derivatives exposed to credit risk include currency forward contracts, rights and warrants, and swap agreements. To minimize credit risk exposure, the Plan's managers monitor the credit ratings of the counterparties. Should there be a counterparty failure, the Plan would be exposed to the loss of the fair value of derivatives that are in the asset positions and any collateral provided to the counterparty, net of the effect of applicable netting arrangements. Netting arrangements provide the Plan with a right of offset in the event of bankruptcy or default by the counterparty. Collateral provided by the counterparty reduces the Plan's credit risk exposure.

The following Credit Risk Analysis schedule discloses the counterparty credit ratings of the Plan's investment derivatives by type, as of September 30, 2022. These amounts represent the maximum loss that would be recognized if all counterparties fail to perform as contracted, without respect to any collateral or other security or netting arrangement. The schedule displays the fair value of the investments by credit rating in increasing magnitude of risk. Investments are classified by S&P rating. If the investment does not have an S&P rating, the Moody's rating that corresponds to the S&P rating is used.

B.5 INVESTMENTS OF THE EMPLOYEES' RETIREMENT FUND

As of September 30, 2022, the Plan's credit risk to these investments is disclosed in the following table:

Derivative Type	AA	A	BBB	Not Rated	Total Fair Value
Futures Contracts	\$ -	\$ -	\$ -	\$ (134)	\$ (134)
Forward Contracts	-	-	-	878	878
Swap Agreements	-	(170)	-	(13)	(183)
Options	-	-	-	-	-
Rights and Warrants	-	-	-	19	19
Total	<u>\$ -</u>	<u>\$ (170)</u>	<u>\$ -</u>	<u>\$ 750</u>	<u>\$ 580</u>

Interest Rate Risk — The interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of an investment. Interest rate swaps are an example of an investment that has a fair value that is highly sensitive to interest rate changes. These investments, as of September 30, 2022, are disclosed in the following table:

Derivative Type	Total Notional Value	Total Fair Value
Interest Rate Swaps	\$ 49,036	\$ (143)
Swaptions	9,200	(40)
Total	<u>\$ 58,236</u>	<u>\$ (183)</u>

Foreign Currency Risk — For those forward contracts and swap agreements that are securities issued by foreign countries and foreign businesses, there is an exposure to foreign currency risk. Currency forward contracts represent foreign exchange contracts that are used to control currency exposure and facilitate the settlement of international security purchase and sale transactions.

The net exposure column of the schedule below indicates the Plan's net foreign currency risk related to derivatives as of September 30, 2022:

Currency	Forward Contracts	Swap Agreements	Net Exposure
Australian Dollar	\$ 3	\$ -	\$ 3
Brazilian Real	(11)	69	58
British Pound Sterling	121	377	498
Canadian Dollar	2	-	2
Chilean Peso	153	-	153
Chinese Yuan Onshore	48	-	48
Chinese Yuan Offshore	9	-	9
Colombian Peso	36	-	36
Danish Krone	7	-	7
Euro Currency Unit	112	(790)	(678)
Hong Kong Dollar	(4)	-	(4)
Indian Rupee	3	-	3
Israeli New Shekel	44	-	44
Japanese Yen	11	161	172
New Zealand Dollar	165	-	165
Norwegian Krone	21	-	21
Peruvian Solance	(26)	-	(26)
South African Rand	149	-	149
Swiss Franc	1	-	1
Thai Baht	34	-	34
Total	<u>\$ 878</u>	<u>\$ (183)</u>	<u>\$ 695</u>

The values shown are for the positions that the Plan holds directly. The Plan may also have an indirect exposure to derivatives via its commingled funds and its alternative investments. The Plan owns an interest in the commingled and

alternative investment funds which in turn holds the actual positions. Indirect exposures via these types of investments are not shown here.

SECURITIES LENDING

The Plan is authorized to contractually lend securities to borrowers in accordance with policy established by the Board. The Plan is currently contracted with Northern Trust to establish, manage and administer a securities lending program. Northern Trust facilitates lending the Plan's domestic and international equity and fixed income securities in return for collateral consisting of cash, U.S. government securities and irrevocable letters of credit issued by banks independent of the borrower. As of September 30, 2022, all securities lending collateral held is cash. At a loan's inception, the value of collateral obtained is equal to 102% for securities of United States issuers, and 105% in the case of securities of non-United States issuers, of the fair value of any securities to be loaned, plus any accrued interest.

Cash collateral is to be invested in government securities, bank and corporate notes, bank certificates of deposit, time deposits, bankers' acceptances, repurchase agreements, commercial paper, and asset-backed securities. The contract with Northern Trust specifies guidelines for allowable investments, maturities, and diversification. The Plan does not have the ability to pledge or sell collateral securities without borrower default. The amount of cash collateral held exceeds the value of the assets on loan at September 30, 2022.

The Plan earns income from fees paid by the borrowers and interest earned from investing the cash collateral. The contract requires the custodian bank to purchase any loaned securities with collateral provided. However, if the collateral is insufficient to cover the loss, the Plan is liable for the loss. The cash collateral received on each loan was invested in the collateral pool at Northern Trust. Because the loans are terminable at will, their duration generally did not match the duration of the investments made with cash collateral. In addition, the Plan had no credit risk exposure to borrowers. As of September 30, 2022, the value of the collateral held was \$306,215,799 and the value of securities on loan at September 30, 2022, was \$297,796,821. The Plan earned \$611,481, net, on its securities lending activity for the fiscal year ended September 30, 2022.

Governmental funds report deferred inflows of resources, unavailable revenue, in connection with receivables for revenues that are not considered to be available to liquidate liabilities of the current period. Governmental funds also report a liability, unearned revenue, in connection with resources that have been received, but not yet earned.

CITY OF FORT WORTH, TEXAS
NOTES TO THE BASIC FINANCIAL STATEMENTS
SEPTEMBER 30, 2022
(000's omitted in tables)

NOTE C: RECEIVABLES AND INTERFUND BALANCES

C.1 RECEIVABLES

At the end of the fiscal year, the various components of unavailable revenue and unearned revenue reported in the governmental funds were as follows:

Description	Unavailable	Unearned
Property Taxes	\$ 949	\$ -
Grants and Other Governments	16,535	181,519
Long-Term Loans	-	28,068
Other	17,107	1,166
	<u>\$ 34,591</u>	<u>210,753</u>
Total Unavailable / Unearned Revenues		<u>\$ 245,344</u>

Enterprise funds record unearned revenue in connection with resources that have been received, but not yet earned. At the end of the fiscal year, the various components of unearned revenue reported in the enterprise funds were as shown:

Description	Water and Sewer	Nonmajor Enterprise Funds	Total Business-Type Activities
Deposits and Rents	\$ 700	\$ -	\$ 700
Grants and Other	-	646	646
Total Unearned Revenues	<u>\$ 700</u>	<u>\$ 646</u>	<u>\$ 1,346</u>

The City, as lessor, leases City-owned properties such as buildings, land, office space, and parking space. The related receivables are presented in the Statement of Net Position for the amounts equal to the present value of lease payments expected to be received during the lease term. Revenue recognized under GASB 87 lease contracts during the year ended September 30, 2022 was \$4,441,746, which includes both lease revenue and interest.

The City recognized zero as it relates to variable payments within its lease arrangements as the lessor. The City did not have revenue related to residual value guarantees or lease termination penalties. It also does not currently have agreements that include sale-leaseback and lease-lease back transactions.

The Municipal Airports Department does not recognize a lease receivable and a deferred inflow of resources for regulated leases. Regulated leases are certain leases that are subject to external laws, regulations, or legal rulings, e.g. the U.S. Department of Transportation and the Federal Aviation Administration, between airports and air carriers and other aeronautical users.

a) NMG Funds - Nonmajor Governmental Funds

b) NME Funds - Nonmajor Enterprise Funds

c) ISF Funds - Internal Service Funds

Transfers are used to: 1) move revenues from the fund with collection authorization to the Debt Service Fund as debt service principal and interest payments become due; 2) move restricted amounts from borrowings to the Debt Service Fund to establish mandatory reserve accounts; and 3) move unrestricted revenues to finance various programs that the government must account for in other funds in accordance with budgetary authorizations, including amounts provided as subsidies or matching funds for various grant programs.

CITY OF FORT WORTH, TEXAS
NOTES TO THE BASIC FINANCIAL STATEMENTS
SEPTEMBER 30, 2022
(000's omitted in tables)

NOTE C: RECEIVABLES AND INTERFUND BALANCES

C.2 TRANSFERS

Significant transfers included the following:

The General Fund transferred \$79,795,000 to the Capital Projects Fund, of which \$76,630,000 was for the capital improvement plan, \$3,165,000 was for vehicle and equipment replacement.

The General Fund transferred \$5,794,000 to the Nonmajor Governmental Funds, of which \$2,527,000 was to the Culture and Tourism Fund for the purposes of operating the Fort Worth Convention Center, the Will Rogers Memorial Complex, and the Cowtown Coliseum, funding a contract with the Fort Worth Convention and Visitors Bureau. The Golf Fund received a subsidy in the amount of \$395,000 from the General Fund to assist with the operational costs. The Economic Incentives fund received \$2,000,000 to provide a grant as authorized by the Chapter 380, Texas Local Government Code. The Fort Worth Public Improvement Districts (PID) received \$865,000 and the Tax Increment Reinvestment Zones(TIRZ) Funds received \$7,000 in lieu of services and assessments.

The Nonmajor Governmental Funds transferred \$1,737,000 to the General Fund, of which \$901,000 was from the Culture and Tourism Fund energy savings debt service, \$305,000 was from Fort Worth LDC, \$227,000 was from Fort Worth Public Improvement Districts Funds, \$299,000 was from Taxes Increment Reinvestment Zones Funds, and \$5,000 was from other Nonmajor Governmental funds.

The Nonmajor Governmental Funds transferred \$24,045,000 to the Debt Service Fund, of which \$20,003,000 was from the Culture and Tourism Fund, \$1,329,000 was from TIRZ#14 Trinity Lakes, and \$2,713,000 was from the Crime Control and Prevention District Fund to pay for 2011 Tax Notes debt service.

The Nonmajor Governmental Funds transferred \$56,442,000 to the Capital Projects Fund, of which \$46,255,000 was made from the Crime Control and Prevention District Fund for construction commitments relating to facility renovation and maintenance, transportation maintenance, and community partnerships per the Capital Improvement Program. The Culture and Tourism Capital Projects Fund and Public Events Capital Fund received \$1,674,000 from Culture and Tourism Operating Funds for capital improvement. The Tax Increment Reinvestment Zones Funds transferred \$6,648,000 to the TIRZ General Capital Fund to pay for various projects. The Municipal Golf Fund transferred \$823,000 to fund current Golf capital projects. The Community Tree Planting Program Fund transferred \$15,000 for vehicle and equipment replacement. The Environmental Protection Fund transferred \$518,000 for hazard removal projects. The Justice Asset Forfeiture Fund transferred \$509,000 for technology and equipment updates.

The Water and Sewer Fund transferred \$33,395,000 to the General Fund, of which includes \$24,038,000 for Street Rental Fees, \$5,792,000 for Payment in Lieu of Taxes (PILOT), 481,000 to support Public Art, \$1,305,000 to cover salary and benefits of several positions being transferred to Development Services and Financial Management Services, \$27,000 for Energy Savings Program, and 1,752,000 for other operating expenses.

CITY OF FORT WORTH, TEXAS
NOTES TO THE BASIC FINANCIAL STATEMENTS
SEPTEMBER 30, 2022
(000's omitted in tables)

NOTE C: RECEIVABLES AND INTERFUND BALANCES

C.2 TRANSFERS

The Stormwater Utility Fund transferred \$3,567,000 to the General Fund, of which \$2,333,000 was for Street Rental Fees, \$1,209,000 was for PILOT, and \$25,000 was for the operating expenses. The Stormwater Utility Fund also transferred \$1,183,000 to the Water and Sewer Fund for billing services.

The Nonmajor Enterprise Funds transferred \$5,346,000 to the General Fund, of which the Solid Waste Fund transferred \$5,211,000 for Street Maintenance. The General Fund also received \$9,000 from the Municipal Parking Fund, \$59,000 for the Municipal Airport Fund for program services and \$67,000 for the Aviation Gas Lease.

It is the City's policy to record interfund reimbursements that are in excess of the underlying expenditures or expenses as transfers.

NOTE D: FUND EQUITY

D.1 UNRESTRICTED DEFICIT

Risk Financing, an internal service fund, has an unrestricted deficit of \$12,371,000 as of September 30, 2022. Commercial insurance premiums have increased in the fiscal years, and hail storm claims have been paid out in the current fiscal year. Lawsuit and settlement claims exceeded original estimates due to increased activity that was delayed in courts processing from the COVID pandemic. There was also an increase of \$12.5 million in expenses/liabilities recorded at year end based on actuarial studies and the City's legal letter. Self-Insurance Claim Payable increased by \$9.8 million and Workers Compensation Claims Payable increased by \$4.1 million. Claims will be monitored for changes. The current portion of liability, if paid in FY23 does not appear to push Risk Financing into an unrestricted deficit in FY23. A deductible reserve/fund will be established of \$5 million over the course of seven years between projected premium savings and additional allocation. The funding to establish the deductible reserve/fund would be allocated to departments. This option keeps the cost to departments at the lowest rate.

(concluded)

The Debt Service Fund has been used to liquidate the General Obligation Bonds, Certificates of Obligation, Special Tax Revenue Debt, and Tax Notes. The General Fund and the Special Revenue Funds have been used to liquidate all other governmental activities' long-term debt.

The City's outstanding Tax notes from Direct Borrowings and Direct Placements related to Governmental Activities of \$121,945,000 contain a provision that in an event of default, outstanding amounts become immediately due if the City is unable to make payment.

*Texas Water Development Board

CITY OF FORT WORTH, TEXAS
NOTES TO THE BASIC FINANCIAL STATEMENTS
SEPTEMBER 30, 2022
(000's omitted in tables)

NOTE G: LONG-TERM OBLIGATIONS

G.2 GOVERNMENTAL ACTIVITIES' DEBT

Long-term liabilities consist of General Obligation Bonds and Certificates of Obligation, as well as other long-term liabilities. Principal and interest payments on debt obligations are either secured solely by ad valorem taxes, secured partially by ad valorem taxes and partially by specific revenue streams or solely by specific revenue streams.

General Obligation Bonds and Certificates of Obligation indentures require the City to levy the tax required to fund interest and principal at maturity or at least 2 percent of the outstanding principal, whichever is greater. As of September 30, 2022, the Debt Service Fund held \$44,159,000 and \$4,609,000 of cash and investments to service General Obligation Bonds/Certificates of Obligation and for Special Tax Revenue Debt, respectively, for governmental activities.

On April 14, 2022, the City issued \$72,185,000 of Tax Notes, Series 2022 for the construction of public works and the purchase of materials, supplies, equipment, machinery, buildings, lands, and rights-of-way. These notes will mature beginning March 1 of each year from 2023 to 2029 in installments ranging from \$9,785,000 to \$10,855,000. Interest is payable on March 1 and September 1 of each year commencing September 2022, with an interest rate of 1.73 percent.

On June 14, 2022, the City issued General Obligation Refunding Bonds, Series 2022 in the amount of \$130,770,000 to current refund \$49,390,000 of existing General Obligation Bonds, Series 2012 and to fund projects within the 2018 bond program to include: street and mobility infrastructure; parks and recreation; library; fire safety; animal care and control; and police facility. The bonds will mature beginning March 1 of each year from 2023 to 2042 in installments ranging from \$4,970,000 to \$26,000,000. Interest is payable on March 1 and September 1 of each year commencing March 2023, with interest rate ranging from 4.0 to 5.0 percent. The City deposited the refunding proceeds in the Bank of Texas Escrow Fund to defease the debt, which covered the \$52,545,000 principal and \$970,622 in interest. As a result, the refunded bonds are considered to be defeased, and the liability is not reflected in the Statement of Net Position. The current refunding resulted in a decrease of interest payments of \$3,318,926 over the life of the bonds. This refunding resulted in an economic gain (the difference between the present value of the old and new debt service payments) of \$2,873,829 and a book gain of \$2,101,454.

On June 14, 2022, the City issued General Obligation Refunding Bonds, Taxable Series 2022 in the amount of \$21,340,000 to current refund \$21,050,000 of existing Certificates of Obligation, Taxable Series 2013A. The bonds will mature beginning March 1 of each year from 2024 to 2031 in installments ranging from \$1,720,000 to \$8,600,000. Interest is payable on March 1 and September 1 of each year commencing March 2023, with interest rate of 4.0 percent. The City deposited the refunding proceeds in the Bank of Texas Escrow Fund to defease the debt, which covered the \$21,050,000 principal and \$405,674 in interest. As a result, the refunded bonds are considered to be defeased, and the liability is not reflected in the Statement of Net Position. The current refunding resulted in a reduction of interest payments of \$2,742,600 over the life of the bonds. This refunding resulted in an economic gain (the difference between the present value of the old and new debt service payments) of \$1,202,682 and a book loss of \$157,052.

In FY2011, Taxing Increment Reinvestment Zone No. 9 (TIRZ #9) entered into an agreement with the Tarrant Regional Water District (TRWD) for the work related to the Trinity River Vision project. This agreement stipulates that the City's total liability is capped at \$320,000,000, but this liability cannot exceed \$226,000,000 during any given year. During FY2022, TIRZ #9 made repayments of \$7,229,000, and borrowed an additional \$11,513,000 from TRWD. As of September 30, 2022, \$192,926,000 remains outstanding.

CITY OF FORT WORTH, TEXAS
NOTES TO THE BASIC FINANCIAL STATEMENTS
SEPTEMBER 30, 2022
(000's omitted in tables)

NOTE G: LONG-TERM OBLIGATIONS

G.2 GOVERNMENTAL ACTIVITIES' DEBT

The City is responsible for environmental cleanup of hazardous substances, such as asbestos remediation on City-owned buildings funded by the Environmental Protection Capital Projects Fund. The City is required to report the estimated liability for pollution remediation activities in accordance with GAAP. As of September 30, 2022, the City's liability was \$2,331,000 for the Environmental Protection Capital Project Fund. The City's estimated outlays for the cleanup were generated using the expected cash flows technique. The amount of the estimated pollution remediation liability is based on the assumption that there will be no significant additional cost for providing these cleanup services. These estimates are subject to changes as a result of price increases, changes in technology, and new laws and regulations.

As of September 30, 2022, the following bonds were authorized but not issued:

General Obligation Bonds	Date Authorized	Amount Authorized	Amount Unissued
2018 Bond Program	5/5/2018	\$ 399,500	\$ 83,165
2022 Bond Program	5/7/2022	560,000	560,000
Total		<u>\$ 959,500</u>	<u>\$ 643,165</u>

G.3 COMMERCIAL PAPER PROGRAM

On December 5, 2017, the City authorized the ordinance and related agreements allowing the implementation of a replacement liquidity program offered through J.P. Morgan Securities LLC. In conjunction with the execution of the commercial paper (CP) program, a supplement ordinance authorized Water and Sewer System CP Notes with a maximum aggregate principal amount of \$150,000,000. The callable CP may be issued without the need for bank liquidity support and is structured in a manner that upon initial issuance, the callable CP will have an original call date between three and 120 business days. As is customary for commercial paper products, the maturity date will not be greater than 270 days from the date of issuance. The current intent is to utilize the CP program as appropriation authority only. No commercial paper was issued during the fiscal year ended September 30, 2022.

On August 23, 2022, the City authorized the ordinance implementing a 20-year extendable commercial paper (ECP) program with Loop Capital Markets LLC, in an aggregate outstanding principal amount not to exceed \$300,000,000, as a liquidity and appropriation facility for the implementation of City general obligation debt projects. The ECP may be issued without the need for bank liquidity support and is structured in a manner that upon initial issuance, the ECP will have a maturity date not to exceed 270 days, including any extensions. Under this structure, if the City were to issue commercial paper and its maturity date were approaching, the City would have several options at the stated maturity date: a) to replace the ECP with new ECP notes similarly structured or b) to issue long-term debt. The extendable feature would be used in the instance that the dealer cannot successfully remarket the ECP on a stated maturity date. If that happens, the ECP notes will begin to accrue interest at a penalty rate until the extended maturity date. At the extended maturity date, the City may attempt another remarketing of the ECP or issue long-term debt to refund the ECP notes. The current intent is to utilize the ECP program as appropriation authority only. No commercial paper was issued during the fiscal year ended September 30, 2022.

G.4 ENTERPRISE FUND DEBT

Water and Sewer Revenue Bonds and Stormwater Utility Revenue Bonds constitute special obligations of the City secured solely by a lien on and pledge of the net revenues of the Water and Sewer system and the Stormwater system. Certain Certificates of Obligation and General Obligation Bonds are recorded in the Municipal Parking Fund and Solid Waste Fund. These bonds have no specific claim against Municipal Parking or Solid Waste revenues. However, debt service requirements are provided by the Water and Sewer Fund, Stormwater Utility Fund, Municipal Parking Fund, and Solid Waste Fund. Accordingly, the debt is reflected in a fund obligation.

CITY OF FORT WORTH, TEXAS
NOTES TO THE BASIC FINANCIAL STATEMENTS
SEPTEMBER 30, 2022
(000's omitted in tables)

NOTE G: LONG-TERM OBLIGATIONS

G.4 ENTERPRISE FUND DEBT

In accordance with the revenue bond ordinances, a reserve for debt service is maintained. As of September 30, 2022, \$66,999,240 of cash and investments was available for principal and interest payments on all Enterprise Fund debt. The substituted surety bonds Water and Sewer Fund were refunded on July 15, 2020, no longer outstanding, and did not require any reserve to be held in the event there are insufficient amounts on deposit to make debt service payments.

On March 14, 2022, the City had a cash defeasance of Water and Sewer System Revenue Bonds, Series 2012 of \$9,895,000. The City utilized excess debt service fund balance to establish an escrow account for the outstanding tax supported debt. The cash defeasance resulted in an economic gain (the difference between the present value of the old and new debt service payments) of \$905,429 and a book gain of \$292,494.

On June 21, 2022, the City issued Water and Sewer System Revenue Improvement Bonds, Series 2022 in the amount of \$145,740,000 to fund new capital projects in alignment with the Water and Sewer System’s Capital Improvement plan. These bonds will mature on February 15 of each year from 2023 to 2052 in installments ranging from \$1,405,000 to \$8,375,000. Interest is payable on February 15 and August 15 of each year commencing February 2023 with interest rates ranging from 4.00 to 5.00 percent.

Net revenues of some of the City’s Enterprise Funds - defined as operating income (loss), plus investment income under nonoperating revenues (expenses) on the Other Supplemental Information Schedule of Revenues, Expenses, and Changes in Net Position for Enterprise Funds - have been pledged for repayment of long-term bonded debt incurred by these funds. The amount pledged is equal to the remaining outstanding debt service requirements for these bonds. The pledge continues for the life of the bonds.

As of September 30, 2022, net pledged revenue by fund was as follows:

Fund	2022 Net Pledged Revenues	2022 Debt Service	Purpose of Debt
Water and Sewer Fund	\$ 269,615	\$ 96,356	<i>Extending and improving water and sewer system</i>
Stormwater Utility Fund	27,881	9,497	<i>Improvements to storm drains, roadways, and erosion protection</i>
Municipal Parking Fund	2,107	2,976	<i>Construction of City-owned parking garages</i>
Solid Waste Fund	14,126	469	<i>Improvements to the eastside landfill</i>
Total	<u>\$ 313,729</u>	<u>\$ 109,298</u>	

All future improvements to the City's Water and Sewer system are funded through the sale of Water and Sewer Revenue Bonds, the City's Water and Sewer Operating Budget, or alternative forms of debt.

The City has pledged stormwater, municipal parking, and solid waste net revenues to repay long-term bonded debt. The City reports the net revenues in major and nonmajor enterprise funds.

NOTE G: LONG-TERM OBLIGATIONS

G.5 ANNUAL REQUIREMENTS TO AMORTIZE BONDED AND CONTRACTUAL DEBT OBLIGATIONS

The Lone Star Local Government Corporation (a blended component unit) entered into an agreement with Cabela’s Fort Worth facility to finance the public Museum facilities and certain other public work and improvement projects near the site. Annual payments are made from property tax increment revenues from Taxing Increment Reinvestment Zone #10. Lone Star Local Government Corporation is obligated for tax increment revenues collected through 2024, with the total principal payment price not to exceed \$31,617,000. The obligation is payable solely from the incremental taxes. Incremental taxes were projected to produce 100 percent of the debt service requirements over the life of the contract. The total remaining principal on the contract is \$31,617,000 and a total compounded interest as of September 30, 2022, is \$25,794,851 payable through 2024. The interest rate for this agreement is 4.75 percent.

The annual requirements to amortize all Major Fund Business-Type Activities bonded and contractual debt outstanding as of September 30, 2022, is as follows:

Major Business-Type Activities:								
Year Ending September 30,	Water and Sewer Revenue Bonds		Water and Sewer ESPC Phase V		Stormwater Utility Revenue Bonds		Total Major Business-Type Activities	
	Principal	Interest	Principal	Interest	Principal	Interest	Principal	Interest
2023	\$ 61,510	\$ 36,991	\$ 862	\$ 8	\$ 5,245	\$ 4,256	\$ 67,617	\$ 41,255

CITY OF FORT WORTH, TEXAS
NOTES TO THE BASIC FINANCIAL STATEMENTS
SEPTEMBER 30, 2022
(000's omitted in tables)

NOTE G: LONG-TERM OBLIGATIONS

G.6 ARBITRAGE

The City frequently issues bonds for capital construction projects. These bonds are subject to the arbitrage regulations. As of September 30, 2022, there were no liabilities for a rebate of arbitrage.

G.7 LEASES

Per GASB Statement No. 87, a lease is defined as a contractual agreement that conveys control of the right to use another entity's nonfinancial asset, for a minimum contractual period of greater than one year, in an exchange or exchange-like transaction. The City, as a lessee, has entered into lease agreements involving office buildings, equipment and facility space. The related obligations are presented in the amounts equal to the present value of lease payments, payable during the remaining lease term. As the lessee, a lease liability and the associated lease asset is recognized on the government-wide Statement of Net Position.

The City recognized zero in variable payments within its lease arrangements as the lessee. Payments that are fixed in substance are included in the measurement of the lease liability presented in the table below. The City did not incur expenses related to its leasing activities related to residual value guarantees, lease termination penalties or losses due to impairment. As a lessee, there are currently no agreements that include sale-leaseback and lease-leaseback transactions.

As of September 30, 2022, the City had minimum principal and interest payment requirements for its leasing activities, with a remaining term more than one year, as follows:

Governmental Activities			
Year Ending September 30,	Principal	Interest	Total
2023	\$ 1,921	\$ 97	\$ 2,018
2024	1,061	70	1,131
2025	969	44	1,013
2026	699	23	722
2027	434	5	439
2028-2032	3	-	3
Present Value of Minimum Leased Payments	<u>\$ 5,087</u>	<u>\$ 239</u>	<u>\$ 5,326</u>

Business-Type Activities			
Year Ending September 30,	Principal	Interest	Total
2023	\$ 245	\$ 24	\$ 269
2024	250	19	269
2025	255	14	269
2026	261	9	270
2027	224	4	228
2028 - 2032	8	-	8
Present Value of Minimum Leased Payments	<u>\$ 1,243</u>	<u>\$ 70</u>	<u>\$ 1,313</u>

CITY OF FORT WORTH, TEXAS
NOTES TO THE BASIC FINANCIAL STATEMENTS
SEPTEMBER 30, 2022
(000's omitted in tables)

NOTE G: LONG-TERM OBLIGATIONS

G.8 DEFEASANCE OF PRIOR DEBT

In prior years, the City defeased certain outstanding General Obligation Bonds and Certificates of Obligation by placing the proceeds of new bonds in an irrevocable trust to provide for all future debt service payments of the old bonds. Accordingly, the trust accounts and the defeased bonds are not included in the City's financial statements.

As of September 30, 2022, the following outstanding bonds are considered defeased.

General Obligation Bonds and Certificates of Obligation	<u>\$ 27,685</u>
---	------------------

G.9 DISCRETELY PRESENTED COMPONENT UNIT DEBT

On June 2, 2014, Terrell Homes, Ltd. (fiscal year ends December 31) obtained mortgage financing of \$2,000,000 for permanent financing of properties. The mortgage bears an interest rate of 7.0 percent. This mortgage requires monthly payments of principal and interest of \$13,306 based on a thirty-year amortization period and matures on June 2, 2029, at which time the entire unpaid principal balance and accrued interest will become due and payable. During 2021, interest expense was \$132,568. As of December 31, 2021, the unpaid principal balance was \$1,791,741, and there was no accrued interest.

In 2013, Terrell Homes, Ltd. entered into a loan agreement with the City of Fort Worth for \$900,000 for the construction and development of the 54 single-family houses (See Note A.1.). The loan has a 20-year term. The loan bears a fixed interest rate of 1.0 percent. The loan will be repaid from available cash flow. During 2021, interest expense was \$9,000. As of December 31, 2021, the outstanding principal balance was \$900,000, and there was an accrued interest of \$92,426.

G.10 SPECIAL ASSESSMENT DEBT

Rock Creek Public Improvement District special assessment debt; as of September 30, 2022 the outstanding debt was \$16,380,000 and the City is in no way liable for repayment but is only acting as a custodian for the property owners in collecting the assessments and forwarding the collection to the bondholders.

CITY OF FORT WORTH, TEXAS
NOTES TO THE BASIC FINANCIAL STATEMENTS
SEPTEMBER 30, 2022
(000's omitted in tables)

NOTE H: LANDFILL CLOSURE AND POSTCLOSURE CARE COSTS

State and federal regulations require the City to place a final cover on its Southeast landfill site when it stops accepting waste and performing certain maintenance and monitoring functions at the site for thirty years after closure. Although closure and postclosure care costs will be paid near or after the date that the landfill stops accepting waste, the City reports a portion of these closure and postclosure care costs as an operating expense in each period based on landfill capacity used at the end of each fiscal year. The City has contracted for the operations of the landfill, but the legal liability for closure and postclosure care costs remains with the City. The City is required by state and federal regulations to provide financial assurance for closure and postclosure care. Annually, the City files a standby letter of credit with the state noting its compliance with these requirements.

The City reported \$13,608,605 as landfill closure and postclosure care liability in the Solid Waste Fund as of September 30, 2022. This represents the cumulative amount reported to date based on the use of 54.6 percent of the estimated current permitted capacity of the landfill. The City will recognize the remaining estimated cost of closure and postclosure care of \$11,301,805 as the remaining estimated capacity is filled. The City expects to close the landfill in 13 years from the end of the current fiscal year, the year 2035. The total closure and postclosure cost are an estimate and is subject to changes resulting from inflation, deflation, technology changes, or changes in applicable laws and regulations.

Furthermore, as of September 30, 2022, the City reported cash and cash equivalents of \$3,622,729 as restricted assets for closure and postclosure care and has \$9,985,876 in a trust instrument for these costs provided from its contractor (Allied Waste, Inc. (Allied)). The City expects that future closure and postclosure care costs and inflation costs will be entirely covered by the trust instrument, in accordance with the contractual agreement with Allied. Allied will operate and close the landfill once it has reached capacity, and Allied will maintain and monitor the landfill during the postclosure care period.

CITY OF FORT WORTH, TEXAS
NOTES TO THE BASIC FINANCIAL STATEMENTS
SEPTEMBER 30, 2022
(000's omitted in tables)

NOTE I: EMPLOYEES' RETIREMENT FUND OF THE CITY OF FORT WORTH, TEXAS

Plan Description

The Employees' Retirement Fund of the City of Fort Worth, Texas (the "Retirement Fund"), a pension plan comprised of two separate single-employer defined benefit pension plans: the Retirement Fund is a plan that covers employees of the City of Fort Worth ("City Plan, a single-employer plan") and the employees of the Fort Worth Employees' Retirement Fund ("Staff Plan"). The Retirement Fund and City Plan were established by City Ordinance on September 12, 1945. The Staff Plan was established through Administrative Rules in 2007, and both plans are governed by State statute (Vernon's Civil Statutes, Title 109, Article 6243i) effective June 15, 2007. The assets of the City Plan are commingled for investment purposes with the assets of the Staff Plan of the Employees' Retirement Fund, and both plans are administered by the thirteen-member Retirement Fund Board of Trustees (Board). The Board is solely responsible for managing the assets for the City of Fort Worth employees plan, defining benefits, setting contribution rates, funding contributions, and all other financial components of the Staff Plan. Defining benefits, setting contribution rates, funding contributions, and all other financial components of the City Plan are administered by the Mayor and City Council. Each plan has a separate actuarial valuation completed annually to determine the respective funded status based on current and projected assets and liabilities. Therefore, assets of each plan are legally separate and cannot pay benefits of the other. Due to the insignificant nature of the Staff Plan's assets and net pension liability compared to the Retirement Fund's assets, all further references to the Plan and information provided in the Notes and Required Supplementary Information about the City Plan are strictly limited to information about the City employees (comprised of General Employees, Police Officers, and Firefighters).

The City Plan provides retirement, disability, and death benefits to all employees of the City, except elected officers and non-salaried appointed members of administrative boards and commissions, part-time, temporary and contract employees, and employees paid in part by another governmental agency. The City Plan is established under the legal authority of the State of Texas, and it is administered by the Board. The authority to define or amend employer and employee contribution rates or benefits is given to the Mayor and the Fort Worth City Council (City Council).

The City Plan issues separate audited financial statements that are publicly available. These statements can be obtained by contacting the Plan at 3801 Hulen Street, Suite 101, Fort Worth, Texas 76107.

The City has received a favorable letter of determination from the Internal Revenue Service on December 8, 2014, that its Plan is qualified under Section 401(a) of the Internal Revenue Code.

Effective June 15, 2007, Article 6243i of the Texas Revised Civil Statutes (Article 6243i) changed the structure of the Board and how benefits could be changed by the plan sponsor. Article 6243i also permitted the Board to create administrative rules that govern the City Plan. The administrative rules govern the administration and benefits of the City Plan. The Board may change the administrative operation of the City Plan without the City's approval, while any increases to the benefit structure must be approved by the City, following an actuarial assessment. A reduction in benefits must be proposed by the City, and the City must notify the Board 90 days in advance of such benefit reduction.

CITY OF FORT WORTH, TEXAS
NOTES TO THE BASIC FINANCIAL STATEMENTS
SEPTEMBER 30, 2022
(000's omitted in tables)

NOTE I: EMPLOYEES' RETIREMENT FUND OF THE CITY OF FORT WORTH, TEXAS

Plan Description (continued)

As of September 30, 2021, the measurement date, the Plan's membership consisted of the following members (numbers in the following table are not in thousands):

Employees covered by benefit terms:

Pension plan membership consisted of the following:	
	<u>September 30,</u> <u>2021</u>
Inactive employees or beneficiaries currently receiving benefits	4,906
Inactive employees entitled to, but not yet receiving benefits	<u>1,488</u>
Total Inactive Members	<u>6,394</u>
Active members	<u>6,626</u>
Total	<u><u>13,020</u></u>

Contributions

The City contributed 24.24% of retirement-eligible wages to the Employees' Retirement Fund for General employees and Firefighters and 24.96% for Police Officers. General employees, Firefighters and Police Officers contribute 9.35%, 12.05% and 13.13%, respectively, of retirement-eligible wages. The contribution changes that took effect in July 2019 are phased in over two years for General employees and Firefighters and three years for Police Officers. For the year ended September 30, 2022 the City contributed \$137,012,000 to the plan.

Below is a composite of the increase to member contribution rates:

	<u>Previous Rate</u>	<u>January 2022</u>	<u>January 2023</u>
General*	9.35%	10.15%	10.15%
Police	13.13%	13.93%	13.93%
Fire	12.05%	12.85%	12.85%

* General employees also contribute an additional 0.7% of pay for a period equal to their individual blue service (July 2019).

General employees, Firefighters and Police Officers contribute 9.35%, 12.05% and 13.13%, respectively, of retirement-eligible wages.</i></p>		<u>Prior January 2022</u>	<u>January 2022</u>	<u>January 2023</u>	<i>General*</i>	9.35%	10.15%	10.15	<i>Police</i>	13.13	13.93	13.93	<i>Fire</i>	12.05	12.85	12..85
	<u>Prior January 2022</u>	<u>January 2022</u>	<u>January 2023</u>														
<i>General*</i>	9.35%	10.15%	10.15														
<i>Police</i>	13.13	13.93	13.93														
<i>Fire</i>	12.05	12.85	12..85														
<p>Overtime Contribution Account:</p>	<p><i>Only available for General Employees hired after July 1, 2011, and prior to January 1, 2013. Member contributions made for overtime worked in that period are credited to the Overtime Contribution Account. Upon retirement, the member is entitled to a refund of this account with 5.25% interest, compounded annually. The City will match 100% of the balance of the account. Upon termination, the member is entitled to a refund of this account with 5.25% interest, compounded annually.</i></p>																
<p>Cost-of-Living Adjustments (COLA):</p> <p><i>Ad-Hoc COLA Program</i></p>	<p><i>In general, pensioners and vested members who elected the Ad-Hoc COLA Program, nonvested members as of January 1, 2008, and Tier 1 members who were hired after January 1, 2008, are participants in the Ad-Hoc COLA program. However, a one-time election was available to Ad-Hoc COLA program participants to switch to a 2% guaranteed COLA. The election window for General Employees, Police Officers and Firefighters not included in the 2010 bargaining agreement was in the fourth quarter of 2013. The election window for remaining Firefighters was in the fourth quarter of 2014.</i></p> <p><i>Participants in the program who retire prior to September 30 of the preceding year may receive a compound COLA on Blue service benefits. The amount of the COLA is determined based on the prior year's valuation results. The initial COLA percentage is determined by selecting the appropriate percentage from the following table based on the Fund's Funding Period:</i></p> <table border="1"> <thead> <tr> <th><u>Tier</u></th> <th><u>Funding Period</u></th> <th><u>COLA Percentage Increase</u></th> </tr> </thead> <tbody> <tr> <td>#1</td> <td>28.1 or greater</td> <td>0.0%</td> </tr> <tr> <td>#2</td> <td>24.1 to 28.0</td> <td>2.0%</td> </tr> <tr> <td>#3</td> <td>18.1 to 24.0</td> <td>3.0%</td> </tr> <tr> <td>#4</td> <td>18.0 or less</td> <td>4.0%</td> </tr> </tbody> </table> <p><i>Next, the initial COLA percentage is applied to the benefits of the participants of the program to determine the increase in the liability. Using the new liability the Funding Period is re-calculated. If the tier of the Funding Period does not change, then the initial COLA percentage will be the proposed percentage for the following January 1. However, if the tier does change, then the COLA percentage is changed to the percentage shown in the new tier. Then the liability and Funding periods are recalculated to check that the tier does not change. This process is repeated until the proposed COLA percentage does not change the Tier of the Funding Period.</i></p>	<u>Tier</u>	<u>Funding Period</u>	<u>COLA Percentage Increase</u>	#1	28.1 or greater	0.0%	#2	24.1 to 28.0	2.0%	#3	18.1 to 24.0	3.0%	#4	18.0 or less	4.0%

The DROP provides a lump sum payment for the number of months enrolled based on the monthly annuity calculated at the member's DROP enrollment date.</i></p> <p><i>Member and employer contributions continue during the DROP period but are not credited to the member's DROP account.</i></p>
<p>Changes in Plan Provisions:</p>	<p><i>There have been no changes in plan provisions since the last valuation.</i></p>

Summary of Plan Provisions (continued)

If a member continues to work after the normal retirement date, the member is required to make contributions to the Plan until the date of actual retirement. Members continue to accrue credited service until they retire.

In September 2007, the Board voted to allow multiple payment options for members that entered the Deferred Retirement Option Program (DROP). Members must select from the following options upon retirement for their DROP balances:

- A total or partial distribution of their DROP balance made directly to the member or via a rollover to a qualified plan or IRA.
- Annuitize a partial amount or the full amount into a monthly annuity. Annuity payments are determined using the actuarial assumptions for the plan at the time of the annuity selection and the member's demographics. If an annuity is selected the DROP balance is no longer available to the member and the monthly annuity is added to the member's monthly pension benefit.
- Leave the total balance or the remaining balance, after selecting one of the above options, with the City Plan. The member earns the same gains and losses as the City Plan. When selecting this option, the member may elect to receive monthly payments from the Plan or receive up to two lump-sum payments per year. All distributions made to the member are deducted from their DROP balance until the full amount (inclusive of gains and losses from the Plan investment performance) has been distributed to the member.

CITY OF FORT WORTH, TEXAS
NOTES TO THE BASIC FINANCIAL STATEMENTS
SEPTEMBER 30, 2022
(000's omitted in tables)

NOTE I: EMPLOYEES' RETIREMENT FUND OF THE CITY OF FORT WORTH, TEXAS

Funding Policy

The Plan's actuary conducts an annual valuation for each plan to determine the adequacy of the current employer contribution rates, to describe the current financial condition of the plans, and to analyze changes in the Plan's condition. The significant actuarial assumptions used to compute the actuarially determined contribution requirement are the same as those used to compute the actuarial accrued liability. Employer contributions are recognized as additions in the period in which employee services are performed. The City's actuarially determined contribution, contributions, and contribution rates are as follows:

Year Ended September 30,	Actuarially Determined Contributions	Contributions in Relation to the Actuarially Determined Contributions	Contribution Deficiency	Covered Payroll	Contributions as a Percentage of Covered Payroll
2021	\$ 165,707	\$ 128,046	\$ 37,661	\$ 523,064	24.48%
2022	\$ 180,724	\$ 137,012	\$ 43,712	\$ 559,691	24.48%

Net Pension Liability

The City's net pension liability was measured as of September 30, 2021, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of December 31, 2020, rolled forward to the measurement date.

CITY OF FORT WORTH, TEXAS
NOTES TO THE BASIC FINANCIAL STATEMENTS
SEPTEMBER 30, 2022
(000's omitted in tables)

NOTE I: EMPLOYEES' RETIREMENT FUND OF THE CITY OF FORT WORTH, TEXAS

Actuarial Methods and Assumptions

The following are the significant actuarial assumptions used for the December 31, 2020, actuarial valuation:

Valuation date	<i>December 31, 2020, rolled forward to September 30, 2021</i>
Actuarial cost method	<i>Entry Age Normal</i>
Amortization method	<i>Level Percentage of Payroll, Open</i>
Remaining amortization period	<i>27 years as of January 1, 2021</i>
Asset valuation method	<i>Market value of assets less unrecognized returns in each of the last five years. Unrecognized return is equal to the difference between the actual market return and the expected return on the market value, and is recognized over a five-year period, further adjusted, if necessary, to be within 20% of the market value.</i>
Actuarial assumptions:	
Investment rate of return	<i>7.00% , including inflation, net of all expenses</i>
Inflation rate	<i>2.50%</i>
Projected salary increases	<i>3.25% - 28.25%</i>
Cost-of-living adjustments	<i>0.00% - 2.00%*</i>
Payroll growth rate	<i>3.00% per annum, used to amortize unfunded actuarial accrued liabilities</i>
Retirement rates	<i>The retirement rates were set by the Fund's actuary based on a study of experience for 2013-2015. The rates for all employees are age-related. General employees have some assumed probability of retirement prior to eligibility for an unreduced pension, whereas the public safety employees are assumed to wait until full benefits are payable.</i>
Mortality	<i>PubG-2010 Healthy Retiree Mortality Table for General Employees and PubS-2010 Healthy Retiree Mortality Table for Police Officers and Firefighters. Generational mortality improvements from the year 2010 using the ultimate mortality improvement rates in the MP tables.</i>

**A 2% cost-of-living adjustment (COLA) is assumed for all members in the guaranteed COLA Program, no COLAs are assumed for members participating in the ad-hoc COLA program.*

CITY OF FORT WORTH, TEXAS
NOTES TO THE BASIC FINANCIAL STATEMENTS
SEPTEMBER 30, 2022
(000's omitted in tables)

NOTE I: EMPLOYEES' RETIREMENT FUND OF THE CITY OF FORT WORTH, TEXAS

Actuarial Methods and Assumptions (continued)

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in the pension plan's target asset allocation as of September 30, 2021, are summarized in the following table:

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return*
Global Equity	45%	6.81%
Fixed income	19%	1.51%
Real return	2%	5.25%
Real estate	8%	4.88%
Absolute return	10%	2.61%
Private equity	15%	8.00%
Cash	1%	-0.50%
Total	100%	

**The expected real rate of return is net of inflation.*

Discount Rate

A single discount rate of 7.00% was used to measure the total pension liability as of September 30, 2020 and September 30, 2021. This single discount rate was based on an expected rate of return on pension plan investments of 7.00%. Based on the stated assumptions and the projection of cash flows, the pension plan's fiduciary net position and future contributions were sufficient to finance all future benefit payments of current plan members. As a result, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Net Pension Liability, Pension Expense, and Deferred Outflows/Inflows of Resources Related to Pensions

The Net Pension Liability, Pension Expense, and Deferred Outflows/Inflows of Resources related to pensions are allocated to the funds based on each fund's contributions to the pension plan during the annual measurement period. Contributions to the pension plan for employees whose salaries are paid from internal service funds are expected to be paid primarily from resources received from the general government; therefore, the related Net Pension Liability, Pension Expense, and related Deferred Outflows/Inflows of Resources for these funds are reported in the government-wide financial statements under governmental activities and not reported in the financial statements of the individual internal service funds.

CITY OF FORT WORTH, TEXAS
NOTES TO THE BASIC FINANCIAL STATEMENTS
SEPTEMBER 30, 2022
(000's omitted in tables)

NOTE I: EMPLOYEES' RETIREMENT FUND OF THE CITY OF FORT WORTH, TEXAS

Pension Expense for the year ended September 30, 2022, was as follows:

Service cost	\$ 69,157
Interest on total pension liability (TPL)	327,263
Employee contributions	(60,282)
Administrative expenses	6,092
Expected return on assets	(163,610)
Expensed portion of current year period differences between expected and actual experience in TPL	2,217
Expensed portion of current year period differences between projected and actual investment earnings	(72,083)
Current year recognition of deferred inflows and outflows established in prior years	233,605
Total pension expense	\$ 342,359

As of September 30, 2022, the City reported the following Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Pension Liability related to pensions. The following amounts have been allocated to Governmental Activities and Business-Type Activities on the Statement of Net Position, see the table below:

	Governmental Activities	Business-Type Activities	Total
Deferred Outflows of Resources			
Pension contributions made after the measurement date	\$ 119,065	\$ 17,841	\$ 136,906
Differences between expected and actual experience	53,907	8,134	62,041
Changes in assumptions	228,164	35,486	263,650
Total Deferred Outflows of Resources	\$ 401,136	\$ 61,461	\$ 462,597
Deferred Inflows of Resources			
Differences between expected and actual experience	\$ 8,135	\$ 1,264	\$ 9,399
Net difference between projected and actual earnings on pension plan investments	187,180	29,234	216,414
Changes in assumptions	95,361	14,287	109,648
Total Deferred Inflows of Resources	\$ 290,676	\$ 44,785	\$ 335,461
Net Pension Liability	\$ 1,789,257	\$ 273,179	\$ 2,062,436

\$136,906,000 reported as Deferred Outflows for pension contributions made after the measurement date will be recognized as a deduction of the net pension liability in the year ending September 30, 2023. Other deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year ending September 30:	
2023	\$ 10,949
2024	28,954
2025	18,933
2026	(69,933)
2027	1,327
Total	\$ (9,770)

The following presents the Net Pension Liability of the City Plan, calculated using the discount rate of 7.00%, as well as what the City Plan's Net Pension Liability would be if it were calculated using a discount rate that is one-percentage-point lower (6.00%) or one-percentage-point higher (8.00%) than the current discount rate:

	Current Discount		
	1% Decrease (6.00%)	Rate (7.00%)	1% Increase (8.00%)
\$	2,662,327	\$ 2,062,436	\$ 1,564,823

Note: The balances as of September 30, 2021, constitute measurements of the Net Pension Liability for the fiscal year ended September 30, 2022.

CITY OF FORT WORTH, TEXAS
NOTES TO THE BASIC FINANCIAL STATEMENTS
SEPTEMBER 30, 2022
(000's omitted in tables)

NOTE J: EMPLOYEE BENEFITS

J.1 POSTEMPLOYMENT BENEFITS

Plan Descriptions

In addition to the pension benefits described in Note I, the City provides postemployment health care benefits, established under the legal authority of the City Charter and administered by the City. The City provides two single-employer defined benefit other postemployment benefit plans: Retiree Healthcare Trust Fund of the City of Fort Worth and Fort Worth Firefighters Healthcare Trust.

As of September 1, 2019, the Fort Worth Firefighters Healthcare Trust split from the rest of the City's Retiree Healthcare Trust Fund. All current and future Firefighter retirees are covered under that separate plan. However, because of the limited claims experience under that plan, their claims cost was assumed to be the same as the rest of the City. All other assumptions (mortality, turnover, retirement rates, eligibility) were assumed to remain the same. The actuarial assets and liabilities were valued separately and then combined with the Retiree Healthcare Trust Fund. Therefore, amounts presented herein are the combined amounts for both Trusts.

The single employer plan coverage is offered to all employees who retire from the City in accordance with criteria listed in Note I. However, some retirees elect not to continue the health coverage during their retirement. The City also provides a \$5,000 lump sum death benefit single-employer plan for beneficiaries of retired employees who retired on or after January 1, 1970. Neither plan issues stand-alone financial statements. Due to the insignificant nature of the death benefit assets and net OPEB liability compared to the Retiree Healthcare Trust Fund's assets and net OPEB liability, information provided in Note J and required supplementary information about the OPEB Plan are for both plans combined (hereinafter referred to as the "OPEB Plan").

The following is a condensed schedule for the Retiree Healthcare Trust Fund as of and for the year ended September 30, 2022 as it does not issue separate audited GAAP basis financial statements:

Retiree Healthcare Trust Fund	
Condensed Schedule of Fiduciary Net Position	
Assets	
Current Assets	\$ 10,539
Investments	78,075
Total Assets	<u>88,614</u>
Liabilities

NOTE J: EMPLOYEE BENEFITS

J.1 POSTEMPLOYMENT BENEFITS

J.1 POSTEMPLOYMENT BENEFITS (CONTINUED)

Plan Descriptions (continued)

A retiree who is either (i) receiving, or (ii) in the process to receive City of Fort Worth retirement benefits at the time of termination, is eligible for medical coverage through the City. At this time, retired employees hired prior to October 5, 1988, have afforded to them at least one group health care plan option for which the City pays 100% of the retiree premium equivalent rate for coverage, but may need to contribute to obtain benefits above the City specified plan or to cover any dependents. Retired employees with less than 25 years of credited service hired on or after October 5, 1988, and before January 1, 2009, will be required to contribute towards the cost of their group health care benefits at a cost established by the City of Fort Worth; those with 25 years or more of credited service will be afforded the same City premium subsidy as the retiree hired prior to October 5, 1988. Retired employees hired on or after January 1, 2009, are not eligible for a City of Fort Worth retiree premium subsidy but may enroll for coverage at retirement and pay the full premium for coverage for themselves and eligible dependents.

Retiree health care benefits cannot be accessed until the employee retires. However, for employees who terminated on or before September 30, 2014, and are vested in the City's retirement plan, health care benefits may continue, until the employee retires, by paying the full cost of coverage. For employees who terminated on or after October 1, 2014, and are vested in the City's retirement plan, health care benefits are only covered if the employee retires/begins receiving retirement benefits at the time of separation from the City (with exceptions noted above based on hire date). For all other employees who terminate without retirement, health care benefits continue until the end of the month in which they terminate. At that time the former employee has continuation rights to health insurance coverage under the Consolidated Omnibus Budget Reconciliation Act of 1985. The City performs actuarial studies each year. The actuarial information presented in Note J and the required supplementary information represent the September 30, 2021 valuation.

As of September 30, 2021 valuation date, the OPEB Plan's membership consisted of the following members (numbers in the following table are not in thousands):

Employees covered by benefit term:

	September 30, 2021	
	Medical	Death Benefit
OPEB plan membership consisted of the following:		
Inactive employees or beneficiaries currently receiving benefits	3,031	3,031
Active members	2,515	6,365
Total	5,546	9,396

Funding Policies

For the health care benefits and the death benefit, contractual requirements for the City are established and may be amended by the City Council. City contributions to the Retiree Healthcare Trust Fund are not legally or statutorily required. During FY2022, retirees' health insurance was provided with separate plan designs depending on whether the retiree was eligible for Medicare. The City paid for a major portion or all of the total health insurance cost for retirees depending on the retiree's date of employment or length of service and the retiree's coverage election. The City paid 30 to 50 percent of the cost for coverage for dependents and surviving spouses eligible to participate in the group plan. The remainder of the premium was paid by the retirees for their dependents or by the surviving spouse. Expenditures for postemployment health care are recognized as claims or premiums when paid. During FY2022, the cost of health care benefits for retirees, dependents, and surviving spouses was \$21,114,000 and the death benefit payments totaled \$590,000.

Actuarial Methods and Assumptions

The following are the significant actuarial assumptions (both trusts) used for the September 30, 2021, actuarial valuation:

Actuarial Valuation Date	<i>September 30, 2021</i>
Actuarial Cost Method	<i>Entry Age Normal</i>
Amortization Period	<i>Level Percent of Payroll, Open</i>
Remaining Amortization Period	<i>26 years as of September 30, 2021</i>
Asset Valuation Method	<i>Market Value</i>
Actuarial Assumptions:	
Investment rate of return	<i>7.00%, including inflation, net of all expenses</i>
Healthcare cost trend rate	<i>4.50 - 8.00%</i>
Inflation rate	<i>2.75%</i>
Payroll growth rate	<i>3.00%</i>
Retirement rates	<i>The retirement rates were set by the Fund's actuary based on a study of experience for 2013-2015. The rates for all employees are age-related. General employees have some assumed probability of retirement prior to eligibility for an unreduced pension, whereas the public safety employees are assumed to wait until full benefits are payable.</i>
Mortality	<i>Mortality rates were based on PUB-2010 Public Retirement Plans Mortality Tables using the MP-2020 projection scale.</i>

The long-term expected rate of return on OPEB plan investments was determined using the building-block method in which best estimate ranges of expected future real rates of return (expected returns, net of OPEB plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in the OPEB plan's target asset allocation as of September 30, 2021, are summarized in the following table:

CITY OF FORT WORTH, TEXAS
NOTES TO THE BASIC FINANCIAL STATEMENTS
SEPTEMBER 30, 2022
(000's omitted in tables)

NOTE J: EMPLOYEE BENEFITS

Actuarial Methods and Assumptions

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return*
Equity	30%	9.01%
Fixed income	65%	2.17%
Cash and Cash Equivalents	5%	2.73%
Total	100%	

*The expected real rate of return is net of inflation.

Discount Rate

The single discount rate used to measure the total OPEB liability is 2.21%. The projection of cash flows used to determine the discount rate assumed City contributions equal to benefit payments as they are incurred. Based on these assumptions, the Retiree Healthcare Trust Fund's fiduciary net position was projected to be available to make projected future benefit payments for current plan members for 3.5 years. The long-term expected rate of return on Retiree Healthcare Trust Fund's investments was applied to the first 3.5 years of projected benefit payments and a 2.19% municipal bond rate was applied for all periods thereafter to determine the total OPEB liability. The 2.19% municipal bond rate is the rate for Fixed Income Market Data/Yield Curve/Data Municipal bonds with 20 years to maturity that include only federally tax-exempt municipal bonds as reported in Fidelity Index's "20-Year Municipal GO AA Index". The rate is as of the last date available on or before the measurement date of September 30, 2021.

Net OPEB Liability, OPEB Expense, and Deferred Outflows/Inflows of Resources Related to OPEB

The Net OPEB Liability, OPEB Expense, and Deferred Outflows/Inflows of Resources related to OPEB are allocated to the funds based on each fund's contributions to the Retiree Healthcare Fund during the annual measurement period. Contributions to the Retiree Healthcare Trust Fund from internal service funds are expected to be paid primarily from resources received from the general government; therefore, the related Net OPEB Liability, OPEB Expense, and related Deferred Outflows/Inflows of Resources for these funds are reported in the government-wide financial statements under governmental activities and not reported in the financial statements of the individual internal service funds.

OPEB Expense for the year ended September 30, 2022, was as follows:

Service cost	\$ 19,118
Interest on total OPEB liability (TOL)	24,132
Administrative expenses	2,248
Return on investments	(6,716)
Expensed portion of current year period differences between expected and actual experience in TOL	(81,621)
Expensed portion of current year assumption changes	88,294
Expensed portion of current year period differences between projected and actual investment earnings	294
Total OPEB expense	<u>\$ 45,749</u>

CITY OF FORT WORTH, TEXAS

NOTE J: EMPLOYEE BENEFITS

Net OPEB Liability, OPEB Expense, and Deferred Outflows/Inflows of Resources Related to OPEB

As of September 30, 2022, the City reported the following Deferred Outflows of Resources, Deferred Inflows of Resources, and Net OPEB Liability related to OPEB. The following amounts have been allocated to Governmental Activities and Business-Type Activities on the Statement of Net Position; see the table below:

	Governmental Activities	Business-Type Activities	Total
Deferred Outflows of Resources			
OPEB contributions made after the measurement date	\$ 32,725	\$ 3,182	\$ 35,907
Differences between expected and actual experience	34	5	39
Changes in assumptions	19,299	2,959	22,258
Total Deferred Outflows of Resources	<u>\$ 52,058</u>	<u>\$ 6,146</u>	<u>\$ 58,204</u>
Deferred Inflows of Resources			
Net difference between projected and actual earnings on OPEB plan investments	2,073	294	2,367
Differences between expected and actual experience	\$ 40,243	\$ 6,352	\$ 46,595
Changes in assumptions	153	39	192
Total Deferred Inflows of Resources	<u>\$ 42,469</u>	<u>\$ 6,685</u>	<u>\$ 49,154</u>
Net OPEB Liability	\$ 750,044	\$ 113,964	\$ 864,008

\$35,907,000 reported as Deferred Outflows for OPEB contributions made after the measurement date will be recognized as a deduction of the Net OPEB Liability in the year ending September 30, 2023. Other amounts reported as Deferred Outflows/(Inflows) of Resources will be recognized in OPEB expense as follows:

Year ending September 30:		
2023	\$	(8,429)
2024		(8,834)
2025		(9,434)
2026		(636)
2027		157
Thereafter		319

Sensitivity of the Net OPEB liability to changes in the Discount Rate and Healthcare Cost Trend Rates.

The following presents the Net OPEB Liability of the City, calculated using the discount rate of 2.21%, as well as what the City's Net OPEB Liability would be if it were calculated using a discount rate that is one-percentage-point lower (1.21%) or one-percentage-point higher (3.21%) than the current discount rate:

1 % Decrease (1.21%)	Current Discount Rate (2.21%)	1 % Increase (3.21%)
\$ 1,016,408	\$ 864,008	\$ 740,018

The following presents the Net OPEB Liability of the City, calculated using the healthcare cost trend rates of 8.0% decreasing to 4.5%, as well as what the City's Net OPEB Liability would be if it were calculated using healthcare cost trend rates that are one-percentage-point lower (7.0% decreasing to 3.5%) or one-percentage-point higher (9.0% decreasing to 5.5%) than the current healthcare cost trend rates:

1 % Decrease (7% to 3.5%)	Healthcare Cost Trend Rate (8% to 4.5%)	1% Increase (9% to 5.5%)
\$ 708,348	\$ 864,008	\$ 1,066,165

CITY OF FORT WORTH, TEXAS
NOTES TO THE BASIC FINANCIAL STATEMENTS
SEPTEMBER 30, 2022
(000's omitted in tables)
NOTE J: EMPLOYEE BENEFITS

Deferred Compensation Plan

The City offers its employees a Deferred Compensation Plan (DCP) created in accordance with Internal Revenue Code Section 457(b), the City makes no contributions to the plan. The City's DCP, available to all regular full-time City employees, permits the deferral of income based upon guidelines published by the Internal Revenue Service. The City's DCP is administered by the Teachers Insurance and Annuity Association (TIAA). The City's DCP investments include mutual funds whose focus is on stocks, bonds, money-market-type investments, or a combination of these. Deferred compensation investments are held by outside trustees for the exclusive benefit of eligible employees and their beneficiaries and are not included in these financial statements. The deferred compensation funds are not available for employee distribution until termination, retirement, death, or unforeseeable emergency. Employees can take loans from their individual accounts of up to 50% of their account balances not to exceed \$50,000 at an interest rate of prime plus 1%. The City has no responsibility for investment losses of the DCP, but does have the fiduciary responsibilities usual to the sponsor of any retirement plan.

NOTE K: COMMITMENTS AND CONTINGENCIES

The City has executed a long-term supply agreement with Tarrant Regional Water District (District) for all of its raw water needs whereby the City makes monthly payments to fund its water purchases. The FY2022 payments to the District under the agreement were \$84,098,226. Future payments will be a direct result of future water usage.

The City is subject to extensive and rapidly changing Federal and State environmental regulations governing wastewater discharges, solid and hazardous waste management, and site remediation and restoration activities. The City's policy is to accrue environmental and related remediation costs when it is probable that a liability has been incurred and the amount can be reasonably estimated. As discussed in Note G.2. and Note G.4., as of September 30, 2022, the City has recorded pollution remediation liabilities in the amounts of \$2,330,577 in the Environmental Protection Capital Projects Fund as required by GAAP. No other liabilities have been specifically identified, and no such costs have been accrued other than those disclosed.

The City has received Federal and State financial assistance in the form of grants and entitlements that are subject to review and audit by the grantor agencies. Such audits could result in requests for reimbursement by the grantor agency for expenditures disallowed under terms and conditions specified in the grant agreements. In the opinion of City management, such disallowances will not have a material impact on the financial statements.

The City has outstanding construction commitments of \$467,111,937 as of September 30, 2022.

Various other claims and lawsuits are pending against the City. After consultation with legal counsel, the City had potential losses from pending litigation that are reasonably possible totaling \$7,062,000 as of September 30, 2022.

(000's omitted in tables)

NOTE M: SUBSEQUENT EVENTS

On October 25, 2022, the City authorized the Collective Bargaining Agreement ("CBA") between the City and the Fort Worth Professional Firefighters Association, International Association of the Fire Fighters Local 440 (the Association). The Agreement allows the Association to establish, manage, and administer a separately administered and funded healthcare plan for the benefit of firefighter recruits, active fire fighters and pre-Medicare fire fighter retirees, plus their spouses and dependents. This new CBA will expire on September 30, 2026, with a one-year evergreen period. Adjustments to the Fire Department's FY2023 Budget are necessary to fully comply with the terms of this new CBA, so a subsequent budget request will be presented to the City Council later in the fiscal year to authorize additional appropriations to fully fund the terms of the agreement.

NOTE N: NEW ACCOUNTING STANDARDS

In May 2019, GASB issued Statement No. 91, *Conduit Debt Obligations*. The objectives of this Statement are to provide a single method of reporting and eliminate the option for government issuers to recognize conduit debt obligations. This Statement clarifies the existing definition of a conduit debt obligation; establishes that a conduit debt obligation is not a liability of the issuer; establishes standards for accounting and financial reporting of additional commitments and voluntary commitments extended by issuers and arrangements associated with conduit debt obligations; and improves required note disclosures. This Statement is effective for the City's financial periods beginning Oct 1, 2022.

In January 2020, GASB issued Statement No. 92, *Omnibus 2020*. The objective of this Statement is to enhance comparability in accounting and financial reporting and to improve the consistency of authoritative literature by addressing practice issues that have been identified during implementation and application of certain GASB Statements. This Statement addresses a variety of topics and includes specific provisions about the following:

- Modifying the effective date of Statement No. 87, *Leases*, as well as associated implementation guide.
- Reporting of intra-entity transfers of assets between a primary government employer and a component unit defined benefit pension plan or defined benefit other postemployment benefits (OPEB) plan.
- Reporting assets accumulated for defined benefit postemployment benefits provided through plans that are not administered through trusts that meet specific criteria.
- The applicability of certain requirements of Statement No. 84, *Fiduciary Activities*, to pension and OPEB arrangements.
- Measurement of liabilities (and assets, if any) related to asset retirement obligations (AROs) in a government acquisition.
- Reporting by public entity risk pools for amounts that are recoverable from reinsurers or excess insurers.
- Non recurring fair value measurements.
- Terminology used to refer to derivative instruments.

This Statement is effective for the City's financial periods beginning October 1, 2022.

CITY OF FORT WORTH, TEXAS
NOTES TO THE BASIC FINANCIAL STATEMENTS
SEPTEMBER 30, 2022
(000's omitted in tables)

NOTE N: NEW ACCOUNTING STANDARDS

In March 2020, GASB issued Statement No. 94, *Public-Private and Public-Public Partnerships and Availability Payment Arrangements*. The objective of this Statement is to improve financial reporting by addressing issues related to public-private and public-public partnership arrangements (PPPs). This Statement requires that PPPs that meet the definition of a lease apply the guidance in Statement No. 87, *Leases*, as amended, if existing assets of the transferor that are not required to be improved by the operator as part of the PPP arrangement are the only underlying PPP assets and the PPP does not meet the definition of a service concession arrangement (SCA). This Statement also provides accounting and financial reporting requirements for all other PPPs: those that either (1) meet the definition of an SCA or (2) are not within the scope of Statement No. 87, as amended (as clarified by this Statement). This Statement is effective for the City's financial periods beginning October 1, 2022.

In May 2020, GASB issued Statement No. 95, *Postponement of the Effective Dates of Certain Authoritative Guidance*. The objective of this Statement is to provide temporary relief to governments and other stakeholders in light of the COVID-19 pandemic by postponing the effective dates of certain provisions in Statements and Implementation Guides, effective immediately.

In May 2020, GASB issued Statement No. 96, *Subscription-Based Information Technology Arrangements*. The objective of this Statement is to better meet the information needs of financial statement users by (a) establishing uniform accounting and financial reporting for SBITAs; (b) improving the comparability of financial statement among governments that have entered into SBITAs; and (c) enhancing the understandability, reliability, relevance, and consistency of information about SBITAs. This Statement is effective for the City's financial periods beginning October 1, 2022.

In April 2022, GASB issued Statement No. 99, *Omnibus 2022*. The objectives of this Statement are to enhance comparability in accounting and financial reporting and to improve the consistency of authoritative literature by addressing (1) practice issues that have been identified during implementation and application of certain GASB Statements and (2) accounting and financial reporting for financial guarantees.

- Classification and reporting of derivative instruments within the scope of Statement No. 53 *Accounting and Financial Reporting for Derivative Instruments* that do not meet the definition of either an investment derivative instrument or a hedging derivative instrument.
- Clarification of provisions in Statement No. 87, *Leases*.
- Clarification of provisions in Statement No. 94, *Public-Private and Public Partnerships and Availability Payment Arrangements*.
- Clarification of provisions in Statement No. 96, *Subscription-Based Information Technology Arrangements*.
- Extension of the period during which the London Interbank Offered Rate (LIBOR) is considered an appropriate benchmark interest rate for the qualitative evaluation of the effectiveness of an interest rate swap that hedges the interest rate risk of taxable debt.
- Accounting for the distribution of benefits as part of the Supplemental Nutrition Assistance Program (SNAP).
- Disclosures related to nonmonetary transactions.
- Pledges of future revenues when resources are not received by the pledging government.

CITY OF FORT WORTH, TEXAS
NOTES TO THE BASIC FINANCIAL STATEMENTS
SEPTEMBER 30, 2022
(000's omitted in tables)

NOTE N: NEW ACCOUNTING STANDARDS

- Clarification of provisions in Statement No. 34, *Basic Financial Statements and Management's Discussion and Analysis for State and Local Governments*.
- Terminology updates related to certain provisions of Statement No. 63 *Financial Reporting of Deferred Outflows or Resources, Deferred Inflows of Resources, and Net Position*.
- Terminology used in Statement No. 53 to refer to resource flows statements.

This Statement is effective for the City's financial periods beginning at various dates depending on the significant matter.

In June 2022, GASB issued Statement No. 100, *Accounting Changes and Error Corrections-an amendment of GASB Statement No. 62*. The objective of this Statement is to enhance accounting and financial reporting requirement for accounting changes and error corrections to provide more understandable, reliable, relevant, consistent, and comparable information for making decisions or assessing accountability. This statement is effective for the City's financial periods beginning October 1, 2023.

In June 2022, GASB issued Statement No. 101, *Compensated Absences*. Governments commonly provide benefits to employees in the form of compensated absences. The objective of this Statement is to better meet the information needs of financial statement users by updating the recognition and measurement guidance for compensated absences. This statement is effective for the City's financial periods beginning October 1, 2024.

ADOPTED BUDGET

The City's framework for financial decision making is a comprehensive set of Financial Management Policy Statements. As required by the City's Charter, the City adopts an annual balanced budget for most funds (as more fully described below) which the legal level of control is at the departmental/fund level. Departments may not exceed their appropriations within any specific fund.

The City adopts annual budgets for most governmental funds, including the General Fund, the Debt Service Fund, the Crime Control and Prevention District Fund (CCPD), the Culture and Tourism Fund, the Environmental Management Fund, the Other Special Revenue Fund, the Public Improvement Districts Fund, the Golf Fund, the Botanic Gardens Fund, and the Fort Worth Tourism Public Improvement District Corporation, using the modified accrual basis of accounting except for certain revenues, expenditures, other financing sources, administrative costs, indirect costs, and transfers. Therefore, a reconciliation is presented on the Budgetary Comparisons Schedules to reconcile the Budgetary Basis Contribution to/Use of Fund Balance to the GAAP Basis Net Change in Fund Balance. Specific information on the budget for each of these funds is included as supplementary information in the Combining and Individual Fund Financial Statements and Schedules section.

Multi-year project length budgets are adopted for the City's governmental Capital Projects Fund and the Grants Fund in accordance with the City's *Five-Year Capital Improvement Program* and are not presented within this document. Other multi-year budgets have been established for the Special Projects Fund, the Taxing Increment Reinvestment Zones Funds, Fort Worth Housing Finance Corporation, Fort Worth Local Development Corporation, Fort Worth Sports Authority, Lone Star Local Development Corporation, Central City Local Government Corporation, and Lancaster Corridor LLC. Budgets for the Grants Fund are established pursuant to the terms of the related Federal, State, and local grant awards and are therefore considered a legally adopted budget once the specific appropriation is approved.

Prior to action taken by City Council, the CCPD Board of Directors (Board) must approve the original budget for the CCPD fund. Also, the Board, as well as the City Council, must approve any supplement or transfer of appropriation balances or portions thereof from one department to another for this fund.

The City also adopts an annual budget for most of the proprietary funds, including enterprise funds and internal service funds. Internal service funds are maintained to account for services provided primarily to departments within the City. Budgets for proprietary funds are prepared on the full accrual basis of accounting with the following exceptions:

- Changes in the fair value of investments are not treated as adjustments to revenue in the annual operating budget;
- Debt service and capital lease principal payments are treated as expenses in the annual operating budget;
- Depreciation expense is not recognized in the annual operating budget; and
- Capital purchases are recognized as expense in the annual operating budgets.

At the close of each fiscal year the appropriated balance for annually adopted budgets lapse.

NOTES TO THE REQUIRED SUPPLEMENTARY INFORMATION
SEPTEMBER 30, 2022
(000's omitted in tables)**

BUDGETARY CONTROL

Budgetary controls begin with the City Charter requirements that the City adopt an annual balanced budget for appropriated funds by formal action. Each department is responsible for administering their respective programs and operations within the financial constraints described by the adopted budget.

The City's budget ordinance is deemed balanced when the sum of estimated revenues and appropriated fund balance/net position is equal to expenditure/expense appropriations and contributions to fund balance/net position. Operating revenues and other financing sources must fully cover operating expenditures/expenses, including debt service and other financing uses. Operating expenditures/expenses to balance the annual budget shall include that year's contribution to capital funds required to maintain existing assets. Furthermore, operating expenditures/expenses shall include the portion of funds required to maintain the viability of internal service funds or the purposes in which they were created. Finally, minimum reserve levels as outlined in the Financial Management Policy Statements must be maintained unless reserves are being used in accordance with the purposes permitted by the City's policy.

The overall budget appropriation may be increased via a supplemental appropriation ordinance that allocates funds that are certified as being in excess of those included in the budget and as being otherwise unencumbered. These amendments shall be considered and adopted by the City Council at formal business meetings, except for specific adjustments when limited authority has been delegated to the City Manager as prescribed within the adopted budget ordinance.

The City Manager may transfer part or all of any unencumbered appropriation balance among programs within a department, division, or section upon compliance with such conditions as the City Council has established. Upon request of the City Manager, the City Council may by ordinance transfer part or all of any unencumbered appropriation balance from one department to another. No such transfers shall be made of revenues or earnings of any non-tax supported public entity to any other purpose.

For the General Fund, supplemental appropriations of \$38,027,000 were approved by the City Council. The reported budgetary data includes amendments made during the year. At the close of each fiscal year, any appropriated balance in the General Fund lapses to fund balance. Multi-year project length budget appropriations are automatically carried over into the next fiscal year.

BUDGET PROCESS

The City adheres to the following procedures for establishing the operating budget:

On or before August 15 of each year, the City Manager submits to the City Council a proposed budget for the fiscal year beginning the following October 1. The operating budget includes proposed expenditures and the means of financing them. Public hearing is conducted. The budget is legally enacted by the City Council through the passage of appropriations and the tax levying ordinances prior to September 30 and is published under a separate cover.

Notes to Schedule:

Changes of assumptions each year include the change in the blended discount rate. The blended discount rates for 2014, 2015, 2016, 2017, and 2018 were 6.98%, 6.25%, 4.71%, 5.13%, and 5.35% respectively. As of FY2020, the blended discount rate was discontinued and a single discount was included in the assumptions at 7.00%.

Benefits changes:

FY2015 - The benefits for Firefighters hired before January 10, 2015 (Group II) were bifurcated effective January 10, 2015. Prospectively, the benefit multiplier changed from 3.00% to 2.50% for standard pension benefits and from 2.75% to 2.25% for early retirement, non-duty death and non-duty disability benefits. The compensation base was extended from the highest three years to the highest five years, and overtime earnings are now excluded (except built-in overtime, assumed to be 6.50% of base pay). Benefits earned on or after January 10, 2015, are subject to an annual 2.00% simple COLA, rather than an ad-hoc COLA.

Notes to Schedule: (continued)

FY2016 - A comprehensive Actuarial Experience Review, covering the period January 1, 2013, through December 31, 2015, was completed in March 2016. As a result of that study, the following assumption changes were approved by the Retirement Board:

- The mortality assumption for active and inactive vested participants was changed from the RP-2000 Combined Healthy Mortality Table, set forward one year to the RP-2014 Employee Mortality Table.
- The post-retirement mortality assumption for healthy annuitants was changed from the RP-2000 Combined Healthy Mortality Table, set forward one year to the RP-2014 Healthy Annuitant Mortality Table, set forward three years.
- Coordinating with the mortality assumption for healthy lives, the mortality assumption for disabled retirees was changed from the RP-2000 Disabled Retiree Mortality Table, reduced by 20% for males and loaded by 50% for females to the RP-2014 Disabled Retiree Mortality Table.
- The generational projection scale was changed from Scale AA to the MP-2015 improvement scale.
- The assumption for deaths in the line of duty for Police Officers was reduced from 25% to 10% of all active deaths.
- The investment return assumption was lowered from 8.00% to 7.75%.
- Administrative expense assumption of \$3,000,000 was introduced and the inflation assumption was lowered from 3.00% to 2.75%.
- The payroll growth rate assumption (used for determining the amortization of the unfunded actuarial accrued liability) was lowered from 3.25% to 3.00%.
- While maintaining the existing service-based tables, the salary scale was adjusted to better match observed experience. The inflation component was lowered from 3.50% per year for all to 3.00% per year for General Employees and Firefighters and lowered to 2.75% per year for Police Officers.
- The retirement rates for General Employees who retire early with reduced benefits were adjusted to match observed experience.
- The unreduced retirement rates were restructured to be based on eligibility for Normal Retirement for all groups and the assumed retirement rates for non-DROP participants were updated.
- A retirement assumption for DROP participants was introduced to reflect that all DROP participants will enter at first eligibility and retire at the end of the assumed DROP period.
- The DROP utilization assumption was lowered by 5% for Police Officers and current disability rates were lowered by 50%.
- The gender-distinct five-year select-and-ultimate turnover tables were modified for General Employees with increased rates for non-vested and vested males only. The service-based withdrawal rates for Police Officers and Firefighters were lowered to reflect observed experience.
- The assumed marriage percentage assumption was lowered from 90% to 80% for males and to 60% for females.
- The spousal age difference was changed from assuming females are three years younger than males to the spouse being four years younger for male participants and the same age for female participants.
- The overtime and other payloads (Blue benefits only) were lowered for Police Officers by 1.00% and 1.25% for Firefighters.
- The load on final average salary for General Employees was eliminated. The load for Police Officers was lowered from 2.75% to 2.00% while the load for Firefighters was increased from 4.00% to 5.00%.
- The sick leave service conversion load for General Employees and Firefighters was increased by 0.50% and 1.0%, respectively.

FY2019 - The changed as follows:

- Increase to the City contribution rate by 4.50% of pay, effective January 2019,
- Increase to the member contribution rate by 1.1% of pay for all General Employees, effective July 2019,
- Increase to the member contribution rate by an additional 0.7% of pay for a period equal to the period of blue service for each individual General Employee, effective July, 2019,
- Extend maximum DROP period to six years, and new categories for Gray member benefits and services were introduced; please refer to Note I - Summary of Plan Provision for further details.

FY2020 - The changed as follows:

- The single discount rate went from 5.35% to 7.00%
- The investment return assumption was lowered from 7.75% to 7.00%.

Notes to Schedule:

Allocation of City funds to pay postemployment benefits other than pensions is determined on an annual basis by the City Council as part of the budget approval process on a pay-as-you-go basis.

Changes of assumptions each year include the change in the blended discount rate. The discount rates for measurement date September 30, 2017, 2018, 2019, 2020, and 2021 were 3.53%, 3.86%, 2.75%, 2.44% and 2.21% respectively. As of 01/01/2019, the firefighters' union local 440 splits from the rest of the City and formed their own plan. All current and futures retirees are covered under that separate plan. However, because of the limited claims experience under that plan, their claims cost was assumed to be the same as the rest of the City. All other assumptions (mortality, turnovers, retirement rates, eligibility) was assumed to remain the same. Their numbers were valued separately and then rolled up into the City's.

COMBINING AND INDIVIDUAL FUND FINANCIAL STATEMENTS AND SCHEDULES

Debt Service Fund

The Debt Service Fund accounts for the accumulation of financial resources for the payment of principal, interest and related costs on long-term obligations paid primarily from taxes levied by the City. The fund balance of the Debt Service Fund is reserved to signify the amounts that are restricted exclusively for debt service expenditures. It comprises three funds: General Debt Service Fund, Culture and Tourism Debt Service Fund, and Venue Debt Service Fund. In addition, long-term obligations that are paid with special assessments or fund revenues are included in this fund.

Nonmajor Governmental Funds Special Revenue Funds

The Special Revenue Funds are used to account for the proceeds from specific revenue sources (other than expendable trusts, major capital projects, or proprietary funds) that are legally restricted to expenditures for specified purposes.

Crime Control and Prevention District Fund is used to finance the cost in providing the necessary resources to effectively implement crime reduction strategies pertaining to enhanced enforcement, neighborhood crime prevention, partner programs, recruitment and training, and department equipment, technology, and infrastructure within the City of Fort Worth, as approved by citizens.

Environmental Management Fund is used to accumulate revenue to pay for any environmental program or service as such services are required by state or federal mandates.

Fort Worth Housing Finance Corporation Fund is used to finance the cost of residential ownership and development of single-family dwellings for persons of low and moderate income.

Fort Worth Local Development Corporation Fund is used to administer a low-interest rate program for business development in and around the stockyards area as well as other City-wide economic development activities.

Special Projects Fund is used to account for many small projects, which are varied in purpose. Financing for this Fund is provided by contributions from various organizations and individuals and is restricted to such projects.

Culture and Tourism Fund is used to account for taxes received from hotel and motel occupancy to promote tourism.

Other Blended Component Units Fund is used to combine Fort Worth Sports Authority (used to purchase the Texas Motor Speedway and spur economic growth), and Lone Star Local Development Corporation (used for the construction of a museum, exhibition space, and certain public infrastructure in the vicinity of Cabela's retail facility).

Other Special Revenue Fund is used to report the financial activity of minor funds whose proceeds of specific revenue sources require separate accounting because of legal or regulatory provisions or administrative action.

Public Improvement Districts (PIDs) were created by resolution of the City Council pursuant to Chapter 372 of the Local Government Code. PIDs provide a development tool that allocates costs according to the benefits received. In time of declining city revenues, a PID can provide a means to fund supplemental services and improvements to meet community needs which could not otherwise be constructed or provided and be paid by those who most benefit from them.

Taxing Increment Reinvestment Zones (TIRZs) are special zones created by City Council under the Texas Tax Code Chapter 311 (Tax Increment Financing Act). A TIRZ is used to finance public improvements within a defined area. These improvements are intended to promote development or redevelopment in the defined area and surrounding areas. Taxes attributable to new improvements (tax increments) are set aside in a special revenue fund to finance public improvements within the boundaries of the zone.

Golf Fund is used to account for the operation of three City golf courses. The Fund's operations are financed by course fees, golf equipment rentals and merchandise and concession sales to the public and an annual subsidy from the General Fund.

Nonmajor Governmental Funds
Capital Project Funds

Other Blended Component Units Fund is used to combine Lancaster Corridor LLC Fund (organized to support mixed-use redevelopment along the Lancaster Corridor) and Central City Local Government Corporation (organized for the purpose of aiding, assisting, and acting on behalf of the City in the implementation of project plans for the Magnolia Green Development, including construction of a parking garage to support development).

Nonmajor Enterprise Funds

Nonmajor Enterprise Funds are used to account for the acquisition, operation, and maintenance of governmental facilities and services, which are entirely or predominantly self-supported by user charges. The operations of Proprietary Funds are accounted for in such manner as to show a profit or loss similar to comparable private enterprises.

Municipal Airports Fund

The Municipal Airports Fund is used to account for the Meacham, Spinks (South Fort Worth), and Alliance (North Fort Worth) Airport operations. Revenues are derived principally from the hangar and terminal building rental, landing fees, and fuel surcharges.

Municipal Parking Fund

The Municipal Parking Fund is used to account for the operation of the Will Rogers Memorial Center parking system, Taylor Street garage, Convention Center garage, Houston Street garage, Western Heritage garage, 15th Street garage, and several surface lots located in the downtown area, as well as parking meters and parking compliance personnel. The Fund's operations are financed by parking activities and office space rentals.

Solid Waste Fund

The Solid Waste Fund is used to account for solid waste services provided to the residents of the City. The Fund's operations are financed by trash collection utility fees and cart rentals.

Internal Service Funds

Internal Service Funds have been established to account for the financing of goods and services provided by one department to other City departments.

Equipment Services Fund

The Equipment Services Fund is used to account for the maintenance, repair and rental operations of most City vehicles.

Capital Project Services Fund

The Capital Project Services Fund is used to account for general engineering services and legal support provided to various City departments.

Group Health and Life Insurance

The Group Health and Life Insurance Fund accounts for medical benefits for City employees, and their eligible spouses and/or dependents.

Risk Financing

The fund administration of the City's commercial insurance program, self-insured programs, claims litigation management, and subrogation. This is to protect City resources and to minimize the financial impact when losses do occur. Workers' Compensation is self-funded by the City. Claims are handled by a third-party administrator or contractor. The City is a reimbursing agency for unemployment compensation. The Texas Workforce Commission (TWC) sends quarterly reports to the City concerning claims paid on behalf of the City to eligible former employees.

Pension (and Other Employee Benefit) Trust Funds

Fiduciary funds are used to account for resources held by the City as a trustee or agent. Fiduciary Funds account for assets held by the City in a trustee capacity or as an agent for individuals, private organizations, other governments, and/or other funds. The City reports the following fiduciary funds:

Retirement Pension Trust Fund

For accounting measurement purposes, the Retirement Pension Trust Fund is accounted for in essentially the same manner as proprietary funds. The Retirement Pension Trust Fund accounts for the assets of the City's employees and employees of the Employees' Retirement Fund and issues separately audited financial statements. Those statements can be obtained by contacting the Employee's Retirement Plan of the City of Fort Worth, 3801 Hulen St., Suite 101, Fort Worth, Texas, 76107.

Retiree Healthcare Trust Fund

For accounting measurement purposes, the Retiree Healthcare Trust Fund is accounted for in essentially the same manner as proprietary funds. The Retiree Healthcare Trust Fund accounts for the assets of the City's postemployment healthcare benefit.

Fort Worth Firefighters Healthcare Trust Fund

For accounting measurement purposes, the Fort Worth Firefighters Healthcare Trust Fund is accounted for in essentially the same manner as proprietary funds. The Fort Worth Firefighters Healthcare Trust Fund accounts for the assets of the City's firefighters' employment and postemployment healthcare benefit.

Source: Annual Comprehensive Financial Report for the respective years.

Expenditure and Revenue Functions for Governmental Activities were realigned in Fiscal Year 2015.

(a) The Municipal Golf Fund was transferred to Governmental Activities in Fiscal Year 2015.

(b) Expenses – Significant decrease of expenses in Fiscal Year 2020 when compared to previous years and negative expense balances were due to a decrease of \$839,220 in the City’s Net Pension Liability allocated proportionately to Governmental Funds (\$726,265), Water and Sewer Fund (\$88,794), Stormwater Utility Fund (\$10,541), Municipal Airport (\$2,499), Municipal Parking (\$1,330), and Solid Waste Fund (\$9,791). See Note I for additional information.

(c) Beginning Net Position - FY2021 beginning net position was restated to \$641,847 due to Rock Creek Restatement \$16,137 and Capital Asset Restatement (\$10,218). Refer to note A.16 for additional information.

Legal Debt Margin as a Percentage of the Debt Limit	83 %	84 %	85 %	85 %	85 %

Notes:

*Government Code Sec. 1331.051 of the State of Texas Constitution and Statutes limits cities with a population of seven hundred fifty thousand or more to incur a total bonded indebtedness by the issuance of tax-supported bonds in an amount not exceeding ten (10%) percent of the total appraised value of property listed on the most recent appraisal roll for the City. Prior to FY2011, per Article 835p of the State of Texas Civil Statutes, the limit was based upon a population of six hundred thousand according to the last federal census. According to the 2000 Federal Census, the City of Fort Worth had a population of over 516 thousand; therefore the 10% limitation does not apply to 2010 and before. According to the 2010 Federal Census, the City of Fort Worth had a population of over 758 thousand; therefore, the 10% limitation does apply after 2010.

Assessed Value is the appraised value of property net of exemptions, deferrals, incomplete and protested properties.

Net Debt Subject to Limitation includes governmental activities tax-supported general obligation bonds, certificates of obligations, and tax notes. Also, the Net Debt includes business-type activities, tax-supported general obligation bonds, and certificates of obligations.

- (a) Mayor and Council Office is included in City Manager's Office since 2011. In FY18, Community Relations separated from the City Manager's Office and the name changed to Community and Public Engagement
- (b) Performance and Budget moved to City Manager's Office in FY11, and in FY13 moved back to Financial Management Services. In FY17, the Budget Division was transferred to the newly created Performance and Budget Office.
- (c) Economic and Community Development was combined with Housing in 2009, and dissolved in FY16 into Economic Development and Neighborhood Services.
- (d) Parks and Community Services is referred to as Park and Recreation beginning FY16.
- (e) Property Management was established in FY16 and was overstated due to the inclusion of Equipment Services. 2016 data has been corrected.
- (f) The Police and Fire Uniform and Civilian FTEs are not reported separately beginning FY18.
- (g) As of September 30, 2018, IT Solutions was incorporated into General Government
- (h) Diversity & Inclusion was established in FY20.
