General Plan Boundaries

The McCart Ave HOTT Corridor Project

The purpose of the project is to establish a community driven framework to transform the 10-mile corridor into a safe and accessible place. The project extends from I-20 to the future county road 920 in the Burleson ETJ.

The goal is to turn this report into a project that improves walk-ability, enhances safety, and encourages redevelopment along the corridor. The plan makes recommendations for roadway design, park improvements, Increased transit access, zoning upgrades and the implementation of technology.
