BRIEF DESCRIPTION OF PROPOSAL (Attach separate sheet if needed)

COMPLETE APPLICABLE QUESTIONS:

1. Total drainage area of watercourse _____ acres.
2. Regulatory flood elev. _____ Not available.
3. Has site previously flooded? Yes No
4. Is site subject to flooding? Yes No
5. Is safe access available during times of flood? Yes No Unknown
6. Is the proposal within the designated floodway? Yes No Unknown
7. Have all necessary prior approval permits been obtained from federal, state or local governmental agencies? None Required
 Yes No (If no, explain; if yes, provide copies of approval letters or permits.)

ATTACH THE FOLLOWING IF APPLICABLE:

1. Two (2) sets scale drawings showing location, dimensions, elevations of existing and proposed topographic alterations, existing and proposed structures, location relative to floodplain area.
2. Extent to which watercourse or natural drainage will be altered or relocated.
3. Supporting hydraulic calculations, reports, etc., used as a basis for proposed improvements.
4. Lowest floor elevation (including basement) of all proposed structures.
5. Elevation to which any non-residential structure shall be flood proofed.
6. Certification by registered professional engineer or architect that flood proofing criteria are met as set forth in Section 7-347, Sub-Section b, Ordinance No. 11998.

DURING THE OCCURRENCE OF A 100-YEAR FREQUENCY FLOOD WILL THE PROPOSAL:	Yes	No	Info. Not Available
1. Reduce capacity of channels/floodways/watercourse in floodplain area?			
2. Measurably increase flood flows/heights/damage on off-site properties?			
3. Individually or combined with other existing or anticipated development expose adjacent properties to adverse flood effects?			
4. Increase velocities/volumes of flood waters sufficiently to create significant erosion of floodplain soils on subject property or adjacent property upstream/downstream?			
5. Encroach on floodway causing increase in flood levels?			
6. Provide compensatory storage for any measurable loss of flood storage capacity?			

FLOODPLAIN DEVELOPMENT PERMIT

The City of Fort Worth's Floodplain Permit Program is authorized by Section 7-318 of City Ordinance No. 11998, adopted June 13, 1995. This permit is required for all development taking place within the area of the 100-year floodplain (special flood hazard areas) as shown on the current Flood Insurance Rate Maps and Flood Boundary-Floodway Maps, published by the Federal Emergency Management Agency (FEMA). These maps are available for public inspection in the Engineering Department, Municipal Building, 1000 Throckmorton Street.

Failure to obtain a Floodplain Development Permit or violating other provisions of City Ordinance No. 11998 or the conditions described within the permit constitutes a misdemeanor and upon conviction, a person, firm, or corporation could be fined up to one thousand dollars (\$1,000) a day for each day that the violation occurs.

I understand that the conditions which may be stated for permit approval or the provisions of City Ordinance No. 11998 may be superseded by other provisions of City code or policies.

I further understand that this Floodplain Development Permit does not constitute final approval until all development requirements placed on the property have been met. These requirements include, but are not limited to, City construction plan approval, platting and community facilities agreements. This proposal shall be subject to any change in floodplain development policy at the actual time of development.

Application is hereby made for a permit to authorize the activities described herein. I hereby certify that I am familiar with the information contained on this application and to the best of my knowledge such information is true and accurate. I further certify that I possess the authority to undertake the proposed activity. I understand that if my application is denied, I have sixty (60) days from the date of such denial to appeal the adverse action to the City Plan Commission.
