

Introducing FWACC's New Community Intake Program

A new approach to animal surrender with a focus on providing resources and support.

Adopt | Foster | Volunteer | Donate

SPAY NEUTER
NETWORK

Together, we can ensure that every pet receives the care and attention they need ...
from shelter to forever home.

Fort Worth Animal Care & Control, in collaboration with Spay Neuter Network, is proud to launch our new Community Intake Program. The program soft-launches March 25, with full rollout by April 1.

- **What is community intake?** It's a **compassionate and proactive approach** to managing animal surrenders within our city that focuses on getting people the resources they need to keep their pets or redirecting them to rehoming opportunities.
- **The appointment-based system** allows us to **efficiently manage resources** and ensure that every animal receives the **attention and care** they deserve.
- The program emphasizes **collaboration, support and resourcefulness** to **enhance the well-being** of pets in our care.
- Our mission is to **keep pets and people together**, and **this program** reflects our dedication to preserving the **invaluable bond** between animals and their families.
