# P25 IO Roll Call Test

---

## TESTING PROCEDURES

To ensure that equipment components of the interoperability solution are operating properly, each agency shall participate in the following testing procedures: Monthly Scheduled and/or Quarterly Random Testing.

### **Monthly Scheduled Testing**

1. The testing agency will conduct a radio roll call monthly on the 2<sup>nd</sup> Wednesday at the following times: 04:00 hours, 10:00 hours and 17:00 hours. The roll calls for Law, Fire and EMS will no longer be at a set time but rotate between the three times.
2. Each agency will monitor the IO CALL talk group prior to the roll call.
3. **The testing agency will initiate roll call by contacting each agency by name.**
  - a. **Host Test Agency Name on Law IO Call for (insert agency name), radio test**
  - b. **Host Test Agency Name on Fire IO Call for (insert agency name), radio test**
  - c. **Host Test Agency Name on EMS IO Call for (insert agency name), radio test**

*(Example – Fort Worth Police on Law IO Call for NETCOM Dispatch, radio test)*

4. Each agency will respond when called, stating their agency name and that the transmission was successfully received.
5. The testing agency will document and maintain a checklist of agency responses for roll calls on each channel. Only check the form where the agency responded. If they did not respond, no check mark is needed.
6. After the roll call list is complete, the testing agency will attempt to contact each non-responsive agency two additional times via radio.
7. The testing agency will make an official announcement, via radio, that the test is complete.
8. Agencies that do not respond to the roll call will be contacted by the testing agency by telephone to attempt to identify any issues or problems that precluded their participation in the test.
9. If the issue or problem can be identified, testing agency personnel will agree on who should take corrective action. If the issue or problem cannot be identified, the testing dispatch will contact the appropriate technical personnel at CFW IT Telecom to address the problem or issue.

### **Quarterly Random Testing**

1. The testing agency will also conduct a random test of the DFW IO Call talk groups once a quarter. Date and time is at the discretion of the testing agency and will aim to test different shifts and personnel. The dispatch will take into account those agencies without 24/7 channel monitoring capabilities as listed in the communications center contact list.
2. Follow the same procedures listed above in monthly testing (Items 2-9).
