

**2021
Community Development Block Grant
Disaster Recovery
(CDBG-DR)
Action Plan
Amendment No. 1**

JANUARY 2025

Version Control

V2 – April 2024: Non-Substantial Amendment; budgets needed to be deleted and added back to work around technical glitches in system

V3 – January 2025: Substantial Amendment

- Program Beneficiaries: Updated program details will specify maximum assistance per strategy.
 - Recommended an award limit of \$3 million for multi-family affordable rental housing projects, and \$150,000 for single-family rehabilitation projects
 - Eliminated single-family new construction activity.
 - Identified each program that will have project delivery costs, that will not exceed 20% of project budgets.
- Program Budget: Updated Table 20 in the approved Plan to clarify initiatives.
 - Identified budget for Planning approximately 1% of total CDBG-DR allocation for activities that may include public communication and engagement, website development, annual action plan, individual project plans, environmental reviews, unmet needs data collection and analysis.
 - Eliminated budget allocation for infrastructure as previous infrastructure estimates included assistance to other City departments that have since been addressed.
 - Increased the budget for mitigation set aside to the amount required by HUD; and an additional \$500,000.00 to address current identified needs.

[NOTE: All budget allocations for each program are estimates based on the needs assessment and public comments received. Budget amounts may be adjusted and will be communicated in accordance with the City's Citizen Participation Plan.]

EXECUTIVE SUMMARY

Overview

Through publication of the Federal Register, Vol. 87, No. 100, Tuesday, May 24, 2022, the U.S. Department of Housing and Urban Development (HUD), Office of the Assistant Secretary for Community Planning and Development announced that the City of Fort Worth will receive \$16,614,000.00 in Community Development Block Grant-Disaster Recovery (CDBG-DR) funding to support long-term recovery efforts following 2021 Winter Storm (FEMA DR-4586). This allocation was made available through the Disaster Relief Supplemental Appropriations Act, 2022 (Pub. L. 117-43) approved September 30, 2021. Subsequent to the initial notice, an additional allocation was made available in the amount of \$10,858,000.00, resulting in a total allocation of \$27,472,000.00. This additional allocation was made available through the Disaster Relief Supplemental Appropriations Act, 2022 (Pub. L. 117-80) approved September 30, 2022. CDBG-DR funding is designed to address needs that remain after all other assistance has been exhausted. The Action Plan details how funds will be allocated to address remaining unmet need in the City of Fort Worth. To meet disaster recovery needs, the statutes making CDBG-DR funds available have imposed additional requirements and authorized HUD to modify the rules that apply to the annual CDBG program to enhance flexibility and allow for a quicker recovery.

Disaster Specific Overview

In February 2021, severe winter storms plagued the State of Texas for almost a week. The 2021 Winter Storm (Winter Storm Uri or the 2021 Freeze) was a severe weather event in which a record amount of snow and ice impacted the entire State of Texas, including the City of Fort Worth. On February 20, 2021, the President of the United States approved a Texas Disaster Declaration. With the State's power grid unable to produce electricity, an estimated 70% of Texas lost power and almost 50% did not have access to water. The record snow and ice created hazardous traveling conditions, which restricted access to shelters, grocery stores, hospitals, and other services. Because of these conditions, over 200 people perished and the estimated direct and indirect financial loss ranges from \$80 to \$130 billion, with an insured loss estimated at \$10-\$20 billion.

Given the severe conditions, the State of Texas' 87th Legislature took actions to mitigate extreme power outages; however, some residents have yet to recover, both physically and financially from the impacts of the 2021 Winter Storm. While many residents have recovered, they may not be prepared for another freeze. With rapid climate change, a freeze may be likely to occur again, and many homes are not weatherized and cannot withstand such extreme temperatures and weather conditions.

On March 22, 2022, HUD allocated nearly \$3 billion in Community Development Block Grant Disaster Recovery (CDBG-DR) funds appropriated through the Disaster Relief Supplemental Appropriations Act, 2022 for major disasters occurring in 2020 and 2021. On May 24, 2022, HUD published a Federal Register notice titled Allocations for Community Development Block Grant Disaster Recovery and Implementation of the CDBG-DR Consolidated Waivers and Alternative

Requirements Notice, 87 Fed. Reg. 100, 31636 ("87 FR 31636") about the \$2.2 billion in CDBG-DR funds specifically allocated to grantees recovering from qualifying disasters in 2021. This notice, and any subsequent notices, describes grant requirements and procedures applicable to CDBG-DR funds.

These funds have been allocated to help communities with long-term recovery and restoration from disasters and to implement mitigation activities that reduce risks in the most impacted and distressed (MID) areas. This Action Plan provides framework for how CDBG-DR funds will be utilized to achieve these goals. It includes a needs assessment that reviews unmet housing, infrastructure, and economic recovery needs along with the estimated damage and impacts. The needs assessment will guide the development and prioritization of planned recovery activities and mitigation activities.

Summary

Given the disruption and damage caused by the 2021 Winter Storm unmet needs in the City of Fort Worth remain significant. The City is committed to addressing these needs and supporting an equitable disaster recovery process that leverages other resources to support the recovery effort.

The City of Fort Worth used the best available data and conducted resident and stakeholder engagement to produce an unmet needs assessment. The resident and stakeholder data engagement included a public hearing and a 30-day comment period.

The unmet needs assessment and public engagement directly inform the strategies and funding decisions for the City's Action Plan. Unofficial data shows at least 17,000 households were impacted by the 2021 Winter Storm, and FEMA estimated \$7,971,168.09 in verified residential loss. This number may undercount eligible households who were not aware of how to apply for government assistance or otherwise fear interaction with government authorities.

The City utilized the best available data, such as but not exclusively the OpenFEMA Dataset, FEMA IA as of September 20, 2022. This raw, unedited data from FEMA's National Emergency Management Information System (NEMIS) and as such is subject to a small percentage of human error. Any financial information was derived from NEMIS and not FEMA's official financial systems. Due to differences in reporting periods, status of obligations and how business rules are applied, this financial information may differ slightly from official publication on public websites such as usaspending.gov; this dataset is not intended to be used for any official federal financial reporting.

City Departments were asked to look for unfunded needs of high importance without identified funding available and storm event tieback. Infrastructure funds were to be used to purchase and install commercial generators for community centers that serve as shelter locations during emergency events. This included approximately 10 of the 22 locations. Priority was to be given in the order of the schedule for centers to be used as a shelter. In addition, the City anticipated using infrastructure funds to purchase a shower

trailer for the Fire Department and up to two (2) weatherproof enclosures for the Fort Worth Water Department to use for their water treatment plants. Upon further review, discussion with the City departments, and following consultation with the HUD technical assistance contractor, the infrastructure needs for the Water Department were met, the shower trailer was determined to be an unallowable cost, and the infrastructure activity was eliminated. Mitigation activity funding is planned to be allocated to purchase and install commercial generators at the following locations: Handley-Meadowbrook Community Center, 6201 Beaty Street, 76112 (Council District 5); Riverside Community Center, 3700 E. Belknap Street, 76111 (Council District 11); and Worth Heights Community Center, 3551 New York Avenue, 76110 (Council District 11). Each of these centers is located in a low-mod area.

CDBG-DR funding will prioritize the preservation of existing single-family, owner occupied and multi-family housing units and the development of multi-family housing.

Table 1: Unmet Need and Proposed Allocation

Community Development Block Grant – Disaster Recovery (CDBG-DR)	Proposed Budget
Single Family Rehabilitation	\$7,295,400.00
Multifamily Rehabilitation	\$6,000,000.00
Multifamily New Construction	\$9,000,000.00
Infrastructure/Public Facilities/Park Lands/Restoration and Improvements	\$0.00
Mitigation	\$3,583,000.00
Planning	\$220,000.00
Administration	\$1,373,600.00
TOTAL	\$27,472,000.00

UNMET NEEDS ASSESSMENT

Figure 1: Proposed CDBG-DR Allocation

**Overview**

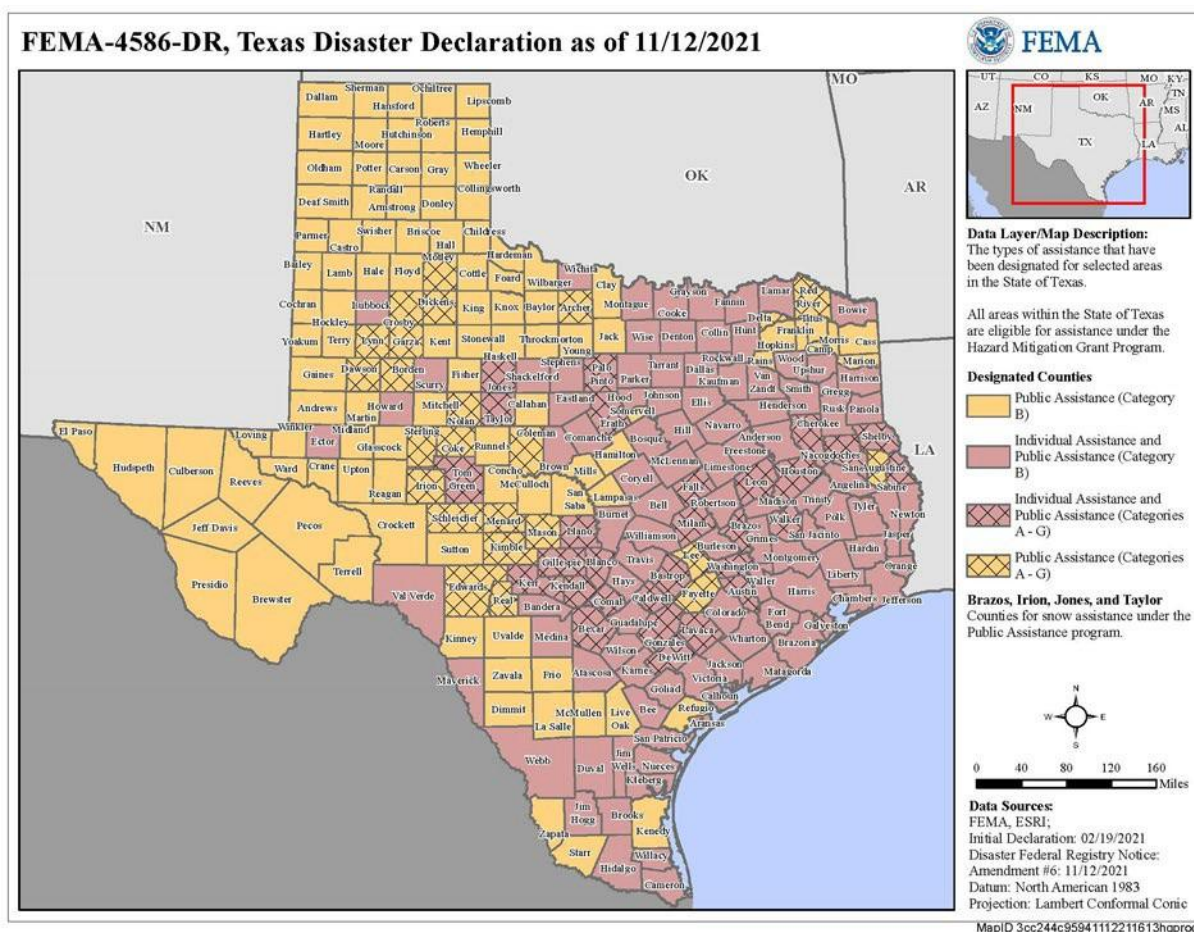

The City has executed data sharing agreements with both FEMA and SBA. The City has utilized the available data to identify the effects, long-term needs and priorities for CDBG-DR funding.

The needs assessment includes specific details for housing and infrastructure. However, infrastructure needs previously identified have since been met. Economic revitalization needs have been and/or will be addressed by the City of Fort Worth Economic Development Department and is not included as a part of this plan. It will take into consideration pre-disaster needs in addition to unmet recovery needs resulting from the 2021 Winter Storm, on the condition that all activities funded with CDBG-DR must have a tieback to the 2021 Winter Storm. It will analyze assistance that may be available to affected communities and individuals, such as insurance, other federal assistance, or other possible funding sources. As additional data becomes available, non-substantial adjustments or substantial amendments to the Action Plan will be proposed. This is the first substantial amendment to the Action Plan.

Background

The following Federal Emergency Management Agency (FEMA) map illustrates the federally declared disaster areas and the type of FEMA funding approved for each impacted county from the 2021 Winter Storm. The entire City of Fort Worth is within counties that FEMA designated for FEMA Individual Assistance (FEMA IA). FEMA IA designation allows the individual and households in these counties to apply for financial and direct services after a federally declared disaster.

Figure 2: Map of DR-4586 Disaster Declaration

HUD Designated Most Impacted and Distressed Areas

HUD has designated the entire City of Fort Worth as a “Most Impacted and Distressed” area (MID area). The City will spend 100 percent of the CDBG-DR funds in the City of Fort Worth.

Summary of Disaster Impacts

In mid-February 2021, a severe winter storm hit Texas leaving millions of people without power. The freezing temperatures caused disruptions in electricity and natural gas

services in Texas including the loss of drinking water, chemical exposure coming from inside the home, and damage to buildings, including burst pipes causing additional damage to building interiors and personal property.

The 2021 Winter Storm hit Texas while residents continued to live under pandemic conditions wrought by the COVID-19 pandemic. The impacts from recent disasters have further exacerbated housing affordability in Fort Worth, limiting housing options for low- and moderate-income (LMI) residents.

Overall market conditions in the United States and the world show higher inflation and have limited the availability of building materials further causing housing construction and repair work to continue to increase in price. In addition, these disasters have left many with unrepaired homes or deferred maintenance issues, making them more vulnerable to future disasters.

Housing Unmet Need

Disaster Damage and Impacts

The 2021 Winter Storm exposed new challenges and a need for expanded City capacity to address several areas of disaster response and recovery procedures. City plans need updating for winter weather events that learn from the challenges recently encountered. Plans will consider opportunities to enhance data collection; effective first responses and long-term management strategies and better prioritization and coordination of various services related to public health, homelessness, shelter in place, critical infrastructure repair and other needs. The 2021 Winter Storm impact to housing included the following:

- The complete evacuation of two multifamily housing properties due to the extreme damage that resulted in repair costs beyond the financial affordability of the property owners
- Flood damage to both single-family and multifamily housing due to pipes bursting as a result of extreme freezing temperatures
- Additional loss of affordable housing due to property damage
- Further property damage to housing in need of housing rehabilitation

Overview of Data Sources

This section is the best available data currently available to understand impacts the 2021 Winter Storm had on housing in Fort Worth. Sources will include official data from FEMA Individual Assistance, Small Business Administration (SBA) Disaster Assistance, Fort Worth Housing Solutions (FWHS), and the Texas Department of Insurance.

Limitations of Data

This section presents an analysis of data to reflect the damage caused by the 2021 Winter Storm in Fort Worth and to demonstrate the ongoing unmet recovery needs of residents

impacted by the 2021 Winter Storm. Ultimately, no one data source accurately captures the population impacted by the 2021 Winter Storm. This Action Plan and unmet needs analysis captures a point in time and reflects the best available data at the time of its publication. In addition to using the methodology outlined by HUD to calculating housing unmet needs, other data and information is also used to validate the FEMA IA data and to get a more complete assessment of impacts and unmet needs.

- **FEMA Individual Assistance (IA)** – The Federal Emergency Management Agency (FEMA) Individual Assistance Program is the primary basis for establishing housing unmet recovery need for CDBG-DR grantees. Residents register voluntarily for FEMA IA, and eligible applicants include both renters and owners. FEMA Verified Loss awards only aid with repair and replacement to make the home habitable. Because of this, the full damage and recovery assistance needed for full recovery and future mitigation may not be documented through this program. In addition, there may be a gap between what the FEMA data indicates and the true disaster impacts as it may not capture households that did not register for assistance due to lack of knowledge of the program or certain immigrant residents; fear of applying for government assistance.
- **Small Business Administration-** Similar to FEMA IA, the SBA Disaster Loan Program is a voluntary program that is made available to impacted households. As a loan program, SBA residential loan registrations skew towards homeowners. However, compared to FEMA Verified Loss inspections, which only cover the cost for repair and replacement, SBA loan amounts are based on an inspection that covers the full cost to restore a home but also might not include needs for environmental remediation or resiliency improvements.
- **American Community Survey 2020 (ACS-5 Year) and Decennial Census (DEC2020)** – The American Community Survey (ACS) is updated annually and is based on a sample of United States residents (3.5 million) in the 50 states. The ACS asks more comprehensive questions than the ten-year census with the goal of making this information available to communities each year. The census, on the other hand, is conducted every ten years and counts every person living in the United States. The census asks a shorter set of questions concerning age, sex, race, Hispanic origin, and owner/renter status. The goal of the decennial census is to provide an official count of the population. The relevant ACS and DEC data are used in this report.

- Center for Disease Control (CDC)/Agency for Toxic Substances and Disease Registry Social Vulnerability Data (ATSDR)** – The CDC/ATSDR Social Vulnerability Index was created as a geographic database to help emergency response planners and public health officials identify and map communities to prepare and respond to disaster events. The index ranks each census tract in the United States (and aggregates into the county level) on 15 social factors, including socioeconomic status – below poverty, unemployment rate, income, no high school diploma, household composition and disability – age 65 or older, age 17 or younger, civilian with a disability, single-parent households, minority status and language – minority and speaks English “less than well,” and housing type and transportation – multi-unit structures, mobile homes, crowding, no vehicle, group quarters. The benefit of this data is that it provides an aggregate score to better understand holistic vulnerabilities compared to similar geographies around the United States. The limitation of this data is that it was last updated in 2018 and, therefore, may be outdated. However, this data still provides general information at a neighborhood level that can be informative and helpful in identifying concentrated areas of unmet needs further impacted by other concerns such as unemployment or high concentrations of seniors which may further inform program strategies, benefits and policies.
- Homeless Point-In-Time Count** – The Point-In-Time (PIT) Count is an annual count conducted by every Continuum of Care (CoC) in the country throughout a single night in January. It counts the number of people housed in emergency shelter, transitional housing, Safe Havens, and the number of unsheltered people. Because the count only takes place on one day, it is a static count and may not reflect annual numbers. Because point-in-time counts include the number of people sleeping outside and in shelters, they often undercount the “hidden homeless” – people experiencing homelessness who are sleeping in motels, on friends’ couches, in cars, etc. This count often underestimates children and families experiencing homelessness.
- Low-and Moderate-Income (LMI) Data** – This data is available on HUD Exchange at the block group, census tract, and county levels. The limitation of this data is that the LMI calculations come from the 2011-2015 ACS data and may be outdated. According to the description of the LMI data provided, the statistical information used in the calculation of estimates identified the data sets comes from two sources: 1) the 2011-2015 American Community Survey (ACS), and 2) the Income Limits for Metropolitan Areas and Non-Metropolitan Counties. The data necessary to determine an LMI percentage for an area is not published in the ACS data tables. Therefore, the Bureau of Census matches the

family size, income, and income limits in special tabulation to produce the estimates.

Insurance

Insurance is one way that can significantly assist residents after a disaster. However, as described earlier, most homeowners with unmet needs do not have homeowners' insurance. The Texas Department of Insurance summarizes the insurance data for property insurance, automobile insurance, and all other lines of insurance, which make up almost all of the insurance markets in Texas.

As of July 31, 2021, or 170 days after the beginning of the event (February 11), and 162 days after the end of the event (February 19). At that time, most residential property claims were closed, but insurers were still investigating and adjusting commercial property claims and some residential property claims. Paid losses can be expected to increase in future reports. In addition, later data may show an increase in reported claims and incurred losses.

Table 2: Tarrant County, Insurance Claims, February 2021, Texas Winter Weather

Texas Department of Insurance
February 2021 Texas Winter Weather Event
 Data as of March 31, 2022 (13 Months after the Event)

County	Reported Claims	Closed with Payment	Closed without Payment	Percent Open	Total Paid Losses (in millions)	Total Case-Incurred Losses (in millions)
Harris	112,052	59.9%	36.1%	4.1%	\$ 1,688.5	\$ 2,018.8
Dallas	48,420	58.3%	37.2%	4.5%	\$ 1,158.1	\$ 1,414.3
Bexar	44,232	55.8%	42.2%	1.9%	\$ 279.8	\$ 355.5
Tarrant	36,357	58.7%	37.4%	3.9%	\$ 705.4	\$ 844.4
Travis	31,823	55.1%	41.7%	3.2%	\$ 640.9	\$ 842.0
Collin	21,715	62.0%	33.7%	4.3%	\$ 569.7	\$ 647.6
Fort Bend	18,909	62.0%	34.8%	3.3%	\$ 282.3	\$ 301.3
Denton	16,155	61.7%	33.9%	4.4%	\$ 405.6	\$ 454.8

FEMA Individual Assistance (FEMA IA)

The Federal Emergency Management Agency (FEMA) Individual Assistance (IA) Program is direct assistance provided through grant payments made directly to the disaster survivor and will supplement disaster damages not covered under insurance. For the 2021 Winter Storm, FEMA IA made several programs available, including

- Other Needs Assistance (ONA) provides financial assistance for

- expenses related to medical and dental, funeral costs, repair/replacement of personal items, and other expenses
- Housing Assistance provides financial assistance for temporary housing, repair, replacement and semi-permanent or permanent housing construction
- Disaster Unemployment Assistance (DUA) provides unemployment benefits and re-employment services to individuals who have become unemployed because of a major disaster and who are not eligible for regular State unemployment insurance
- Disaster Legal Assistance (DLA) provides legal assistance to low-income individuals who, before or because of the disaster are unable to secure legal services adequate to meet their disaster-related needs
- Other programs like the Crisis Counseling Assistance and Training Program (CCP) and Disaster Case Management (DCM)

FEMA IA is the primary basis for establishing housing unmet recovery need for CDBG-DR grantees. The City has executed a data sharing agreement with FEMA that will provide official IA data which will allow calculation of the unmet need analysis in accordance with the Consolidated Notice and verification for avoidance of duplication of benefits processing. Despite the limitations of FEMA IA data, which likely undercounts and underestimates the true impacts of the disaster, the following section provides an overview of the housing impacts for FEMA DR-4586 – Texas Severe Winter Storms.

Small Business Administration – Housing

Eligible FEMA IA applicants that have outstanding repairs or needs can apply through the Small Business Administration (SBA) for a disaster loan. SBA has disbursed loans to applicants, to assist them in the recovery from the 2021 Winter Storm. Once we receive official data from SBA, we will calculate for the City of Fort Worth, the number of applicants for disaster loans, and the number of the applicants approved for assistance. We will include the SBA calculated loss estimates related to real estate repair or reconstruction. SBA provides loan assistance for physical damage, like damage to a home, and for economic injury (working capital), which other financial losses incurred.

Housing Unmet Needs

The Federal Register outlines the following damage categories by owner-occupied and rental units.

FEMA Inspected Owner Units

- **Minor-Low:** Less than \$3,000 of FEMA inspected real property damage.
- **Minor-High:** \$3,000 to \$7,999 of FEMA inspected real property damage.
- **Major-Low:** \$8,000 to \$14,999 of FEMA inspected real property damage and/or 1 to 3.9 feet of flooding on the first floor.
- **Major-High:** \$15,000 to \$28,800 of FEMA inspected real property damage

and/or 4 to 5.9 feet of flooding on the first floor.

- **Severe:** Greater than \$28,800 of FEMA inspected real property damage or determined destroyed and/or 6 or more feet of flooding on the first floor.

FEMA Inspected Owner Units – Personal Property

- **Minor-Low:** Less than \$2,500 of FEMA inspected personal property damage.
- **Minor-High:** \$2,500 to \$3,499 of FEMA inspected personal property damage.
- **Major-Low:** \$3,500 to \$4,999 of FEMA inspected personal property damage or 1 to 3.9 feet of flooding on the first floor.
- **Major-High:** \$5,000 to \$9,000 of FEMA inspected personal property damage or 4 to 5.9 feet of flooding on the first floor.
- **Severe:** Greater than \$9,000 of FEMA inspected personal property damage or determined destroyed and/or 6 or more feet of flooding on the first floor.

FEMA Inspected Rental Units

- **Minor-Low:** Less than \$1,000 of FEMA inspected personal property damage.
- **Minor-High:** \$1,000 to \$1,999 of FEMA inspected personal property damage or determination of “Moderate” damage by the FEMA inspector.
- **Major-Low:** \$2,000 to \$3,499 of FEMA inspected personal property damage or 1 to 3.9 feet of flooding on the first floor or determination of “Major” damage by the FEMA inspector.
- **Major-High:** \$3,500 to \$7,500 of FEMA inspected personal property damage or 4 to 5.9 feet of flooding on the first floor.
- **Severe:** Greater than \$7,500 of FEMA inspected personal property damage or determined destroyed and/or 6 or more feet of flooding on the first floor or determination of “Destroyed” by the FEMA inspector.

According to HUD, only the most impacted homes are to be included in calculations for unmet housing needs. Owner-occupied homes are determined to be most impacted if they have real property damage of \$8,000 or more. Rental homes are determined to be most impacted if they have personal property damage of \$2,000 or more.

To calculate the unmet housing need, the number of housing units determined as the most impacted are multiplied by the multiplier amount corresponding to that category. These multiplies will be determined by using SBA estimated median repair costs in each of the Major-Low, Major-High, and Severe categories subtracting out the assumed assistance from FEMA and SBA.

The City used the FEMA IA data received to calculate the unmet housing need. Based on review, the primary requests received from tenants and homeowners was related to housing needs, with the majority received from homeowners needing rehabilitation services. Approximately 60%-70% of the requests were related to single family housing rehabilitation. Any additional data received will be included in a subsequent amendment should it determine reallocation or additional types of services or benefits needed.

The following table will be used to show the HUD multifamily assisted properties in the

City of Fort Worth. The current plan and budget are based on currently available data. If updated data indicates additional services, benefits, or reallocations are required, it will be addressed in future Action Plan amendments.

Single Family v. Multi-Family Needs; Owner Occupied v. Tenant.

The City of Fort Worth has adopted for use the HUD recognized definition of Affordable Rents, Income Limits for Tenants, and Minimum Affordability Periods for Public Housing and Affordable Housing.

A total of 17,307 applicants registered for FEMA IA assistance in Fort Worth, including 5,819 homeowner applicants and 11,488 renter applicants. After FEMA inspections occurred, 4,382 were determined to have loss that could be verified due to the 2021 Winter Storm making them eligible for disaster assistance. This is known as FEMA Verified Loss. The total FEMA verified loss in Fort Worth is \$7,971,168.09.

Table 3: Total FEMA IA Applications in the City of Fort Worth

Occupancy Type	Total Applications	FEMA Verified Loss Over \$0
Owner	5,819	\$3,790,786.21
Renter	11,488	\$4,180,381.88
Total	17,307	\$7,971,168.09

The City has included in our analysis the number of applicants and applicant income categories by percentage distinguished by owner or renter. We acknowledge the assumption that lower-income applicants are presumed to have fewer resources to recover from a disaster, and therefore, government assistance may be critical for the recovery.

Public Housing and Affordable Housing

Table 4: Multifamily Assisted Housing

Type of Damage	# of Properties	# of Units	# of Units Assisted	# of Units Waiting Assistance	Remaining Unmet Need
Minor-Low	0.00	0.00	0.00	0.00	\$0.00
Minor-High	0.00	0.00	0.00	0.00	\$0.00
Major-Low	0.00	0.00	0.00	0.00	\$0.00
Major-High	0.00	0.00	0.00	0.00	\$0.00
Severe	1.00	194	99	194	\$3,166,188.00
Total	1.00	194	99	194	\$3,166,188.00

Data Source(s): Fort Worth Housing Solutions

FEMA does not inspect rental units for real property damage so personal property damage is used as a proxy for unit damage.

Fort Worth Housing Solutions identified one multifamily housing property damaged as a result of Winter Storm Uri. The Henderson located at 1000 Henderson St., Fort Worth, TX 76102, has a total of 194 units; the entire property needs repairs with a total unmet need of \$3,166,188.00.

Table 5: Public Housing Authorities Damaged

County/Municipality	Total # PHAs	Total PHAs Damaged	# of Units Damaged	Remaining Unmet Need
Tarrant County/Fort Worth	1.00	0.00	0.00	\$0.00
Total	1.00			

Data Source(s): Fort Worth Housing Solutions

Fort Worth Housing Solutions (FWHS) is the Public Housing Authority (PHA) for Fort Worth, Texas. Based on response from FWHS, there was no damage to the PHA or any of its units from 2021 Winter Storm Uri.

Fair Housing, Civil Rights Data and Advancing Equity. Social Equity, Fair Housing and Civil Rights

Disaster related risk often corresponds with a high level of social vulnerability, compounding the impact of disaster events with the challenges of poverty for many affected residents. The following section will review the City's general demographics and disaster impacts related to the 2021 Winter Storm. HUD defines vulnerable populations as a group or community whose circumstances present barriers to obtaining or understanding information or accessing resources. This will include reviewing social vulnerability and the state of different groups of Fort Worth residents including protected classes and individuals experiencing homelessness, which may be considered vulnerable populations.

Social Vulnerability

According to the Centers for Disease Control and Prevention (CDC), "social vulnerability refers to the resilience of communities when confronted by external stresses on human health, stresses such as natural or human-caused disasters, or disease outbreaks. Reducing social vulnerability can decrease both human suffering and economic loss." The CDC's Social vulnerability Index (SVI) uses 15 U.S. census variables at the tract level to help local officials and the City of Fort Worth Neighborhood Services Department.

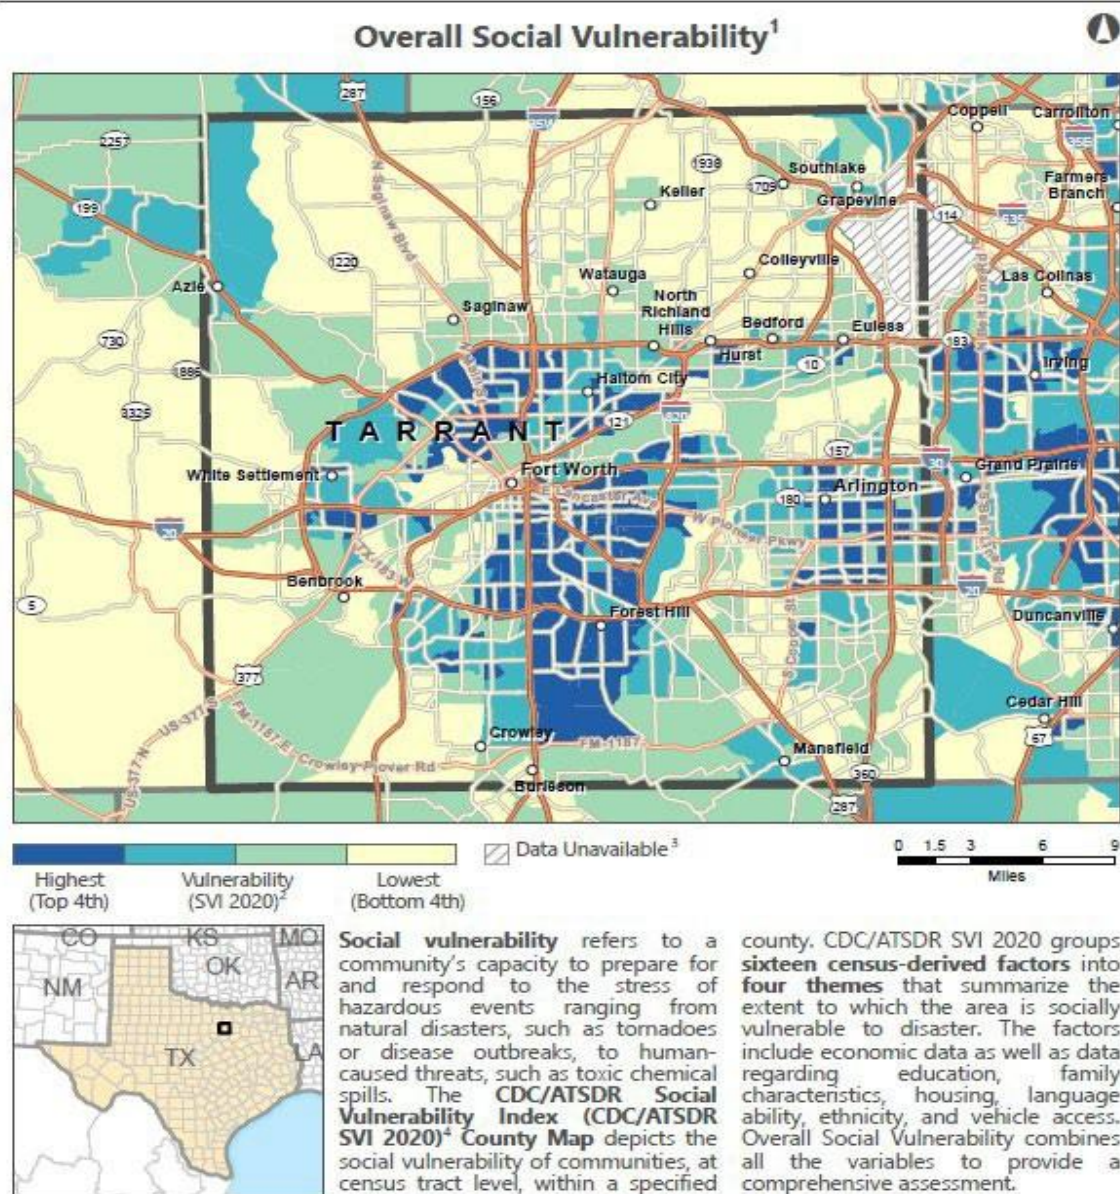

The Social Vulnerability Index themes include socioeconomic status, household composition, language, and transportation/housing status. It is important to note that this

index does not include environmental hazards or possible environmental hazards in an area. The following CDC Social Vulnerability Index 2018 shows the overall Social Vulnerability Index for Tarrant County, including race/ethnicity, percentage of families in poverty, homeownership rate, population over age 65, and overall socioeconomic vulnerability.

Figure 3: Map of Social Vulnerability in Fort Worth

CDC/ATSDR Social Vulnerability Index 2020

TARRANT COUNTY, TEXAS

ATSDR Agency for Toxic Substances and Disease Registry

Geospatial Research, Analysis, and Services Program

Race and Ethnicity

The Fair Housing Act prohibits discrimination by race, color, and national origin. Information collected by the U.S. Census does not specifically address the protected class of color. Instead, data and information based on race and ethnicity, and sometimes national origin, can serve as a proxy for color. When determining impacts on the basis of color, race information will be used to also describe color.

Fort Worth is a majority-minority city with approximately 55% of its population identifying as minority including approximately 35% of Fort Worth residents identifying as Hispanic/Latino of any race. All disaster programs implemented by the City of Fort Worth must evaluate equity and the impact on protected classes, including vulnerable people and consider their needs during the planning process.

Table 6: Fort Worth Population by Race and Ethnicity

	Label	Fort Worth, Texas
	Total:	918,915
	Population of one race:	779,963

data.census.gov | Measuring America's People, Places, and Economy

Fort Worth has many neighborhoods in which residents are more affected by multiple housing problems than the general population. Lower-income households, female-headed households, rent-burdened and overcrowded households, and those households living in older sectors of the city (with older housing stock) are more affected by multiple housing problems.

Historically and persistently, these populations are largely African American and Hispanic households in southeast and north Fort Worth neighborhoods. Areas with a concentration of low-income families are defined as census tracts in which 50 percent or more of the families residing in the tract have annual incomes below 80 percent of the Fort Worth-Arlington Area Median Income (Fort Worth, TX HUD Metro FMR Area MFI is \$80,800 for FY2021; 80% is \$64,640). The chart below shows Fort Worth average and median household income by zip code with the primary areas of low-income families in the south, southeast, and north. The maximum median income of \$118,864 is in Zip Code 76052 while the minimum median income of \$35,193 is in Zip Code 76104.

Table 7: Fort Worth-Arlington Area Median Income by Zip Code

ZipCode	Population	Number of Households	Median Income	Average Income

MID	0.00	0.00	0.00	0.00

Data Source(s): Tarrant County Homeless Coalition, 2021 State of the Homeless Report

The Point-in-Time Count was conducted differently in 2021 to protect the people experiencing homelessness from COVID-19 spread. Unfortunately, volunteers were not able to be mobilized and street outreach teams conducted the Point-in-Time Count over a two-week period from January 28 to February 11, 2021. During this time, street outreach teams asked people where they slept on the night of January 28 and asked them about their experiences. Street outreach teams gridded the CoC and counted all of Tarrant and Parker counties.

On the night of the count, 1,234 people were identified as homeless in Tarrant and Parker counties. This was a 42% decrease in people experiencing homelessness on the night of the count, as compared to 2020. From 2017 to 2020, homelessness on count night had remained relatively static, hovering around 2,000 people.

Table 16: Point-in-Time Count - Impacted by Disaster

MID	0.00	0.00	0.00	0.00

Data Source(s): Tarrant County Homeless Coalition, 2021 State of the Homeless Report

Partnership Home, formerly Tarrant County Homeless Coalition (TCHC), issues a 2021 State of the Homeless Report which only addressed Winter Storm Uri in reference to the Point-In-Time (PIT) count, which was completed in February 2021, immediately before the historic winter storm. Outreach teams were focused on moving people into shelter or providing them with life-saving materials in the days prior to the major storm arriving and in the final days before the end of the PIT count. During subsequent years since the storm, there have been no reports of damage sustained to any structures in the homeless system as a result of Winter Storm Uri. In the 2023 State of the Homeless Report, TCHC reported that \$64M of capital funding had been secured to build affordable housing, which would result in over 400 multi-family unit being renovated or built to provide specialized housing options for people exiting homelessness.

County/Municipality	Total Housing Choice Vouchers	Total Impacted Housing Choice Voucher Units	Total LIHTC Units	Total Impacted LIHTC units	Total Public Housing Dwelling Units	Total Impacted Public Housing Dwelling Units	Remaining Unmet Need
Tarrant/Fort Worth	0.00	0.00	0.00	0.00	0.00	0.00	\$0.00
Total							

Data Source(s): Fort Worth Housing Solutions Fort Worth Housing Finance Corporation

In response to the consultation letter sent to local community partners, nonprofit organizations, and social service agencies, including the local housing authority, Fort Worth Housing Solutions (FWHS), there was no impact to assisted housing as a result of Winter Storm Uri. No Public Housing dwelling units were damaged. However, FWHS did submit a request to allocate funding for multifamily new construction as well as to assist in closing financial gaps for housing construction and infrastructure improvements.

Infrastructure Unmet Need

Disaster Damage and Impacts - Infrastructure

Different from previous disasters, 2021 Winter Storm's electricity loss led to much of the subsequent damage or infrastructure systems failures. The City's preparation and post-disaster assistance for any disaster heavily relies on electricity that is subject to outages during a disaster. The loss of power can potentially leave residents stranded or in unsafe conditions in their home, but it can also impact emergency responders' and the City's ability to provide critical safety services and other general services that are necessary before, during, and after a disaster. During the 2021 Winter Storm, the critical infrastructure across the City experienced challenges in power generation reliability like the residents of the City.

FEMA Public Assistance

FEMA approved assistance for emergency protective measures (Category B) in all 254 Texas counties. The City of Fort Worth has information for FEMA Public Assistance Category B, which are actions taken by the City before, during, and after a disaster to save lives, protect public health and safety, prevent damage to improved public health and safety, and prevent damage to improved public and private property. Generally, these are actions taken by the community to warn residents, reduce the disaster damages, ensure the continuation of essential public services, and protect lives and public health or safety.

Disaster Damage and Impacts - Infrastructure

Unlike previous disasters, the 2021 Winter Storm's electricity loss led to much of the subsequent damage or infrastructure systems failures. The City's preparation and post-disaster assistance for any disaster relies heavily on electricity that is subject to outages during a disaster. The loss of power can potentially leave residents stranded or in unsafe conditions in their home, but it can also impact emergency responders' and the City's ability to provide critical safety services and other general services that are necessary before, during, and after a disaster. During the 2021 Winter Storm, the critical infrastructure across the City experienced challenges in power generation reliability like the residents of the City.

In addition to electrical systems failures, the City experienced unprecedented loss of each of its four water treatment facilities. Each of the facilities that went down were in different parts of the city, connected to different parts of the power system with two different power feeds. As a result of these revealed weaknesses, the City made changes to prevent multiple water treatment plans from failing at the same time. Fort Worth bought generators to keep pipes from freezing during outages and began creating a plan to improve critical infrastructure including the following:

- Reduce the amount of cast iron pipe used in the city

- Make replacements to critical replacements
- Reduce dependence on third parties for supplies (chemicals, etc.) by increasing storage
- Enclose outdoor pump stations
- Purchase propane and diesel heaters
- Prep for high voltage service to Eagle Mountain Water Treatment Plan

Table 18: Total Cost and Need by PA Category

PA Category	Estimated PA Cost	Local Match	Resiliency	Total Need (Match + Resiliency)
A – Debris	\$0.00	\$0.00	\$0.00	\$0.00
B - Emergency Measures	\$0.00	\$0.00	\$0.00	\$0.00

Data Source(s): City of Fort Worth Risk Management Office

Table 19: Hazard Mitigation Needs per County or Known Project

Project	Cost	Funding Source	Unmet Need
N/A	\$0.00	N/A	\$0.00
Total			

Data Source(s): N/A

Meeting Infrastructure Needs Using the Hazard Mitigation Grant Program

The FEMA Hazard Mitigation Grant Program (HMGP) serves as a resource to fund programs that reduce the risk of loss of life and property and is activated following a presidential major disaster declaration. HMGP funds, provided at the amount of FEMA disaster recovery assistance under the presidential declaration, are allocated on a sliding scale formula based on an appropriate percentage of the estimated total of federal assistance (less administrative costs) wherein each individual activity is required to have

at least a 25 percent non-federal cost share. The City of Fort Worth did not request HMGP funding in relation to 2021 Winter Storm Uri.

Economic Revitalization Unmet Need

Disaster Damage and Impacts - Economic Revitalization

The Small Business Administration offers Business Physical Disaster Loans and Economic Injury Disaster Loans (EIDL) to businesses to repair or replace disaster damaged property, including real estate, inventories, supplies, machinery, equipment and working capital until normal operations resume. Businesses of all sizes as well as private, nonprofit organizations are eligible for SBA business disaster loans.

HUD estimates unmet need for small business by multiplying the median damage estimates for Categories 3-5 by the number of small businesses denied an SBA loan.

- Category 1: Real estate + content loss = below \$12,000
- Category 2: Real estate + content loss = \$12,000-\$29,999
- Category 3: Real estate + content loss = \$30,000-\$64,999
- Category 4: Real estate + content loss = \$65,000-\$149,999
- Category 5: Real estate + content loss = \$150,000 and above

This estimate assumes that damage among those denied at pre-inspection have the same distribution of damage as those denied after inspection. Any assistance requested for economic revitalization will be referred to the City of Fort Worth Economic Development Department.

Mitigation Only Activities

Mitigation activities are defined as those that increase resilience to disasters and reduce or eliminate the long-term risk of loss of life, injury, damage to and loss of property, and suffering and hardship, by lessening the impact of future disasters. The mitigation funding set aside within the CDBG-DR grant for the 2021 Winter Storm represents an opportunity to build on current strategic efforts and mitigation activities underway in the Property Management, Water and Fire Departments.

The Tarrant County Hazard Mitigation Plan identified potential hazards for each of the thirty-three (33) jurisdictions, including Fort Worth. The City of Fort Worth's Local Planning Team (LPT) ranked potential hazards in order of risk, with 1 being the highest. Risk, for the purposes of hazard mitigation planning, is the potential for damage or loss created by the interaction of natural hazards with community assets. Below is the ranking:

Rank of Risk	Natural Hazard
1	Thunderstorm (includes hail, wind, lightning)
2	Flooding
3	Winter Storms
4	Tornado

5	Wildfire
6	Extreme Heat
7	Drought
8	Expansive Soils
9	Earthquake

The CDBG-DR funding from the 2021 Winter Storm presents an opportunity to address the existing need to better prepare the City's residents and infrastructure against extreme weather - cold, heat, storm, or flooding - through efforts in weatherization and infrastructure fortification. Extended exposure to cold is a risk the City intends to mitigate with weatherization and adapting critical infrastructure and community resources to maintain more reliable energy capabilities.

For a description of planned mitigation activities, see Mitigation Activities under Grantee's Proposed Use of Funds.

GENERAL REQUIREMENTS

Citizen Participation

Outreach and Engagement

In the development of this disaster recovery action plan, City of Fort Worth consulted with disaster-affected citizens, stakeholders, local governments, public housing authorities, and other affected parties in the surrounding geographic area to ensure consistency of disaster impacts identified in the plan, and that the plan and planning process was comprehensive and inclusive. This included the following:

- *Fort Worth Housing Solutions*
- *Partnership Home (formerly Tarrant County Homeless Coalition)*
- *Community Development Council*
- *Community Action Partners Council*

City of Fort Worth recognizes that affected stakeholders are the center of, and partners in, the development and implementation of this plan. Opportunities for citizen input were provided throughout the planning process through public meetings, emails/electronic notifications, and publications/postings.

In addition to the activities above, City of Fort Worth has published this action plan on <https://www.fortworthtexas.gov/departments/neighborhoods/services/grants> for a 30-day public comment period. Citizens were notified through a Public Notice in the Fort Worth Star-Telegram and La Vida News. City of Fort Worth will ensure that all citizens have equal access to information, including persons with disabilities (vision and hearing impaired) and limited English proficiency (LEP).

<https://www.fortworthtexas.gov/departments/diversity-inclusion/accessibility-accommodations>

In accordance with the requirements of Title II of the Americans with Disabilities Act of 1990 (ADA), the City of Fort Worth does not discriminate against qualified individuals with disabilities on the basis of disability in its services, programs, or activities.

The ADA does not require the City of Fort Worth to take any action that would fundamentally alter the nature of its programs or services, or impose an undue financial or administrative burden.

Accommodation Requests:

- **Accessibility in City Services, Programs, or Activities and the Provision of Auxiliary Aids and Services for Effective Communication:**

The City of Fort Worth will make all reasonable modifications to services, policies, programs and activities to ensure that people with disabilities have an equal opportunity for participation. For example, individuals with service animals are welcomed in City offices, even where pets are generally prohibited.

The City of Fort Worth will generally, upon request, provide appropriate aids and services leading to effective communication for qualified persons with disabilities so they can participate equally in the city's programs, services, and activities, including accessing the City's website. Accommodation requests can include, but are not limited to: qualified sign language interpreters, documents in Braille, and other ways of making information and communications accessible to people who have speech, hearing, or vision impairments.

The City of Fort Worth will not place a surcharge on a particular individual with a disability, or any group of individuals with disabilities, to cover the cost of providing a reasonable modification in a policy, program, service or activity, or in the provision of an auxiliary aid.

Anyone who requires a modification of policies or procedures to participate in a program, service, or activity of City of Fort Worth, or requires an auxiliary aid, can request an accommodation via phone, email or online. Please submit your request no less than a minimum of 48 hours before the scheduled event, program or activity.

Phone Requests: contact the city's ADA coordinator at 817-392-8552

Email Requests: email ada@fortworthtexas.gov, as soon as possible but no later than 48 hours before the scheduled event, program and/or activity.

Online Requests:

- [English Accommodation Request Form](#)
- [Spanish Accommodation Request Form](#)

A summary of citizen comments on this action plan, along with City of Fort Worth responses, is in the Appendix of this document.

For more information, citizens can refer to City of Fort Worth citizen participation plan that can be found at

<https://www.fortworthtexas.gov/departments/neighborhoods/services/grants>

Public hearings

CDBG-DR21 grantees are required to convene at least one public hearing on the proposed action plan after it has published on its website to solicit public comment and before submittal of the action plan to HUD. The City hosted two Public Hearings - August 31, 2022 and December 28, 2022. Each Public Hearing was held at the E.M. Shamblee Library, 1062 Evans Avenue, Fort Worth, Texas 76104.

The public hearings were advertised in a number of ways including Public Notices, City of Fort Worth Neighborhood Services Department website, outreach to advisory boards, notices at community centers, and social media. Public notices were published in the Fort Worth Star-Telegram in English and Spanish.

During the term of the CDBG-DR21 grant, the City will provide residents and other interested parties with reasonable and timely access to information and records relating to this plan and the use of grant funds. This Action Plan and associated amendments and performance reports will be made available on the website, and upon request, from the Department. In addition, these documents are available in a form accessible to persons with disabilities and those with limited English proficiency, upon request.

Complaints

Complaints alleging violation of fair housing laws will be directed to HUD for immediate review. Complaints regarding fraud, waste, or abuse of funds will be forwarded to the HUD OIG Fraud Hotline (phone: 1-800-347-3735 or email: hotline@hudoig.gov). City of Fort Worth will make available to HUD detailed Fraud, Waste, and Abuse Policies and Procedures on <https://www.fortworthtexas.gov/departments/neighborhoods/services/grants> to demonstrate adequate procedures are in place to prevent fraud, waste, and abuse.

A complaint is a communication from a member of the public to a City official or employee which includes a concern or grievance regarding the operations of the City or any party acting on behalf of the City. There are two types of complaints, informal and formal. An informal complaint is done through verbal discussion (either through telephone calls or in-person) and are intended to resolve concerns at the earliest stage possible. Formal complaints are any written statement of grievance - including emails, faxes, or letters that provide contact information with which staff can communicate the results of an investigation or request additional information. Formal complaints are also those that were not able to be resolved informally and need an additional level of review.

Written complaints from the public related to this Action Plan (or its amendments), QPRs, or the City's activities or programs funded with CDBG-DR21, will receive careful

consideration and will be answered in writing, or other effective method of communication, within 15 business days, where practicable.

Written complaints should be sent to:

Kacey Bess
Neighborhood Services Director
City of Fort Worth Neighborhood Services Department
Kacey.Bess@fortworthtexas.gov

Complaints regarding fraud, waste, or abuse of government funds will be forwarded to the City of Fort Worth Law Department or the U.S. Department of Housing and Urban Development Office of Inspector General.

Public Website

City of Fort Worth will maintain a public website that provides information accounting for how all grant funds are used, managed, and administered, including links to all disaster recovery action plans, action plan amendments, program policies and procedures, performance reports, citizen participation requirements, and activity and program information described in this plan, and details of all contracts and ongoing procurement processes.

These items are made available through
www.fortworthtexas.gov/departments/neighborhoods/services/cdbg-disaster

Specifically, City of Fort Worth will make the following items available: the action plan created using DRGR (including all amendments); each QPR (as created using the DRGR system); citizen participation plan; procurement policies and procedures; all executed contracts that will be paid with CDBG-DR funds as defined in 2 CFR 200.22 (including subrecipients' contracts); and a summary including the description and status of services or goods currently being procured by the grantee or the subrecipient (e.g., phase of the procurement, requirements for proposals, etc.). Contracts and procurement actions that do not exceed the micro-purchase threshold, as defined in 2 CFR 200.67, are not required to be posted to a grantee's website.

In addition, City of Fort Worth will maintain a comprehensive website regarding all disaster recovery activities assisted with these funds.

The website will be updated in a timely manner to reflect the most up-to date information about the use of funds and any changes in policies and procedures, as necessary. At a minimum, updates will be made monthly.

Amendments

Over time, recovery needs will change. Thus, City of Fort Worth will amend the disaster recovery action plan as often as necessary to best address our long-term recovery needs and goals. This plan describes proposed programs and activities. As programs and activities develop overtime an amendment may not be triggered if the program or activity is consistent with the descriptions provided in this plan.

Amendments to this Action Plan are divided into two categories: Substantial amendments and non-substantial Amendments. As amendments occur, both types of amendments are numbered sequentially and posted on NSD's Disaster Recovery webpage, <https://fortworthtexas.gov/departments/neighborhoods/services/cdbg-disaster>. Copies of amendments are available upon request to: Sharon.Burkley@fortworthtexas.gov. Changes in amendments will be identified at the beginning of each amendment. The most current version of entire Action Plan will be accessible for viewing as a single document. Each amendment will have highlighted changes, and the beginning of amendments will include:

- Section identifying exactly what content is added, deleted, or changed
- Revised budget allocation table that reflects all funds and illustrates where funds are coming from and moving to, as amended and applicable
- Description of how amendment is consistent with the mitigation needs assessment

Substantial Amendment

A change to this action plan is considered to be a substantial amendment if it meets the following criteria:

- A change in program benefit or eligibility criteria,
- The addition or deletion of an activity, or
- The allocation or reallocation of 25% of the original budget allocation amount.

When City of Fort Worth pursues the substantial amendment process, the amendment will be posted here at www.fortworthtexas.gov/departments/neighborhoods/services/cdbg-disaster for a 30-day public comment period. The amendment will be posted in adherence with ADA and LEP requirements. City of Fort Worth will review and respond to all public comments received and submit to HUD for review.

Non-Substantial Amendment

A non-substantial amendment is an amendment to the plan that includes technical corrections and clarifications and budget changes that do not meet the monetary threshold for substantial amendments to the plan and does not require posting for public comment. City of Fort Worth will notify HUD five (5) business days before the change is

effective.

All amendments will be numbered sequentially and posted to the website into one final, consolidated plan.

Displacement of Persons and Other Entities

To minimize the displacement of persons and other entities that may be affected by the activities outlined in this action plan, City of Fort Worth will coordinate with all agencies and entities necessary to ensure that all programs are administered in accordance with the Uniform Relocation Assistance and Real Property Acquisition Policies Act (URA) of 1970, as amended (49 CFR Part 24) and Section 104(d) of the Housing and Community Development Act of 1974, as amended, and the implementing regulations at 24 CFR Part 570.496(a) to minimize displacement. Should any proposed projects or activities cause the displacement of people, the following policy has been adopted to ensure the requirements of the CDBG-DR program. CDBG-DR funds may not be used to support any federal, state, or local projects that seek to use the power of eminent domain, unless eminent domain is employed only for a public use. None of the currently planned projects under this Action Plan anticipate the use of eminent domain.

The City of Fort Worth has developed a Residential Anti-displacement and Relocation Assistance Plan (RARAP), scheduled to be submitted for City Council approval and adoption in December 2024. This Plan will be posted following approval.

Protection of People and Property

The City of Fort Worth will promote high quality, durable, energy efficient, sustainable, and mold resistant construction methods for residents impacted by the disaster. All newly constructed buildings must meet all locally adopted building codes, standards, and ordinances.

Elevation standards

For new construction, repair of substantially damaged, or substantial improvement structures principally for residential use and located in the 1 percent annual (or 100-year) floodplain must be elevated with the lowest flood, including the basement, at least two feet above the 1 percent annual floodplain elevation.

Mixed-use structures with no dwelling units and no residents must be elevated or floodproofed up to at least two feet above base flood elevation.

If a Critical Action, as defined at 24 CFR 55.2(b)(3), is located in a 500-year floodplain, the structure must be elevated three feet above the 100-year floodplain. A Critical Action is any activity for which even a slight chance of flooding would be too great, because such flooding might result in loss of life, injury to persons or damage to property. Examples of critical actions include hospitals, nursing homes, emergency shelters, police stations, fire stations, and principal utility lines. City of Fort Worth does not anticipate undertaking any

critical actions.

At a minimum, the City will adhere to the advanced elevation requirements established in section II.B.2.c of the Federal Register "Elevation standards for new construction, reconstruction, and rehabilitation of substantial damage, or rehabilitation resulting in substantial improvements." The average cost to elevate a home can vary significantly and is dependent upon the number of feet it must be elevated, the location of the home, and the square footage of the home. Program guidelines will determine the most cost reasonable method to adhere to elevation standards, particularly for elevating standards related to rehabilitation of substantial damage or rehabilitation resulting in substantial improvements. For housing rehabilitation programs, the maximum amount of assistance does not include additional allocations. The City of Fort Worth will ensure that all rehabilitation of substantial damage will meet the HUD-required elevation standards through the construction requirements of all CDBG-DR housing programs.

Flood Insurance Requirements

Assisted property owners must comply with all flood insurance requirements. HUD-assisted homeowners for a property located in a Special Flood Hazard Area must obtain and maintain flood insurance in the amount and duration prescribed by FEMA's National Flood Insurance Program (NFIP). City of Fort Worth may not provide disaster assistance for the repair, replacement or restoration of a property to a person who has received Federal flood disaster assistance that was conditioned on obtaining flood insurance and then that person failed to obtain or allowed their flood insurance to lapse for the property. City of Fort Worth is prohibited by HUD from providing CDBG-DR assistance for the rehabilitation or reconstruction of a house if:

- The combined household income is greater than 120% AMI or the national median,
- The property was located in a floodplain at the time of the disaster, and
- The property owner did not maintain flood insurance on the damaged property.

LMI homeowners who reside in a floodplain but who are unlikely to be able to afford flood insurance may receive CDBG- DR assistance if:

- The homeowner had flood insurance at the time of the qualifying disaster and still has unmet recovery needs, or
- The household earns less than 120% AMI or the national median and has unmet recovery needs.

The 2021 Winter Storm was not a flooding event; however, the City of Fort Worth is committed to ensuring that homeowners are protected from future flooding disasters.

Construction Standards

City of Fort Worth will require quality inspections and code compliance inspections on all projects and places an emphasis on high-quality, durable, sustainable, and energy efficient construction methods and materials. Site inspections will be required on all projects to ensure quality and compliance with building codes.

All rehabilitation, reconstruction, or new construction must meet an industry-recognized standard that has achieved certification under at least one of the following programs:

- Energy STAR (Certified Homes or Multifamily High Risk)
- Enterprise Green Communities
- LEED (New Construction, Homes, Midrise, Existing Building Operations and Maintenance or Neighborhood Development)
- ICC- 700 National Green Building Standards
- EPA Indoor AirPlus
- Any other equivalent comprehensive green building standard program acceptable to HUD

The City of Fort Worth will use the most updated local building and construction standards, including accessibility standards, for the proposed programs or activities.

For rehabilitation of non-substantially damaged residential buildings, the City of Fort Worth will follow the guidelines to the extent applicable as specified in the [HUD CPD Green Building Retrofit Checklist](#). When older or obsolete products are replaced as part of rehabilitation work, the rehabilitation is required to use ENERGY STAR-labeled, WaterSense-labeled, or Federal Energy Management Program (FEMP)-designed products and appliances.

All projects will be subject to cost reasonableness standards as outlined in the policies and procedures of the applicable programs specific to the applicable activity.

A substantially damaged structure means the damage sustained by a structure for which the cost of repair or restoration of the structure to its before-damaged condition would equal or exceed 50 percent of the market value of the structure. For this definition, the market value refers to the value of the structure immediately prior to the damage.

Contractors Standards

Contractors selected under the City of Fort Worth will make every effort to meet the project numeric benchmarks established by HUD to provide economic opportunities to low and very-low income persons by. The City of Fort Worth will undertake the following efforts to help meet its Section 3 goals:

- Ensure Section 3 requirements are in all applicable contracts and subrecipient (if applicable) agreements
- Build the capacity of stakeholders, including subrecipients (if applicable) and contractors, to meet Section 3 standards through technical assistance and guidance
- Conduct outreach to certify Section 3 businesses

The City of Fort Worth will report Section 3 accomplishments in the Disaster Recovery Grant Reporting (DRGR) system.

Recovery programs implemented by NSD, and its partners, will incorporate uniform best practices of construction standards for all construction contractors performing work in all relevant jurisdictions. Construction contractors will be required to carry the required licenses and insurance coverage(s) for all work performed and may be required to provide a warranty period for all work performed.

Contractor standards and warranty periods will be detailed in the respective guidelines, policies, and procedures documents and will pertain to the scale and type of work being performed, including the controls for ensuring that construction costs are reasonable and consistent with market costs at the time and place of construction. Rehabilitation contract work provided through a program administered by NSD included in this Action Plan may be appealed by homeowners whose property was repaired by contractors.

As included in the City's certifications, NSD is committed to meeting full and open competition requirements, which will help ensure that construction costs are reasonable and consistent with market costs at the time and place of construction.

The process for homeowners to submit appeals and complaints for rehabilitation work completed with CDBG-DR21 funds will be detailed within each respective set of program guidelines and on the CDBG-DR21 webpage.

Preparedness, Mitigation and Resiliency

Resilience is defined as a community's ability to minimize damage and recover quickly from extreme events and changing conditions, including natural hazard risks.

To integrate hazard mitigation and resilience planning with recovery efforts, NSD will continue to promote sound, sustainable, long-term recovery planning informed by post-disaster evaluation of hazard risk, including climate-related hazards, and the creation of resilience performance metrics.

For purposes of grants under this notice, mitigation activities are defined as those activities that increase resilience to disasters and reduce or eliminate the long-term risk of loss of life, injury, damage to and loss of property, and suffering and hardship, by lessening the impact of future disasters.

Protect People and Property from Harm

The CDBG-DR21 activities will include measures that will increase resilience to disasters and reduce or eliminate the long-term risk of life, injury, damage to and loss of property, and suffering and hardship by lessening the impact of future disasters. Hardships include, but are not limited to, financial hardship and hardship caused by future disasters and climate change. NSD will document how programs and activities protect people and property from hardship within program and/or applicant files.

Emphasize Quality, Durability, Energy Efficiency, Sustainability, and Mold Resistance

NSD's construction related activities include construction standards incorporating resilience and hazard mitigation measures, as feasible. This Action Plan aligns with the City's existing hazard mitigation plan. In addition, mitigation measures will be incorporated when carrying out activities to construct or rehabilitate residential or non-residential structures with CDBG-DR funds.

For construction activities related to residential or non-residential structures, NSD will establish resilience performance metrics for the activity including:

- An estimate of the projected risk to the completed activity from natural hazards, including those hazards that are influenced by climate change.
- Identification of the mitigation measures that will address the projected risks.
- An assessment of the benefit of the grantee's measures through verifiable data.

Support Adoption and Enforcement of Modern and/or Resilient Building Codes and the Mitigation of Natural Hazards

NSD is supporting the modernization efforts for building codes to help make Fort Worth a more resilient city for its residents. NSD will work closely with other city departments to review and recommend updates to the code.

Establish and Support Recovery Efforts by Funding Feasible, Cost-Effective Measures That Will Make Communities More Resilient Against Future Disaster

The City of Fort Worth shall use funds in a way that addresses:

- The risks to public health, safety, and well-being without the project or program
- The costs against the anticipated value of the risk reduction in both direct damages and subsequent negative impacts to the area if future disasters were to occur
- The contribution of the activity to a long-term solution to the problem it is intending to address
- How the activity will protect the functionality of the project for its useful life and/or create management future maintenance and modification options

Make Land Use Decisions that Reflect Responsible and Safe Standards to Reduce Future Natural Hazard Risks

The City of Fort Worth has zoning and other building requirements that help reduce risks of impact and damage due to future hazards and disasters.

Increase Awareness of the Hazards in Communities Including Underserved

Communities, Through Outreach in the MID Areas

As a MID area, the City shares information with residents and businesses through local, trusted partners to effectively increase the awareness of community hazards. The Office of Emergency Management (OEM) regularly communicates directly with the public and through non-profit organizations, including before, during, and after disasters. OEM has free materials and actively makes presentations to the public about disaster preparedness.

Promote Sound, Sustainable Long-Term Recovery Planning Informed by a Post-Disaster Evaluation of Natural Hazard Risks

The City of Fort Worth is allocating the CDBG-DR21 mitigation set-aside funding to \$4,083,000.00.

FEMA-Approved Hazard Mitigation Plan

Fort Worth's Office of Emergency Management is the lead agency for developing the City's FEMA-approved Hazard Mitigation Plan. The City's Hazard Mitigation Plan informs the larger landscape of disaster recovery planning. This Action Plan utilizes the City's Hazard Mitigation Plan to inform its mitigation needs assessment. The most recently updated Plan can be found at:

https://www.tarrantcountytx.gov/content/dam/main/administration/2020TarrantCountyHazardMitigationPlan_APA.pdf

Broadband Infrastructure in Housing. Any substantial rehabilitation or new construction of a building with more than four (4) rental units will include installation of broadband infrastructure, except when:

- The location of the new construction or substantial rehabilitation makes the broadband infrastructure infeasible,
- The cost of installing broadband infrastructure would result in a fundamental alteration in the nature of its program or activity or in an undue financial burden, or
- The structure of the housing to be substantially rehabilitated makes installation of broadband infrastructure infeasible.

Cost-Effectiveness

NSD will establish policies and procedures to assess the cost-effectiveness of each proposed program or activity to assist a household under any residential rehabilitation program or activity funded with CDBG-DR funds. Policies and procedures also will establish the criteria for determining when the cost of the rehabilitation of the unit will not be cost-effective relative to other means of assisting the property owner.

NSD will define "demonstrable hardship" in its policies and procedures before carrying

out activities that may involve waivers under 104(d) of the Housing and Community Development Act of 1974.

NSD will define a residential property as "not suitable for rehabilitation" in its policies and procedures before carrying out activities that may be subject to the one-for-one replacement housing requirements.

Exceptions to award maximums on a case-by-case basis may apply to applicants with a demonstrable hardship as defined in program guidelines. If applicable, program guidelines will describe the circumstances in which an exception is needed and will be reviewed and the amount of assistance necessary and reasonable. Exceptions defined in the guidelines could include items such as neighborhood or environmental conditions. NSD may make exceptions to the maximum award, when necessary, to comply with federal accessibility standards or to reasonably accommodate a person with disabilities. All exceptions to award limitations are subject to grant fund availability.

Duplication of Benefits

Section 312 of the Stafford Act, as amended, generally prohibits any person, business concern, or other entity from receiving financial assistance with respect to any part of a loss resulting from a major disaster for which such person, business concern, or other entity has received financial assistance under any other program or from insurance or any other source. A duplication of benefits occurs when an impacted homeowner or community receives financial assistance from multiple sources, such as FEMA, insurance, etc. for a cumulative amount that exceeds the total need for a particular unmet need or mitigation purpose. Through its guidelines, policies and procedures, City of Fort Worth, and any subrecipients as applicable, will determine an applicant's unmet need to ensure that each activity aids a person or entity only to the extent that the person or entity has a disaster recovery need that has not been fully met. Further requirements of duplication of benefits are outlined in 84 FR28836 and 84 FR 28848, published June 20, 2019, and other applicable notices.

All agreements between NSD and beneficiaries (and subrecipients, if applicable) require all sources of possible duplicative assistance to be disclosed. Additionally, a subrogation clause contained in these agreements requires any person who receives further assistance to repay that assistance, if the amount of assistance exceeds the funding required for the project.

GRANTEE PROPOSED USE OF FUNDS

Overview

The City of Fort Worth is the lead agency and responsible entity for administering Disaster Relief Supplemental Appropriations Act, 2022 (PL 117-43) and the Continuing Appropriations Act, 2023 (PL\$2117-180) in CDBG-DR funds allocated for disaster recovery. These programs included Single Family Home Repair and Rehabilitation

Multifamily Home Rehabilitation, Multifamily New Construction, Mitigation, Planning, and Administration.

Based on the preliminary unmet needs' assessment using currently available data and input from impacted communities and stakeholders in Fort Worth, the City of Fort Worth has prioritized activities that will assist in meeting the short- and long-term recovery needs of its residents and communities and increase resilience against climate impacts. The initial analysis indicates unmet need in two core recovery categories defined by HUD: housing and mitigation. The largest recovery need is housing.

The City of Fort Worth intends to utilize CDBG-DR funding to support multiple recovery programs that complement each other. Further, by implementing resilience measures across programs, the City aims to facilitate an equitable recovery that results in not only repairing impact from the 2021 Winter Storm but fund a recovery leading to a community that can better withstand the impacts of future disasters.

Table 20: 2021 CDBG-DR Proposed Program Budget

Program Category	Program	Budget	National Objective	\$ LMI Restricted	% of Allocation	Maximum Award
Housing	Single Family Rehabilitation/	\$6,795,400.00	100% LMH	\$6,795,400.00	24.74%	\$150,000.00
Housing	Multifamily Rehabilitation/ New Construction	\$15,000,000.00	100% LMI	\$15,000,000.00	54.60%	\$3,000,000.00
Mitigation	Mitigation	\$4,083,000.00	100% LMA	\$4,083,000.00	14.86%	N/A
Administration	Administration	\$1,373,600.00	N/A	N/A	5.00%	N/A
Planning	Planning	\$220,000.00	N/A	N/A	0.80%	N/A
Total		\$27,472,000.00	77.82% LMI	\$21,378,400.00	100.00%	

Data Source(s): City of Fort Worth Neighborhood Services Department

Connection to Unmet Needs

This action plan primarily considers and addresses unmet needs of residents, including homeowners and renters, through housing unmet recovery and mitigation needs, along with administration and planning that support housing and residents finding and maintaining housing. NSD's unmet needs assessment agrees with the most impacted and distressed information used by HUD. No further restrictions within Fort Worth are required to primarily serve urgent need and LMI households or projects as the City has restricted program fund uses to serve those needs.

At least 70 percent of all program funds will benefit LMI persons or households. All of the programs funded with CDBG-DR are limited to benefitting low- and moderate-income persons or have allocated only a portion of program funds to serve residents earning above 80% of the area median income. NSD will meet HUD's requirement of at least 70% of all program funds expended to benefit LMI persons or households. The NSD budget table demonstrates what percentage and how much of each activity is targeted to serve LMI households. For owner-occupied homes and multifamily housing programs, a 100% LMH participation is anticipated and prioritized.

Maximum Award: annually per subrecipient; \$150,000.00 for individual household awards, based on need; \$3,000,000.00 for multifamily property owners. Eligible Applicants: Individual owners of single-family homes. Subrecipients may include homeowners, units of general local government, nonprofits, housing authorities, or urban renewal authorities with experience in affordable housing development, an existing network, and capacity.

Targeted Beneficiaries: Households impacted by the Storm with priority given to households directly impacted and to persons with disabilities, seniors, and veterans. Household income must be at or below 80% AMI for at least 70% of beneficiaries served.

National Objective: Low- and Moderate-Income

Leveraging Funds

The City of Fort Worth anticipates leveraging CDBG-DR funds with funding provided by other federal, state, local and nonprofit sources to fully utilize the limited CDBG-DR funds to generate a more effective and comprehensive recovery. As applicable, leveraging requirements may be added to program guidelines, applications, or NOFA/RFPs.

Program Partners

NSD may engage program partners through formal agreements such as subrecipient agreements and interagency agreements and through informal partnerships. NSD engages with program partners so that programs are more accessible, understandable, and tailored to equitably meet the unmet needs of the disaster-impacted residents and communities. When formally engaging through agreements, NSD will ensure that

subrecipients and other partners have the capacity and will provide technical assistance and training to partners on program requirements, applicable federal cross-cutting requirements, and reporting and performance requirements.

Distribution of Funds

It is a requirement of CDBG-DR Grantees to describe how they will distribute grant funds to local governments and Indian tribes. The City of Fort Worth will manage the owner-occupied repair program directly, but will work through developer proposals and/or other agencies and subrecipient nonprofits for the remaining program activities.

Program Income

Program income are earnings realized from CDBG-DR funded activities and may include such items as loan repayments, proceeds from sale of property, and lien repayment.

NSD does not plan to implement programs or activities that generate income as described in 87 FR 31636.

Program Details

The following provides details about the activities and programs NSD will implement using CDBG-DR funds to address impacts from the 2021 Winter Storm and increase resilience in Fort Worth.

Planning

Planning activities will support the development and management of the Action Plan for Disaster Recovery 2021 Winter Storm Uri. Activities will include community engagement to inform the City's plan development. The City may also use these funds to study specific topics related to mitigation or resilience. Planning activities will strive to promote sound, sustainable long-term recovery planning informed by a post-disaster evaluation of hazard risk, especially land-use decisions that reflect responsible floodplain management and consider future possible extreme weather events and other natural hazards and long-term risks.

Total Planning Budget: \$220,000.00

Eligible and Ineligible Activities: Eligible expenses are planning, urban environment design, and policy-planning management-capacity building activities as listed in 24 CFR 570.205

Timeframe: The City began the program before the grant was awarded and is prepared to complete the program within the period of performance. The program will end when all funds have been expended and program activities have completed closeout or six years after execution of the grant agreement with HUD.

Administration

NSD will use administration funds for necessary general administration costs related to CDBG-DR grant, including but not limited to staff time and effort administering programs, compliance, and monitoring of the City's subrecipients, vendors, other recipients and beneficiaries of funding; and other costs specified as eligible administrative expenses in 2 CFR 570.206. Up to 5% of the overall grant and any program income may be used for administration of the grant.

Total Administration Budget: \$1,373,600.00

Eligible and Ineligible Activities: Eligible expenses are Administration Costs, as defined at 24 CFR 570.205 and 24 CFR 570.206 and any applicable waivers or alternative requirements.

Timeframe: The City will begin the program after the grant is awarded and is prepared to complete the program within the period of performance. The program will end when all funds have been expended and program activities have completed closeout or six years after execution of the grant agreement with HUD.

Mitigation Activities

Mitigation activities that increase resilience to future disasters and reduce or eliminate the long-term risk of loss of life, injury, damage to and loss of property, and suffering and hardship; proactively addressing the impacts of climate change and natural disasters is critical to building long-term community resilience.

National Objective: LMA Benefit; Urgent Need

Selection Criteria/Award Methodology: The City will improve energy resilience through the installation of commercial generators at the following City of Fort Worth community centers:

- Handley-Meadowbrook Community Center (CD5)
6201 Beaty St.
Fort Worth, Texas 76112
- Riverside Community Center (CD11)
3700 E. Belknap St.
Fort Worth, Texas 76111
- Worth Heights Community Center (CD11)
3551 New York Avenue
Fort Worth, Texas 76110

Additional funds are recommended for initiatives aimed at readiness for critical street operations storm response. The total budget includes activity delivery expenses.

Total Mitigation Budget: \$4,083,000.00

Housing Activities

1. Housing Activity – Single Family Rehabilitation

Single Family housing rehabilitation activities that lead to restoring and improving the housing stock. Resilience measures, such as power generation and/or storage enhancements will be incorporated when feasible. The City may administer this program directly or offer this program through subrecipients or other program partners. The total budget includes activity delivery expenses. Further program description is located with the Rehabilitation Policy and Procedure Manual located online at [Fort Worth CDBG Disaster Recovery Grant](#) or by contacting NSD.

Total Single-Family Housing Budget: \$6,795,400

National Objective: LMI Benefit

Maximum Award Assistance: up to \$150,000

Estimated number of beneficiaries to be served: 50-70

Timeframe: The City is prepared to complete the program within the established period of performance allowable under this grant. The program will end when all funds have been expended and program activities have completed closeout or six years after execution of the grant agreement with HUD.

2. Multifamily Property Repairs/Rehabilitation/New Construction (Affordable Rental Housing)

Multifamily housing activities, that lead to restoring and improving the housing stock. Resilience measures such as power generation and/or storage enhancements will be incorporated when feasible. The City may administer this program directly or offer this program through subrecipients or other program partners. The total budget includes activity delivery expenses. Further program description is located with the Rehabilitation Policy and Procedure Manual located online at [Fort Worth CDBG Disaster Recovery Grant](#) or by contacting NSD.

Total Multifamily Affordable Rental Housing Budget: \$15,000,000

Maximum Award Assistance per project: \$3,000,000

Estimated number of LMI apartments to be served: 500-650

National Objective: LMI Benefit

Timeframe: The City is prepared to complete the program within the established period of performance allowable under this grant. The program will end when all funds have

been expended and program activities have completed closeout or six years after execution of the grant agreement with HUD.

Public reporting burden for this collection of information is estimated to average 15 minutes per response, including time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding the burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to the Office of Management and Budget, Paperwork Reduction Project (0348-0042), Washington, DC 20503.

PLEASE DO NOT RETURN YOUR COMPLETED FORM TO THE OFFICE OF MANAGEMENT AND BUDGET. SEND IT TO THE ADDRESS PROVIDED BY THE SPONSORING AGENCY.

NOTE: Certain of these assurances may not be applicable to your project or program. If you have questions, please contact the Awarding Agency. Further, certain Federal assistance awarding agencies may require applicants to certify to additional assurances. If such is the case, you will be notified.

As the duly authorized representative of the applicant, I certify that the applicant:

1. Has the legal authority to apply for Federal assistance, and the institutional, managerial and financial capability (including funds sufficient to pay the non-Federal share of project costs) to ensure proper planning, management and completion of project described in this application.
2. Will give the awarding agency, the Comptroller General of the United States and, if appropriate, the State, the right to examine all records, books, papers, or documents related to the assistance; and will establish a proper accounting system in accordance with generally accepted accounting standards or agency directives.
3. Will not dispose of, modify the use of, or change the terms of the real property title or other interest in the site and facilities without permission and instructions from the awarding agency. Will record the Federal awarding agency directives and will include a covenant in the title of real property acquired in whole or in part with Federal assistance funds to assure non-discrimination during the useful life of the project.
4. Will comply with the requirements of the assistance awarding agency with regard to the drafting, review and approval of construction plans and specifications.
5. Will provide and maintain competent and adequate engineering supervision at the construction site to ensure that the complete work conforms with the approved plans and specifications and will furnish progressive reports and such other information as may be required by the assistance awarding agency or State.
6. Will initiate and complete the work within the applicable time frame after receipt of approval of the awarding agency.
7. Will establish safeguards to prohibit employees from using their positions for a purpose that constitutes or presents the appearance of personal or organizational conflict of interest, or personal gain.
8. Will comply with the Intergovernmental Personnel Act of 1970 (42 U.S.C. §§4728-4763) relating to prescribed standards of merit systems for programs funded under one of the 19 statutes or regulations specified in Appendix A of OPM's Standards for a Merit System of Personnel Administration (5 C.F.R. 900, Subpart F).
9. Will comply with the Lead-Based Paint Poisoning Prevention Act (42 U.S.C. §§4801 et seq.) which prohibits the use of lead-based paint in construction or rehabilitation of residence structures.
10. Will comply with all Federal statutes relating to non-discrimination. These include but are not limited to: (a) Title VI of the Civil Rights Act of 1964 (P.L. 88-352) which prohibits discrimination on the basis of race, color or national origin; (b) Title IX of the Education Amendments of 1972, as amended (20 U.S.C. §§1681 1683, and 1685-1686), which prohibits discrimination on the basis of sex; (c) Section 504 of the Rehabilitation Act of 1973, as amended (29 U.S.C. §794), which prohibits discrimination on the basis of handicaps; (d) the Age Discrimination Act of 1975, as amended (42 U.S.C. §§6101-6107), which prohibits discrimination on the basis of age; (e) the Drug Abuse Office and Treatment Act of 1972 (P.L. 92-255), as amended relating to nondiscrimination on the basis of drug abuse; (f) the Comprehensive Alcohol Abuse and Alcoholism Prevention, Treatment and Rehabilitation Act of 1970 (P.L. 91-616), as amended, relating to nondiscrimination on the basis of alcohol abuse or alcoholism; (g) §§523 and 527 of the Public Health Service Act of 1912 (42 U.S.C. §§290 dd-3 and 290 ee 3), as amended, relating to confidentiality of alcohol and drug abuse patient records; (h) Title VIII of the Civil Rights Act of 1968 (42 U.S.C. §§3601 et seq.), as amended, relating to nondiscrimination in the sale, rental or financing of housing; (i) any other nondiscrimination provisions in the specific statute(s) under which application for Federal assistance is being made; and (j) the requirements of any other nondiscrimination statute(s) which may apply to the application.

Assurances – Construction Programs, Page 2

11. Will comply, or has already complied, with the requirements of Titles II and III of the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970 (P.L. 91-646) which provide for fair and equitable treatment of persons displaced or whose property is acquired as a result of Federal and federally-assisted programs. These requirements apply to all interests in real property acquired for project purposes regardless of Federal participation in purchases.
12. Will comply with the provisions of the Hatch Act (5 U.S.C. §§1501-1508 and 7324-7328) which limit the political activities of employees whose principal employment activities are funded in whole or in part with Federal funds.
13. Will comply, as applicable, with the provisions of the Davis-Bacon Act (40 U.S.C. §§276a to 276a-7), the Copeland Act (40 U.S.C. §276c and 18 U.S.C. §874), and the Contract Work Hours and Safety Standards Act (40 U.S.C. §§327-333) regarding labor standards for federally-assisted construction subagreements.
14. Will comply with flood insurance purchase requirements of Section 102(a) of the Flood Disaster Protection Act of 1973 (P.L. 93-234) which requires recipients in a special flood hazard area to participate in the program and to purchase flood insurance if the total cost of insurable construction and acquisition is \$10,000 or more.
15. Will comply with environmental standards which may be prescribed pursuant to the following: (a) institution of environmental quality control measures under the National Environmental Policy Act of 1969 (P.L. 91-190) and Executive Order (EO) 11514; (b) notification of violating facilities pursuant to EO 11738; (c) protection of wetlands pursuant to EO 11990; (d) evaluation of flood hazards in floodplains in accordance with EO 11988; (e) assurance of project consistency with the approved State management program developed under the Coastal Zone Management Act of 1972 (16 U.S.C. §§1451 et seq.); (f) conformity of Federal actions to State (Clean Air) implementation Plans under Section 176(c) of the Clean Air Act of 1955, as amended (42 U.S.C. §§7401 et seq.); (g) protection of underground sources of drinking water under the Safe Drinking Water Act of 1974, as amended (P.L. 93-523); and, (h) protection of endangered species under the Endangered Species Act of 1973, as amended (P.L. 93-205).
16. Will comply with the Wild and Scenic Rivers Act of 1968 (16 U.S.C. §§1271 et seq.) related to protecting components or potential components of the national wild and scenic rivers system.
17. Will assist the awarding agency in assuring compliance with Section 106 of the National Historic Preservation Act of 1966, as amended (16 U.S.C. §470), EO 11593 (identification and protection of historic properties), and the Archaeological and Historic Preservation Act of 1974 (16 U.S.C. §§469a-1 et seq.).
18. Will cause to be performed the required financial and compliance audits in accordance with the Single Audit Act Amendments of 1996 and OMB Circular No. A-133, "Audits of States, Local Governments, and Non-Profit Organizations."
19. Will comply with all applicable requirements of all other Federal laws, executive orders, regulations, and policies governing this program.
20. Will comply with the requirements of Section 106(g) of the Trafficking Victims Protection Act (TVPA) of 2000, as amended (22 U.S.C. 7104) which prohibits grant award recipients or a sub-recipient from (1) Engaging in severe forms of trafficking in persons during the period of time that the award is in effect (2) Procuring a commercial sex act during the period of time that the award is in effect or (3) Using forced labor in the performance of the award or subawards under the award.

ASSURANCES - NON-CONSTRUCTION PROGRAMS

Public reporting burden for this collection of information is estimated to average 15 minutes per response, including time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding the burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to the Office of Management and Budget, Paperwork Reduction Project (0348-0040), Washington, DC 20503.

PLEASE DO NOT RETURN YOUR COMPLETED FORM TO THE OFFICE OF MANAGEMENT AND BUDGET. SEND IT TO THE ADDRESS PROVIDED BY THE SPONSORING AGENCY.

NOTE: Certain of these assurances may not be applicable to your project or program. If you have questions, please contact the awarding agency. Further, certain Federal awarding agencies may require applicants to certify to additional assurances. If such is the case, you will be notified.

As the duly authorized representative of the applicant, I certify that the applicant:

1. Has the legal authority to apply for Federal assistance and the institutional, managerial and financial capability (including funds sufficient to pay the non-Federal share of project cost) to ensure proper planning, management and completion of the project described in this application.
2. Will give the awarding agency, the Comptroller General of the United States and, if appropriate, the State, through any authorized representative, access to and the right to examine all records, books, papers, or documents related to the award; and will establish a proper accounting system in accordance with generally accepted accounting standards or agency directives.
3. Will establish safeguards to prohibit employees from using their positions for a purpose that constitutes or presents the appearance of personal or organizational conflict of interest, or personal gain.
4. Will initiate and complete the work within the applicable time frame after receipt of approval of the awarding agency.
5. Will comply with the Intergovernmental Personnel Act of 1970 (42 U.S.C. §§4728-4763) relating to prescribed standards for merit systems for programs funded under one of the 19 statutes or regulations specified in Appendix A of OPM's Standards for a Merit System of Personnel Administration (5 C.F.R. 900, Subpart F).
6. Will comply with all Federal statutes relating to nondiscrimination. These include but are not limited to: (a) Title VI of the Civil Rights Act of 1964 (P.L. 88-352) which prohibits discrimination on the basis of race, color or national origin; (b) Title IX of the Education Amendments of 1972, as amended (20 U.S.C. §§1681-1683, and 1685-1686), which prohibits discrimination on the basis of sex; (c) Section 504 of the Rehabilitation Act of 1973, as amended (29 U.S.C. §794), which prohibits discrimination on the basis of handicaps; (d) the Age Discrimination Act of 1975, as amended (42 U.S.C. §§6101-6107), which prohibits discrimination on the basis of age; (e) the Drug Abuse Office and Treatment Act of 1972 (P.L. 92-255), as amended, relating to nondiscrimination on the basis of drug abuse; (f) the Comprehensive Alcohol Abuse and Alcoholism Prevention, Treatment and Rehabilitation Act of 1970 (P.L. 91-616), as amended, relating to nondiscrimination on the basis of alcohol abuse or alcoholism; (g) §§523 and 527 of the Public Health Service Act of 1912 (42 U.S.C. §§290 dd-3 and 290 ee-3), as amended, relating to confidentiality of alcohol and drug abuse patient records; (h) Title VIII of the Civil Rights Act of 1968 (42 U.S.C. §§3601 et seq.), as amended, relating to nondiscrimination in the sale, rental or financing of housing; (i) any other nondiscrimination provisions in the specific statute(s) under which application for Federal assistance is being made; and, (j) the requirements of any other nondiscrimination statute(s) which may apply to the application.
7. Will comply, or has already complied, with the requirements of Titles II and III of the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970 (P.L. 91-646) which provide for fair and equitable treatment of persons displaced or whose property is acquired as a result of Federal or federally-assisted programs. These requirements apply to all interests in real property acquired for project purposes regardless of Federal participation in purchases.
8. Will comply, as applicable, with provisions of the Hatch Act (5 U.S.C. §§1501-1508 and 7324-7328) which limit the political activities of employees whose principal employment activities are funded in whole or in part with Federal funds.

12. Will comply with the Wild and Scenic Rivers Act of 1968 (16 U.S.C. §§1271 et seq.) related to protecting components or potential components of the national wild and scenic rivers system.
13. Will assist the awarding agency in assuring compliance with Section 106 of the National Historic Preservation Act of 1966, as amended (16 U.S.C. §470), EO 11593 (identification and protection of historic properties), and the Archaeological and Historic Preservation Act of 1974 (16 U.S.C. §§469a-1 et seq.).
14. Will comply with P.L. 93-348 regarding the protection of human subjects involved in research, development, and related activities supported by this award of assistance.
15. Will comply with the Laboratory Animal Welfare Act of 1966 (P.L. 89-544, as amended, 7 U.S.C. §§2131 et seq.) pertaining to the care, handling, and treatment of warm blooded animals held for research, teaching, or other activities supported by this award of assistance.
16. Will comply with the Lead-Based Paint Poisoning Prevention Act (42 U.S.C. §§4801 et seq.) which prohibits the use of lead-based paint in construction or rehabilitation of residence structures.
17. Will cause to be performed the required financial and compliance audits in accordance with the Single Audit Act Amendments of 1996 and OMB Circular No. A-133, "Audits of States, Local Governments, and Non-Profit Organizations."
18. Will comply with all applicable requirements of all other Federal laws, executive orders, regulations, and policies governing this program.
19. Will comply with the requirements of Section 106(g) of the Trafficking Victims Protection Act (TVPA) of 2000, as amended (22 U.S.C. 7104) which prohibits grant award recipients or a sub-recipient from (1) Engaging in severe forms of trafficking in persons during the period of time that the award is in effect (2) Procuring a commercial sex act during the period of time that the award is in effect or (3) Using forced labor in the performance of the award or subawards under the award.

Standard Form 424B (Rev. 7-97) Back

Certifications, Page 1

Certifications

- a. The grantee certifies that it has in effect and is following a residential anti-displacement and relocation assistance plan (RARAP) in connection with any activity assisted with CDBG–DR grant funds that fulfills the requirements of Section 104(d), 24 CFR part 42, and 24 CFR part 570, as amended by waivers and alternative requirements.
- b. The grantee certifies its compliance with restrictions on lobbying required by 24 CFR part 87, together with disclosure forms, if required by part 87.
- c. The grantee certifies that the action plan for disaster recovery is authorized under state and local law (as applicable) and that the grantee, and any entity or entities designated by the grantee, and any contractor, subrecipient, or designated public agency carrying out an activity with CDBG–DR funds, possess(es) the legal authority to carry out the program for which it is seeking funding, in accordance with applicable HUD regulations as modified by waivers and alternative requirements.
- d. The grantee certifies that activities to be undertaken with CDBG–DR funds are consistent with its action plan.
- e. The grantee certifies that it will comply with the acquisition and relocation requirements of the URA, as amended, and implementing regulations at 49 CFR part 24, as such requirements may be modified by waivers or alternative requirements.
- f. The grantee certifies that it will comply with section 3 of the Housing and Urban Development Act of 1968 (12 U.S.C. 1701u) and implementing regulations at 24 CFR part 75.
- g. The grantee certifies that it is following a detailed citizen participation plan that satisfies the requirements of 24 CFR 91.115 or 91.105 (except as provided for in waivers and alternative requirements). Also, each local government receiving assistance from a state grantee must follow a detailed citizen participation plan that satisfies the requirements of 24 CFR 570.486 (except as provided for in waivers and alternative requirements).
- h. State grantee certifies that it has consulted with all disaster-affected local governments (including any CDBG entitlement grantees), Indian tribes, and any local public housing authorities in determining the use of funds, including the method of distribution of funding, or activities carried out directly by the state.
- i. The grantee certifies that it is complying with each of the following criteria:
 1. Funds will be used solely for necessary expenses related to disaster relief, long-term recovery, restoration of infrastructure and housing, economic revitalization, and mitigation in the most impacted and distressed areas for which the President declared a major disaster pursuant to the Robert T. Stafford Disaster Relief and Emergency Assistance Act of 1974 (42 U.S.C. 5121 et seq.).
 2. With respect to activities expected to be assisted with CDBG–DR funds, the action plan has been developed so as to give the maximum feasible priority to activities that will benefit low- and moderate-income families.
 3. The aggregate use of CDBG–DR funds shall principally benefit low- and moderate income families in a manner that ensures that at least 70 percent (or another percentage permitted by HUD in a waiver) of the grant amount is expended for activities that benefit such persons.
 4. The grantee will not attempt to recover any capital costs of public improvements assisted with CDBG–DR grant funds, by assessing any amount against properties

Certifications, Page 2

- owned and occupied by persons of low- and moderate-income, including any fee charged or assessment made as a condition of obtaining access to such public improvements, unless:
- a. Disaster recovery grant funds are used to pay the proportion of such fee or assessment that relates to the capital costs of such public improvements that are financed from revenue sources other than under this title; or
 - b. for purposes of assessing any amount against properties owned and occupied by persons of moderate income, the grantee certifies to the Secretary that it lacks sufficient CDBG funds (in any form) to comply with the requirements of clause (a).
- j. State and local government grantees certify that the grant will be conducted and administered in conformity with title VI of the Civil Rights Act of 1964 (42 U.S.C. 2000d), the Fair Housing Act (42 U.S.C. 3601–3619), and implementing regulations, and that it will affirmatively further fair housing. An Indian tribe grantee certifies that the grant will be conducted and administered in conformity with the Indian Civil Rights Act.
 - k. The grantee certifies that it has adopted and is enforcing the following policies, and, in addition, state grantees must certify that they will require local governments that receive their grant funds to certify that they have adopted and are enforcing: (1) A policy prohibiting the use of excessive force by law enforcement agencies within its jurisdiction against any individuals engaged in nonviolent civil rights demonstrations; and (2) A policy of enforcing applicable state and local laws against physically barring entrance to or exit from a facility or location that is the subject of such nonviolent civil rights demonstrations within its jurisdiction.
 - l. The grantee certifies that it (and any subrecipient or administering entity) currently has or will develop and maintain the capacity to carry out disaster recovery activities in a timely manner and that the grantee has reviewed the requirements applicable to the use of grant funds.
 - m. The grantee certifies to the accuracy of its Financial Management and Grant Compliance Certification Requirements, or other recent certification submission, if approved by HUD, and related supporting documentation as provided in section III.A.1. of the Consolidated Notice and the grantee's implementation plan and related submissions to HUD as provided in section III.A.2. of the Consolidated Notice.
 - n. The grantee certifies that it will not use CDBG–DR funds for any activity in an area identified as flood prone for land use or hazard mitigation planning purposes by the state, local, or tribal government or delineated as a Special Flood Hazard Area (or 100-year floodplain) in FEMA's most current flood advisory maps, unless it also ensures that the action is designed or modified to minimize harm to or within the floodplain, in accordance with Executive Order 11988 and 24 CFR part 55. The relevant data source for this provision is the state, local, and tribal government land use regulations and hazard mitigation plans and the latest-issued FEMA data or guidance, which includes advisory data (such as Advisory Base Flood Elevations) or preliminary and final Flood Insurance Rate Maps.
 - o. The grantee certifies that its activities concerning lead-based paint will comply with the requirements of 24 CFR part 35, subparts A, B, J, K, and R.
 - p. The grantee certifies that it will comply with environmental requirements at 24 CFR part 58.

Certifications, Page 3

- q. The grantee certifies that it will comply with the provisions of title I of the HCDA and with other applicable laws.

Warning: Any person who knowingly makes a false claim or statement to HUD may be subject to civil or criminal penalties under 18 U.S.C. 287, 1001, and 31 U.S.C. 3729.
